

R. Paradise 671

Chapter 671: Return

On the hotel's first floor, the three national brothers were together, and the entire first floor seemed to have been blown by a tornado.

The brothers held a dark purple treasure chest in their hands. It was not that the brothers did not kill people. When their lives were threatened, they would also kill the enemy. They did not have a pedantic sense of justice.

As long as the three national brothers thought this matter was proper, they would do it. They just did not kill the innocent.

The national brothers held Fenkes' treasure chest in their hands. The yellow-haired man Fenkes died very sullenly. He was beaten to death by these three fools. The hammer dizziness was not a decoration.

"As expected, the hammer is the justice, cough cough..."

The national foot elder coughed out a few mouthfuls of blood, his chest seriously collapsed, and the second elder used his few mana points to heal him.

"First, treat the third brother. His injuries are even worse."

At this time, the national foot elder three had one hand, one foot was broken, his body was full of Le marks, and Maqi injured him.

"Big brother... I saw an angel."

The eyes of the third brother of the national football team were slack, which frightened the first and second brothers.

The second brother of the national football team gave the third brother a big slap and slapped him in the face. After a few big slaps, the eyes of the third brother became clearer.

"See, my ass angel, you lost too much blood and hallucinated. Second, brother, don't slap me. The third brother rolled his eyes."

"Oh? Oh."

The national foot elder brother and the second brother began to milk the third brother. A few minutes later, the third brother's life force stabilised slightly. The third brother, who was almost unconscious, slowly woke up.

"Second brother, I saw an angel just now, but that sister angel slapped me. It hurts. Am I too ugly?"

The honest third brother's eyes welled up with tears, and he still recalled the 'angel'.

"That angel is lovely. Her hand is a bit rough. The second brother, is my face swollen?"

The third brother gently stroked his swollen face, his expression a little sad.

Hearing Third Brother's words, the second brother of the national foot silently looked at his hand full of calluses.

"Maybe... the angel is not in a good mood. The third brother, don't think about this. If you survive a disaster, you will have good fortune."

The national foot boss turned his head. He did not dare to look at the third brother. The appearance of the third brother was hilarious. He wanted to laugh because the three brothers survived.

At this time, footsteps came. Su Xiao, holding the dragon flash, walked down the stairs.

"Clown..."

The three national foot brothers stared at Su Xiao. Although they already had the answer, they still could not help but ask.

"Dead."

After getting a clear answer, the three national brothers breathed a sigh of relief. However, they did not remove their guard. The clown died, and the common goal of the team disappeared. There could be internal strife. As the saying goes, one must have the heart to guard against others.

"Although the clown is dead, the attacks of the Nila tribe should not stop. They should be united. The clown is only leading all of this. We have killed many of the Nila tribe, and they will not give up easily. However, the threat of the clown has been removed, and the thorns in their throats have been removed."

The elder sighed. Although the three brothers were funny, they had roughly figured out the situation.

"That's right."

Su Xiao walked in the direction of the auction house. The second brother of the national foot carried Lao San and went to the direction of the auction house with Su Xiao. In the current situation, the possibility of team infighting is low.

The three people on the national foot did not ask where the fan's sister went. It had not appeared at this time. The possibility of the sister of the fan surviving was minimal. Perhaps the fan's sister had left after the clown's death? Maybe, the national foot boss looked at the hotel behind him.

At this time, the Nila tribe might appear on the street. In the current state of the four people, it is evident that they could not confront the Nila tribe.

One thing that Su Xiao was very puzzled about was where the Nila clan went when they attacked the hotel.

After walking for a few minutes, Su Xiao found that the figure of the Nila clan did not appear on the street. Just as he approached the direction of the auction house, a sneaky figure appeared.

"Who is it!"

The second brother of the national foot held the energy hammer in his hand and looked at the black darkness vigilantly. There was a pair of eyes there.

"It went smoothly?"

Su Xiao looked at the dark and looked relaxed.

Bobowang walked out of the dark, and his body was full of blue blood.

"Woof."

Bobowang called and looked a little sad. He nodded and shook his head, which confused Su Xiao.

Bobowang wanted to express too many meanings. Even Su Xiao needed clarification for a while. A few minutes later, he understood what Bobowang meant.

"In other words, a woman entered the Nila clan, and then you left in the chaos?"

"Woof."

Bobowang nodded. His expression was clearly that he scared Bobo to death. That woman was powerful.

"The news here has been spread out. It should be a gang member of the auction house."

Su Xiao roughly guessed what was going on. There were too many people in the Nila clan. Although few people were near the auction house, the Nila clan came from the Dark Continent. The law of the jungle was prevalent there, so the Nila clan could not abide by the rules after arriving in Youxin City.

Once the Nila clan expanded outward, it would not be a struggle between forces but a racial invasion. The V5 organisation would not ignore it.

In the original work, the Imbedding Ants were more potent than the Nila tribe, but a Hunter guild had already dealt with them so one could imagine the fate of the Nila tribe.

"In other words, the Nila tribe is no longer a threat?"

"Woof."

Bobowang wagged his tail. This guy was only frightened and was not injured.

Su Xiao walked out of the alley and walked in the direction of the auction house. Bobowang followed him.

The three brothers looked at each other.

"Big brother, are we going back to the auction house?"

"What are we going back for? He will not allow the main mission to fail. As long as the auction house is not destroyed, we can find an opportunity to participate later. Now we are injured, and those contractors in the auction house are not good people."

The three brothers decided not to go back to the auction house and temporarily watched nearby.

"Brother Fierce."

The national foot shouted, and Su Xiao turned to look at the three people.

"See you later."

The three people of the national team worked together to set up their special formation.

"Yes."

Su Xiao continued to walk to the auction house. A few minutes later, he came near the auction house.

The faint smell of blood came. The corpses of the Nila tribe on the street had been cleaned up. The gang leader of the ten old men forces was negotiating with some people in protective suits.

The attitude of those gang members was very polite. No, they were somewhat flattering.

Ignoring those gang members and the people of unknown forces, Su Xiao quietly entered the auction house, took out the phone and dialed a number.

"Where is it?"

"In... In the auction house, how are you, Mr. Byakuya?"

"Come to the first floor."

After a while, Black Mary ran to the first floor in her high heels. Su Xiao quickly walked to Black Mary and took her arm to walk into an empty room.

"Wait, wait a minute, that, a lot of people are watching."

Black Mary blushed, and her footsteps were twisted, but no matter how she looked at it, she had a feeling of refusing and welcoming.

Su Xiao pointed to the wound on his chest. Black Mary suddenly realised, and her face became even redder.

In the room, a black rose fluttered beside Su Xiao. The petals fell. When only two petals were left, Su Xiao's injuries were recovered. Although he was seriously injured this time, there were no injuries like broken limbs.

The most troublesome thing in his body was the poison on the leader's dagger. That thing needed to be slowly consumed by the green steel shadow energy.

Because of the intervention of an unknown force, a contractor in the auction room disappeared. After Su Xiao recovered from his injury, he immediately left the auction house with Black Mary and Bobowang.

Late at night, Su Xiao stood atop a prominent building near the auction house. After observing for a long time, he put down the telescope in his hand.

Fortunately, he left in time. Otherwise, the follow-up things would be very troublesome.

...

Early the following day, the auction house returned to normal. This was the condition that Su Xiao and the ten older men Bick had agreed on in advance.

In the guest room of a luxury hotel, Su Xiao looked at the 20 soul crystals on the tray in front of him. This was the reward that Bick paid. Su Xiao almost wiped out the regiment. Bick dared not pay, even if he was now a minor leader of the V5 organisation.

Su Xiao let Bick become the diminutive leader of the V5 organisation, and of course, he would find a way to control the other party.

Once the clown died, the Nila clan was doomed to have no good end, or they could not have a promising future in the first place.

All the enemies that needed to be solved had been solved, and Su Xiao could freely play the remaining task time. Unfortunately, because of the task limit, Su Xiao could not leave Youke Xin City.

Just as Su Xiao thought about gaining benefits in Youke Xin City, the hint of the reincarnation paradise suddenly appeared.

[Hint: Checking all members of the Phantom Troupe(the remaining two) have left Youke Xin City, the primary mission has been tacitly completed.]

[Because the primary mission is forced to change, the mission reward is doubled.]

[Hint: The hunter will return to the reincarnation paradise in five minutes.]

Chapter 672: Charm Increase?

Su Xiao lay on the bed of the hotel. There were three minutes left before the countdown.

Su Xiao's harvest in the Hunter World was not comparable to the derivative world he had experienced before. The number of treasure chests alone could crush the previous world.

He had a vague feeling that if he turned all the gains this time into strength, his strength would be very high even if he could not reach the top of the second rank.

Considering this, Su Xiao could not help but have some expectations in his heart. Time passed quickly, and the sense of transmission appeared.

The transmission was completed, and the hunter returned to the exclusive room.

The exclusive room was for him to be safe, and no one could enter except the hunter.

The hunter began calculating the rewards of the derivative world with the Reincarnation Paradise.

The derivative world: full-time hunter

[Difficulty: 5?]

[Obtained world origin: 6.]

[Mission number:(Main Mission X2, Hunting Mission X1)]

[Comprehensive evaluation: S.(Note: The evaluation is divided into E to S +. The comprehensive evaluation is calculated according to the sum of the world origin and the number of completed missions.]

Start collecting the source of the world.

The source of the world has been collected, and the rewards have been calculated.

Reward: 22 attribute points(obtained in the derivative world), 31,000 paradise coins.

The comprehensive evaluation is S, and now the hunter level is 14, the hunter level +2(the number of tasks completed by the derivative world X mission and the completion time of the comprehensive evaluation mission), and the hunter level has been raised to 16.

The settlement is completed, and the reward has been automatically deposited into the hunter brand. Standing in the exclusive room, Su Xiao breathed a sigh of relief and came out of the derivative world again.

Checking the residual cells and neurotoxins in the hunter's body(Poisonous level 31), do you want to pay the paradise coins to clear it?

"Pay."

When Su Xiao's voice fell, he suddenly floated in the air, and a grey flame appeared on his body.

"Not good"

The feeling of pain appeared. Not only his body suffered the pain, but his 'heart' was also bleeding, and the paradise coins were quickly consumed.

Using the Uncrowned Fire to burn the Uncrowned Fire costs 1,000 paradise coins(every second).

One thousand paradise coins have been consumed.

1,000 paradise coins have been consumed.

After spending 8,000 paradise coins, Su Xiao fell from the air and fell to the ground with a thud. His consciousness was somewhat blurred from the pain.

The pain of being burned by the crownless fire in his body gradually subsided, but it became a refreshing feeling. This flame seemed to burn everything in his body that was unfavourable to him.

A large number of scars on Su Xiao's body disappeared. Every time the reincarnation paradise used the recovery function, the faults could be removed. However, it was useless. He would be injured many times whenever he was in the derivative world.

Taking a few deep breaths, Su Xiao was delighted. The heavy feeling in his chest disappeared, and the threat of turning into a big tree at any time faded.

It was also Su Xiao who was not afraid of death. If it were someone else, he would not dare to use the No. 1 potion as a regular potion. If he turned into a big tree, it would be a tragedy.

Su Xiao had a vague feeling that because he had been drinking the No. 1 potion for a long time, his body was often invaded by the cells in the column. After that, the cells in the queue were destroyed by the green steel shadow energy. His body had formed an antibody. With time, he might be immune to the cells in the column or even devour cells in the column. The benefits of swallowing the cells in the column must be excellent.

Shaking his head, the cells in the column were not easy to swallow. At least it could only be realized after his attributes were high to a certain extent.

Thinking of the body attributes, Su Xiao got up and walked out of the exclusive room. He had slept in the hunter world before and was now full of energy.

"Look at home, don't tear down home, or else Jiang Cong will serve you."

Su Xiao removed the tablet computer from the storage space, opened a web page and put the tablet computer in front of Bobowang. It was written: "Dog meat is perfect."

Bobowang swallowed his saliva and grunted.

"Woof."

Bobowang wagged his tail. The small-eyed god seemed to say, "Master, don't worry. Bobo will look after the house."

Su Xiao walked out of the exclusive room, closed the door, stood at the door and did not move.

Five minutes later, Bobowang was lying on the carpet, honestly. There was a mobile phone in front of him, and he was chasing.

Ten minutes later, Su Xiao suddenly pushed open the room and looked inside the room. Bobowang looked up with doubt and seemed to ask Su Xiao again: "Master, did you forget to bring something?"

After seeing the honest Bobowang in the exclusive room, Su Xiao nodded, closed the door and walked to the attribute-strengthening hall.

Twenty minutes after Su Xiao left, Bobowang paused the drama on his mobile phone, and his eyes were clear: "Bobo has already seen through everything. The gun is useless to Bobo."

Bobowang turned to look at the bed in the room. It had been unhappy with the bed for a long time!

After hesitating momentarily, Bobowang felt it could resist the special giant slippers and walked to the bed with firm steps.

A man and a dog fought with wits and courage every day, resulting in Bobowang winning. Su Xiao, who won against the leader and the clown, lost to Bobowang.

The attribute strengthening hall, a property enhancement warehouse, paid 100 paradise coins, and Su Xiao got the right to use the property enhancement warehouse.

[Welcome to the attribute enhancement warehouse. Your naked attributes are as follows.]

[Strength: 55]

[Agility: 55]

[Physique: 53]

[Intelligence: 55]

[Charm: 6]

[Hunter can freely allocate attribute points: 22 points]

[Beep. Detected that the hunter's primary attribute is Strength, Agility, and Intelligence. Please give priority to the three main attributes.]

"Hm? This value, just right..."

Su Xiao seemed to have found something and did not hesitate to allocate the attribute points. His distribution method was: Strength +5, Agility +5, Stamina +7, Intelligence +5. He just used up 22

free attribute points. He did not have the habit of saving this thing. Turning the attribute points into the body value as soon as possible was the way to go.

After the attribute distribution was completed, the strengthening began.

Maybe it was because the attribute distribution was very balanced or because he had strengthened too many attributes, and Su Xiao did not feel extreme pain.

After a long time, Su Xiao, who was sweating all over, stood up. He completed the training for a few years in a short time. His stomach was rumbling with hunger, and the energy stored in his body was consumed a lot.

The strengthening attribute was not just a little bit, but the reincarnation paradise sped up the body's training process, allowing him to complete the training effect for a few years or even more than ten years in a short time. Fortunately, there was an attribute-strengthening chamber to provide nutrition. Otherwise, this kind of enhancement would undoubtedly die.

The attribute point was the cost of speeding up this process and breaking the limit of the human body. Because of this, every time Su Xiao strengthened his attributes, he must go to the attribute strengthening hall.

Moving the muscles and bones, although Su Xiao's attributes were already very high, he did not develop the situation with the muscular man. This was related to his strengthening of agility attribute. The burly man was generally a contractor who only strengthened his strength or physical strength.

Looking at the current attributes, the attribute panel was particularly 'refreshing'. Now Su Xiao's naked details had become:

Strength: 60

Agility: 60

Constitution: 60

Intelligence: 60

Charm: 6

This neat attribute, there was a coincidence, but it was also Su Xiao who deliberately did it.

For some reason, Su Xiao always felt something was wrong, but he could not say it.

"Eh?"

Su Xiao carefully observed the attribute panel and suddenly found that the charm attribute had increased by one point!

This made Su Xiao not only smile on his face, could it be that his temperament had changed?

Through the metal wall of the property-enhanced warehouse, Su Xiao had a clue about his appearance, he did not become handsome, and he was still his original appearance.

Su Xiao narrowed his eyes slightly, and the feeling of sharpness and brutality appeared. With his current temperament, it was not related to charm.

Chapter 673: Gourmet Goddess

He punched out a few times out of thin air, and the sound of wind breaking appeared.

Su Xiao clenched his fists, and a surging sense of strength emerged. He had never been so strong. This intense feeling was intoxicating. Now, not to mention fighting a cow with his bare hands, he was confident that he could break through the metal wall that was not too thick with his bare hands.

Leaving the attribute strengthening hall, Su Xiao took a bath in the bathing city opened by the workers nearby. Of course, there would be improper service here, but Su Xiao just bathed and washed the sweat stains on his body before leaving.

In addition to some important buildings in the reincarnation paradise, such as the attribute strengthening hall, and the skill upgrading hall, other shops were opened by employees or contractors. It was like a city that contained magic, martial arts, machinery, dark mysticism, and high-tech.

As for how big the reincarnation paradise was, it was still unknown. The border was a restricted area. After the population of the reincarnation paradise reached a specific base, these restricted areas would open.

The forbidden area sounded very mysterious, but it was a lonely place. After these restricted areas were opened, there would immediately be workers buying them, opening shops or living.

Therefore, there would not be a situation in the reincarnation paradise because the population was too large, causing the people to be dense and lack resources. How many contractors and workers there were, and how big the reincarnation paradise was.

After taking a bath, Su Xiao went straight to the Xia restaurant. He was already hungry.

On the way, Su Xiao took out the communicator he used in the Reincarnation Paradise. After a while, the communicator was connected.

"Come out for dinner in the Xia restaurant."

"Woof."

Bobowang, who was in an exclusive room, ran out quickly. Five minutes later, Su Xiao, standing at the restaurant's door, saw Bobowang.

Pushing open the door of the restaurant, there was no one inside, and the business of the restaurant opened by Xia was still bleak.

With a clang, a noise came from the kitchen, and a strange smell filled the restaurant.

"What is this smell?"

Su Xiao was choked by this strange smell and turned his head sideways. This peculiar smell was called a 'biochemical weapon'.

Bobowang, on the other hand, had a look of despair on his face as if he understood something.

"Failed again, damn it."

The sound of the exhaust fan was heard, and the air in the restaurant became fresh.

"Woof."

Bobowang called and seemed used to Xia's behaviour of not receiving guests.

Xia ran out of the kitchen with a coriander on his head.

"You are here? What do you want to eat?"

Xia sat opposite Su Xiao. Su Xiao was a regular here. After a while, Xia and Su Xiao became familiar with each other.

"What were you doing just now? That strange smell..."

"Haha, personal hobby, don't mind."

Xia smiled a little awkwardly. If not for Su Xiao, a regular customer, who came here for the first time, she would be forced back by the strange smell. Su Xiao finally knew why the business here was not good.

"Coriander, on the head."

"Huh?"

Xia touched the top of her head. Sure enough, she felt coriander, which made her a little shy.

Bobowang rolled his eyes and seemed to say, "We are all acquaintances. Why are you shy?"

"By the way, I recently developed some new dishes. Do you want to..."

Xia said halfway. Bobowang screamed and seemed to recall some painful experience, shaking his head at Su Xiao desperately.

"New dishes? Or... forget it, I am starving, just make something you are good at."

"Good dishes? Okay!"

Xia smiled slyly, turned around and walked to the back kitchen.

Looking at Xia's back, Bobowang was a little panicked. The small-eyed god seemed to say, "Master, why don't we go?"

"Cough, it should be... no problem."

Twenty minutes later, delicious food was placed before Su Xiao and Bobowang.

After Su Xiao tasted a few mouthfuls, he was stunned. These foods were delicious, but he vaguely felt a force gushing out from his body. The fatigue of strengthening the attributes before gradually subsided.

"This is?"

Su Xiao ate a few more mouthfuls and confirmed that these foods were indeed recovering the physical strength he had lost. Although it did not reach the level of increasing attributes, it could strengthen his body to a certain extent.

On the side, Bobowang ate until his mouth was full of oil. Not only could this food recover his physical strength, but the taste was also not to be picky. It was a top-grade delicacy.

Xia, whose forehead was sweating, walked out of the kitchen and leaned against the bar. Looking at the man and dog who were eating happily, Xia had a gentle smile on her face.

"Is it delicious?"

Su Xiao, who was chewing the food, nodded.

"With your ability, some large adventurous groups will not refuse you."

Hearing Su Xiao's words, Xia looked out of the restaurant.

"Large adventurous groups... Even if they don't refuse me, I will refuse them. I like such a stable life. One day, I may die in the derivative world, but enjoying the previous days is what I want. Join those so-called large adventurous groups... I am exhausted. I have to listen to other people. I don't like it."

Xia put the hair on her forehead behind her ear. Although her appearance looked ordinary at first glance, she found that she was beautiful after a few more glimpses.

""... "

Su Xiao did not speak. He agreed with Xia's point of view. Why should he fear death? It was enough for him to live freely today.

After eating and drinking, Su Xiao leaned on the seat. He was full of food.

"I'll pay."

When Su Xiao finished speaking, he found that Xia was already in front of him.

"It's too close!"

Xia's face was almost touching Su Xiao's face.

"A total of 395 paradise coins."

Xia was full of smiles, but his smile was a little cunning.

"So cheap?"

Usually, a meal with 395 paradise coins was very black, but the food cooked by Xia was not ordinary. Three hundred ninety-five paradise coins were too cheap.

"You are an old customer, and you are the first person to try my dishes, so I only charge you the cost price. It is good to eat this after strengthening the attributes, right?"

"Very good."

Su Xiao paid Xia 500 paradise coins.

"No need to look."

Su Xiao and Bobowang got up and walked out. When Xia was alone in the restaurant, Xia was a little puzzled.

"I originally wanted to lose money but took back the cost price. Sigh, I will be embarrassed if I often let Bobo be my sparring partner."

Xia scratched her head. Before, she wanted to become stronger. At least she needed the strength to protect herself, so she often looked for Bobowang as her sparring partner.

Bobowang often fought with Su Xiao, and her vision was equal to some second-level experts. Under Bobowang's sparring partner, Xia's combat strength had significantly improved, but her strength needed to be improved compared to her cooking ability.

[Charm Chef: Lv. 20(passive skill)]

[Skill effect: When cooking exceptional food, there is a chance to add two out of three products to the food.]

[Effect 1: Stamina Recovery.]

[Effect 2: Delicious Food.]

[Effect 3: This time, the food will be turned into recovery-type food(can recover HP), which can be sold.]

[Lv. 10 Additional Ability]

[Recipe Development: You can create a new recipe with your body.]

[Lv. 20 Additional Ability.]

[Gourmet Goddess: You can increase your combat strength by eating various 'food recovery products'(This effect is only practical for yourself)]

Eat the white grade 'food recovery', Strength +1, Agility +1, Stamina +1. The effect lasts for 1 hour.

Green grade 'Food type recovery item', Strength +2, Agility +2, Stamina +2, Intelligence +1, Effect lasts 1 hour and 30 points.

Blue grade 'Food type recovery item', Strength +4, Agility +4, Stamina +4, Intelligence +3, Effect lasts 2 hours.

Consumes purple grade 'food type recovery item', Strength +7, Agility +7, Stamina +7, Intelligence +7, Charm +3, Effect lasts 3 hours.

(Consumes purple grade or above 'food type recovery item', calculated according to purple quality, skill level increased, can increase the upper limit of consumption effects, such as: eat dark purple grade food.)

...

Xia's ability was strong. The reason why she opened a restaurant with no customers was only because she liked quiet and liked to study recipes by herself. Her interest was not in combat.

...

Su Xiao returned to his exclusive room quickly. He wanted to open a treasure chest and many treasure chests!

Chapter 674: To Open Relentless

Su Xiao sat cross-legged in the exclusive room on the bed, and a strange feeling appeared.

"Bobo, is this bed a few centimetres lower than before?"

Su Xiao, about to take out the treasure chest, lowered his head to the bed to look at it. He always felt that something was wrong.

Bobowang was full of doubts. After looking at the bed, he shook his head, and the gaze seemed to say: "Master, it must be your imagination."

While Su Xiao was not paying attention, Bobowang turned his head. It had already comprehended the 'true meaning of demolishing the house. Tearing down a little bit was the way of the king. Slippers would not hit it. For example, it gnawed the four bed legs short by three centimetres this time.

..... "

Su Xiao no longer cared about the bed. He took out a lot of treasure chests from the storage space. Seeing these treasure chests, Bobowang directly jumped on the bed. It needed to help open the treasure chests. There were too many treasure chests.

Golden Treasure Chest x1(Leader)

Golden Treasure Chest x1(Gold Nest)

Dark purple x1(Priest)

Dark purple x1(Flying Tank)

Green Treasure Chest x1 02

Blue Treasure Chest x23

Su Xiao sat in the Treasure Chest. There were so many Treasure Chests that he could not put them down. He only had one thought, and that was to get rich.

Putting the dark purple quality and the higher quality Treasure Chests together, these Treasure Chests had to be opened in the European state. As for the green and blue Treasure Chests, they could be opened directly. The European state only had 2 minutes. With more than 100 green and blue Treasure Chests, the European Emperor's time was far from enough.

Your follower Bobowang has handed over the rights to the items temporarily.

Bobowang transferred the rights to the items to Su Xiao. From now on, when the treasure chest was opened, the gains from opening the treasure chest will be concentrated on Su Xiao to sell.

Su Xiao picked up a green treasure chest and opened it in his hand.

You opened the treasure chest(green).

You get 1,500 paradise coins.

As expected, these green treasure chests were a bit wet. Fortunately, there were a lot of them. One could not see any good things, and ten would always be good.

You opened the treasure chest(green).

You get 1,100 paradise coins.

You have obtained sharp bone claws(blue quality weapon, scored 32).

This was a good start, there was a chance to open items higher than the treasure chest, but the probability remained the same.

For example, the white treasure chest's probability of opening a white item was 63, the green thing was 1, the blue item was 3, and the purple item was 00049(almost equal to 0). Luck was also a part of strength.

Su Xiao obtained this information with the hunter's permission. There was only information about the white treasure chest. The data of the green treasure chest could not be checked because of the lack of consent.

You opened the treasure chest(green).

You get 1200 paradise coins.

You get the broken leg bone hammer(white).

Daily 'hand black', Su Xiao continued to open the box.

You have opened the treasure chest(green).

You have obtained 1300 paradise coins.

You have obtained 2600 paradise coins.

You have obtained the special bone claw(blue material).

This time, it was Bobowang who opened it. This guy shook his head happily and felt he was about to be unable to suppress the 'power of yellow flood' in his body.

What was called a treasure chest was soft when opened, and now Su Xiao was in this situation.

Opening green treasure chests one after another, after a few minutes, he had opened more than twenty green treasure chests.

He picked up a green treasure chest and opened it. He immediately went to pick up another green treasure chest. Before his hand touched the other treasure chest, the green light made him subconsciously turn his head.

[Flash!] There was a flash After opening more than twenty green treasure chests.

[You have obtained 2000 paradise coins.]

[You have obtained soul crystal(small) X1.]

[You have obtained the Touch of Darkness(green necklace)]

A necklace made of various animal teeth appeared in Su Xiao's hand. He immediately checked the attributes of this equipment.

Touch of Darkness(High Quality)

Origin: Full-time Hunter

Quality: Green

[Type: Pendant(Accessory type equipment is a rare item)]

[Durability: 2727]

[Equipment requirement: Intelligence above 15 points.]

[Equipment effect: Dark Touch(Active Skill). After activating this skill, casting speed +13, spell power +4. The effect lasts for 5 minutes.]

[Hint: Dark Touch(Active) requires 80 points of mana.]

[Hint: Dark Touch(Active). Cooldown time is time.]

[Rating 30(Green Quality Highest Rating)]

[Description: Dark Will is wrapping around you.]

[Price: 3200 paradise coins]

This thing was useless to Su Xiao, but this was a rare treasure for a first-rank mage. It was OK to sell between 8,000 and 13,000 paradise coins.

After a flash, Su Xiao opened more than a dozen green treasure chests and did not flash again. After a while, Bobowang flashed once.

You get 2,500 paradise coins.

You get the soul bone ring(green equipment, score 30).

You get a leather jacket(green equipment).

After 20 minutes, Su Xiao and Bobowang opened the green treasure chest, and he began to count the gains.

Paradise coins obtained 18,360 points, ten white pieces of equipment, 24 green gear, and 3 blue equipment. After selling this equipment, it was another Paradise coin.

After the green treasure chest was opened, he went to the blue treasure chest.

There were not many blue treasure chests, only 23. Su Xiao directly opened one to test the value of the blue treasure chest.

You opened the treasure chest(blue).

You got 3800 paradise coins.

There was no doubt that this blue treasure chest was a little black, but even so, it also contributed 3800 paradise coins to Su Xiao, which showed the gap between it and the green treasure chest.

Su Xiao and Bobowang continued to open the treasure chest. This time, he was more looking forward to it. After all, each piece of blue quality equipment was worth at least 3,000 paradise coins.

As he opened it, Su Xiao frowned. The reason was straightforward. He had opened 20 blue treasure chests, but there was still no flash.

Sure enough, flash was something that could only be encountered by luck and was closely related to uncertainty. A person like him who was not lucky could only rely on the number of flashes.

You have opened the treasure chest(blue).

You have received 4,200 paradise coins.

You have obtained the blood claw attack(skill scroll).

Su Xiao's hand paused. This was the second last blue treasure chest. In this treasure chest, he opened the skill scroll.

The value of the skill scroll was on a different level than the equipment. Su Xiao opened 124 treasure chests and only opened one skill scroll. It could be seen how slight the chance of opening the skill scroll was.

Calculating the profit of the blue treasure chest, park coins were 87400 points, blue equipment seven pieces, and one skill scroll.

Although opening more than 100 treasure chests was a small profit, considering the strength of the Nila clan, the stronger the enemy, the higher the value of the treasure chest. The Nila clan relied on the number of treasure chests, so the amount of gold dropped by the treasure chest was undoubtedly low.

After opening the green and blue treasure chests, there were only four treasure chests in front of Su Xiao, dark purple treasure chest x2, light gold treasure chest x1, and golden treasure chest x1.

The gold content of the four treasure chests was extremely high, and it was the treasure chest dropped by the members of the Phantom Troupe and the leader of the Phantom Troupe.

Picking up the treasure chest dropped by the messenger, Su Xiao held a cigarette in his mouth and ignited it with Fate Redemption.

The treasure chest opened. There was no light.

You opened the treasure chest(dark purple).

You get 8,900 paradise coins.

You get the Reverse Control Guard.

Reverse Control

Origin: Full-time Hunter

[Rarity: Dark Purple]

[Type: Saber(Length: 93 m, Knife width: 9 m)]

[Durability: 90/90]

[Attack: 6,101]

[Equipment requirement: Strength above 40 points, Agility above 53 points.]

[Equipment effect 1: Slash(active skill). Accumulate strength in drawing the saber. Every second accumulates 3 of the attack power. Can store up at most 5 seconds.]

[Note: Slash(active) consumes 10 of the mana values.]

[Note: Slash(active). The cooldown time is 1 hour.]

[Equipment effect 2: Cut iron like mud(passive). Sharpness +8.]

Rating 260

[Description: This is the blade of a long-haired investigating horse. Although this blade has existed for a long time, the previous owners all cherished it very much, causing its sharpness to increase instead of decrease.]

Price: 6,800 Paradise Coins

Seeing the attributes of this sword, Su Xiao was happy. He searched for a long time for a sword-type weapon. Through the Black Fan Chamber of Commerce, the God Emperor Adventurer Group, the trading market, and so on, he finally found a sword-type weapon that was highly suitable for dragon flash to swallow.

Chapter 675: Get Rich

Putting away [go against defense], he also needed to open other treasure chests, and the upgrade of dragon flash was temporarily delayed.

Su Xiao wanted to open the remaining three treasure chests and sell the items he got, and then he would consider upgrading dragon flash.

Picking up the other dark purple treasure chest, this was the treasure chest that Flying Tank dropped. His strength was more muscular than Nobunaga's.

It had been more than ten seconds since the European state, Su Xiao, directly opened the treasure chest of Flying Tank.

[You have opened the treasure chest(dark purple).]

[You have received 7500 Paradise coins.]

[You have received 2100 Paradise coins.]

[You have received urgent battle boots(dark purple).]

[Rapid Boots]

[Origin: Full-time Hunter]

[Rarity: Dark Purple]

[Type: Boots(color: black)]

[Durability: 67767]

[Equipment Requirement: Strength 20, Agility 55]

[Equipment Effect 1: Rapid(Passive), Movement Speed +27, Kick Skill Movement Speed +13.]

[Equipment Effect 2: Kick Skill Amplification(Passive), Kick Damage +15, Additional 'Strength Penetrating Effect'.]

[Power Penetrating effect: Kick ignores 30 of the enemy's muscle defense and is directly used for internal organs.]

[Rating: 240(Dark purple equipment evaluation is divided into 151 to 260 points)]

[Description: Speed is strength.]

[Price: 65,000 Paradise Coins]

...

Seeing the attributes of this pair of boots, Su Xiao raised his eyebrows. This thing was excellent. At least it was much better than the [tactical boots] he was wearing now, and its appearance was beautiful.

After the long sword in Su Xiao's hand was put together with the enemy's weapon, he often used a sidekick. This could significantly strengthen the power of the sidekick. The feeling would not be too sour if a side kick landed on the enemy's waist.

Putting the [urgent battle boots] aside, Su Xiao picked up the pale gold treasure chest dropped by Bobo.

This treasure chest was not dropped alone but combined with Vigilante's treasure chest.

There was no flash even when he opened two high-level treasure chests, which made Su Xiao a little nervous. After all, whether the treasure chest flashed was proportional to his harvest, and the yield was proportionate to his strength.

[You opened the treasure chest(light gold).]

[You obtained 9,700 Paradise coins.]

[You have obtained 6,000 Paradise Coins.]

[You have got Soul Crystal(Intermediate) ×4.]

[You have received Super Destruction Fist(Skill Scroll).]

[Super Destruction Fist]

[Rarity: Dark Purple]

[Type: Active Skill]

[Effect: This skill requires two seconds to store energy and gather it on the right fist. After storing energy for two seconds, use a heavy fist with extreme destructive power. Damage: 300 points of elemental damage + Strength x 8 + hand force melee weapon attack x 1.2(Hand force melee weapon is a pair of gloves and a tiger finger)]

[Hint: Super destructive fist(active) requires 120 energy and 5 HP.]

[Hint: Super Destruction Fist(active) Cooldown time is 10 minutes.]

[Prerequisite condition: You need to master the strengthening ability. A strength above 60 points can master this skill.]

[Rating: 260(Dark Purple item evaluation: 151 to 260 points)]

[Description: One punch - Destruction!]

...

The harvest of this light gold treasure chest was quite good. Although it did not open a light gold item, the price of this dark purple scroll was not low.

There was only one golden treasure chest left, and there were 30 seconds left in the state of Europe. Although several high-level treasure chests did not flash, they were not water, which made Su Xiao heave a sigh of relief. The flashing phenomenon could only be encountered by luck, and the probability was average.

Picking up the remaining golden treasure chest, Su Xiao took a deep breath and opened the treasure chest.

There was still no flash. A dagger appeared in Su Xiao's hand. This dagger was very familiar.

[You opened the treasure chest(gold).]

[You have obtained 12,000 Paradise coins.]

[You have received 4,000 Paradise Coins.]

[You have obtained Soul Crystal(Big) ×1.]

[You have obtained Bian -- dagger(Gold).]

[Bian - a dagger.]

[Origin: Full-time Hunter]

[Rarity: Gold]

[Type: Dagger(Length: 31.5cm. Wide: 9 cm(Hollow Blade)]

[Durability: 40/40]

Attack Power: 102, 181

Equipment Requirement: Strength: 10 points, Agility: 60 points, Dagger type essential skill: L. 30 points.

Equipment Effect 1: Poison Blade(Passive). The dagger is coated with poison. This poison is 0.1 milligrams and can cause a whale to be paralysed for over half an hour. After being injured by this dagger, the body attribute will be judged. If the judgment is not passed, it will be paralysed for 10 seconds or 3 hours. If the body attribute is low, it will cause the heart to be paralysed and die.

Poison Blade remaining: 100(Can be used to replenish the remaining amount of poison blade).

[Equipment effect 2: Hollow Blade(passive). The unique shape of the Bian - dagger can maximise the wound. If you stab the enemy's organ, there is a 33 chance it will immediately wither and lose its original function.]

[Equipment effect 3: Soul Blood (passive). The wound caused by the Bian - dagger(longer than 8 centimetres, depth more than 3 centimetres) will add the state of 'non-stop bleeding'. The suture, bandaging, medicine, etc., will all be ineffective until the victim loses more than 60 of his HP due to the bleeding. The bleeding state will be removed, and the next attack will trigger the effect of 'non-stop bleeding'(This effect is the current HP, not the maximum HP of 60)]

[Equipment effect 4: Thin blade(passive), penetration +10(Bian - dagger blade is thin, so the durability is low but extremely sharp.)

[Rating: 380(Gold equipment evaluation is divided into 310 to 400 points)]

[Description: Common - Middle-stage works, also at its peak.]

[Price: 160,000 Paradise coins.]

...

Seeing the attributes of [Bian - dagger], Su Xiao's eyes jumped. He was almost stabbed to death by this thing before.

After he was stabbed, he simply sutured the wound. After drinking the No. 1 potion, he could not stop the bleeding, so when he was fighting with the clown, wherever he went, there would be a pool of blood left on the ground until the bleeding caused his head to be heavy and his feet to be light, and the bleeding state disappeared.

For this thing, Su Xiao was the most touched. In the fierce battle in the world of hunters, the one who hurt him the most was not the hand knife of Ivette nor the gun worth 100,000 paradise coins, but this hateful dagger.

Fortunately, Su Xiao was only stabbed once. If he was hit the second time, he would most likely die.

This was still because this dagger did not paralyse him. If there were no green steel shadow energy to contain the poison, with his physical attributes, he would probably be paralysed on the spot, and then he would be dead.

Su Xiao, look at, was using [Bian - dagger]. Although this thing was powerful, it was not suitable for him. He had a right-hand knife and a broken line in his left hand. It had already formed a perfect melee system. If he suddenly changed a dagger, his combat power would decrease, and he would not be able to use this thing.

But if this thing was in the hands of some assassin professions, it must be a terrifying weapon. The enemy would be paralysed even if it could not be killed in one blow. At that time, he could kill it however he wanted.

For example, if Gulu got this dagger, her combat power would increase by at least 30.

After the treasure chest was opened, Su Xiao began to calculate the profit of opening the treasure chest.

Paradise coins earned 32,200 points, plus Su Xiao's remaining Paradise coins, 44,500.

White grade equipment x10

Green grade equipment x24

Green material x8

[Blue grade equipment x10]

[Blue grade material x4]

[Dark purple grade equipment x2]

[Gold grade equipment x1]

Skill Scroll ×2

Soul Crystal(Middle) ×4

Soul Crystal(big) ×1

...

Su Xiao first took out two pieces of dark purple equipment, [Defying and Spring(dark purple)], into the storage space, [urgent battle boots(dark purple)] on the equipment, replacing [tactical boots(purple)].

Although he got 400,000 paradise coins and a pile of equipment, these things could not withstand Su Xiao's consumption.

First, he wanted to upgrade the sword master. Each level required 50,000 paradise coins and soul crystal(middle) ×10.

The sword master was now LV. 23, consuming all soul crystals(middle) that could be upgraded to LV. 30, and at the same time, it required 35,000 paradise coins.

And Su Xiao also had to improve the quality of the dragon flash, which was also a significant expense. After upgrading the dragon flash, he also had to ensure the strengthening level of the dragon flash, which was to visit the equipment maintaining hall.

Suddenly, Su Xiao had a feeling of 'absurd'. These benefits seemed to be not enough for him to spend.

Chapter 676: Level 30 is Not the End

Su Xiao sat cross-legged on the bed and put all the items into storage. These items would be sold in the trading market later.

Soul crystals(medium) appeared in Su Xiao's hands, a total of 72.

Paradise coins 4,4,500 points, soul crystal(medium) ×72, it was time to improve the sword master.

[Improve sword master Lv. 23(passive), consume 50,000 paradise coins and soul crystal(medium) ×10, Yes/No.]

"Practice to upgrade level 7!"

As soon as Su Xiao's voice fell, the soul crystals in his hand almost all exploded, leaving only two.

The paradise coins were quickly consumed and stopped after deducting 350,000 yuan. Su Xiao still had 54,500 paradise coins left, and the assets instantly returned to five figures from six figures.

The soul crystal fragments formed a bright silver chain of light that rushed straight into Su Xiao's brain.

There was a roar in his head, Su Xiao's eyes fell into darkness, but a smile was on the corner of his mouth. The higher the level of the master of the sword, the more intense the vision appeared. There was a time when he continuously increased his level 5 sword skills. It was also a situation.

In the dark, those soul crystal fragments formed seven figures. These figures stood quietly in the darkness.

With a crash, a figure formed from soul crystal fragments shattered, including a long sword that rushed straight at Su Xiao.

If it were an ordinary person, they would subconsciously retreat or dodge when a sword flew towards them, but Su Xiao did not retreat but advanced, controlling his consciousness to meet it.

His brain roared again, and the experience of the sword technique came out of his memory, instantly becoming his body instinct.

Su Xiao's consciousness had just recovered, and another long sword formed from soul crystal fragments stabbed over.

It was repeated repeatedly, and after an unknown time, Su Xiao's eyes became brighter and brighter, and the light in his eyes became sharper.

"Again."

Su Xiao looked ahead, and he suddenly found nothing in front of him, and a sense of reluctance emerged from his heart.

The darkness retreated, and when Su Xiao opened his eyes, he was already standing in the exclusive room, and Dragon Flash was held in his hand at some point.

With Su Xiao as the centre point, the surrounding few meters were full of 'particles' the size of a pinky. These 'particles' were of different colours, and the sections were neat.

"Woof ---"

Hearing Bobowang's trembling voice, Su Xiao turned his head to look.

At this time, Bobowang had a yellow safety hat on his head, hiding in the corner with half of the wooden table in his mouth. He was shivering behind half of the wooden table.

Just now, Bobowang was ready to sleep in, but he was kicked away when he closed his eyes. Then he saw a frightening scene. His master closed his eyes and slowly pulled out the long sword at his waist. The blade rubbed against the sheath and made a pleasant sound.

Bobowang swore that he had never heard such a pleasant voice, but in the next moment, he almost peed.

Slash, densely packed slashes, all items a few meters away from Su Xiao were cut into pieces.

"What are you hiding there for?"

The dragon flash in his hand danced with a sword flower. Su Xiao was more familiar with the weapon in his hand. This seemed to be a part of his arm. He could feel the subtle flow of the air through the blade. This was a feeling that had never appeared before.

Bobowang ran to Su Xiao and shouted a few times at the furniture wreckage nearby.

"This is an accident."

Su Xiao looked at the prompt record of the reincarnation paradise. Sure enough, a large piece of information about improving the master of sword skills.

[The master of sword skills has been upgraded to LV. 24.]

[The master of sword skills has been upgraded to LV. 25.]

[Saber Master has been upgraded to LV. 26.]

...

[Saber Master has been upgraded to LV. 30!]

[Saber Master has been upgraded to LV. 30. LV. Additional Ability has been unlocked.]

Seeing this hint, Su Xiao frowned. He was a little worried that the master of sword technique had reached LV. 30 was the end. If it were true, it would be bad news for him.

He did not check the additional ability for the time being. Su Xiao tried to upgrade the master of sword technique, LV. 30 points.

[- Upgrade master of sword technique, LV. Requires: Soul Crystal(giant) ×1, Paradise Coins 100,000 points.]

At the same time that Su Xiao breathed a sigh of relief, he was inevitably a little speechless. He had only obtained a soul crystal from the golden treasure chest(big). It could be seen how rare this thing was, and now every level 1 master of sword technique needed one.

Also, consuming 100,000 paradise coins per level was enough to make Su Xiao 'bankrupt'.

But the sword master had not reached the end, and this was undoubtedly good news. There was nothing more troubling than the core ability reaching the end.

Every level of the sword master was a slight upgrade, and every story was a significant upgrade. Su Xiao immediately checked the information of the sword master.

[- sword master: Lv. 30.(passive)]

[Skill effect: Raises knife-type weapon attack power by 134. Knife technique skill dramatically increases.]

[Lv. 10 additional ability]

[All Life Rhythm(Peak): This ability can not be strengthened in the reincarnation paradise. It can only be comprehended by the hunter himself. (It has been upgraded from advanced to top grade)]

[Lv. 20 additional ability.]

[Saber Light: Able to launch mid-range attacks. The degree of sharpness corresponds to the level of the saber technique. There is no interval of usage.]

[Lv. 30 Additional abilities.]

[Blade of the Soul: During the years of training in the saber technique, your mind is no longer affected by external objects.]

[Effect: Immune to mental control effects!]

...

Although Su Xiao had foreseen that the additional ability of the master of sword skills, LV, was powerful, he did not expect it to be so powerful.

However, this was the same as Su Xiao's previous deduction of sword skills. He previously thought that sword skills improved body, heart, and abilities.

Body(All Rhythm - Top Rank), ' - Skill(Saber Light) ', both sides had been improved, and now it had reached the level of ' - heart(blade of the spirit) '.

As for the so-called 'immune to the spiritual control effect', such as the illusion of the Naruto world, the control of some spiritual mages, etc., were all ineffective against him.

This made Su Xiao not only look forward to it, but he could upgrade the sword master to LV. 40, what kind of ability would appear?

Undoubtedly, that ability would be compelling and could make the sword technique produce a certain degree of qualitative change, void space. Or stronger ability?

After upgrading the sword master, Su Xiao looked at Bobowang. He transferred 5000 paradise coins to Bobowang.

"Buy a new batch of furniture." Su Xiao saw the strangely shaped sofa(kennel) and immediately added, "The same style as the original."

Getting the pocket money of 5000 paradise coins, Bobowang ran out to wave, his furry tail swinging like a tiger.

After spending one paradise coin to clean up the broken furniture in the room, Su Xiao left the exclusive room and went straight to the trading market. He wanted to deal with the equipment.

More than ten minutes in the trading market.

"Green quality, 30-grade defense gear. If you are not sincere, do not bother."

"This price of yours is too high, blacking me, right?"

"If you like to buy, don't buy a row!"

The trading market was crowded with people, and contractors, dressed in all kinds of clothes, shuttled between the stalls, occasionally stopping to bargain with the stall owner.

Su Xiao passed through the crowd and approached the stall he often used. This time, the number of things he wanted to sell was exaggerated, and it must attract a lot of contractors to watch.

However, Su Xiao hoped that the contractor would come to watch. Most of the items he sold were of low quality.

But the quality could have been higher for Su Xiao. It should be known that green and blue quality equipment was the core equipment of the first-rank contractor. As for purple quality equipment,

they were generally held by the second-rank contractor. This could be known when the contractor was ready to cooperate to kill the one-eyed giant man.

After paying the right to use the paradise coins to rent the stall, Su Xiao began to organise a large amount of equipment.

Chapter 677: No Choice

There are 56 pieces of equipment and materials from white to blue quality. Su Xiao is priced at 3% lower than the market price. These items total 146,800 points of Paradise Coins.

Apart from these green and blue items, the higher quality items had to be carefully priced.

[Tactical Leather Boots(Purple)]

[Bloody Claw Assault(Blue Skill Scroll)]

[Super Destructive Fist(Dark Purple Skill Scroll)]

[Bian - Dagger(Gold)]

That's right, Su Xiao would sell the golden weapon [Bian - dagger], but the price was temporarily uncertain.

[Tactical Leather Boots (Purple)] Su Xiao is priced at 50,000 Paradise Coins. This thing is entirely satisfactory. Apart from its good quality, it has no prominent features.

[Bloody Claw Assault(Blue Skill Scroll)] was priced at 20,000 Paradise Coins. It was true that this was a skill scroll, but the consumption was extremely high.

[Super Destruction Fist(Dark Purple Skill Scroll)] was priced at 300,000 Paradise Coins! It looked exaggerated, but there would be a contractor buying it. For a strengthening-type psychic, this was a small consumption. The interval between using it was short, and the power of the ability was incredible.

As for the last [Bian -- dagger], Su Xiao was a little troubled. If not for the fact that this thing was not suitable for him, he would not sell it.

Turning the equipment into real strength was the best way. A piece of gold equipment was useless, and the use of [Bian - dagger] was too high.

[Equipment requirement: Strength 10 points, Agility 65 points, dagger type essential skill - Lv. 30 points.]

Su Xiao could still work hard in terms of agility. As for 'dagger type basic skill - Lv, above 30', Su Xiao smiled. Only the basic skills of master level or above could be upgraded to Lv. 30 points. The cost of upgrading firearms proficiency was still vivid in his mind, so Su Xiao decisively gave up on this dagger.

After hesitating, Su Xiao set the price of [Bian - dagger] at 100 paradise coins, but this was the accessible auction mode.

The so-called accessible auction mode was the increase of the price. Only when the price satisfied Su Xiao would he confirm that the transaction was successful. If Su Xiao was not happy with the price, no matter how high, he could not buy [Bian - dagger].

The stall's name was 'boutique', and this somewhat 'scary' booth opened.

On the stall, a large amount of green light shone, blue flowing colours, and purple light was very eye-catching, but compared to the dark purple scroll, the light of the purple equipment was not deep enough.

A gentle golden light slowly spread in the middle of the stall, and it was the king of this stall.

Ten seconds after the stall opened, a twin-tailed girl passed by the booth. She was drinking a carbonated drink with a straw in her mouth. She was shocked by the scene before her when she habitually turned her head to look at the stall beside her.

"My God, which big adventure group leader is running away with his sister-in-law?"

The twin-tailed girl quickly ran forward. She was a first-rank contractor. She had not been in the reincarnation paradise for a long time. She had seen the best equipment was purple or in the trading market.

"Is the quality above purple, dark purple, but what is the grade of this gold? Divine artifact?"

The twin-tailed girl took out her mobile phone and took a photo with a click.

"My day!"

A shirtless, muscular man stopped in front of the stall. He was stunned for two seconds, then quickly walked to the booth. After the initial surprise, he found that the items on the stall were very affordable, excluding the possibility that the stall owner was an equipment merchant.

"This... brother, may I ask, have you broken through the world of hunters?"

It was no wonder that the strong man had this kind of question. Almost all the equipment production places were full-time hunters.

Su Xiao sat cross-legged behind the stall with the tablet. When he heard someone ask, he suspended the puzzle game.

"It's just a few fights."

"Is that so? Then you are simply an Emperor."

The strong man shook his head, somewhat envious of Su Xiao's luck. He would not have this expression if he knew how many treasure chests Su Xiao opened.

A minute later, the contractor surrounded the stall.

Two minutes later, Su Xiao was surrounded by the contractor's army. 'The cute girl with two ponytails holding a drink had been pushed to an unknown place. She should be sulking in the crowd. She was the first to discover this stall contractor.

Five minutes later, Su Xiao could no longer see the scene outside. The place he saw was full of contractors, and more than a dozen stalls nearby were affected.

Ten minutes later, a contractor from half of the trading market rushed to Su Xiao. If it were only a large number of green and blue equipment, there would not be such a scene because of the golden dagger.

At this time, Su Xiao blocked the email function of the booth. The reason was that there were too many people asking for the price. The main goal of these people was [Super Fist] and [Bian Dagger].

There were so many emails that Su Xiao could not open them. Before he opened an email, many new emails had been spammed.

These emails were not sent to Su Xiao but to this booth. Booth number 8080 was elementary to remember. Because of this, Su Xiao often used this booth.

Su Xiao knew one thing today: when many people talked to him at the same time, he could not hear what these people said. He only listened to a buzzing sound, like thousands of flies circling him.

Su Xiao seemed to have a number on his forehead. He regretted showing these things at the same time. Before, it was to gather the number of people. Now, this action was a little extra. If not for the fact that outsiders could not enter the stall, he suspected that these people had already pulled him out of the booth.

After all, powerful equipment was equal to strength. Although the ability was essential, the equipment could maximise the power of itself.

"White..."

"Byakuya... me."

"Don't... hug..."

Su Xiao vaguely heard a familiar voice. He looked sideways and saw a furious face. Wasn't this God Emperor?

The God Emperor should have received news from his subordinates. After all, gold-quality weapons rarely appeared in the trading market. Not to mention gold, even light gold equipment rarely appeared. Those who could get this level of equipment were generally large adventurer groups. The purple quality and above equipment rarely came out of the adventurer groups. They could digest it by themselves.

It was not rare to see solo players, but it was rare to see solo players as strong as Su Xiao.

"God, long time..."

Su Xiao said as if he had stopped, and the surroundings were too noisy. God could not hear what he said at all.

Su Xiao sighed. God seemed to see Su Xiao's helplessness, his face not only showed a smile, but this murderous guy also had a time when he was helpless.

Su Xiao was indeed helpless. If it were in the derivative world, he would directly use a 'light ring break', and the contractor, who could survive within ten meters, would not exceed two digits.

However, this was the reincarnation paradise. For safety, no one was allowed to attack each other. At most, they would mock each other.

"This golden... hand... I..."

The God Emperor spoke loudly, but it was too noisy around.

"Everyone, be quiet!"

A strong man beside the Emperor roared. Seeing the other person, Su Xiao immediately thought of the chimpanzee that would speak.

This roar was deafening, and it shocked the contractor around, making the area around the stall stop.

"About this golden dagger, let's talk."

The Emperor took the opportunity to say, and then there were angry curses around, and the black gorilla man turned and squeezed into the crowd.

The surrounding contractor was OK. They were just bargaining. At the same time, some too many contractors bargained with Su Xiao, and most people were thinking of picking up the cheap because they were comparing whose voice was higher to attract Su Xiao's attention. Finally, the scene appeared at this time.

Although it was very noisy, the things in the stall were bought very quickly. The price Su Xiao set himself was low. In addition, there were many people. In less than 20 minutes, there were about 150 thousand paradise coins.

After having enough paradise coins, Su Xiao sent 100 thousand paradise coins to Vivian.

Chapter 678: Black Merchant

There was a temporary contract with Winnie, so there was no possibility that she would go back on her word. Otherwise, Winnie would not even send a letter of debt. There was no verbal agreement between contractors. There was no room for oral agreements in this reincarnation paradise filled with killing and survival of the fittest.

The price of Su Xiao's stall was very fair, so after the booth was opened for half an hour, there were only two items left.

[Super Destruction Fist(Dark Purple Skill Scroll)]

Price: 3,000 Paradise coins.

[Bian - Dagger(Gold)]

Bidding price: 365,300 Paradise coins.

The price of the Bian - dagger continued to rise, growing to around 10,000 Paradise Coins per minute.

After finding that most items were sold, Su Xiao checked the remaining Paradise coins.

Except for 'Super Destruction Fist' and 'Bian's Dagger', the items on the booth sold a total of 216,800 Paradise Coins, plus the 49,406 Paradise Coins in Su Xiao's reincarnation points, a total of 266,206 points.

After deducting the 100,000 Paradise Coins he had given to Winnie before, Su Xiao still had 166.6 points of Paradise Coins.

One hundred and sixty thousand Paradise Coins was not a tiny amount, and the two most valuable items on his stall had yet to be sold.

After Su Xiao was surrounded for an hour, because of the mechanism of the trading market, if the contractor stayed in front of a stall for a long time without buying items, he would be forcibly teleported away. Hence, the contractor next to Su Xiao changed batch after batch.

Most contractors came to appreciate the attributes of the golden dagger. These people left after their eyes were full, so after three hours, the number of contractors gathered near Su Xiao's stall was significantly reduced.

Su Xiao breathed a sigh of relief. After taking off his headphones, he put away the tablet computer. Looking around, there were dozens of contractors who had been waiting impatiently.

"Everyone, I have been waiting for a long time."

Seeing Su Xiao open his mouth, the surrounding contractor came forward one after another.

"I will pay at most 150,000 Paradise Coins for the Destruction Fist..."

"This golden dagger, our leader wants to talk to you..."

"The golden dagger is 400,000 Paradise Coins. This is the highest price I can offer."

Reality proved that dozens of people talking simultaneously were also very noisy.

After Su Xiao found a contractor who wanted to buy from these dozens of people, he left the stall. The surrounding contractor needed some clarification.

Su Xiao found a quiet coffee shop and ordered a cup of fruit drink. He did not like the bitter taste and burnt smell of coffee. He came here because the environment here was good.

After sitting in the coffee shop for a few minutes, Su Xiao returned to the stall of the trading market.

Sure enough, only a dozen people were in front of the stall. Even if the contractor passed by, he was only attracted by the golden dagger for a moment and left.

Su Xiao sat behind the stall in the helpless eyes of the dozen or so contractors. The dozen people looked at each other.

"You ask first."

"You go first, and you go first."

These dozen people should be chatting while waiting, and at this time, they actually 'humbly'.

"Tsk, if you want others to be 'cannon fodder', just say it. I will go first."

A strong man with a sleeve walked forward. Su Xiao judged the moment he saw the other person. The other person was psychic. He fought with the adventurous group in a derivative world. This was still easy to judge.

The characteristics of the psychic ability were related to the character. The straightforward character was generally the strengthening system. The fickle people were generally the changing system.

It was obvious that this strong man had an 80 chance of being a strengthening type.

"What are you looking at? I am a strengthening type."

Su Xiao raised his eyebrows. This strong man looked rough, but he was not stupid. Being straightforward and silly was not the same thing. Stupid people often have many unrealistic ideas.

"300,000, no bargain."

Su Xiao also knew what the other party wanted to buy. It must be the Destruction Fist. With the other party's height of more than 2.6 meters, the golden dagger was a toy dagger in the other party's hand.

"Why not bargain? It is your problem whether you sell it or not. It is my problem whether you bargain or not."

After thinking for a moment, the strong man picked up the dark purple scroll on the stall and said, "This thing is compelling, and the consumption is not big, but..."

The strong man's tone changed, and he looked at Su Xiao.

"Using this ability requires two seconds of accumulation. These two seconds may represent life and death. Not to mention two seconds, even if it is my profession, I will give up the ability to store up more than 0.5 seconds."

The strong man was not belittling this scroll. What he said made some sense. Super destructive fist required two seconds of accumulation to be the biggest weakness. In an intense battle, not to mention two seconds, even a few seconds was enough to be fatal.

Su Xiao shook his head. What the other party said made sense, but it was not this situation.

"What you said makes some sense, but the introduction on the skill scroll is the skill effect of Lv. 1. It is likely to reduce the accumulation time by increasing the level of the destructive fist. If it is a dark purple scroll, it should be no problem to upgrade to level 30, which is three reward opportunities. If you are lucky, the accumulation time can be reduced to a very short time."

Su Xiao's words made the contractor nod repeatedly, and the strong man grinned.

"You have good taste, brother. That's why I want to buy this scroll and gamble."

The strong man liked the super destructive fist ability very much. With his punching bag-sized fist and powerful psychic ability, if he upgraded the super violent fist in the Reincarnation Paradise, the strong man's fist must be more potent than Bobo's.

"290,000, this is my last bottom line."

The strong man no longer made a sound. Su Xiao nodded. 2.9 million was a frank price. But just as he was about to trade with the strong man, a man wearing a hood quickly came.

Seeing this figure wearing a hood, Su Xiao raised his eyebrows, and he could not sell the destructive fist. He wanted to keep it as a

"If I trade with you, I won't accept Paradise Coins."

"Of course, we agreed on bartering. Also, I apologise for being late for an hour."

The man in black laughed a few times. When he looked up, everyone found his face covered with a black mask. A skull was on the mask, and white bones were crossed under the skull, like a pirate flag.

"Black Sail Merchant Guild?"

The strong man in front of the stall was a little unhappy. It seemed that he did not like these black merchants in the derivative world.

"I am Black Merchant 24K, Mr. Byakuya. Nice to meet you for the first time. This is a late gift."

The black merchant handed over a card. This was the method to contact the black merchant association. To be exact, it was the method to reach the black merchant 24K.

There were many black merchants in the Black Sail Merchant Association. Their clothes, height, and voice were all very similar. The only difference was this card.

"Did you get what I wanted?"

"I got it."

Three knives appeared in the hands of the black merchant. Seeing the quality of these three knives, the surrounding contractor gasped. Three dark purple quality knives, this kind of scene was very rare.

"Very good."

Su Xiao withdrew from the stall. If he could negotiate with the black merchant, there was no need to set up a booth. Trading with the black merchant could save a process.

Assuming that Su Xiao successfully sold a 'super destructive fist' and a 'gold dagger' in the trading market, he would only get a lot of paradise coins, and the possibility of bartering with the contractor was minimal.

After getting the paradise coins, Su Xiao still had to go around the world to buy the needed items.

But trading with the Black Fan Chamber of Commerce would save this process. He could directly get the items he needed. A chamber of commerce's material reserves was not comparable to Su Xiao's, a lone ranger.

Moreover, the Black Fan Chamber of Commerce specialised in business. Their material reserves even exceeded that of large adventurer groups.

Chapter 679: Heart of the Ocean

Su Xiao and the Black Merchant came to the coffee shop between them and sat opposite each other.

"Mr Byakuya, I have brought the three dark purple weapons. I don't know the ' Destruction Fist Scroll 'and' Gold Dagger '."

The black merchant wanted to exchange three dark purple knives for the 'Scroll of Destruction Fist' + 'Golden Dagger'. Although he didn't say it clearly, that's what the other party meant.

Su Xiao took out the 'Scroll of Destruction Fist'.

"Let's trade. This thing will be exchanged for three dark-coloured weapons."

"This... Mr. Byakuya, are you kidding?"

"Look at me. Does it look like a joke?"

Su Xiao looked at the black merchant with a smile. He dared to kill the members of the adventurous group in the Reincarnation Paradise, or rob the other party's things, let alone the black merchant who was afraid of the adventurous group.

The black merchant looked up and looked at Su Xiao. After looking at each other briefly, he turned his head, and cold sweat seeped from his cheeks under the mask.

"Mr Byakuya, since we both have what we need, let's treat each other sincerely. I brought a lot of good stuff this time."

The black merchant did not mention the previous thing. He did not say he would use three weapons to exchange scrolls and daggers. He was just testing Su Xiao's bottom line.

But the black merchant found this guy before him challenging to test. He read some meaning from Su Xiao's eyes.

If I meet you in the derivative world... I will kill you!

Su Xiao was kept. He just stared at the black merchant with a smile on his face.

"Haha, Mr. Byakuya, that..."

The black merchant laughed with cold sweat on his face.

"You brought a lot of good stuff? Take it out and have a look."

Su Xiao took out a cigarette and lit it. After taking a deep breath, the tension disappeared.

The black merchant breathed a sigh of relief. He was too familiar with this sense of oppression. The contractor had this kind of oppression and was difficult to provoke. He was either a madman, a pervert, or a homicidal maniac.

"Of course. By the way, what does Mr Byakuya want to drink? My treat."

The black merchant immediately made the atmosphere more harmonious. Su Xiao waved his hand. A few minutes ago, he had a stomach full of juice here.

The black merchant simply did not order anything. He just gave the waiter five points of paradise coins as a tip. The staff waiter gave the black merchant a wink and walked away. He pretended he did not see the two people talking in the coffee shop without ordering anything. No one drank anything, even if he called something. It was better to give it to the cute girl beside him.

The black merchant first took out three dark purple weapons and then took out a lot of items in the storage space.

The quality of these things could have been higher, but most were not practical. There were only a dozen real good things.

This was also the means of the black merchant, taking out a pile of things, good or bad.

"If I still need it after the deal, I can't get more weapons? I will pay for the later weapons."

Although Su Xiao already had two dark purple weapons, to upgrade dragon flash to light gold, he analysed that it needed at least five, seven dark purple quality, which was still a conservative estimate.

"No more..."

The black merchant looked at Su Xiao, and his gaze was clearly: Big Brother, do you want to eat this? You want it so much. How many weapons have you bought from us? Do you have a beep in your heart?

Of course, Su Xiao did not know what the black merchant was thinking. He picked up the three dark purple weapons on the table.

[Wind Bell Teeth (Dark Purple, Score: 160)]

[Dragon Kiss(Dark Purple) Rating: 180]

[T333-K9(Dark Purple) Rating: 201]

The three weapons were all in line with the specifications. Although the last one had a strange name, it had the highest score. It was a weapon made by an employee.

These three weapons had been reserved. What Su Xiao had to do next was find goods from the items the black merchant took out and make a deal with them.

The Destruction Fist Scroll was obviously not comparable to these three weapons, but if the golden dagger were added, then the Black Merchant side would have to take out more chips, so in front of the Black Merchant, there were 12 kinds of light gold items, 20 dark purple items. God knows how they accumulated these things. The financial resources of the Black Sail Merchant Guild were becoming increasingly terrifying, and it was no longer the size of the previous one.

And this time, the president of the Black Sail Merchant Guild, Qian Dapang, ordered that this golden dagger be taken down, which would help their Black Sail Merchant Guild become famous in the Reincarnation Paradise.

A lone ranger like Su Xiao did not care whether he was famous, but the fewer people who knew him, the better. But the Black Sail Merchant Guild was different. The more people knew them, the better his business would be.

The way the Black Sail Merchant Guild started was not very glorious. They started their business at a high price in the derivative world.

After becoming wealthy, Qian Dapang immediately stopped this easy way to attract hatred and make money. The original funds could be dirty, but he could not do it later. So he changed to doing business usually and had a joint investment with the God Emperor Adventurer Group to open an

auction. The scenery was endless for a time, and the more he did, his reputation gradually improved. This was why Su Xiao sometimes bought things to look for the Black Fan Chamber of Commerce.

Unfortunately, the reputation left behind by the Black Fan Chamber of Commerce was too bad. The president of the Black Fan Chamber of Commerce, Qian Dapang, secretly decided to set up an auction alone, and the kind with a good reputation, to make the name of the Chamber of Commerce.

After learning that a golden quality dagger appeared in the trading market, Qian Dapang opened his eyes! He ordered that he get it and use this dagger to promote the auction.

Now the auction only had a prototype in Qian Dapang's heart. Whether it could be opened depended on his ability. Once it succeeded, the Black Fan Chamber of Commerce no longer had to be afraid of the adventurous group, fighting against the adventurous group with the power of money.

Before the black merchant 24K left, Qian Dapang asked him to bring all the high-level inventory of the Black Cavalry Chamber of Commerce.

Su Xiao began to pick up the objects on the table. He did not care about the quality of the items. He only cared about whether the things were practical, so he carefully checked the dark purple items.

When Su Xiao picked up a 'sapphire', his hand paused, and the heart of the black merchant opposite him twitched.

[Ocean Heart]

[Origin: Pirate King - Holy Land - Mary Qiaoya]

[Rarity: Light Gold]

[Type: Gem(Can be embedded into any metal equipment)]

[Embeddingeffect: Mana +400 points, Mana recovery speed +35 points(every hour)]

[Rating: 310 +(the highest score of light gold quality)]

[Price: 99,990 Paradise Coins]

...

Su Xiao's current mana recovery rate was 57 points per hour. This was still the bonus situation of equipment. He had a total of 1733 points of mana values. If he consumed all the mana values, it would take at least 30 hours to recover.

But if this gem was inlaid on the equipment, his mana recovery speed would reach 92 points per hour, and it would only take 18 to 8 hours to recover the total mana values.

Not only that, the Heart of the Ocean would also increase 400 points of mana values. This was 400 points of mana values. Su Xiao was like using the Psychic to devour, and he needed four derivative worlds. Although the mana values consumed by the Psychic were permanent, these 400 points were the equipment effect.

In this way, Su Xiao's mana values would break through 2000 points, which could let him open a counterattack shield one more time. In a fierce battle, what was the concept of having another counterattack shield, which might be the key to victory and defeat?

Chapter 680: Foodie

The green steel shadow and the energy shield consumed many mana values. With this thing, Su Xiao's endurance ability would be significantly improved.

However, the value of this thing was too high. The evaluation of the golden dagger was divided into 380, and the evaluation of this gem was divided into 310 +.

Moreover, this thing was very popular. As long as the Black Fan Chamber of Commerce was willing to bid, there must be a lot of powerful wizards rushing to buy it.

Seeing Su Xiao pick up the 'Heart of the Sea', the black merchant could only try to calm down. He knew the value of this thing very well.

"This thing is not bad."

"Well... it is not bad."

The black merchant was hesitating whether to exchange three dark purple weapons and the heart of the sea for a super destructive fist and golden dagger.

He did not think highly of the super destructive fist, but Su Xiao had said before that these two things were not only sold but also wanted to be packed and sold. This made the black merchant very uncomfortable. The black scroll was in the shape of a stick. No matter how he looked at it, it looked like a sh*t stirrer.

Say it is not valuable, it is still a dark gold scroll, say it is valuable, it is lucky that 300,000 paradise coins can be sold.

Dark gold skill scroll and golden dagger, although it looks very scary, the value is actually limited, the valuable is still the golden dagger.

"This thing is also good."

Su Xiao picked up a dark purple item in front of the black merchant again, this time the black merchant was not calm.

"Mr. Byakuya, three dark purple weapons plus the heart of the sea and the things in your hands, the value has already far exceeded that scroll and golden dagger. Even if it is a golden quality equipment, it has flaws and is powerful, but its durability is too low. Although it is suitable for the assassin profession, the assassin sometimes needs to fight the enemy in close combat..."

Su Xiao's hand paused.

"Since that is the case, then forget it."

After that, Su Xiao got up and wanted to leave. The black merchant was very calm, but when Su Xiao walked to the door of the coffee shop, the expression of the black merchant was a bit wrong. His long business experience made him judge that Su Xiao really wanted to end this deal.

This was indeed Su Xiao's idea. He did not have to trade with the Black Fan Chamber of Commerce. The other party had put on an insincere appearance at the beginning.

Moreover, he knew that the people in the Black Chamber of Commerce were all professional merchants. If he did not make this determination, the other party would definitely catch the flaws and then lower the price.

Su Xiao walked to the door of the coffee shop. Of course, when he pushed open the door of the restaurant, the face of the Black Merchant was extremely ugly.

"If I mess up this business, the president will kill me."

The black merchant felt a chill all over his body, and the smile of the smiling tiger president appeared in his mind.

"Mr. Byakuya, wait!"

When the black merchant shouted this sentence, he knew that he had lost. As a businessman, he should not be influenced by foreign emotions.

Su Xiao stopped and looked at the black merchant.

The black merchant nodded and seemed to agree with something.

Su Xiao returned to his seat and took out the super destructive fist scroll and the golden dagger.

The black merchant handed three dark purple weapons to Su Xiao. He hesitated for a moment and pushed the Heart of the Sea to Su Xiao. As for the last item, the black merchant handed it to Su Xiao without any care. When Su Xiao picked up the second item, the black merchant looked like he was acting.

"Happy deal."

The black merchant got up and left. Although he was heartbroken about the heart of the ocean, it was not too bad. After all, in his opinion, the second item that Su Xiao chose was not much. That thing had been stored in the warehouse for a long time. It was a pity to abandon it. It was tasteless.

After the black merchant left, Su Xiao smiled.

"Luck may be saved. After searching for so long, although I have not found the most ideal item, this thing is also good."

Su Xiao held a small candle in his hand, about the length of a thumb, the color of this candle was gentle, like a piece of white jade.

Gold wax

[Origin: Sixth War Zone(Second Grade Space Battlefield)], Baya Shelter

[Rarity: Dark Purple]

[Type: Consumable]

[Effect: After use, equipment grade +1. The higher the grade of the equipment, the higher the chance of failure. After failure, the golden wax will disappear and the equipment will not be damaged.]

[Hint: The success rate of using white grade equipment is 100. Green grade success rate is 60. Blue grade success rate is 30. Purple grade success rate is 10. Dark purple grade success rate is 5.]

[Hint: This item will only increase the quality of the equipment and performance. It will not change the original attributes.]

[Rating: 259]

[Description: This is the relic of the rebel leader of Baya Shelter. It is the relic of the Son of Fate(fake). It is said that it can bring good luck. Facts have proved that this thing may not have that effect. Otherwise, how could the young Son of Fate(fake) be sent to the execution platform? Is it because he slept with his own sister?]

...

For Black Merchant or other contractor, the biggest use of this thing was to improve the quality of some blue and purple equipment. Because it was dark purple, it was destined to be expensive.

Who would spend a lot of money to build a low-level equipment? The answer was that Su Xiao would. The quality of the Fate Redemption lighter was blue. He had been trying to improve the quality of this thing.

Although the success rate was only 30, there was a need to give it a try.

Once Fate Redemption successfully upgraded to purple, the benefits were long-term, not comparable to the golden dagger that could not be used.

Su Xiao took out Fate Redemption and pressed the small piece of golden wax in his hand on it.

"Use it."

The golden wax gradually dissolved and finally wrapped up Fate Redemption.

[Hint: Checking 'Fate Redemption' and 'Golden Candle', Silence and Speed exceed 90. Both are time and luck items. Quality increases greatly and the effect increases greatly.]

[In the process of leveling... it takes 150 hours.]

Seeing the time needed, Su Xiao shook his head. This time, the stay time in the reincarnation paradise did not need Fate Redemption, but the cooldown time of Fate Redemption itself was six natural days. He used it when he opened the box before, so it did not have any effect.

After the equipment was sold, Su Xiao returned to the exclusive room.

Just entering the exclusive room, Su Xiao found that Bobowang had returned and was sleeping on the sofa(kennel).

The furniture had been bought again, all of the same style as before. Su Xiao sat in front of the book table.

Su Xiao took out the Heart of the Ocean first. He hesitated to embed this thing on which equipment. His current equipment was already luxurious.

[Weapon: Dragon flash +10(purple)]

[Scabbard: Divine afterglow(dark purple)]

[Weapon: Spider Queen(dark purple), black - white(purple)]

[Necklace: Will of Fire(pale gold)]

[Ring: Ring of Demon-Hunter(Dark purple set 1/3)]

[Hand: Bull-head Lord's Arm Armor + Boundary Break(Purple)]

[Shirt: Mist Armor(Dark purple)]

[Boots: Rapid Boots(Dark Purple)]

[Investigation Type: Eye of the Apostle(Light Gold)]

...

The most stable method was to embed it on the dragon flash, but it would be troublesome once there was a gem more suitable for the dragon flash. Embedding gems was easy, but it was difficult to remove.

Next was the 'will of fire', but this piece of equipment was not suitable. The reason was that Su Xiao had an ambition, which was to gather the demon hunting suit. In the demon hunting suit, there was a piece of the necklace.

The attributes of the demon hunting suit were too tempting. After collecting three pieces, the effect of the set could be activated.

Set effect 1: Demon Hunter(passive), Strength +15, Agility +10, Stamina +10.

Set effect 2: Melee Human(passive), Melee damage +40, maximum HP +20.

Set effect 3:(invisible)

...

Every time he saw this set effect, Su Xiao had a feeling of heart beating faster. He had already gotten one-third of it. The remaining two-thirds would no longer be a dream. Even if it was a dream, he had to pursue it. He could not be a salted fish without a dream.

Su Xiao took a deep breath and chose to embed the Heart of the Sea on the 'Demon Hunter Ring'.

[If you need to complete this embedding, you need to pay 5,000 paradise coins.]

Choosing to pay, the Heart of the Ocean shattered into eight small pieces, a circle of grooves appeared on the ring of the Demon Hunter Ring, a total of eight grooves, and the eight small pieces of the Heart of the Ocean just happened to be embedded.

Only there was no rejection. Embedding gems were very simple. If the fire-attribute gems were inlaid on ice-attribute equipment, it would be rejected. Su Xiao heard Xia say that the contractor did this when he was eating. He seemed to want a weapon with ice and fire attributes. He almost laughed at that time.

The embedding was completed quickly. Su Xiao's mana value soared to 2133 points. Although it was still not enough, it was much better than the previous shortage.

The Black Merchant wouldn't have taken out the Heart of the Ocean if not for a gold-grade dagger. Although it was a light gold-grade item, gems were rare, to begin with, and the embedding effect was extremely strong.

After embedding the gem, Su Xiao took out a knife, a dark purple quality knife.

Bloodshed.

Origin: Full-time Hunter

[Rarity: Dark Purple]

[Type: Saber]

[Durability: 78/ 78]

[Attack: 6594]

[Equipment requirement: Strength: 30, Agility: 23, Stamina: 15, Blade type basic skill: Lv - 16.]

[Equipment effect: Bloodthirst(Passive). When attacking, steal the enemy's blood and store it in the hilt. When the HP bar is stored to 100, it can trigger the Blood Burst Slash.]

[Equipment effect: Blood Burst Slash(active skill). Stab forward. If successfully stab into the enemy's body, it will trigger the explosion effect, causing 100 + weapon attack power x 2.1 + 30 true damage.]

[Note: Blood Burst Slash(active) has a cooldown of 16 hours.]

Rating 215

Description: Let... blood... explode.

Price: 57,000 Paradise Coins

...

This was the weapon that Su Xiao got at the Happy auction house. As soon as he returned to the reincarnation paradise, he appraised this knife. It was very surprised, it was dark purple.

Now that Su Xiao had gathered five dark purple weapons, he could not get more.

[Windchime(Dark Purple, Rating: 160]

[Dragon Kiss(Dark Purple) Rating: 180]

[333-K9(dark purple) Rating: 201]

[Bloody Blade(dark purple) Rating: 215 points.]

[Reverse and Spring(dark purple) Rating: 260 points.]

Su Xiao took out the dragon flash and gently stroked the edge of the dragon flash.

""Eat'. One day, I will be bankrupt by your 'eat'. "

Bobowang, who was sleeping on the sofa, looked up and looked at Su Xiao doubtfully. The small eyes seemed to be asking, "Master, what did you just say? Do you dislike that I can eat?"

"It's none of your business."

Su Xiao used the ability of the Supreme Blade, and a black light appeared in his hand, and the dark light wrapped the five dark purple weapons.

Even if it was this number, Su Xiao was not sure whether the dragon flash could be promoted. The higher the grade of the dragon flash, the more weapons of the same level were needed. There was this omen when he was promoted last time.

Ka ---

The five dark purple weapons wrapped in the black light released a burst of friction sound, and these weapons were being crushed.

Dozens of seconds later, a wisp of dark purple crystal broke out of the dim light. This was the essence of five dark purple weapons. These essences floated towards the dragon flash and quickly entered the dragon flash.

The dazzling purple light emerged, Su Xiao subconsciously turned his head.

"This kind of reaction... It seems that five is enough."

Su Xiao breathed a sigh of relief. Now he could wait for the dragon flash to be promoted.
