

## R. Paradise 651

### Chapter 651: Auction Starts

Hearing the old man's words, the killers present did not show anger. They all had been through life and death for a long time.

"Hm? What is your color name?"

"Shiba."

A robust and long-haired man beside the old man said his name and no longer spoke.

"Geno."

The old man also spoke.

"What color is Geno?"

"It's not the color. What we just said is our real names."

"What?"

The killers were surprised. For the killers, it was hazardous to expose their real names.

"Don't count on us. I will do it in my way."

Shiba's tone was calm. He seemed dissatisfied with the Ten Old Man's way of doing things. Since he had already hired them, the Ten Old Man had hired other killers. This was a very unruly way of doing things in the industry. Others might not understand it, but the gangs must realize this.

"Geno, Shiba... beat up the enemy's family."

A killer recalled these two names, and his eyes were filled with awe. Beating up the enemy's family was a benchmark in the world of killers.

"If anyone wants to kill, please contact us. Don't be polite. For the sake of our peers, I can give you a 70 discount."

Geno had a smile, while the other killers had shocked expressions.

"This... a little."

A killer smiled bitterly. Compared to the enemy, they were simply small.

"Since it has been agreed on, then..."

As soon as Cheap opened his mouth, the door opened, and Su Xiao entered the room.

"Sir, you are here."

Cheap looked a little uncomfortable. He had seen Su Xiao cut the dog's throat with his eyes.

"Broken building."

Su Xiao found a chair and sat down. Cheap was a little surprised. Black Mary, who followed Su Xiao, blushed. Because she was not familiar with the terrain and the new auction area was relatively

large, the two of them naturally went the wrong way. Finally, they found this place with Bobowang's smell.

"Let's get back to the point. Cheap, the purpose is clear to them?"

"It is clear, and the corresponding plan has been made."

"Plan?"

Su Xiao looked sideways at Cheap. Making plans for several killers who were unfamiliar with each other was undoubtedly a stupid move, letting them act alone to exert their fighting power.

"It was before the ten old men..."

"Don't worry about them. Let them hide in the suburbs and wait for their death."

Cheap heard this, and his head was full of cold sweat. He did not dare to accept this.

The killers looked at each other and all thoughts in their hearts. Who was this guy? Wasn't he the ten old man's subordinate?

Look at and Su Xiao, who was more interested in Shiba and Geno, looked at each other and realized that things were more complex than they thought.

"Everyone, your purpose is very unified. It is all money. As for the previous plan, don't worry about it. From now on, any suspicious person in this building can be attacked. It doesn't matter if you kill them. Try to use your killer's keen sense of smell."

Hearing this, the killers present were happy.

"Any way?"

Geno looked at Su Xiao. He needed to understand what kind of position Su Xiao had in the ten old men.

"Yes, if you feel that I am suspicious, you can attack me now."

"Hehe." Geno chuckled, "That way, we can rest assured. The premise is that you can represent the Ten Old Man."

"In a sense, I am working with the Ten Old Man."

After determining the target and the way of action, the killers got up. They had to understand the terrain of this building first.

The other killers left, and Geno and Shiba, father and son, did not go.

"I heard that you killed four members of the regiment. Have you fought with their regiment commander?"

This time, it was Shiba who spoke. He had fought with the regiment commander.

"I haven't fought for the time being, but I will fight him soon. If you can beat him half to death, it would be best."

Seeing the two people who beat up the enemy, Su Xiao had already sentenced the ten old men to death, not that he wanted to kill the ten old men.

If Su Xiao did not guess wrong after the regiment commander received the news that the ten old men were hired to beat up the enemy, he would also employ the enemy to kill the ten old men and hire three people. These three people might go to kill the ten old men tonight.

Among the three people, Su Xiao could deal with two people, and the last person was utterly unable to fight. With Su Xiao's current strength, he would die against the person.

Maha beat the enemy guest, a thin old man who looked like an alien.

It had to be said that the family had a long life. The genealogy was: great-grandfather Maha, great-grandfather Jaeger, grandfather Zenuo, and father Shiba, and the younger generation was the silver-haired little shota, Chimera.

Not to mention Maha's strength, just this guy's age, was already awe-inspiring. As for power, the president of the Hunter Union, Nicholas, was the only one who had fought with Maha and was still alive.

The strength of the president, Nicholas, was unquestionable. It was unknown who was stronger or weaker between him and Maha, but Su Xiao was clear that these two were different from what he could deal with at the current stage.

Therefore, the life and death of the tenth old man could only be resigned to fate. It was not worth it to die for 20 soul crystals. Moreover, he already had other arrangements. One of the ten old men would not die unless the enemy family was crazy and wanted to die.

...

At seven o'clock that night, there were only two hours left before the start of the auction.

There were only a few guests who came to the auction. These people had only arrived in Youke Xin City recently. They did not understand what had happened before. Most of the people in the auction hall were gangsters who came to support them.

On the outside, the atmosphere of the auction looked warm. It could be said that the guests were total, but there was a hidden killing intent.

At this moment, Su Xiao was in the monitoring room on the eighth floor of the auction building. More than a dozen staff members were busy. Several screens were monitoring the surroundings and internal movements of the auction house.

"This camera, go back."

Su Xiao pointed to a screen. A young staff member immediately pulled out the surveillance camera and slowed down.

The picture on the screen was a few gang members, and these people looked normal.

"Magnify."

The picture zoomed in, and there was still no abnormality. At least the staff thought so.

"Have we arrived?"

Su Xiao recognized the member of the adventurous group who was mixed in with the gang members. This person was called Fenkes, the adventurous group was number 5, and the strengthening-type psychic.

He picked up the particular call device of Hunter World beside him.

"The person is here. Prepare to meet the 'customer'."

Su Xiao continued to stare at the monitoring screen. The monitoring screen kept tracking the traces of the yellow-haired male Fenkes. Fenkes looked normal and mixed among the gang members. The strange thing was that he intended to avoid sneaking into the auction house. Several times, he had the opportunity to sneak into the auction house, but he had been wandering around the auction house.

Aware of this scene, Su Xiao's eyes narrowed, and he vaguely smelled conspiracy, but the experience of many derivative worlds showed that wit fighting is not his strong point. He does not intend to wit fighting with Luoluo.

Chapter 652: Ally

"Go catch him."

Su Xiao contacted Cheap. When Cheap received this order, he was stunned. His first reaction was that he had offended Su Xiao, and the other party asked him to die.

Who was Cheap? This guy was famous for being afraid of death. He immediately sent his subordinates to catch Fenkes. Not only did he inform his associates, but he also informed Cool Picca. The reason was that he didn't like the Moos family. Cool Picca was the bodyguard of the Moos family.

Dozens of gangsters rushed out of the auction house and went straight to Fenkes, including Cool Picca.

Su Xiao shook his head after seeing the figure of Cool Picca from the monitoring screen. He wanted to let Cool Picca deal with Franklin, but it was okay for the other party to go to Fenkes as long as Cool Picca could delay or kill one of the combat forces of the adventurous group.

This might be a trap set by the head of the team, Luoluo. Su Xiao and Cool Picca did not know each other, and the other party was willing to go to 'step on thunder'.

Before the gang members and Cool Picca rushed forward, Fenkes had killed the gang members and turned to escape into the city at night.

"He fled too quickly."

Su Xiao always felt something was wrong, but he could not figure out what was wrong. The situation tonight could only be described as weird.

Boom 1

A loud noise came from downstairs, and the mobile phone on the side rang almost at the same time.

Su Xiao grabbed the mobile phone and walked out at the same time as he picked up the phone.

"Still alive?"

Su Xiao's words have yet to get a response. After a long time, Bick's panting voice came.

"Still alive, but lost freedom for a short time."

"It's fine as long as you are alive. The other ten old men are dead?"

"It should be... dead."

Bick sighed. He always felt that he was a traitor.

"It's fine as long as you can contact the outside world. Beating up the enemy doesn't dare to go there to kill you. Even if they have great courage, they don't dare."

Su Xiao smiled. It was true that beating up the enemy's family was an excellent reputation, but Bick was in a place where the enemy did not dare to step in. Even if he smashed his reputation, he would not dare to kill people there unless he had enough of beating up the enemy's family.

At this time, Bick was staying in the V5 branch of the V5 organization. V5 was a United Nations organization composed of five terrifying national machines. Beating up the enemy was, at most, a famous killer family. The two were not on the same level.

Even if Maha's strength is terrifying, he does not dare to go to the V5 branch.

As for how Bick entered the V5 branch, this was about the eye of the one-eyed monster. The V5 organization was interested in this thing. Bick unconditionally handed it over and took the opportunity to contribute four-fifths of his wealth.

Perhaps the V5 organization did not expect Bick to be so tactful and directly give him a short position. This made Bick happy. This guy jumped from a gang member to a minor official of the V5 organization, although this office was tiny.

Moreover, the V5 organization is ready to change the policy. They no longer use the method of 'cutting leek'. They are prepared to secretly support Bick as a puppet to manage the gangs in an orderly manner. It is reasonable that the existence of the gangs will help the V5 organization manage several continents.

"You have the final say in the auction. I have just taken over the things here recently."

Now, Bick was very proud. He did not want to continue to intervene in the auction. This was a good thing for Su Xiao. Now the auction house was up to him. As for the ten old men forces, they were still Bick's. This could not be changed, especially after the V5 troops intervened.

"Don't forget the 'end of the line'."

"I have already prepared it for you. Don't worry."

After hanging up the phone, Su Xiao quickly walked to the lower floor of the auction house. There was a battle below, and the war was concise.

When Su Xiao arrived, Geno and Shiba stood on a broken stone. The glass of the room window was broken, and there was blood on the ground.

"Who is the enemy? The captain of the regiment?"

Su Xiao squatted in front of the pool of blood, he had a lot of blood, and the person was at least slightly injured.

"It is a regiment member named Franklin, as for the purpose..."

"Send the message, tell you that the ten old men are dead, the employer is dead, and your commission is over."

"Oh?"

The old man, Sinno, looked at Su Xiao with a smile. If he threw away his identity as a killer, Sinno would be a kind old man.

Although I don't know how you guessed it, it probably means that nine of the ten old men died, and the V5 organization recruited the remaining one. He is no longer the ten old man, so we said that all our employers have passed, and the mission is naturally over.

However, how did the ten old men who escaped to the V5 organization know that someone was going to assassinate him? Did the news of our family leak?

The smile on Sinno's face faded.

"Maha, Ilummi, Curt. The three accepted the mission of killing ten old men. This is not a secret. Just like how Luoluo learned that you accepted the mission to kill him, how did he know that you accepted the mission? And immediately hire your family? Beat up the traitor of the enemy family?"

After listening to Su Xiao's words, Geno was slightly embarrassed. His family would share information. He did not know how the news spread to the regiment commander, but one thing was that the content of his mission with Shiba was leaked, which led to the enemy hiring their family to kill their employer, ten old men.

"It's a headache. Forget it. In short, the mission has ended. See you again."

Geno waved to Su Xiao and prepared to leave.

"If interested, you can come to us to beat up the enemy. Just treat it as compensation for this commission."

Geno and Shiba walked far away, beating up the enemy family to stop interfering in the auction. It was not a good thing, but it was not bad news.

The most crucial problem now was what the regiment commander was planning. There were no clues or reference objects at all. Su Xiao could only ignore this for the time being.

In short, the purpose of the regiment was to find him for revenge so that the other party would come to the auction.

Just as Su Xiao was thinking hard, Black Mary ran into the room, panting.

"Mr. Byakuya, a girl is looking for you. She said it is your hometown, and it is an emergency."

"Hometown?"

Su Xiao pondered for a moment and immediately thought of something.

"Take me to see her."

Su Xiao was not from this world. If he was from the same hometown, he could only be one kind of person.

Walking quickly to the first floor, Su Xiao saw a blue-haired girl surrounded by gang members. The girl had a few bloodstains on her body.

"You are?"

Su Xiao had never seen the other person, but there was a vague sense of familiarity.

"I am... the 'light cannon' that once attacked you."

The girl's voice fell, and a dragon flash appeared in Su Xiao's hand.

"Purpose."

The other party couldn't come to die. The other party was not a contractor of the ten old men forces or even a contractor of the adventurous group. The other party came here now, which meant that the situation might change significantly or be the enemy's trap.

"Find a place with no one to talk."

The girl was injured, and the possibility of assassinating Su Xiao was not high, and Su Xiao was not afraid of the enemy killing him.

Under the envious eyes of those gangsters, Su Xiao took the girl into an empty room. He always kept a distance of three meters from the other party. This distance could deal with unexpected situations, and it was convenient to attack the other party.

"Can you tell me now?"

"Yes." The blue-haired girl, Vivian, took a deep breath and habitually grabbed her one-meter-long braid and swung it.

"This is what happened. After I became a temporary member of the Phantom Troupe, my main mission was to snatch the item. Just half an hour ago, for some reason, my main mission was forcibly changed by the paradise to participate in the auction. At the same time, when the mission was forcibly changed, a person suddenly attacked me. As for who that person is, you know it even if I don't tell you. Two old Yin have practiced, so let's also practice. To deal with those creatures who don't know where they come from, but there are countless of them."

Chapter 653: Scary Big Pineapple

"Two old people?"

Su Xiao could be sure this girl was not here to assassinate him.

"Yes, two old people, the red clown and Luoluo, have joined hands. The two of them are preparing to attack the auction house on a large scale. Listening to the conversation between the two, it seems they want to kill the same person."

The person, the clown, and the captain who wanted to kill were Su Xiao. Vivian was not clear about this for the time being. She only knew that Su Xiao had a high status in the ten old men's forces, so she came to cooperate with Su Xiao.

"So it was the two of them who joined hands."

Su Xiao vaguely felt that things were not good. They were challenging to deal with, whether it was the clown or the captain. After the two joined hands, it was even more troublesome.

This is the case. If you need evidence, I can provide it. Not only me but most of the contractors will join the auction. If the auction can't be carried out, the punishment of all attributes - 3 can not escape."

Vivian stared at Su Xiao, and there was a vague bad feeling in her heart.

"Cooperation, clown, regiment commander, unknown creature..."

Su Xiao already understood what was going on. At this time, the clown and regiment commander cooperated. The two people not only had the regiment's battle power but also had many unknown creatures in their hands.

"If we cooperate, intelligence sharing is the most basic condition. What is that unknown creature?"

Su Xiao smiled and looked at Vivian. The other party should come to him for cooperation because of his helplessness.

A custom-made grenade suddenly appeared in Vivian's tiny hand. This grenade was not small, and it looked like spinach.

"Hey, I'm just here to cooperate with you. Please don't stare at me like that. I have goosebumps all over my body. Don't tell me you want to sleep with me. If you don't want to sleep with me, then you should want to kill me."

Vivian raised her arm. At this time, her hair was standing on end. The distance was too close.

"I thought of something."

Su Xiao slowly pulled out the dragon flash as he spoke.

"What is it?"

"The thing that you attacked me before was surprising. You dared to appear in front of me now. You were very good at sniping before."

As soon as Su Xiao finished speaking, Vivian pulled the ring of the spinach grenade in her hand.

"Although to show sincerity, you should reveal your chest, but if you dare to take another step closer, I will let go."

Vivian raised the spinach grenade. Although this grenade was not very good, it threatened Su Xiao.

"See for yourself."

Vivian used the reincarnation brand to send a small video. Su Xiao opened the video and watched this video which was only forty seconds. He returned the dragon flash to the sheath.

"What time will Clown and the others attack?"

"At exactly nine o'clock, when the auction starts, Clown must have a problem with his brain. If the mission fails, he will also be punished with all attributes - 3, damn it."

Vivian stomped her foot in anger. She needed to know that this was the style of the violators.

The violators would need to consider whether to complete the primary mission. In addition to the punishment of forced execution, any punishment violators would dare to take it head-on. They had other ways to gain benefits.

For example, if the red clown flattened the auction house and eventually caused the auction to be unable to continue, he would also be punished.

But the clown did not care about this. He had other ways to compensate for the punishment of all attributes 3, and then there would be more benefits.

When the clown got the benefits, the contractor of the entire Hunter World was unlucky. This was why the reincarnation paradise let Su Xiao kill the violators.

The purpose of the reincarnation paradise was unknown, but its many actions made contractors constantly stronger to complete more dangerous tasks.

According to Su Xiao's guess, the reincarnation paradise should be able to profit when the contractor executes the task. The two sides were a good symbiotic relationship, so the reincarnation paradise would not give the contractor the task of death.

The violators broke this balance. They not only tricked contractors but also tricked the reincarnation paradise. If there were no restrictions of rules, the reincarnation paradise would directly execute the violators. Because of this, the hunter was born and eliminated the violators within the rules.

The reincarnation paradise would not intervene in the fight between contractors. This was also a choice of survival of the fittest. The violators directly interfered with a contractor to complete the task.

This made the reincarnation paradise unable to tolerate.

The red clown must have done something to break the rules. Otherwise, the primary mission of the blue-haired girl would stay the same. The change of the main mission made all contractors stand on the same front.

"I refuse the alliance, but I will not stop you from fighting against the red clown or drive you out of the auction house."

Su Xiao was not used to working with contractors intimately, which would easily expose his identity.

Well, very good, this is my will. We have been enemies before, and no one will be at ease to hand their backs to each other as long as I set up a defense line in the auction house.

"Deal."

"Deal."

Vivian stretched out her white palm and seemed to want to shake hands with Su Xiao, but her other hand still held a spinach grenade.

Su Xiao also reached out. Vivian showed her neat little white teeth and smiled a little cunningly.

"Forget it. It is not a good experience to have close contact with a close combat master like you. What if you have an idea and press me on the ground to rub?"

Vivian carefully inserted the spinach grenade's ring and put it away.

"What is this?"

Su Xiao was a little curious. The 'grenade' in the other party's hand could threaten him.

Vivian, who was about to put away the large spinach grenade, became interested.

"This?" She raised the spinach grenade in her hand. "This is the big spinach Terminator that I created myself. Uh ---To put it simply, there is a hydrogen bomb inside that has been processed using space compression technology. Pulling out the ring and releasing the safety valve, it will... boom, you, me, more than half of Youke Xin will disappear."

Vivian giggled and blushed.

Su Xiao raised his eyebrows. There were no ordinary people in the adventurous group in the Reincarnation Paradise. This girl would not hesitate to die with him if he had just attacked.

"I will come to talk to you when I am not sure. I will set up the turret at a commanding height. Also, the sniper rifle you use is not romantic at all. The caliber is justice, the caliber!"

Vivian walked out of the room. She looked sideways at Bobowang and blinked at him.

Bobowang raised his head and gave Vivian a look of contempt.

"Eh?"

Vivian's hand that opened the door froze. She was looked down upon by a husky '.

"You were looking down on me just now. That must be it."

Bobowang turned his head, and his gaze was clear: "I will look down on you. What?"

"Eh?"

Vivian looked at Su Xiao and then looked at Bobowang.

"Cold guy and husky, what kind of combination is this? It's incredible. By the way, my name is Vivian."

Vivian left the room. However, she was a little unhappy about being looked down upon by a 'husky', her goal had already been achieved: participating in the defense auction.

At nine o'clock in the evening, the clown and the captain would come to attack the auction house. The specific attacking style was not confirmed for now, but it could eliminate the other party using firearms to bombard.

The reason was straightforward. If the two dared to use firearms to bombard a city like YouKe Xin, which was densely populated, then they would not live for long. The Hunter Union, V5 Organization, and other departments would chase after them. At that time, they would die without an intact corpse.

There was a rule in the world of hunters. They could not kill a large number of civilians. After slaughtering a certain number of civilians, the V5 group would move out. This was a lesson that the contractor had used his blood to exchange for.

#### Chapter 654: The Game

The change in the situation was unexpected. Su Xiao initially thought he would fight a team battle with a team battle, a small-scale battle.

It seemed that it was not the case at all. He did not know where the clown got a creature that looked like a human.

From a small video provided by Vivian, Su Xiao saw the appearance of this creature.

This creature was about two meters tall, completely dark, with four eyes on the forehead and long hands on the same level as the knees, and claws on the hands, which were not weak at first glance.

More importantly, there were a lot of these creatures. Just from the small video, the number of these creatures was more than 1,000, or maybe even more.

Excluding thermal weapons attacks, the best choice was to use these unknown creatures to attack the auction house.

When the auction house was burnt last time, there was almost no one within half a kilometer of the new auction house. What happened tonight would not be spread to the outside world. Even if there were any strange creatures, it would not cause a stir, causing the attention of the V5 organization or the Hunter Union.

There were many enemies; high-end combat forces included the clown, the regiment's captain, the regiment's members, and many position creatures in the cannon fodder area.

Looking at Su Xiao, other than him, Cool Pica was barely a combat force, but the combat power of Cool Pica was only aimed at the adventurous group.

Vivian was also a combat force. This girl belonged to the top level of the second rank. It was no wonder the clown immediately turned against her after the main mission changed and intended to kill her.

With Vivian's long-range firepower, those unknown creatures would have to pay a terrible price to rush to the auction area, and Vivian might kill the clown or the captain.

As for the cannon fodder, hundreds of gangsters gathered in the auction hall. These guys could bully ordinary people, but they were unreliable in dealing with those unknown creatures.

His combat personnel needed to be thicker. Su Xiao pondered for a moment. He opened the derivative world communication platform and looked at the information on the surface.

[has opened the derivative world communication platform. This function is accessible. The remaining number of messages is 6/6. ]

A virtual chat box appeared in front of him with lines of words on it.

Kroma(Untethered): "The main mission suddenly changed. Please solve it."

Smoker(Untethered): "Same request."

Chris(Iron Wall Adventurer Group): "Work hard to join the adventurous group, and then show this to me?"

Big D(unspecialized): "Everyone's mission is to participate in the auction. That's good. Let's go to the auction house for a few days. When the mission is over, return, paradise coins, and attribute points are in our hands."

Mini(Hunter Alliance): "Don't dream on the top,"

Laowu (unspecialized): "F\*ck me, the executioner of the Hunter Alliance spoke. It's rare. The reason why we want to change the main mission."

...

Su Xiao looked at the records of the derivative world communication platform, and several pages were about the primary mission change.

If he did not guess wrong, almost all of the contractor's tasks became more to participating in the auction, no matter what camp he joined before.

He was keenly aware that this was an opportunity. No one accepted the punishment of all attributes 3 for no reason. If the matter of Clown's preparation were announced, then all contractors would be Clown's enemies.

This kind of heaven-sent opportunity certainly could not be missed. Su Xiao had six chances to speak on the derivative world communication platform.

At this time, the contractor was still asking about the main mission of the derivative world communication platform, but most people needed to learn what was going on.

Byakuya(unspecialized): "About the main mission change intelligence..."

Su Xiao didn't continue after saying this.

Scorpion(Union Adventurer Group): "Brother above, what are you doing? Do you want to pay for it?"

Big brother(Dream Adventurer Group): "Big brother Vicious is so naughty, 233."

The second brother of Guozu(Dream Adventurer Group): "Strong watching a fierce big boss speak, waiting..."

The third brother of Guozu(Dream Adventurer Group): "I want to watch the show. What advice does a big brother have?"

The three national brothers suddenly appeared, and their attitude was very polite, which made the contractor, who had been watching the situation's development, slightly surprised.

They had heard of these three buffoons, but this was the first time they had seen such polite words.

Su Xiao was not deliberately mystifying. He was waiting for more people to notice the situation of the derivative world communication platform.

After more and more people spoke, Su Xiao released the information he knew.

White Night(Unspecialized): "Due to the red clown's intent to attack the auction house with the storyline character (Luoluo) and prevent the auction from continuing, this action caused the world of hunters to suffer a serious collapse. Therefore, all of the contractor's main missions have been changed. The red clown is expected to attack the auction house at nine o'clock. The ten old men have already given up on the auction. Once the auction house is destroyed again, the auction will be forced to stop. Therefore, everyone's main mission will fail. The auction house is completely open. All contractors are welcome to participate in the attack and defense battle."

When this news came out, the contractor was in an uproar. They could not understand why the red clown did such a thing that no one could understand.

The red clown(Gentleman Alliance): "White Night, you are imaginative. Would the current situation occur if you didn't control the power of the ten old men, the killing brigade of four people, causing the balance of power between the two sides? The auction house is open, and the auction house is already what you say?"

The clown's explanation was excellent, and every word was accurate. Whether it was the four people of the killing brigade or the control of the auction house, it was the truth.

Basen(Untethered): "Isn't this a clown? What, someone still dares to splash dirty water on you?"

Mr. A(Untethered): "Byakuya, the reward of the one-eyed monster is not enough for you? Now you want to kill and drop the blood card?"

Louise(Red Heart adventure group): "Who do you believe in? Both sides are very reasonable. Continue to watch."

Because of the red clown's perfect counterattack, and Mr. A's clever supplement, the situation has mostly stayed the same. The derivative world communication platform is in the form of text, and the video provided by Vivian can not be released.

On the roof of the auction house, Vivian had a lollipop in her mouth. She also noticed the situation in the derivative world communication platform but could not speak. The reputation of the adventurous groups in the reincarnation paradise was not good, and the crazy and strange gathering place was not called for anything.

"This time, it is over. The cold male is not good at arguing with people at first glance, and the clown is very good at this."

Vivian sighed. She did not expect the contractor to help to guard the auction house. Once the red clown attacked, it would be too late for that contractor to help.

The derivative world communication platform.

National Football Boss(Dream Adventurer Group): "Where is the auction venue address? We three brothers will help you to explore the thunder."

Byakuya(Untethered): "Youke Xin, Tenth Street."

The sudden support of the national foot made Su Xiao a little surprised. Before, the two sides were half hostile and had fought once.

As long as the national foot came, Su Xiao had a way to prove that the red clown intended to attack the auction house.

Because Su Xiao's memory level was low, the number of times he spoke in the derivative world communication platform was limited. He only needed to wait for the three national foot people to arrive.

And he did not expect to let contractors believe him in the derivative world communication platform. With the news he announced now, all contractors would come to the auction area.

...

In the suburbs near Youke Xin City, in a cave.

"Have you found it? As expected of a man who can cut me into a disabled person. This is interesting. Let's continue the previous game."

The red clown rubbed his forehead with his index finger. Su Xiao revealed his plan to the public, making him uncomfortable.

Chapter 655: Attack of the Clowns

Half an hour later, a van stopped in front of the auction house. There was an on the rear glass of the van. "Twenty-four hours channel."

Creak. The sound of the door opening was heard. The second brother of the national foot jumped out of the van first.

"Big brother, is there really no problem? You also know a little about the temper of Brother Ruthless."

"There should be no problem. Compared to Brother Ruthless, the red clown is not a good thing. That guy is different from us..."

The national foot boss quickly shut up, as if he was afraid of leaking something.

"Big brother, the escape route has been planned."

"En, let's go see Brother Ruthless."

The second brother of the national foot grinned.

"He has arrived. Look over there."

The leader of the national foot raised his head, and the other two looked at the auction house. Su Xiao was standing at the entrance of the auction house.

The three brothers hesitated for a moment and finally walked to Su Xiao.

"What the hell... what's going on?"

The third brother, look at, looked at the row of sandbags at the entrance of the auction house, as well as the gang members carrying automatic rifles or rockets behind the sandbags.

"Come in and tell me."

There was a dragon flash hanging on Su Xiao's waist. It was now 8:30. There was only half an hour left before the attack of the red clown and his men.

The three brothers followed Su Xiao cautiously. Su Xiao's footsteps suddenly stopped. He stood at the entrance of the auction house and looked at the darkness in the distance.

"Is the time early? It is very consistent with the style of a clown."

"What?"

The three brothers were puzzled.

"That."

Su Xiao pointed to the dark, where there were faint footsteps.

"This is... what the hell? Human?"

The national foot boss frowned and looked at the figure in the dark. He had a vague sense of foreboding.

"The specific situation is not good for you to explain. Prepare to defend the auction. Once this place is captured, you and I will be punished with all attributes - 3."

As soon as Su Xiao's voice fell, a gunshot came from the roof of the auction house. Before the gunshot came, the humanoid creature in the dark had been broken, and blue fresh blood splashed from the dark.

"People, occupy this place. This will be our place of reproduction. There is enough water(the language of the Dark Continent)."

An unknown creature of three meters in height walked out of the darkness. The unknown creatures behind it were obviously shorter than it.

"Damn. The red clown is really going to attack the auction house."

The three brothers of the national team stood in a row and put on a fighting posture. At this time, there was no need for Su Xiao to explain the reason. Everything was obvious.

[Note: The auction house is about to be attacked by the creatures of the Dark Continent. Please defend the auction house as soon as possible. If the auction house is attacked, the main mission will fail. ]

At the same time when the notification of the reincarnation paradise appeared, all contractors knew that things were not good. The red clown was scolded in the derivative world communication platform, and even Basen and Mr. A who spoke for him before were affected.

At this moment, Mr. A was not far from the auction house, but he did not dare to show himself.

Not only Mr. A, but most of contractor rushed to the auction house to watch. The moment the prompt appeared, they rushed to the auction house at the same time.

"Roar!"

A dense roar came. A large group of unknown creatures rushed out from the dark street. Some of the slower contractor were immediately besieged. In an instant, half of the dozens of contractor were drowned in the unknown creatures.

These unknown creatures seemed to have appeared out of thin air, not hiding in the nearby neighborhood in advance.

"Get lost!"

A muscular man with a war hammer swung his war hammer with all his might. An unknown creature was smashed into rotten flesh, but these humanoid creatures were fearless. Their two claws almost ignored the strong man's defense, and each claw tore his flesh apart.

Puchi, puchi.

Blood, flesh, and flesh splattered everywhere. Dozens of unknown creatures surrounded the Warhammer man. They grabbed and bit him, surrounding him from all sides. They completely ignored the attacks of the Warhammer man. This kind of situation was very eye-catching.

More than ten seconds later, this second rank contractor smashed a few unknown creatures to death and was dismembered. The unknown creatures began to snatch away the corpse of the warhammer man. In a moment, all the corpses were eaten up. There were no bones left. There was only a pool of blood left on the ground and a scarlet card that was flashing with red light.

This was originally a scarlet card that should not have fallen, but it had appeared.

This scene appeared around the auction house. More than ten seconds later, a total of thirty-one contractor broke out of the encirclement, and half of them were injured. The other contractor was submerged in thousands of unknown creatures. Even if they did not rush towards the auction house, they could not escape.

Su Xiao looked around and was surrounded. The auction house became the only line of defense.

When he retreated to the auction house, the three brothers of the national team also retreated into the auction house. Those contractor who broke out of the siege also escaped into the auction house.

The gunshots on the top of the building were connected. It was a battery of Vivian. Her firepower was extremely violent. One by one, the unknown creatures were broken by bullets. In less than half a minute, hundreds of strange creatures died.

On the top of the building, Vivian withdrew a missed clip. Her white arm danced a shadow and a new clip was inserted.

Pulling the bolt of the super-large sniper rifle, Vivian quickly pulled the trigger with her slender fingers.

Bang, bang, bang...

The impact of the bullet spread out. The two long blue braids behind her were blown, and the orange shell fell under her feet.

"Die, hahaha..."

Vivian was laughing wildly, laughing wildly without restraint. Only the dense gunfire covered her laughter.

When she tilted the firepower, she would forget her worries, forget her past misfortune, forget the corpses on the ground, and the blood stains on her hands at that time.

If there was trouble, it would be killing, killing until she was numb, killing until she forgot her worries.

Vivian's firepower was strong, but she could not stop thousands of unknown creatures from attacking her. The number of unknown creatures was too many.

After Su Xiao and others retreated into the auction house, the gangsters stationed at the door almost lost their position in an instant.

"Help!"

"Is this a nightmare?"

"Ah! My hand!"

Screams, flesh tearing sounds came one after another. After witnessing this scene, Su Xiao's face was not good. Things were more difficult than he imagined.

He was confident to kill his way out, but it was impossible to protect the auction house. The reason was that there were too many unknown creatures, and there were too many points to defend.

This auction house was just a concrete reinforced structure. Not to mention the front and back door, just dozens of windows made people helpless.

Su Xiao was good at fighting, but he was not good at defense occupied area, no one could do everything.

"We're dead for sure this time."

A contractor whose arm had been bitten off turned pale. The situation had changed so suddenly that he had no time to prepare at all.

"Are there any profession like barrier masters?"

The leader of the national foot team shouted. Unfortunately, no one responded, so there should be no.

At this moment, the unknown creatures had already rushed to the main entrance of the auction house. contractor and the others knew the current situation. If these things rushed in, they would not only fail the mission, but they would also die.

More than a dozen contractor went forward to block the main entrance of the auction house. The remaining contractor rushed to the second or back doors to prevent unknown creatures from entering through the windows or back doors of the second floor. The first floor had no windows.

"I have no choice but to 'cut meat'."

A female contractor stood in place. She had a Mohican hairstyle and wore a black leather jacket.

Her name was Sister Mi and she was a member of the Hunter Alliance. This alliance was extremely unpopular in the Reincarnation Paradise because they often killed other contractors and obtained the scarlet card.

Sister Mi took out a purple-quality scroll in pain. After hesitating for a moment, she opened the scroll.

Chapter 656: Nila Pan

As the female fan opened the scroll, a bright barrier spread out and enveloped the entire auction house.

Those unknown creatures were blocked outside the barrier and attacked the barrier with all their might. The noise was endless like thousands of people hitting a glass window at the same time. Fortunately, this barrier was extremely sturdy. This was a purple-quality consumable.

The footsteps of the contractor and the others stopped. Although the barrier blocked the unknown creatures, the contractor and the others could not attack the unknown creatures outside.

"This thing can't hold on for long, right?"

"'V5' and 'Hunter's Guild' should come to support?"

"It's very likely that they won't. These unknown creatures are only attacking the auction house. This is the territory of a gang. There is no large number of casualties among the civilians. This is a battle between forces. Those large organizations will not interfere. And for some reason, there are few people nearby."

The contractor and the others gathered in the hall on the first floor. Everyone knew that it was only safe for a short time. The enchantment on the outside could not last long.

"Fuc\*, if I had known, I wouldn't have come to the auction house."

"What's the use of a rear cannon? We were surrounded before. If we don't rush in, we will die. Where did these things come from? Spatial teleportation?"

Some impatient people were pacing in the hall, Su Xiao looked in the direction of the main hall.

If he could not defend the auction hall, then he was ready to kill out. These unknown creatures could not stop him from breaking out. It was just that the full attribute - 3 made people very uncomfortable, especially the lucky attribute.

"Who used a large dose to recover? Xiao Ke is a barrier master."

A loud shout attracted the attention of the contractor. Everyone's eyes turned to a couple.

The couple was covered in blood, while the woman was unconscious. The man was holding the woman.

"With such serious injuries, any medicine below blue quality may be ineffective."

"What medicine are you using? Second brother, third brother, work."

The national foot boss quickly stepped forward, followed by the second and third brothers. If the three of them used healing skills at the same time, most of the wet nurses would not be as good as the three of them.

Holy light bloomed on the three brothers. Under the treatment of the three brothers, the female contractor slowly woke up.

"Ah!"

The female contractor screamed as soon as she woke up. After finding out that her lover was safe, she began to check if her body was missing parts.

"Little Ke, I'm fine now."

"How did I recover from such a serious injury?"

"Cough ---"

The big shot of the national foot coughed lightly.

"Sister, you don't have to thank me. You can call me Lei Feng, but your boyfriend is a man. After you fainted, he dragged you out of the monster group."

The barrier user girl looked at her boyfriend with tears in her eyes.

The man smiled shyly and scratched his head.

"Dear..."

The barrier girl's voice was a little choked up.

"It's fine. If you're not here, it would be meaningless for me to live."

"I..."

The couple did not notice that dozens of eyes were staring at them.

"The two of you, although it is inappropriate to disturb your display of affection, the strength of the enchantment I set up is limited. At most, it can last for ten minutes. I am not an enchantment master. If the enchantment can not be recharged, no matter how strong it is, it is useless."

The expression of the fangirl was a little unnatural. She, who did not believe in love, was forcibly fed a big mouthful of dog food.

"As for the enchantment, I can set it up at any time. As long as my mana is enough, the enchantment will not disappear."

"A sustainable enchantment master? A rare occupation."

There was a barrier master present. This was undoubtedly good news. Su Xiao's previous arrangement in the communication platform was not in vain.

If we want to set up the barrier, it is best to leave one or two gaps, so that we can form an offensive and defensive line, instead of always hiding in the Sealed Realm, and after leaving an attack gap, those monsters will find a way to rush in, and they will not attack the barrier all the time. The duration of the barrier can be greatly increased.

The national foot boss spoke. He seemed to be very experienced with this situation. He should have stayed in a large adventure group.

Su Xiao had not opened his mouth, the reason was that he was thinking about something.

This situation was not an accident or a coincidence.

He was tricked by the clown. The clown was stronger in terms of intelligence. It was not shameful to admit this. A person's self-confidence and arrogance were stupid.

After the clown lost in the battle with him, he had been planning this action. No matter if he joined the brigade camp or the ten old men forces, the clown's purpose was to destroy the main mission and reduce his strength. If he could kill him directly, of course, he would not be soft-hearted.

The clown, who had hidden for a few days, showed his fangs today. It had to be admitted that the clown had indeed defeated Su Xiao. Su Xiao was good at assassination and fighting against strong enemies head-on. He was not good at defending a certain location. Because of this, the clown moved in this way.

"Clown."

Su Xiao laughed. He had not met this kind of enemy for a long time. No matter if it was Zuo Lun or Feng Nai, they could not compare with Clown.

In terms of comprehensive ability, Clown was the strongest opponent Su Xiao had met in the same rank.

Just as Su Xiao was thinking, a crisp sound came, and a large crack appeared in the enchantment outside the auction house. The attack of the unknown creatures never stopped. The enchantment set up by Mimei did not last ten minutes.

"The Source of Void - Four Kings Barrier."

The barrier user girl clasped her hands together, and a brand new large-scale barrier appeared. This barrier left two square holes in the front and back of the auction hall.

If I can't defend, I can close a gap at any time. I can maintain this kind of strong barrier for two hours. If I have the Mana Recovery Potion, I can hold on for a longer time.

The barrier-user girl looked around the crowd. Her meaning was obvious. Who had the Mana Recovery Potion for her to use?

The rarity of Mana Recovery Potion was obvious to all, but the national football boss threw out a crystal bottle.

"It's very expensive, save the use."

"Well, in this way, the enchantment can last for more than three hours."

"Clown, don't let me meet you."

Sister Mi gritted her teeth and also took out a bottle of mana recovery potion.

"The duration of the enchantment increased to five hours."

This time, no one spoke again. The third brother looked at Su Xiao.

"Brother Ruthless, aren't you going to tell me? As the strongest person here, you should have a mana recovery potion."

The third brother smiled honestly. The first brother and the second brother were so shocked that their heads were full of cold sweat. The first brother of the national foot aimed at the back of the third brother's head and slapped him.

"My third brother is joking, don't mind."

The first brother understood Su Xiao's character.

"No medicine, there is a halo. I am responsible for the gap between the positive ones. You can defend after the defense."

Su Xiao motioned for Bobowang to open the authority of the ice goddess halo. All contractor was very satisfied with Bobowang's extremely practical halo.

"Barrier master, open a hole for me on the roof."

Vivian, who came from the roof, turned and left after the greeting. She did not want to be recognized by a contractor who was present, but before she left, she looked at the three national brothers.

"This is..."

The three brothers trembled at the same time, and their bodies were a little stiff.

"Brother Fierce, you shouldn't allow anyone to have internal strife, right? That woman might have killed us just now."

"Yes, yes, that woman is..."

The third brother was just about to reveal Vivian's identity when the third brother slapped him on the back of his head, making him see stars.

Su Xiao ignored the three buffoons, and the outermost enchantment was about to break.

Walking alone to the gap in the front door of the enchantment, Su Xiao used [apostle's eye] to check the information about the unknown creatures.

[is comparing the intelligence attribute of both sides... The comparison is complete, our intelligence is 1.964 times of the enemy, and we get 100 of the enemy's information. ]

The information was as follows

[Name: Nila Pan]

[Type: Humanoid]

[Origin: Dark Continent]

[HP: 100]

Mana Points: 280/ 280

Strength: 35

Agility: 36

Stamina: 32

Intelligence: 28

Charm: 1

Skill 1: Group Residence(Passive -- 5): Nila Pan is a social creature. When the number exceeds 10, Strength, Agility, Stamina +1. When the number exceeds 100, Strength, Agility, Stamina +2. When the number exceeds 1000, Strength, Agility, Constitution +5(The greatest gain is Strength, Agility, and Stamina +5).

Skill 2: WideView(Passive - 6), Nila has four eyes, and the range of vision is 230 °(the range of human vision is 120 °).

Skill 3: Claw Blade(Passive - V - 10), the claws are extremely tough and sharp.

Skill 4: Split-breeding (passive - V - 20): Nila is a division method of reproduction. An individual can reproduce once within five minutes of death.

Chapter 657: Body Changes

After looking at the data of Nila Pan, Su Xiao frowned. The combat power of this kind of creature was weaker than imagined, but its survival ability was very strong.

It could split once within five minutes of death, the number of splits was unknown, it should not be too much, and the individual strength would not be stronger than the original mother.

The living environment of the Dark Continent was bad. If there was no such survival power, it could not survive and multiply on that continent.

And before these Nila Pan attacked, Su Xiao heard the shout of the leader of the Nila Pan: There is plenty of water here.

In other words, Nila Pan was a creature that relied very much on water. Love without water or lack of water, and the split reproduction might be restrained.

This was only Su Xiao's conjecture, and it needed further confirmation.

At this time, the outer enchantment was full of cracks as wide as fingers, and it had reached the verge of cracking.

With a crash, like glass shattering, the outer barrier turned into light dots and disappeared. A large group of Nila Pan swarmed up, and the strong smell of earth came.

Su Xiao stood alone at the gap of the front door with a dragon flash in his hand, and the contractors worked together to defend the back door. Su Xiao clearly heard the shouting of those contractors.

"It's coming!"

"Put them out of the formation, the defensive line will be broken, so don't be afraid of death."

There was a roar coming from the back door, and three mages were blasting at the back door. One of the three mages was a fire mage. The power of the fire magic was strong, and he was cool and handsome, so he was very popular.

The other two were Arcane Mages and Death Mages. The magic of these two people was not gorgeous, but their power was amazing, especially the withered death mage. This guy summoned an undead knight, and the blue fire undead knight rushed out of the back door and rampaged through the large group of Nila Pan, causing the people who were knocked down to the ground.

The closest to the back door were the three national brothers. These three fools were extremely fierce at this moment. Each of them held a large golden energy hammer. Even if Nila Pan did not die, he would still be standing there for a few seconds. This was obviously an attack with a control effect, and every attack was accompanied by it.

The three brothers were obviously much stronger. The energy hammer of the previous three people could only be used as a one-time control skill. Now that the size of the energy hammer was enlarged, it had become a regular weapon for the three people. Each attack would have a stunning effect of 0.3 seconds.

Just imagine, if the three hit one person, they would feel dizzy, but if their control was not strong, even the strongest enemy would be smashed to death by the three brothers.

What was even more shameless was that each of the three brothers was a first-rate main tank, and they could also milk each other.

With three people blocking the gap in the back door of the enchantment, the rest of contractors could just attack, and Nila Pan could not rush in from the outside.

Moreover, half a minute after the battle, the contractor found that these Nila people would drop treasure chests. Although they were all green and blue treasure chests, there were too many of them. If they were all killed, it would be a very exaggerated profit.

From the drop of the treasure chest, it could be seen that Nila Pan was not the contractor's summoned creature, but a plot creature. However, the contractor, who was killed by these Nila Pan, would drop the scarlet card. Generally, this kind of situation would not happen. Only when contractors killed each other would the scarlet card drop.

This abnormal situation must be related to the clown. If the contractor in the auction house was killed, the number of scarlet cards would be amazing.

Before entering the Hunter World, the clown used this method to kill almost five derivative worlds contractor. There were hundreds of contractors who died indirectly in his hands.

The drop rate of the scarlet cards of several derivative worlds was equal. As long as the clown's luck was not too bad, he got at least a hundred scarlet cards.

Compared to the clown, the Hunter Alliance hunting contractor was only child's play.

With the three people from the three brothers standing in front of the barrier, Sister Mi and the others could be said to be killed very quickly.

The back door was completely guarded, but the combat ability of Nila Pan was obvious for all to see. He was also fearless. This made Sister Mi and the others a little worried about the defense of the front door. After all, there was only one person there.

If the front door was broken, they would be pincered. Although they had the guarantee of the three national brothers, Sister Mi, and the others were still worried.

"Is that White Night really fine?"

The fan girl temporarily withdrew from the battle line and turned to look in the direction of the main entrance. At this time, the decorations and partitions in the first-floor hall had been violently removed so that the two lines of defense in the front and back door could support each other.

When the fan girl turned to look at the main entrance, she was the first to see the couple. The couple was staring in the direction of the main entrance with a stunned look.

"Strength... is not in the same dimension."

"Honey, can you really be so strong with a knife? Why don't I develop sword skills too?"

Hearing the words of the couple, the camouflage girl could not help but look at the front door. After seeing the fearlessness of Nila, she doubted whether Su Xiao could block the front door.

A pile of body of Nila was piled up at the gap of the door of the enchantment, and she did not see Su Xiao.

Through the transparent enchantment, the camouflage girl saw the scene outside, and the knife and blood splashed.

The contractor, who was guarding the back door of the enchantment, used the terrain advantage of the gap to deal with Nila Pan, but the situation at the front door was different. At this time, there was a large number of Nila Pan's corpses piled up at the gap in the front door of the enchantment, and the person who guarded the front door was already outside the boundary.

A few dozen hexagonal energy shields fluttered, Su Xiao was holding a long sword and killing in the Nila group, and any Nila Pan who was three meters away from him would be killed in the next moment.

"It's unexpectedly reliable."

The camouflage girl no longer paid attention to the situation at the front door, and turned back to the battlefield at the back door.

...

A meter away from the gap in the front door of the enchantment, Su Xiao was being besieged by Nila who came from all directions. Fortunately, these Nila Pan could only attack from the front, and he could deal with it.

The long sword in his hand slashed continuously, several Nila Pan were either beheaded, or cut at the waist, dark purple quality, the dragon flash with sharpness +17, was extremely sharp, and there was also the bonus of the Supreme Blade Effect 2.

Shadow Dance Break(Passive): Ignore 25 of the enemy's defense, and reduce 40 of the enemy's healing effect after killing the enemy, the effect lasts for five minutes. (Reduce the healing effect includes: using recovery products, healing skills, etc.)

...

Su Xiao did not activate the blue steel shadow, because there was no need for that. The physical attributes of Nila Pan were 32 points, there was no outer defense like shells, and the dragon flash cut through the body of Nila Pan like cutting melons and cutting vegetables.

Nila Pan, who was hit in the vital point, was killed with one slash, and the limbs were immediately disabled.

Under the siege of Nila Pan in front of him, Su Xiao not only did not feel any pressure but instead killed more.

"Ring break."

Zheng!

The circular blade radiance spread out, and all the Nila Pan within a dozen meters around him stopped. After a moment, the bodies of these Nila Pan were broken into two from the chest.

Nila was very dense. After the broken slashes, more than a hundred Nila died around him.

Throwing away the blood on the dragon flash, the surrounding ground was vaguely flashing green and blue light. More than a dozen treasure chests appeared nearby now, the scene was very shocking.

Su Xiao did not have time to pay attention to those treasure chests, because the new batch of Nila had already stepped on the corpses of his companions and rushed forward.

Just as Su Xiao was ready to deal with the new batch of Nila Pan, the pile of Nila's corpses that blocked the gap in the front door of the enchantment changed.

Chapter 658: 1 Guards the Gate

With a bang, the body of a Nila Pan exploded, dark blue body fluid splashed, and pieces of flesh splashed.

Aware of this change, Su Xiao turned around and stepped on the pile of corpses, rushing into the Inner Realm from the gap.

At the gate of the enchantment, the bodies of Nila Pan exploded. A moment later, there was no complete body at the gate. The ground was full of minced meat and body fluid. It was extremely disgusting.

The minced meat on the ground began to squirm and gradually gathered together, forming a ball of meat the size of a basketball. It looked like an insect egg.

The eggs were covered with tentacles, and the tentacles extended to the fluids on the ground. They quickly absorbed the nutrients in them, and the size of the eggs gradually increased.

In just a few seconds, one egg exploded, and three children, Nila, who were more than ten centimeters tall, crawled out of the egg.

"Roar!"

The baby Nila let out a tender roar, and the mouth full of sharp teeth bit the egg that had been broken and swallowed it in large mouthfuls.

Su Xiao did not make a move. He clearly remembered that there were 35 bodies of Nigruela piled up at the front door. After these bodies burst and formed eggs, a total of 105 young Nila split out, which was to say that after a corpse died, three young Nila could be split apart.

Su Xiao quickly stepped forward and stepped on a young Nila.

Puff, the young Nila Pan was flattened, and its strength was very bad.

This scene made Su Xiao relieved. Nila was still in the category of living things, and it was not a creature beyond common sense. Even if it could split into small individuals after death, these small individuals needed to go through the growth cycle to have combat power.

The specific time of this process was unknown, but could not be completed in a few minutes.

If it was to reproduce in the vile ring, this ability could be said to be extremely powerful, but in terms of combat, this ability could not pose too much of a threat to Su Xiao.

Hundreds of young Nila turned and ran after birth. Their inherent instinct told them that they could not fight with the enemies in front of them, and they could grow safely after escaping back to the tribe.

Of course, Su Xiao would not let these little things escape, otherwise, the attack of Nila might continue to be continuous.

That was the truth. After the death of the adult Nila, the baby Nila Pan returned to the tribe to grow up. After the growth, it could enter the adult stage in about ten hours and form combat power.

This kind of growth was not without a price. If it grew naturally, it would take eighteen months for the baby Nila to grow up, and the growth would only take ten hours, but the lifespan of the baby was very short, only two and five days, and it could not continue to reproduce. Only the Nila would use this method when fighting with other races.

A special-class alchemy bomb appeared in his hand, and Su Xiao threw the alchemy bomb out.

Boom!

The flames enveloped the main entrance of the barrier, and hundreds of young Nila Pan were blown to pieces and burned to ashes by the high temperature.

The impact of the explosion spread out, and the adult Nila was also affected. After the explosion, the pungent smell of burning spread, and some of the corpses of Nila continued to burn.

"Do ordinary adult Nila Pan have wisdom? The answer is that they have wisdom, and they belong to intelligent creatures. They only obey the high-ranking Nila, so they are willing to sacrifice their lives."

The tenacious vitality of life, the obedience of the high-ranking, can die for his orders, and the death of their own kind will arouse their anger, which is, they know how to protect their own kind. If the

number of creatures like Nila Pan is large to a certain extent, and they are terrifying species. As long as the minimum living conditions can be met, this species can reproduce.

The continent where Youke Xin City was located was very suitable for them to reproduce and live. It could be called heaven. Therefore, their leader reached a consensus with a certain person. They killed all the humans in the auction house. That human would send all the same kind of people of their tribe here.

Unfortunately, leader Nila was deceived. The clown did not have the ability to send the whole family of Nila to this place. Even if the whole family of Nila could reach this continent, the V5 organization would let them experience what was called Zetsu.

Nila Pan, who was near Su Xiao, stopped for some reason. Their eyes looked at the young Nila Pan who was burned into ashes.

"Roar!"

A deafening roar came, and this group of Nila Pan was angry. If the previous attacks of these Nila Pan were crazy, then now it had reached the level of madness.

A Nila Pan angrily stared at four big eyes, it pushed away its nearby companions and rushed to the enchantment first.

The bright knife light filled its sight. It had not seen the enemy, and it was in darkness in front of it.

Su Xiao just killed a Nila Pan, and five Nila Pan rushed forward. He held the knife and cut horizontally, four heads flew, and the last one was cut in the throat.

The sound of wind breaking came from the side, a Nila Pan rushed to Su Xiao within a meter, a counterattack shield next to him immediately rushed forward, the edge of the counterattack shield was shaped into a blade shape, and the whole counterattack shield was inserted into the chest of the Nila Pan.

The counterattack shield was not only defensive, the attack was also sharp, but the distance was short, and it could only attack within a meter around Su Xiao.

Just after dealing with a few Nila Pan, Su Xiao could not catch his breath, and more than a dozen Nila Pan rushed forward.

A sword out of thin air, a light blue sword light flew out, this sword light with a diameter of two meters was like cutting wheat, and it cut a 'passage' in front of Su Xiao. Human, die!(Dark Continent language)

A Nila Pan's eyes were full of anger, but there was only anger and no hatred.

These Nila Pan knew that they took the initiative to attack these humans, so even if their kin were killed, they would not hate anyone, just anger.

Su Xiao turned his head and dodged a sharp claw of Nila Pan. The claws of Nila Pan were more than a dozen centimeters long, and these claws were equivalent to their fingers.

Su Xiao's left hand wrapped in the metal arm reached forward and grabbed the face of the Nila with one hand. Just when the Nila Pan wanted to counterattack, he exerted strength in his hand.

With a crisp sound, the body of Nila Pan twitched, and then his whole body hung down softly.

The fight continued. After an hour, Su Xiao had forgotten how many Nila Pan he killed, dozens, hundreds, or thousands.

Su Xiao's physical attributes were as high as 53 points. With the current intensity of the fight, he could persist for a few more hours. The dragon flash was extremely sharp. He did not need to consume too much physical strength to kill Nila Pan.

Although he was not worried about the consumption of physical strength, he no longer used the counterattack shield. 400 points of magical power used the counterattack shield once, and the counterattack shield lasted for ten minutes. If he kept using it, his magical power would have been exhausted.

In the case of not using the counterattack shield, even if Su Xiao's sword skills were sharp, he would inevitably be injured in the face of the overwhelming Nigruela siege.

For example, now, there were more than a dozen claw marks on his body. With his 53 points of physical attributes, the physical defense, and the defensive power of trench coat, these Nila could still hurt him with the claws.

However, it was impossible to consume Su Xiao to death in this way. Not to mention the HP that he had developed from his physical attributes, just the HP that was developed by the 'Spirit Shadow Constitution' was amazing.

Spirit Shadow Constitution Lv. MAX(Passive)

Skill Effect 1: Modified the body and scattered the mana values stored in the brain everywhere in the body.

Skill Effect 2: The fusion of mana and the body produced a wonderful change. The mana and HP formed a good cycle, and the HP was greatly enhanced, increasing the total amount of mana values by 30.

[Note: Current Mana Points: 1683. Increases HP by 505 points. ]

...

The HP in the Garden of Samsara was fundamentally different from the HP in the game. The HP here was equal to HP.

The stronger the HP, the stronger the survival ability. Therefore, HP was not just a number, but something that could be experienced by the body. The semi-data was just to let the contract understand the body more directly.

Chapter 659: Clown and Captain

After being besieged by Nila Pan for an hour and a half, Su Xiao deeply experienced the benefits of developing four attributes at the same time.

Although developing four attributes at the same time would slow the growth, once it grew up, there would be no obvious shortcomings, which was the weakness.

The four attributes of strength, agility, physical strength and intelligence were equal to the comprehensive physical quality of one person.

The physical attributes were the foundation, and the skills of the master of knife and other skills were to turn the strong physical quality into combat strength.

In the current situation, Su Xiao indeed had no obvious weakness. He could cope with the siege of a large number of enemies in a one-on-one battle.

The blade cut open the flesh of the enemy. After Su Xiao killed a certain number of enemies, he would throw out a special alchemy bomb. He found that blowing up the body of Nila Pan in advance or burning it, could prevent Nila from splitting the young body. Sure enough, the splitting ability needed the support of water.

Su Xiao's killing method made the surrounding group of Nila Pan extremely angry, and he wanted to swallow Su Xiao alive.

Su Xiao stood on a towering pile of corpses. This pile of corpses was burnt, and it was obviously blown up.

When Su Xiao put his mind to killing the enemy, although he was in a fierce battle, time passed quickly.

After being besieged for two hours, Su Xiao began to breathe slightly. In these two hours, he did not stop for a moment. If it was before the three derivative worlds, he, would not be able to hold on until now.

The dense gunshots on the roof had disappeared for a long time. Vivian no longer continued to shoot. It was not that she felt guilty because she killed too many enemies, but that she was almost out of bullets.

Looking at the battlefield, Su Xiao must have killed the most Nila Pan, and next was Vivian.

It was the right choice for Vivian to stop firing and save bullets. The Red Clown and Phantom Troupe had not appeared yet.

Maybe it was because of Vivian that the Clown and the captain were afraid to show up.

Three hours later, near the back door of the barrier.

Several contractors laid on the ground in a big shape, ignoring their image. Their bodies were covered with blue blood and their weapons were thrown to the side.

"How long is this going to last? Can the barrier last for another two hours?"

"No, it can last for another six hours. Another person took out a Mana Recovery Potion and gave it to the barrier user girl."

"Is that so? That girl has a strong will. Even with the support of the Mana Potion, it is amazing that she can hold on for so long."

Several contractors lay on the ground to recover their strength. They smoked and chatted while they were at it. contractor, who was behind the barrier, had already formed a system defense team. There

were ten people in a team and a total of three teams. Each team would withdraw after half an hour. The other teams would replace each other in order to continue.

"The guy in the front is simply a monster. He has been alone for three hours."

"To be exact, it is three hours and five minutes."

The female fan who was eating supper spoke. The hall was filled with the smell of blood and burnt corpses, but this did not affect her full meal.

"How many more of these creatures are there? Is it endless? Also, what is the purpose of the clown?"

A bald contractor asked everyone present.

"I don't know, but I know one thing. It is to guard this place and live. After that, we will be rich."

The camouflage girl looked at the ground near the back door of the enchantment. At this time, there were a lot of green or blue quality treasure chests on the ground.

"Yes, to live, there must be more treasure chests outside the enchantment. If..."

"Don't think about it. Do you want to die? Can't you see how strong that monster is?"

"I was just joking."

In the face of the siege of Nila Pan, the main task of participating in the auction had actually become a guardian auction house. As long as they guarded this place and survived, they could get the treasure chest. Even if these contractors could not soar into the sky, their strength would increase a lot.

Outside the enchantment.

The dark blue blood bead slid down the blade, and there was a layer of broken corpses on the ground. The scene here could only be seen in ancient war movies.

Su Xiao looked down at the large group of Nila Pan below. The attack of them finally stopped for a moment. He had forgotten how many he had killed. The pile of corpses under his feet was two stories high.

"It turns out that... you also have this kind of emotion of fear."

"..."

Su Xiao wiped the blood from his chin. The blood was red, it was his blood. After three hours of fierce battle, he was inevitably a little tired.

Perhaps because there were too many casualties among their own kind, these Nila Pan did not dare to attack, they all looked at Su Xiao with fear in their eyes.

"The order was right (Dark Continent Language)."

"The order of the king can not be violated(Dark Continent Language)."

"For the tribe, we have to kill this Saen(Saen: The meaning of the devil in the Dark Continent language)."

The nearby Nila Pan stared at Su Xiao with gritted teeth. After a few roars, they rushed to the pile of corpses in front of them again. This was the thirty-sixth time that Nila Pan rushed to the pile of corpses. The previous result was to increase the height of the pile of corpses.

"Whoosh, whoosh."

Su Xiao breathed a sigh of relief. Just as he was ready to continue fighting, the footsteps of those who rushed over suddenly stopped and turned to look at the darkness behind him.

For some reason, the Nila near the auction started to slowly retreat. They seemed to have received an order. Dozens of seconds later, the Nila left behind a large number of corpses and retreated into the dark.

...

On the roof of a building a few hundred meters away from the auction house, the red clown sat on a wheelchair and held a telescope in his hand.

"Why did you let your people retreat?"

The clown looked at a three-meter-tall Nila Pan a few meters away. This was the leader of Nila Pan.

"My people have suffered heavy casualties. This is a meaningless casualty. It is different from the agreement(Dark Continent Language)."

Chief Nila looked at the red clown, and there was faint killing intent in his eyes.

"Promise? Our agreement is to take down this auction and kill all the humans in it."

The smile on Clown's face gradually disappeared.

"" ... "

Chief Nila Pan no longer spoke and just stood there.

"It seems that you don't want to live here anymore?"

The clown put away the telescope and leaned back on the wheelchair.

"Here, yes, our territory(Dark Continent Language)."

Chief Nila trembled with anger. His four eyes stared at the clown, and his bright red tongue licked his teeth.

"Naive."

As soon as the clown finished speaking, leader Nila instantly disappeared from where he stood. When he reappeared, the sharp claws in his hands were pressed against the clown's throat.

"Human, there is a limit to my tolerance. Use your ability to transport all my clansmen here. Immediately, all of them(Dark Continent Language)."

Leader Nila had an angry expression on his face. A large number of casualties caused his chest to be filled with anger.

"Before that person dies, your clansmen can only continue to struggle on the Dark Continent. Also, take your claws away. Immediately, immediately."

The clown pointed at Su Xiao in the distance, and a red shadow appeared behind him.

"Humans never keep their promises(Dark Continent language)."

Chief Nila pulled his claws away from the clown's throat.

"I need to appease my people. They are very afraid. The previous attack can only be launched one more time, and the time will be in a quarter of an hour. Whether you succeed or not, you must keep your promise."

Chief Nila turned around and left.

"A quarter of an hour?"

The clown didn't know how long a day was, but he felt that the time shouldn't be too long.

"It's really troublesome to have no hands and feet. Luoluo, is there really no way to help me recover my hands and feet?"

"If your hands and feet are still alive, there is no problem. It is impossible now."

The regiment commander, Luoluo, slowly walked over.

"Is it really... impossible?"

The clown looked up at the starry sky. After a while, he said, "That level of attack from before can continue again. With my understanding of White Night, even if he is not exhausted, he will be exhausted. If he is exhausted, it is the best chance to kill him."

The clown yawned. He had only one arm left and basically had no fighting strength. As for the illusion of the Purgatory Count, that thing could only be used to scare people, but the clown used this illusion to scare Luoluo.

Chapter 660: Amazing Number of Treasure Chests

After Ku Luoluo left, the roof returned to silence, leaving only the clown sitting in the wheelchair.

"You've already seen through it? As expected, you can't scare him for too long."

The clown looked at Ku Luoluo's back and seemed to have noticed something.

"Forget it. Even if you are seen through, you can't do anything to me. Continue to believe in that so-called prophecy or fate. The ability to overly conviction is your weakness, Ku Luoluo," the clown said.

Clown muttered in a low voice. His cooperation with Ku Luoluo was not as stable as it seemed, but both of them were smart people. They knew each other's value.

For example, Clown grasped the weakness of the Nila clan, and Ku Luoluo was powerful. Moreover, she also had a few members of the brigade.

Sitting on the wheelchair and hesitating for a moment, Clown took out a phone call from the Hunter World.

Ding... du... the phone was picked up.

"4.5231.4GTH. ASKG424, Star, Fishing, Golden Mountain Sheep."

After the clown said a long secret signal, a female voice came from the phone.

"The secret message is correct. It is connected to a three-star hunter."

A moment later, a hissing sound came from the phone.

Boom!

An explosion came from the receiver, and the loud noise made the clown subconsciously turn his head.

"What a 'surprise'."

The clown shook the phone in his hand. He suspected that this thing was broken.

"Who is it?"

A rough male voice came from the phone.

"Mr. Luke, what do you think about what we talked about last time?"

A calm clown had a helpless look in his eyes.

"Not much, get lost! If you dare to call again, I will crush your ovum."

Beep, beep, beep... The phone was hung up. The clown exerted force in his hand, and the phone was crushed with a click.

[Stupid donkey with a brain full of muscles, how can such a guy become a three-star hunter? If there is a chance to enter the hunter world in the future, I will definitely eat your soul. ]

The clown's pupils turned red as if there was a flame of purgatory burning inside.

"Hahaha, you sinister villain, you are finally defeated. I hate conspiracies and plots."

The figure of the Purgatory Earl behind the clown laughed out loud. Lava spewed out from his nose. This was actually his snot.

"I hate stupid donkeys, such as yours."

"What did you say? Say it again!!"

"I hate stupid donkeys like you. Heh, I've never seen such a strange request before. I have to listen to it twice even when I get scolded."

The clown regretted choosing this Demon God. At first, he chose the Demon God because the Demon God did not have any intelligence. He did things without thinking and was very easy to use.

However, after interacting with him for a while, the clown was surprised to find that this Purgatory Earl was not as simple as being brainless. He could already be classified as stupid. If not for his powerful bloodline, he would have already died in the Black Abyss.

"You shameless, despicable, lowly human, I..."

The furious Purgatory Count spat out hot saliva. He was about to explode from anger.

"Shut up, or I'll eat you."

The smile on Clown's face suddenly disappeared. He turned to look at the Purgatory Count.

The Purgatory Count was about to speak, but when he saw Clown's gaze, his heart trembled.

"You 'freak', eat me if you have the guts. I, the Purgatory Count, have never been afraid of anyone. I have never been afraid of anyone in the Black Abyss, and I will not be afraid of anyone in this Reincarnation Paradise."

"I'm just kidding. You are the devil god that I depend on. How can I eat you?"

The clown burst into laughter as if everything that had just happened was a joke.

"Hmph,"

The figure of the Purgatory Count disappeared. He felt that it would not take long for him to devour it.

"If you want to survive, the best way is to have no principles. Don't you agree, old friend?"

The clown took out a pack of cigarettes. After hesitating for a moment, he took out one. He did not have the habit of smoking.

"I hope you won't die in the hands of Ku Luoluo. Compared to those arrogant hunters in the past, you are my real opponent. Byakuya, perhaps because of you, my life will be complete, hahaha."

The night wind blew, and a clown on the roof was laughing crazily.

...

In the main hall of the auction hall.

The Nila clan had temporarily retreated, and the barrier had been removed. The barrier-user girl weakly leaned in her boyfriend's arms.

A few contractors walked over from the back door.

"These monsters aren't much."

"Don't be sarcastic. If this kind of attack continues for another hour, we definitely won't be able to hold on."

The contractor and the other two brothers sat in a circle in the lobby. In front of the three brothers were hundreds of treasure chests, and on the side was Sister Mi.

From the location of the treasure chest, it could be seen that the status of the three national brothers in the contractor was respected even if some of the capable people were funny.

"There are 107 treasure chests, 12 blue quality, and 95 green quality. Other than the three of us, there are 23 people present."

Originally, the contractor had a total of 31 people, but five people died when guarding the back door, and now there were only 26 people left, which did not include Su Xiao and Vivian.

"Let's discuss how to distribute these treasure chests."

The national foot boss looked around the crowd. He was faintly worried about the contractor's internal strife. Although the monsters had retreated, no one was sure if they would attack again.

"Is there a need to say this? The national foot three can divide as they, please. We have no objections."

A gunman who was buying soy sauce said.

"Count the number of kills."

The Death Mage stared at the treasure chests. His psychological expectations were more than 20.

"Kill the enemy? Ha, without the Guozu brothers blocking the way, you would have died a long time ago."

Sister Mi sneered, playing with a snake-shaped dagger in her hand.

The Death Mage looked sideways at Sister Mi, hesitated for a moment, and did not dare to fall out with Sister Mi. He had heard of the deeds of the Hunter Alliance.

"Everyone, why don't we roll?"

A youth suggested.

"Roll?"

The contractor shook his head.

Just as a contractor was dividing the loot, Su Xiao walked into the hall. His storage space was full of green and blue quality treasure chests.

Green treasure chests 102, blue treasure chests 23, this was undoubtedly a huge sum of money.

Su Xiao was in a good mood, but he did not know the number of treasure chests. The number of treasures he killed was far more than those of the contractor, but the number of treasure chests was only slightly higher than those of the contractor.

However, he enjoyed these treasure chests alone, and those contractors wanted 26 points. If he was not lucky enough, he would make up for it with strength.

Su Xiao had a vague guess that these treasure chests might be very water, and the probability of killing Nila dropping the treasure chest was higher, but even if it was water, it was still a huge sum of money.

Now was not the time to open the treasure chest. Although those Nila retreated, it did not mean that they gave up. Moreover, the clown and Collor did not show up.

Looking for a quiet place in the hall, Su Xiao took out some food from the storage space and replenished the energy needed by his body while resting.

After Bobowang found Su Xiao entering the lobby, he ran over.

"How is the situation of the back door?"

"Woof."

Bobowang called out. Su Xiao understood what Bobowang meant.

It was not stable, but it would not be broken for a while.

"Is the auction house going to be broken soon? It is expected."

Su Xiao sighed. If Nila Pan launched the second wave of attacks, it would only be a matter of time before the auction was broken.

"Byakuya."

Vivian stood at the stairs leading to the second floor and motioned for Su Xiao to go over and talk.

Su Xiao got up and entered the stairs. The door of the corridor was closed.

"What's the matter?"

"I saw the clown just now. He's on the roof nearby."

"You didn't shoot?"

"No, I was afraid to alert the enemy. With the intelligence of the clown, he wouldn't expose himself under the muzzle of the gun without any precautions. In the current situation, the auction won't last long, so I have a bold plan..."
