

R. Paradise 681

Chapter 681: Sharp

The time he seemed to be extended in waiting. Su Xiao held the tablet in his hand, not looking at the dragon flash flashing with purple light.

It would take some time for the dragon flash to complete the promotion. Su Xiao was looking forward to the light gold quality dragon flash.

Bobowang on the sofa lost interest after looking at it for a while, lying down and continuing to sleep, the tail hanging on the edge of the couch swayed occasionally.

Five minutes later, the purple light on the dragon flash receded a little. Su Xiao put down the tablet computer in his hand and stared at the dragon flash.

The purple light poured into the dragon flash. When the purple light was rich to a certain extent, a white dot appeared, and the white dot gradually changed to a pale gold colour as soon as it appeared.

After more than ten seconds, the dragon flash had no purple light. The blade's body was flowing with a pale gold colour, which was unusually beautiful.

[Supreme Blade has completed the sacrifice. The effect of the Supreme Blade is triggered by 2, which can replace the existing additional ability 'Shadow Dance(passive)', and can choose to replace the type: 11.]

A large row of additional abilities appeared in front of Su Xiao now. He could choose a different capability to replace the dragon flash.

Su Xiao had already thought of what ability to choose. Although Shadow Dance Breakability was good, other skills were more suitable for dragon flash.

[has chosen to replace, Shadow Dance Break(passive) has disappeared, the new ability 'cutting iron like mud(passive)' has been successfully fused.]

After the selection was completed, Su Xiao immediately checked the attributes of dragon flash. He not only wanted to see how much dragon flash had increased but also knew how many levels the strengthening level had dropped.

Dragon flash +8(- 2)(10 of the blade)

[Origin: Shadow of the Law]

[Rarity: Light Gold]

[Type: Saber]

[Durability: 98/98(+7)]

Attack Power: 102,160(raises by 18,26 points)

Equipment Requirement: Shadow of the Law

Supreme Blade Effect 1: Sharpness +16(+5)

Supreme Blade Effect 2: Cut iron like mud(passive), Sharpness +8.

[+5 Additional Effect: Armor Penetration]

[+8 Additional Effect: Sharpness +2]

[Rating: 270(60 points)]

[Description: Lost, encounter, battle, new life, growth, legend.]

Price: Can't be traded.

...

Su Xiao picked up the dragon flash. The current dragon flash only gave him a feeling that it was sharp and sharp.

If Su Xiao fought with Ermi at this time, if the other party dared to use his palm to resist the dragon flash, Su Xiao could cut off the other party's hand and let the other party taste what it meant to blow hair.

Su Xiao let go of the dragon flash in his hand, and the dragon flash fell freely.

Ka ---

Looking down, the body of the dragon flash was effortlessly inserted into the ground, leaving only the handle.

It should be known that the dragon flash was only a dozen centimetres away from the ground just now, and it did not speed up with its weight, only relying on the sharpness of the blade to stab into the ground.

Pulling out the dragon flash from the ground, Su Xiao was delighted with the sharpness of the dragon flash.

Although the 'cutting iron like mud(passive)' ability seemed a little singular and only increased the sharpness, this was only the first ability.

According to Su Xiao's experience, after the equipment was strengthened by 10, it would reinforce the existing ability. If it were ordinary equipment, all the additional skills would be enhanced. The dragon flash was different. The effect of the Supreme Blade would not be improved because of the enhancement, but the enhancement of +10 would not be wasted, and it would all be concentrated on the effect of the Supreme Blade.

The previous 'Shadow Dance Break(passive)' had a qualitative change because of the enhancement of +10. Now Su Xiao was very curious about what kind of enhancement the 'cutting iron like mud(passive)' would have.

After putting away the dragon flash, Su Xiao looked at the remaining materials. Most of the items he harvested had turned into strength. The remaining items were:

Soul Crystal(small) ×4

Soul Crystal(middle) ×2

Soul Crystal(big) ×1

Gold Medal of Honor ×1

Book of Talent, second page(light gold)

Book of Talent, third page(light gold)

...

There still needed to be one page added to the Book of Talent. He could activate the talent awakening mission in the next derivative world if he gathered three pages.

Ignoring these for the time being, Su Xiao looked at the four soul crystals in his hand(small) and did not know how to deal with this thing for a while.

Only soul crystals(middle) and soul crystals(big) were helpful for the current Su Xiao. Soul crystals(tiny) had no need.

Was he selling this thing? This was a good choice. As long as he was willing to sell it, every soul crystal(small) = 10,000 paradise coins in the trading market, someone would buy it indefinitely.

It could have been more cost-effective to sell it to those merchants. Su Xiao contacted a person through the reincarnation brand. Not long after, that person replied to the email.

"Brother White Night, what's the matter?"

Su Xiao contacted Adam, the leader of the Brotherhood adventure group. He met this adventure group in the Titan world. He was not a friend, but there was no hostile relationship.

When Su Xiao met two groups of medium-sized adventure groups, they were the Lycorisradiata adventure group and the Brotherhood.

The girls of Lycorisradiata were cold, and the Brotherhood was developing like water. It was already between the large and medium-sized adventurous groups. It was said that the Brotherhood had a potent wizard named Chen. He was a five-element wizard. Su Xiao had seen him once, which was before several derivative worlds.

"Soul crystal, do you want it?"

"Yes, I want as much as I have!"

"Three small ones, 40 thousand paradise coins."

"Sure, how do we trade?"

"Mail + temporary contract."

Su Xiao edited an email and sent it to Adam. Three soul crystals(tiny) were not worth running around. As for why he left one, it was because he had a particular use.

A few minutes later, Adam returned the email. Su Xiao received 40,000 Paradise coins. His remaining paradise coins reached 201206 points.

After the assets were sufficient, Su Xiao walked out of the exclusive room with a 'un heavy footsteps'.

Hearing Su Xiao open the door, Bobowang, who was sleeping, opened his eyes. There was some doubt in his eyes. He found that his master's back was a little tragic '.

Yes, Su Xiao went out with the momentum of 'If you fail, you will become a poor ghost '. Dragon Flash had been promoted to a light gold colour.

There were very few light gold quality weapons, let alone a sword-type weapon. If he wanted to let the dragon flash advance again, he did not know how many derivative worlds it was, so Su Xiao had to try his best to make the dragon flash.

Only when his strength became stronger could he get more benefits. After getting more help, his force would be more robust. This was a virtuous cycle. The strong were more powerful and the weak were weaker. This was the reincarnation paradise.

Su Xiao passed through the trading market and came to a magnificent building. Here, he could see great joy and great sorrow. The person still laughing at the last moment might be stunned in place. This was the equipment strengthening hall.

Although the risk of strengthening equipment is exceptionally high, an endless stream of contractors is still in the maintenance hall.

Su Xiao entered the equipment strengthening hall. When he entered the door, he saw the contractor kneeling before a kit-boosting machine. He held some metal fragments in his hand, and the metal fragments faintly flashed with dark purple light.

This friend's face was ashen as if he was mourning. His mouth was still muttering. Although the distance was very far, Su Xiao still heard some keywords. For example, how could it be like this... + primary weapon... +10 How could it fail... It had been added with the vital luck dust.

Su Xiao shook his head. This brother's primary weapon was broken, and he had a dark purple quality primary weapon. This meant this brother was a second-level, high-level, or third-level contractor.

In that cruel derivative world, without a primary weapon was equivalent to death!

Chapter 682: 3 Major Illusions in Life: I Can Do It

Su Xiao walked to the front of an equipment enhancement machine and pressed his hand on the sensor.

[Welcome to the Number 182 equipment enhancement machine. The user has paradise coins: 201206 points.]

Su Xiao took out the dragon flash if the paradise coins were insufficient. The benefits of strengthening weapons first were the greatest.

Su Xiao's operation popped a tray from the equipment reinforcement machine.

Chi ---

White steam spurted out from the equipment reinforcement machine. Su Xiao was already used to it. This was a normal phenomenon.

Putting dragon flash on the tray, Su Xiao took out a gemstone and put it on.

[Magic Stone of Illusion]

Quality: Dark Purple

Type: Rare Material

Effect: Able to avoid a failed strengthening penalty. If successful, the Magic Stone will not be consumed.

Rating: 260

Description: Magical crystals from the void are primarily used to protect equipment strengthening.

...

This was the reason why Su Xiao dared to visit the equipment strengthening hall many times. He was not sure how he could enhance dragon flash. He was here to increase his strength, not to find excitement.

The tray on the equipment strengthening machine was removed, and a prompt appeared.

[Equipment review... The review is complete, and the cost of strengthening Dragon Flash (light gold) is 31,000 Paradise Coins each time.]

Su Xiao operated the equipment strengthening the machine expressionlessly.

[has been re-examined according to the instructions. Checking...]

[Checking core completed. Each strengthening fee of dragon flash(light gold) is 31,000 paradise coins.]

Thirty-one thousand paradise coins strengthened once. Su Xiao closed his eyes with some 'despair looked. Failure was equivalent to 31,000 Paradise coins. This was still under the protection of the magic stone.

Equipment enhancement +5 and above failed. The enhancement level was zero, and the enhancement +7 and above failed. There was a 70 chance that the enhancement level was zero, and 30 of the equipment would break. If the enhancement +10 failed, the equipment would break.

As for above +10, each level was between heaven and hell. Success was heaven. The equipment attribute was greatly enhanced, which was equivalent to strength enhancement. Failure was hell. The example was the brother kneeling dozens of meters away.

[Yes/ No for this enhancement.]

"Strengthening."

[Strengthening begins. Please wait for five minutes.]

Rumble...

The equipment-strengthening machine began to operate, and it began to carry out complicated operations. The sound of electric currents could be heard from time to time, and the sound was astonishing.

Five minutes passed quickly, and the equipment-strengthening machine gradually stopped working.

Chi ---

Hot steam sprayed out, and a prompt appeared.

[Dragon flash(light gold) +9 success, yes/ no continue strengthening.]

Although the enhancement +9 success, Su Xiao would continue. There were several significant levels of strengthening. After reaching these levels, the equipment would have additional or increased the original attributes, such as +5, +8, +10.

Su Xiao aimed to strengthen the dragon flash to +10 or even +10. He wanted to see how strong the ability of dark purple 260 weapons could be.

"Continue to strengthen."

The equipment-strengthening machine continued to operate, roaring.

The five minutes needed to strengthen began to be extended. Su Xiao and the contractor in front of the equipment strengthening machine nearby also felt the same. A somewhat funny contractor had already done radio gymnastics while waiting. Was this mysterious enhancement of the 'legend'?

Su Xiao lit a cigarette. His body no longer had the dependence on tobacco addiction. This was his habit, which could make him calm down.

Puff ---

Scorching steam spurted out from the equipment-enhanced machine. This time, the amount of moisture was more significant than before. Su Xiao found that the higher the enhancement level, the more steam the equipment-enhanced machine spewed out and the higher the heat.

[Dragon flash(light gold) +10 success! Yes/ no, continue to strengthen.]

Dragon flash returned to the original enhancement level, and the iron was cut like mud(passive) should also change.

Su Xiao took a deep breath, hesitating whether to continue to strengthen.

In the current situation, the dragon flash would stay in the light gold quality for a long time. If so, then the dragon flash was, of course, the stronger, the better to deal with the next few derivative worlds.

And Su Xiao was ready to activate the talent awakening task in the next derivative world. The sooner this task was completed, the simpler it would be.

"Continue... strengthen."

[Strengthening begins. Please wait for ten minutes.]

With Su Xiao's instructions, the equipment-enhanced machine began to operate. This time, it was different from the previous enhancement. The momentum was more significant, and the time spent was longer.

Su Xiao stood in front of the equipment-enhanced machine and smoked silently. Although the success rate of the enhancement this time was not high, the risk was not increased. At most, he would lose one magic stone and 31,000 Paradise coins. Compared with the reward of success, this risk was worth it.

Su Xiao breathed a sigh of relief and smiled. Since the risk was insignificant, he did not need to be nervous.

He would not take the risk with a knife if there were a risk. He would instead spend a more excellent price on improving the quality of the dragon Flash and not strengthen it.

After the cigarette in Su Xiao's hand burned, the equipment strengthening machine gradually stopped working.

[Dragon flash(light gold) +11 success! Yes/ no, continue to strengthen.]

Su Xiao clenched his fist, and his eyes lit up again. According to his consultation, there were several significant levels of strengthening, namely +5, +8, +10, +12.

Promoting each significant level was very tempting; the higher the strengthening level, the greater the benefits. If the dragon flash could be strengthened to +12, could it be comparable to some low-grade gold quality equipment or more robust?

"Check the success rate of strengthening."

[Checking the permission level of the hunter...]

[permission passed, the success rate of strengthening this time is 21.]

Seeing this success rate, Su Xiao's face could have been better. The success rate of 21 was very high, but it was not the case.

This was related to the probability problem. If it was the probability of triggering 100 times, then the likelihood of 21 was very high, but if it was a single time, then 21 was equivalent to about one-fifth, and the remaining five was enough to kill most people.

"The loss of failure is within the acceptable range. Continue to strengthen."

[Strengthening begins. Please wait for 15 minutes.]

The strengthening time began to increase. It was reasonable to say that Su Xiao should be nervous now, but for some reason, he was very calm because he was confident, not because he was convinced of luck, but because he was convinced of luck.

Just before, he opened more than a hundred treasure chests. Green, blue, dark purple, and gold, but the number of flashes was only three times, and they were all low-level treasure chests.

According to Su Xiao's observation, although he would be unlucky sometimes, overall, his luck was balanced.

He was already very unlucky before, but now, he did not believe he would continue to be unlucky. After three consecutive successful upgrades, he began to be confident.

Not far from Su Xiao, a girl wearing a bear hood was staring at the strengthening machine in front of her. If the child looked carefully, he would find that this girl wore pyjamas and slippers.

"I must succeed. Please, success, success..."

The girl closed her eyes, put her hands together, and muttered. This was the contractor's normal strengthening posture. Only a few people like Su Xiao, who stood in front of the equipment-strengthening machine without any expression, were like this.

This girl was strengthening a blue necklace. The strengthening level was +5 to +6. It should be known that it would be cleared if the strengthening level failed.

As the girl prayed, hot steam gushed out from her side. The range was exaggerated.

The girl blocked her white hand in front of her. The steam blew, and she walked away. She vaguely saw a figure in the mist. The steam blew the wind clothes of the constitution.

Chapter 683: Prepare

In the steam, Su Xiao stood still in the same place. He ignored the screams of contractor nearby. He stared at the equipment reinforcement machine. There were only three seconds left.

When the steam was thinner, the prompt appeared.

[Dragon flash(light gold) +12 succeed! Yes/ no continue to strengthen, if you need to continue to strengthen, you need to pay the soul crystal(middle) ×1 + 31,000 points of paradise coins.]

"Does strengthening +12 or more need the soul crystal? This thing is really omnipotent, even if it is advanced, it needs to be strengthened."

Su Xiao chose no, being able to strengthen to +12 was already the best, if he wanted to strengthen to a higher level, without special items, it would be a fool's dream.

The tray of the equipment strengthening machine popped out, Su Xiao put away the illusion magic stone, this was a good thing.

Looking at the dragon flash on the tray, a golden light flashed on the blade of the dragon flash, the edge of the blade was sharp to a little 'glaring', with the current appearance of the dragon flash, even if it was a golden quality weapon, no one would doubt it.

Su Xiao picked up the dragon flash, the attributes of this blade appeared.

Dragon flash +12(10 of the blade)

Origin: Shadow of the Law

Quality: pale gold

Type: Saber

[Durability: 98/98]

[Attack Power: 114181(+12/21)]

[Equipment Requirement: Shadow of the Law]

[Supreme Blade Effect 1: Sharpness +16]

Supreme Blade Effect 2: Ten Thousand Blades Sect(Passive), Sharpness +10. If the slash causes a broken limb effect on the enemy, the enemy will not be able to recover broken limbs through surgery, medicine, skills, bloodline ability, etc..

+5 Additional Effect: Armor Penetration

+8 Additional Effect: Sharpness +2

+10 Additional Effect: Penetration, Sharpness +4

[+12 additional effects: Weapon toughness +12(original toughness is 7)]

[Rating 300(+30 points)]

[Description: Lost, encounter, battle, new life, growth, legend.]

[Price: Unable to be traded.]

...

Su Xiao cut out a knife out of thin air, leaving a light golden thread in the air. He vaguely had a feeling that his current attack ability in the second rank contractor was already the top.

The ability that was transformed from 'cutting iron like mud(passive)' did not disappoint Su Xiao. Not to mention the 10 points of sharpness, the broken limbs could not be recovered with the ability below the fourth rank. It would make all the second rank contractor look at it. If his arm was cut off by Su Xiao in the second rank derivative world, it basically meant that he was disabled in the derivative world and could only recover after returning to the reincarnation paradise.

But this ability was only so simple? Of course not. To be exact, this ability was used to deal with enemies who had extremely strong recovery abilities, or enemies who had the 'ghost body', such as artificial people in the steel-refining world, or some elemental blood.

If these people met Su Xiao, they would be cut into human sticks in minutes, and their recovery ability would lose meaning.

The master of sword skills, LV, 30, Dragon flash(light gold) +12, Strength, Agility, Body, and Intelligence, the four attributes were all 60 points, and the combat power from these abilities combined was beyond imagination.

Su Xiao really wanted to go to the arena to try how strong he was now, but unfortunately, he had other things to do.

After returning the dragon flash to the sheath, Su Xiao, who spent a total of 12,000 paradise coins, left the equipment strengthening hall. The remaining paradise coins were 776 points. Although the paradise coins were a lot, they were not rich.

Su Xiao returned to the exclusive room and took out the remaining soul crystal(small) and a material from the storage space. He had been looking for this material for a long time.

Su Xiao was equipped to make a bomb, the peak work of alchemy, Sun God Apollo!

Su Xiao had made this thing in the one piece world. At that time, even the yellow ape was shocked by the power of Apollo, and regarded Su Xiao as a dangerous person. The yellow ape who originally lived next to Su Xiao to monitor him, after Apollo came out, the yellow ape decisively 'moved' away from Su Xiao, which showed the power of the Sun God.

Sun God Apollo: Every time you make it, you need 500 points of mana values, sun remains, fire gold, soul crystal(small) ×1.

In addition to mana and soul crystals, if he wanted to use paradise coins to replace the remaining materials, he needed to consume 80,000 paradise coins. This was also the reason why Su Xiao had not made Apollo. It was too expensive.

In the derivative worlds after the pirates, Su Xiao had been looking for the sun remains or fire gold. Although he did not find fire gold, in Youxin City in the Hunter World, he found the sun remains and bought it with only 50,000 rings.

Light flashed in Su Xiao's hand. He began to make the sun god Apollo.

[The material is insufficient. The fire gold can be replaced by paradise coins. It needs to pay 15,000 paradise coins.]

Su Xiao chose to pay, the sun remains + fire gold + soul crystal(small) was smelted in his hand. A basketball sized fireball appeared, emitting a terrible heat, like a small sun.

Two minutes later, Bobowang rushed out of the exclusive room with a whoosh, and his hind legs trembled outside the door.

Ten minutes later, Bobowang looked up from the door. Su Xiao was sitting on the bed and studying something.

Apollo had been successfully made and stored in the storage space. This thing was not a conventional weapon. When Su Xiao was defeated, this thing had a use, letting the enemy go to hell with him.

At this time, Su Xiao held three pages with metal texture in his hand. These three pages were covered with mysterious lines, which would make people feel dizzy at a glance.

[Book of Talent(complete)]

Origin: Reincarnation Paradise

Quality: Light Gold

[Type: Consumable]

[Effect: A total of three pages. After gathering, it can become a Book of Talents(complete).]

[Book of Talents: A necessity to awaken innate talent(current innate talent: Devouring Spirit)]

[Rating: 310]

[Description: Book of Talent can be exchanged with soul crystal(big). Each soul crystal(big) can be exchanged for a page of Book of Talent.]

...

Su Xiao used the soul crystal(big) to exchange for the Book of Talent(first page). Now he has met the requirements to trigger the Innate Awakening Quest.

1. Any naked makeup attribute reached 50 points(already achieved).

2. Obtain a comprehensive evaluation of three S

3. Book of Talent(Complete)

[Hint: The hunter has fulfilled the prerequisite of the innate awakening mission. Yes/No trigger mission.]

Su Xiao was silent. The level of the talent awakening mission was 10 levels higher than his current level. Now that his strength had increased, it was the best time to complete this mission.

"Triggered."

Su Xiao was facing a great enemy in case something unexpected happened.

[has triggered the innate awakening mission.]

The exclusive room was dead silent. Bobowang seemed to find something wrong and subconsciously swallowed his saliva.

Five minutes later...

Ten minutes later...

Twenty minutes later, there was a sound of nose, and Bobowang fell asleep on the carpet.

"It seems that I have to enter the next derivative world to activate the talent awakening mission."

The reason why Su Xiao activated the talent awakening mission now was not only because his strength increased greatly, but also because he had more opportunities in the next derivative world. He could choose one of the three derivative worlds to enter, which was undoubtedly a great advantage.

For example, Su Xiao, this kind of close combat, would definitely not like the world where bullets flew and nuclear bombs hit the face. If he could choose, he would choose to enter the world of pirates, Hokage and Hunter.

Su Xiao got up and walked to the honor store in the room. He still had a gold honor badge that he had not used.

After checking several items in the honor store, Su Xiao closed the honor store. The items sold in the honor store were not fixed. There was no good goods this time, and he could not say that. There should be no items that he needed.

Su Xiao was busy for nearly a day. The benefits of the Hunter World all turned into strength. After changing the 'time of staying in the real world' to 'time of Reincarnation Paradise', he went straight to the arena.

He wanted to familiarize himself with his current strength in the arena, so that he could meet the next derivative world. The next derivative world was not far away.

Chapter 684: I Also Want to Save a Face

[You have entered the arena. Please choose the mode.]

[competitive mode/ spectating mode.]

Su Xiao chose competitive mode.

[has chosen competitive mode. Please choose a detailed way to compete.]

[individual/ team battle.]

Choosing the individual battle, although Su Xiao could also choose the team mode to randomly match his teammates, he was more used to fighting alone.

Su Xiao had just chosen the mode when Bobowang squeezed over to the screen in front of look at. This idiot followed because of curiosity.

[is matching opponents for the hunter...]

[Hunter current ranking: 1230(2nd rank).]

[Match successful. Hunter will be teleported to the arena in five seconds. Hunter, please be prepared.]

Five seconds later, the sense of teleportation appeared. Bobowang, who was in the resting warehouse, immediately chose to watch the battle.

Light flashed in front of Su Xiao. When his sight recovered, he was already on a 50-×50 meter square arena. There was a transparent energy shield around the arena, and there was a circle of stair-shaped audience seats on the outside.

Because Su Xiao was fighting in the top 5000 of the second rank, there was almost no empty seats in the audience.

"Wind King, I love you!"

"Knights are the most handsome."

The screams of women came. Su Xiao looked sideways at the audience and found that more than 80 of the audience were young girls. He may have met the competitive stars again. He had met many times.

The income of competitive stars is not cheap, the appearance and strength of contractor are not weak, they may become competitive stars.

Su Xiao looked at the opponent more than ten meters away. The opponent was a handsome man with blond hair and blue eyes. He was wearing a silver armor and a knight's long sword inlaid with a few gems on his waist. However, the gem stones inlaid on it were all decorations. This competitive star had shoulder-length blonde hair that was meticulously arranged. There was a beard on his chin, which made his white face a little masculine.

"Hello, I am Wind King."

Wind King bowed slightly to Su Xiao, wearing a pair of white gloves on his hand.

Su Xiao felt very strange when he saw the other party's number at first glance. It was not that the other party was pretending. From the other party's words, it could be seen that even if the other party was not a Prince of a small country, he was also from a family with a long history.

This strange feeling made Su Xiao puzzled. He turned his head and stared at the other party.

Wind King maintained a smile on his face. There were still more than ten seconds left before the start of the competition. He waved to the girls in the surrounding audience and attracted a scream.

Although Wind King seemed to be greeting the audience, he had been paying attention to Su Xiao from the corner of his eyes. A bad feeling emerged in his heart.

A man with a red metal mask on half of his face was staring at him. Although the other party did not say anything threatening, his calm eyes made Wind King dry his throat.

"A guy who killed like my elder brother? Not good."

Wind King murmured and pulled out the knight sword on his waist.

At the moment when Wind King pulled out the knight sword, Su Xiao finally knew why the opponent gave him a strange feeling. The opponent did not have the 'smell of blood', there was no smell at all.

The 'smell of blood' here wasn't the smell of blood, but a special aura produced after a long period of slaughter.

Most of contractor would have a faint

[Battle starting!]

A few words appeared in the sky, and the restrictions around Su Xiao were lifted.

Dragon flash appeared in his hand. Su Xiao stepped on the ground under his feet and rushed to his opponent like a cannonball. The gravel under his feet splashed.

Boom!

It was like a bomb exploded on the arena. Su Xiao's violent momentum made the surrounding audience stop.

Su Xiao's figure disappeared. At this time, he was a shadow in the eyes of the wind king. 60 points of agility attribute + urgent battle boots equipment effect 1

Sensing the incoming wind pressure, the Wind King immediately raised the knight sword in the light. Unfortunately, it was too late.

A light blue energy shield collided head-on, and with a bang, the Wind King staggered, the sword in his hand almost injuring him.

The Wind King saw stars, and when the sword in his hand subconsciously slashed forward, there was a sharp pain in his lower abdomen, as if a foot made of steel had fallen into the soft flesh in his abdomen.

The Wind King spat out a large mouthful of acid, and just as he was about to directly use his big move, his right arm became numb and he lost feeling.

Bang!

Wind King fell onto the stage and rolled back like a rolling gourd. At this moment, he only had one thought in his mind: his opponent, was not at the level of more than 1,000 rank two. 100... no, the top 30 was not an exaggeration.

Wind King had quite a reputation in the arena. He had many female fans, so he decided that he could defeat his opponent in a head-on fight. However, if he was hung up and hit, he also needed a face!

Wind King slowed down his rolling speed. Just as he was about to get up with a carp flip and transform into a one-armed soul knight, his neck suddenly felt cold and his line of sight began to circle.

Su Xiao shook off the blood on the dragon flash, and the blood turned into light spots before it fell to the ground.

This set of continuous skills of his was actually not complicated. First, he rushed to the opponent at a high speed, and then he activated the energy shield in front of him, hitting the opponent with the energy shield.

When the opponent suffered the impact and was ready to defend the energy shield, he immediately withdrew the energy shield and kicked the enemy in the lower abdomen. He entangled the arm of the enemy using the broken line and cut off the arm with a knife.

The arm of the enemy would be kicked out by him when it was cut off. In the air of the enemy flying, Su Xiao arrived at the landing point of the enemy first. The moment the enemy was about to get up, there would be a short-term flaw. He could take the opportunity to make the enemy lose their mobility.

In Su Xiao's view, the loss of mobility was divided into three levels.

The first level was to cut off the head, safety index five stars.

The second level was to cut off the limbs, safety index four stars.

The third level was to cut the waist, safety index three stars.

...

On the arena.

Su Xiao dealt with the opponent so cleanly, the girls in the audience not only did not appear to curse or reject, but also cheered.

The sense of teleportation appeared, Su Xiao returned to the resting warehouse.

[The individual battle is over.]

[- Result: Victory.]

[- 61 wins!]

[- Hunter Rank: From 1230(Second Rank) to 1180(Second Rank)]

Although Su Xiao had a continuous sixty-one win, the promotion of the ranking was not big. The second level was different from the first level. It could be said that the first level was to let contractor adapt to the reincarnation paradise. The second level was the real beginning.

At this time, Su Xiao was full of energy, and his strength was greatly improved. Of course, he had to continue to rush to the ranking.

The top ten of the first rank had rewards, and the top ten of the second rank also had rewards, and the reward was more generous. The reward of the tenth rank was three free attribute points, and the higher the ranking, the more generous the reward was.

This kind of reward could only be taken once, and there was no possibility of cheating in the arena, so the competition was more intense.

If he fought from the tenth to the first place, the attribute points he gained would be higher than the profit of a derivative world.

Chapter 685: Evra

The next morning, in Su Xiao's exclusive room.

Crash ---

The sound of water came. When the sound of water stopped, Su Xiao walked out of the bathroom with his bare upper body, and there was water dripping on his black hair.

Last night, Su Xiao played in the arena until around 1:00, and he raised his ranking from 1180 to 490 and 106 consecutive wins. At the beginning, he did not encounter a difficult enemy. But after entering the top 500, the enemy's strength became stronger and stronger. In addition, he was very tired, so he left the arena.

Su Xiao washed up, dressed up, and went to the trading market. When he stayed in the reincarnation paradise, he would go to the trading market for a few rounds every day, just to try his luck. After all, he still had 62,000 paradise coins left.

There were still a few days left for the reincarnation paradise. Su Xiao was not going to waste these days. After wandering around the bustling trading market for a few times, he went straight to the trial field.

It had been a long time since he summoned the mirror image. After having enough paradise coins in his hand, he was ready to summon the mirror image of a strong person.

Ten minutes later, Su Xiao arrived at the trial field.

[Welcome hunter to use the trial field, please choose the mode.]

[Support mode/ actual combat mode]

Su Xiao chose the support mode.

[has chosen the support mode, please choose the mirror image level.]

[Low-level mirror image] 100 Paradise coins per hour.

[- Intermediate Mirror Image] - 1000 Paradise Coins per hour.

[Advanced mirror image] 10,000 Paradise coins per hour.

With Su Xiao's current strength, he was more suitable for intermediate or advanced mirror images. He had enough paradise coins in his hand, he chose advanced mirror images.

After choosing the high-level mirror image, there were two choices. He could summon the high-level mirror image that he had summoned before, just like the previous summoning.

Although it was good to summon the eagle eyes, Su Xiao chose to summon randomly. Every strong person had their own unique points. He came to the trial field to borrow the unique points of these strong people.

When the saber technique reached L.30, it required time to settle down. Summoning the mirror image would undoubtedly speed up the process.

[You have chosen to summon a high-level mirror image, randomly summoned...]

[selected successfully, beginning to summon Evra.]

Evra? Su Xiao frowned. He had never heard of such a person in anime. Was he ignorant?

This was not the case. Evra was not a character in anime. He came from the void.

Name: Evra

[Age: 30]

[Sex: Male.]

[Position: Dragon Blood Legion - Third Group Field Commander, Geng Lemmy Combat Academy Sword Advisor.]

[Name: Battlefield murderer.]

[Battle record: Participated in large-scale battles 106 times, wounded 106 times, killed 1,843 enemies.]

[Battle record: Born in Dunke Star(Dunke Star: Rank 6 space battlefield)] [A prostitute. Father is unknown. During his youth, he became the captain of a drunken ghost guard. With his amazing talent in swordsmanship, he surpassed the captain of the drunken ghost guard in half a month. Later, he joined the Dragon Blood Empire. Because of his valiant performance on the battlefield, he was promoted many times. He had an ambiguous relationship with the Princess and was envied by many people.]

[Cause of death: Besieged by 6,207 enemies. After killing 1296 people, he died in glory. The statue is now in the Hall of Heroic Spirits.]

...

Su Xiao looked at the information in front of him. This was the first time he had encountered such a situation.

Light gathered, and a figure gradually appeared. Of course, after the figure became clearer, Su Xiao raised his eyebrows. It was different from the tall figure he imagined. Evra was about 1.6 meters tall, with white hair, braided hair, and a military uniform that Su Xiao had never seen before.

Evra opened his eyes, and there seemed to be a smell of blood spreading.

"Am I not dead?"

Evra looked at his hands, his eyes blank for a few seconds before he understood his current situation.

"Reincarnation Paradise? Mirror image?"

Ka...

Evra clenched his fists, and a crack appeared in the space around him.

"Damn it, the Princess I worked so hard to get, I haven't slept much, and her sister..."

Evra clenched his teeth, as if he remembered a beauty, and his eyes were full of regret.

"The encirclement was too sudden. Sure enough, there are spies in the Empire."

Evra muttered to himself. Su Xiao looked at the other person and did not speak.

"By the way, my task is to teach you. Make your move, even if I don't have a weapon now."

As soon as his voice fell, a heavy sword appeared in the hands of the present Evra.

"Hey, it seems that I have come to an extraordinary place."

The figure of Evra suddenly disappeared, and when he appeared again, he was already behind Su Xiao. Su Xiao put the dragon flash behind him.

Clang!

The heavy sword cut on the sword of dragon flash, a strange force came, Su Xiao almost could not hold the sword in his hand, his internal organs felt dull pain, this was shock.

"You actually did not let go? Not bad, you have a backbone."

Evra kicked sideways, Su Xiao immediately bent over.

Puchi.

Blood splashed. This kick did not hit Su Xiao, but there were several silver ribbons on the trousers of Evra's calf. This was not a ribbon, but a special metal, extremely sharp.

Su Xiao staggered back a few steps, three wounds nearly half a meter long appeared on his chest. Looking down, he saw his internal organs.

He would not die if he was injured in the trial field, but there was a sense of pain, real pain.

"You are not bad. Although you are a little weak, you have a backbone."

Evra was very strong. He came from the sixth level space battlefield, and his strength was stronger than most of the sixth level contractor. He was a BOSS level figure in the sixth level space battlefield.

The previous attacks were not all of Evra's strength. If he killed Su Xiao with all his strength, it would not take more than five seconds.

"Hey, why aren't you talking? I am summoned by you now, and I will teach you combat ability."

Evra dug his ears, and went up and down look at.

"Well, let's start then. By the way, I am Byakuya."

"My name is Evra Pristine. You can call me Evra. Ordinary people can't remember my full name."

Su Xiao just nodded.

"Attack me with all your strength. I want to see how strong you are."

Evra hooked his finger at Su Xiao, which was quite provocative. This guy's character was a bit like a ruffian. This was the reason why he grew up in the slum.

Su Xiao rushed forward without saying anything and slashed at Evra a few times.

The two fought together. Su Xiao used all the means he could use. Unfortunately, no matter how he attacked, he could not hurt Evra at all.

"It's done."

Evra grabbed Dragon-slaying Kill with his bare hands. After a crisp sound, his hand was unharmed. Su Xiao looked at the other party's palm. From the slash's touch, something was wrong with the other party's left hand.

"You said this? The M3 alloy is made of one of the strongest alloys. My Princess lover gave it to me."

As if seeing Su Xiao's thoughts, Ailuo took off the glove on his left hand.

"Interesting. This arm was cut off by my 'love' Princess. I slept with his sister and was caught by her on the spot. She cut off one of my hands after that."

"Really? Then she will kill you."

Hearing Su Xiao's words, Evra smiled mysteriously.

"No, after being blocked by the Princess on the bed, I experienced the first time in my life. This arm is the punishment after the event."

Su Xiao's mouth twitched. Although the guy summoned this time was strong, it was not reliable no matter how he looked at it.

Chapter 686: Hometown

* Cough * "To be honest, there are not many things I can teach you, but it is not too little. You use a knife, and I use a heavy sword. Although the two are theoretically connected, there is actually a difference."

Evra threw the palm-sized heavy sword in his hand. This thing was very heavy, and Su Xiao had just experienced it.

The truth was indeed like what Evra said, although the heavy sword and the knife were theoretically connected, there was a difference in skill.

"I can teach you how to survive in the battlefield, and kicking skills, using swords as weapons, and mastering the appropriate kicking skills is good. Let's sit down and talk."

Su Xiao and Evra sat cross-legged on the ground, and Evra began to tell Su Xiao about his survival experience in a large battlefield, as well as his skills in kicking skills.

"The key in the battlefield is not to kill enemies, but to survive. Only those who can survive are the victors. Don't think that with your current strength, you can kill in all directions in the battlefield. If there are enemies around you who are close to your strength, it is very difficult for you to survive in the battlefield. First of all, you have to remember one thing. Don't pay attention to those enemies who are far away from you. Observe the surroundings with your perception. Kill whoever is close to you. Don't take the initiative to find opponents on the battlefield. Let the opponents come to you. Those so-called 'heroes' are the first to die in the battlefield..."

Evra told Su Xiao his life experience of killing enemies on the battlefield. Su Xiao listened carefully because he might participate in a large battle one day. This was the reincarnation paradise, and there was nothing impossible to happen.

At the critical moment, you can consider pretending to be a corpse. In the later part of the war, most people will kill with red eyes. Only then will they care about the corpses on the ground. They will only stare at the moving living people...

Evra explained to Su Xiao how to survive on the battlefield, and then taught him some kicking skills.

Time passed quickly, and after more than fifty minutes, Evra's face began to change.

"What? Are you afraid?"

Su Xiao looked at him.

"Me? Fear?"

Evra sneered. After a while, the sneer gradually froze on his face.

"I seem to be... afraid. There is no world after death. It is dead silent. The soul gradually drifted away, slowly disappeared, slowly disappeared..."

Evra sighed. He had not lived enough. He would marry the most beautiful woman and be conferred the title of an honorary warrior.

A few minutes later, the mirror image disappeared. In fact, he did not resurrect from beginning to end. He just reappeared in the form of a mirror image.

Although Su Xiao did not learn the knowledge of the sword in the other party, he learned how to survive in the battlefield and benefited a lot.

Looking at the remaining paradise coins, Su Xiao pondered for a moment and summoned another mirror image.

[You have chosen to summon the advanced mirror image, in the designated summoning...]

[selected successfully, begin to summon Jora ·Mick.]

Su Xiao summoned Eagle Eye this time. He had some questions about the sword.

Light gathered, and the figure of Eagle Eye became clearer and clearer. He was about two meters tall, wearing a long black windbreaker, and a black hat with white fur on his head.

Eagle Eye slowly opened his eyes. It was a pair of dark yellow pupils, no different from the eyes of an eagle.

"We meet again."

Hawkeye opened his mouth because Su Xiao had summoned the other person once. The mirror image that he summoned this time continued the memory of the last time.

"There are some things I want to ask you..."

...

Two hours later, Su Xiao left the trial field, walking thoughtfully.

"I see, now my strength is probably at this level..."

After Su Xiao had a contest with Hawkeye, he learned his approximate strength.

Leaving the trial field, Su Xiao came to the trading market. Now he had 32206 paradise coins left. It was time to use alchemy snow to earn some paradise coins, and the paradise coins he earned this time would be used to make No. 1 potion.

When he came to the trading market, the stall that he often used had already been used. He simply found an empty stall nearby, and he was ready to make intermediate level alchemy bombs to sell.

Intermediate level mental bomb: Every time you make it, you need to consume 30 points of mana, black powder, low-level energy circuit, Mate metal, king water, explosive frog skin.

Su Xiao's mana value had a total of 2133 points. If all of them were used to make intermediate level alchemy bombs, he could make 71 of them.

Sitting behind the stall, Su Xiao's hand flashed and began to make alchemy bombs. The cost of intermediate level alchemy bombs was 30 points of mana value and 100 paradise coins(used to replace materials).

Mana could be restored on its own, which was a renewable resource, so the cost of each intermediate alchemy bomb was only 100 paradise coins.

With the power and characteristics of the intermediate alchemy bomb, it was no problem to sell each for 300 paradise coins. In addition to the cost, if he successfully sold 71 intermediate alchemy bombs, Su Xiao would make 14,200 paradise coins.

Although every time his mana was restored to full, he could make 14,200 paradise coins, but Su Xiao would only occasionally sell alchemy bombs.

The reason was very simple. After the mana was exhausted, he could not go to the arena. The opponent of the arena was not a puppet. In a battle without mana, it was a miracle that the competition ranking could not be guaranteed. It was impossible to rush to the ranking.

If he had not been killed by Hawkeye a few times, Su Xiao's spirit would be a little tired. He would choose to go to the arena instead of selling intermediate alchemy bombs.

After Su Xiao made 71 alchemy bombs, he marked each of these alchemy bombs at 300 paradise coins and left the stall.

Su Xiao's life in the Reincarnation Paradise was very regular. If he had enough strength, he would go to the arena to rush to the ranking. Once he entered the top ten, he would be able to gain attribute points. Moreover, he could gain attribute points again with every increase in the top ten. If he fought from the top ten to the first place, the attribute points he gained were extremely shocking.

...

Dudu Dudu.

In the arena, in a resting warehouse, Su Xiao closed the timer in his hand. His stay time in the reincarnation paradise was about to reach the limit.

In the past few days, Su Xiao ranked the arena from 490(second rank) to 105(second rank). During this period, he experienced several bitter battles, but he had not lost for the time being, and he had won 186 matches in a row.

After closing the matching function and the ranking rose to 105, the speed of the matching opponent was obviously slowed down. Su Xiao spent most of his time waiting in the resting warehouse for the matching opponent.

[The hunter has reached his limit in the reincarnation paradise.]

[is about to return to the real world, please remember the reincarnation paradise regulations.]

[can not reveal everything about the reincarnation paradise in any form in the real world, otherwise it will be warned, and the warning will be ineffective and will be forcibly executed.]

...

[Transfer begins, location: the real world.]

Su Xiao rubbed the back of his head. He was already used to the transfer attack of the reincarnation paradise. The 'attack' that returned to the real world was just a drizzle. Every time he entered the derivative world, it was difficult to resist the 'attack'.

At this time, he was in a small town near the Chogo Snow Mountain. After he successfully climbed the Chogo Snow Mountain with his bare hands, he came to this small town for temporary residence.

"Where are we going next?"

Su Xiao took out the map. When he saw the name of a city on the map, his eyes narrowed.

"It's time to go back and take a look. Now I am no longer a wanted criminal."

Taking Bobowang away from the hotel, Su Xiao wanted to return to his hometown, a third-tier city that was not prosperous.

If Su Xiao was now a river dragon drifting through the four seas, then after returning to his hometown, he was also a 'underground snake'. Even before entering the reincarnation paradise, he was also a local snake near his hometown, but he had no power.

Just think about it, who dared to provoke a guy who had no connections, extraordinary skills, and dared to kill people? The illegal people buried after being killed by Su Xiao were not few.

That was still Su Xiao before entering the reincarnation paradise. With his current four kinds of bare makeup attributes and many passive skills, it was no problem to not provoke the national machine and dominate in those third-tier cities.

However, Su Xiao had no interest in dominating the area. He was just bored of wandering outside and wanted to go back.

Chapter 687: 4 Stores

Two days later, in a high-speed train.

"Passengers, the train has arrived at XX station, please..."

With the announcement of the front broadcast, Su Xiao, who was resting on the chair, opened his eyes.

After returning to the real world, the brutality and sharpness in Su Xiao's eyes had disappeared. He found that most of the time in the real world was safe. It was the best choice to pretend to be an ordinary person and mix in the crowd.

"Bobo, to the station..."

As soon as Su Xiao opened his mouth, he remembered that the high-speed rail could not take the 'em pet' to the car, so Bobowang had been transported, and he wanted to laugh when he thought of the scene of being transported.

After getting off the car, Su Xiao went straight to the coach.

When Su Xiao saw Bobowang with his ticket and ID card, Bobowang had a face full of despair, this idiot was dizzy.

Walking out of the station, he released Bobowang from the cage. Su Xiao looked at the bustling crowd in front of the bus stop. He was very familiar with the surrounding scenes. He felt a little emotional for a while.

Last time, he escaped from this city and was wanted by the police. This time, he actually got a legal identity. Fate was so wonderful.

Su Xiao was very familiar with this city that he grew up in. He went straight to the corner of the bus station. After arriving, he saw several 'private cars' parked on the side of the road.

These were not private cars, but black cars. They were specially made to kill those who did not know how to use mobile phones and could not find taxis.

Su Xiao sat in the front passenger seat of a car, and Bobowang rushed to the back seat.

"Hey, my car doesn't pull dogs, look..."

"Light Road, add ten yuan."

"A total of 25 yuan."

The driver started the car, his face was normal. He heard that Su Xiao had a main accent. According to the algorithm of ten yuan, 25 yuan was not much.

Su Xiao found this kind of black car mainly because of Bobowang. Ordinary taxis would not carry pets, but these black cars were different. As long as they paid, not to mention pets, even more strange things were carried by them.

The car slowly started to move. Although the city was not small, it was not prosperous. There were not many cars on the street, and it was unimpeded.

The black car driver sat in the driver's seat and drove. Su Xiao opened the window of the passenger seat and lit up a cigarette.

"Thank you, little brother. I am not used to smoking this good cigarette."

The black car driver refused the cigarette that Su Xiao handed over. He smiled and pulled the ashtray for Su Xiao. It was full of cigarette butts.

"Little brother, you have just returned to the city."

"Yes, I have just arrived."

Returning to his hometown, Su Xiao was in a good mood, so he talked to the driver.

"Little brother, are you going to work outside?"

The smoke in the driver's seat evoked the smoke addiction of the black car driver. He also took out a cigarette and smoked.

"It's not work, it's to escape the police."

"Hahaha."

After listening to Su Xiao's words, the black car driver burst into laughter.

"Little brother, you are so humorous. Looking at your face, you don't look like a fugitive no matter how you look at it. To tell you the truth, I really took a fugitive before. At first, I didn't know that he was a murderer. When he got out of the car, I knew that kind of look... tsk tsk."

The black car driver shook his head with lingering fear.

"Oh? What eyes?"

Su Xiao flicked the cigarette ash and looked at the black car driver with a smile.

"You don't understand, it's the kind. How should I put it, uh ---it's hard to describe."

The black car driver looked old and seemed to recall the past.

Bobowang, who was sitting in the back seat, could not help but roll his eyes when he heard the conversation between the two. His gaze seemed to be saying, "Driver, compared to the people in the front passenger seat, murderers are as cute as kindergarten children."

"Little brother, the city has not been peaceful recently, especially the Light Road you went to. If you were not born and raised there, it would be best not to go. That street has been blackened many times and is remote. Our small border city is only stable on the surface. It is said that there is a group of gray forces on the Light street. The old one is called Bu Qing..."

"Bu Qingsheng?"

Su Xiao flicked away the cigarette in his hand.

Yes, yes, he. This guy is not black. At most, he is gray. Black can't live long these days. Gray can live. This guy is very powerful now. Little brother, do you know him?

"I have heard of him."

The Bu Qingsheng that the black car driver spoke of, Su Xiao had seen him once. The last time he saw him, the other party was kneeling in front of him. The reason was that the guy was going to smash Su Xiao's store with a woman after drinking. At that time, Su Xiao, who was full of hatred, was ready to cut off the head of the other party and clean up the corpse. He was ready to wrap the corpse bag and other things. The guy directly wet his pants.

While chatting with the black car driver, the car stopped in front of a shop at the end of the Light street.

This shop was located in a remote location, the door was tightly locked, and the shutter door was covered with small s.

After paying the money off the car, Su Xiao stood in front of the closed shop. This was the shop he opened before, and it was used to cover up his identity.

As a shop to cover up his identity, of course, the number of people could not be large, so Su Xiao opened a jewelry shop, which specialized in selling purple sandalwood jewelry, amber jewelry, jade products and so on.

Su Xiao sold real goods, and it was high-level goods, so the price was enough to shock people. The little leaf purple sandalwood bracelet that was priced at 8,600 yuan could only be regarded as ordinary goods in the store.

With the price of this kind of goods and the scale of the small store, it could be guessed that from the opening until now, Su Xiao had never sold a single product.

At the beginning of the opening, there were occasional customers entering the store, but after the opening of the store for half a year, there was no one in the foundation, and the business of the wreathand clothing store next door was better than here.

Speaking of the nearby stores, he had to mention Su Xiao's eyesight and the fengshui of this jewelry store.

On the left side of the jewelry shop was a flower circle clothing shop, on the right was a flower bird fish and insect shop, and on the opposite side stood an antique shop.

The business of the four shops could be said to be extremely bleak, and if the old man did not close down, he would see who would die first!

This street was remote, and there was no road at the end of the street. It was the suburbs. As a 'dead end', there were very few cars coming and going. It was different from the noisy city. It was quiet and more suitable to live in.

Because of this, starting a shop here, the degree of bleakness of the business could be imagined. Various shops died one after another. Only these four shops had perseverance for a long time. The jewelry shop had been cold for a while before, but now it was alive again.

There was once a boring tabloid reporter who came to interview these four nail shops, but the interview was unsuccessful.

The shopkeeper of the flower circle shroud shop replied, "Gun!"

Flower Bird Fish Worm Shop: "Get out of the way."

Ornament store(Su Xiao): "No time."

Antique store: ""... "(Staring at the female reporter's chest, the female reporter was scared away and almost called the police)."

But the female reporter did not give up and began to keep an eye on the four stores. In her opinion, this might be a piece of news, and the person who opened these stores might not be a good person.

And the female reporter found a shocking discovery. For a full day, the visitor flow of the four stores was equal to two. This was also two old men who bought fish food. This made the female reporter even more curious. How did these four stores be maintained?

Su Xiao knew how the four stores were maintained. His jewelry store did not need business because he was not short of money.

The flower circle clothing store next door was opened by a middle-aged fat man. This guy was a liar, 'The fengshui is big and humid'.

The flower bird and fish bug shop had some history. That guy secretly sold weapons through the network, crossbow bolts, controlled knives, and so on. Of course, there were no firearms. No one dared to sell guns in such a big light door.

As for the antique shop on the opposite side, the old man was an earth rat. The so-called earth rat was a grave thief.

This was even more interesting. The four stores were: killers, swindlers, weapon dealers, grave robbers. Three of the four people were fugitives, and the swindler and weapon dealer were brothers.

Standing outside the roller shutter door, Su Xiao took out a bunch of keys and was about to insert the key into the keyhole. He was surprised to find that the keyhole was blocked by someone, and there was a small on the side: '- Lockpicking phone 159xxxxxxx.

Chapter 688: Special Identity

It took 2 minutes and 50 seconds to unlock the door. In fact, Su Xiao could open the curtain door with the remote control, and then there was no reaction. It should have been cut off.

With a crash, the curtain door was pulled up, and a faint smell of dust poured out from the store.

Bobowang took two steps back and looked disgusted.

"What are you retreating for? Stay here from now on. Don't be lazy. You have to clean the three floors."

Su Xiao walked into this familiar shop. He had lived here for a long time before. Unlike the four seas drifting around, there was a sense of belonging here.

A man and a dog began to clean up the entire three-story building. The first floor was a shop, the second floor was a living room, the third floor was a warehouse, used to store goods.

During this time, Su Xiao went out to pay for water, electricity, gas, and so on.

In the evening, a jewelry shop opened silently. The light illuminated the first floor. The first floor was about 130 square meters, and there were more than a dozen rows of shelves, which were full of all kinds of expensive jewelry. The jade emitted a gentle light under the light, and the yellow amber jewelry was beautiful.

Then there was no use, there was no guest.

Su Xiao was also happy. He sat in the bar on the inside of the first floor. There was a computer and many tools on the bar.

Su Xiao put down the electric pen in his hand. There was a large number of mechanical components in front of him. He was assembling a security system.

With a sound, the door of the store was pushed open. Su Xiao's hand paused, and Bobowang, who was sleeping on the small bed on the side, looked up.

"Is there anyone?"

A weak female voice came. Su Xiao did not speak and continued to perfect the security system.

"Hey,"

The guest seemed to have seen something incredible.

The customer left the store. Yes, the lethality of this store was so great. The goods sold were too expensive. If this store opened in the center of the city, there would be business, but it was difficult in this kind of low location.

After Su Xiao arranged a perfect set of mechanisms and security system, the time of stay in the real world reached the limit.

After returning to the old place, Su Xiao found that it was far more effective to relax here than to travel around.

Looking at the shop to make up or create some small things, this made the time of stay in the real world pass quickly.

After locking the shop, Su Xiao went back to the second floor and activated the mechanisms and security systems.

[Hint: The new derivative world is about to open. The hunter will return to the reincarnation paradise. Please ensure that there are no witnesses around.]

[Teleportation... Teleportation complete.]

When Su Xiao's sight recovered, he was in an exclusive room.

[Hunter level: Lv. 16, can be notified before entering the derivative world for 30 minutes.(After advancing to the second rank, predict the next derivative world information time to reset. Every upgrade will be five minutes ahead of time.), the hunter will enter the derivative world after an hour. Please wait patiently.]

[Hint: The hunter has the 'extra chance to choose' in the derivative world. Yes/No.]

"Use."

[has used 'derivative world many opportunities'. Before entering the derivative world this time, the hunter has one more chance to choose.]

The new derivative world was about to begin. Su Xiao's physical strength was much stronger than before, so he was inevitably eager to try.

Other contractor inevitably had some fear before entering the derivative world, but Su Xiao was the opposite. He was not only not afraid, but also had some expectations. He expected to meet some opponents in the derivative world or compete with the strong.

And this time the derivative world was very special. Su Xiao would activate the talent awakening mission in this derivative world.

After successfully awakening, the level of the innate skill was level E grade SSS. He was a little curious about what level his innate talent would be after awakening.

It did not mean that the strong innate talent would be strong after awakening. The final level of the innate talent had to be determined by the completion degree of the innate talent awakening mission.

If the completion degree of the mission was high, the level of the innate talent would naturally be higher. If the completion degree was low, even the originally strong innate ability would only be slightly enhanced.

Whether the innate ability after awakening was strong or not depended on the individual ability, not on the bloodline.

Su Xiao checked the materials in the storage space, food, water, etc.. No. 1 potion ×10, he only carried this kind of recovery potion.

Because he made No. 1 potion, Su Xiao only had 2300 paradise coins left, and these paradise coins were left for emergency use.

Time passed quickly, and an hour passed.

[derivative world is about to open.]

[Please choose one of the following derivative worlds to enter.]

1. Magic Forbidden Book Record
2. FBI/ Zero
3. The tail of the fairy

[prompt: The hunter needs to choose within 10 seconds, otherwise it will be randomly chosen.]

Su Xiao hesitated for a moment. He had a lot of secondary things to do, so he could not choose a world that was too big. He only hesitated for a moment, and he chose a world.

[Space coordinates are stable, consuming time and space power 0.021 ounce.]

[According to the consumption of time and space power, the lowest comprehensive evaluation of contractor's world in this world must reach C - level.]

[check that the strength of the hunter and contractor in the same derivative world is too far apart, and the special identity will be arranged.]

Su Xiao subconsciously bowed his head, but the back of his head was still as if hit by a hammer.

Yes, it was a hammer strike. It was good before, at most, it was a dull stick. After his strength became stronger and stronger, the impact of the transmission was stronger and stronger. Was he afraid that the dull stick level could not knock Su Xiao out? So it was a hammer level?

When Su Xiao's consciousness recovered again, he was in a 'battlefield'.

As soon as he arrived at this battlefield, Su Xiao found that this place was not right. This was not the derivative world at all. The surrounding bodies were all fake. This was a place similar to the enchantment.

"Who are you?"

A knight with black armor stood on the pile of corpses in the distance. In addition to his eyes, the armor wrapped the knight.

At this time, the figure of this knight was somewhat illusory. From the aura, the other party was not in his peak state.

"Who I am is not important. You just need to know that only one of us can live."

Su Xiao pulled out the dragon flash on his waist. Because his strength was slightly different from the strength of contractor who was about to enter the derivative world, and what was about to enter was not an open world, so the reincarnation paradise arranged a special identity for him.

"A warrior who is full of blood and experienced hundreds of battles, are you qualified to fight with me?"

The black knight walked down from the pile of corpses. It seemed that he felt that Su Xiao was qualified to be his opponent, and he nodded to Su Xiao to show his respect.

"As a knight..."

The black-armored knight suddenly thought of something and shook his head. He was no longer qualified to call himself a knight. Just the fact that he was colluding with the Queen meant that he was not qualified to call himself a knight.

"State your name."

The black-armored knight held the hilt of the knight sword with both hands and held the long sword in front of his eyes. This was the etiquette before the battle.

"Byakuya."

Su Xiao moved his shoulders. Although the opponent was not in his peak state, it was not easy to deal with.

"I am the Knights of the Round Table... No, I am the traitor, Lancelot."

Boom!

Su Xiao and Lancelot stepped on the ground at the same time, the long sword and the knight sword slashed together, and a wave of air spread in the Sealed Realm.

In this enchantment, the two began to fight, because only one person could leave here.

...

In the derivative world.

In a dark basement, an old man who was about to die was looking at a man with white hair.

The old man smiled and looked at the white-haired man with ridicule in his eyes. He even disdained to hide this banter.

The white-haired man turned his head. It seemed that he did not want to look at this old bastard. The insects in his body were swimming in his blood vessels. Every millimetre of swimming would bring unimaginable pain. Fortunately, the left side of his body had completely lost consciousness.

"What are you waiting for? It has been arranged. Let's begin."

The old man used his cane to point at a magic circle drawn with human blood on the ground. At the same time, he laughed sinisterly.

The white-haired man took a deep breath and tried to ignore the pain in his body as much as possible. He began to chant an incantation.

"Your body is below me, and my fate is on your sword..."

The white-haired man's voice grew louder and louder. A certain artifact in the magic array in front of him began to shine.

[After the malicious person, the person who caused your eyes to become chaotic and your mind to go berserk, the prisoner who was imprisoned by the frenzied barrier. I am the one controlling this chain...]

Boom!

Light flourished, and a broken corpse appeared on the formation. Black smoke filled the corpse.

The old man at the side was a bit speechless. He had lived for several hundred years, but he had never seen such a thing.

"This corpse... can it really be used for battle?"

The white-haired man's voice trembled a little. In his heart, he looked. The reason why he had participated in this matter and made himself look like a ghost was just to save two people. As long as he could save those two people, it didn't matter even if he went to hell.

"Wasting a year of my time, the trash is indeed..."

Just as the old man finished speaking, a crisp sound came from the sky above the formation. Because of the summoning, a hand wrapped in a crimson metal arm suddenly stretched out from the extremely unstable space.

With the appearance of this hand, a crack gradually appeared in the space. Dense blood energy gushed out from the crack, and the blood energy pushed the old man and the white-haired man back a few steps.

The white-haired man staggered and wanted to rush forward, but he stopped after taking two steps. His pupils trembled, as if he had seen a terrifying scene.

In the spatial crack, the white-haired man saw a mountain of corpses and a sea of blood!

A man wearing a black windbreaker and holding a long saber walked out of the spatial crack. Behind him was a dog, and a cold air gushed out from the spatial crack.

"Huff ---"

The man who walked out of the spatial crack exhaled a breath of cold air. The old man and the white-haired man were facing a great enemy.

"Old bug, what are you looking at?"

Within the cold air, a pair of sharp eyes looked at the old man.

Seeing this scene, the white-haired man's hand trembled a little. He was not afraid, but excited.

The white-haired man's eyes, which were already a little dull, were filled with desire. He longed for the death of this old man who had tortured him for a whole year, even if the other party was his' Father '.

The old man's face froze. He felt a threat from the cold air. This feeling had not appeared for a long time. The other party seemed to have some kind of ability to kill him.

"Yan Ye, control your heroic spirit!"

The old man growled, but he did not notice that the white-haired man named Jian Tongyan Ye had a twisted smile on his face.

"I can't do it. Hahaha, I... can't control him."

Jian Tongyan Ye raised his head and laughed. He looked at the three red marks on his arm.

"I am just his mana supply. I can't control it. If I anger him, he will even kill me."

Hearing the white haired man's almost crazy laughter, the old man slowly retreated.

Su Xiao walked out of the cold air. He finally knew that he had arrived in this derivative world as a fake spirit. This was the FA/Zero world, the Holy Grail World.

Different from the semi-converted spirit, Su Xiao's body did not change. The fake spirit was just an identity. The real servant of Zhong Tong Yan Ye, Lancelot, had been cut into four pieces by him a few minutes ago. The energy that floated out had been absorbed by the Holy Grail.

Chapter 689: Old Bug

Su Xiao looked around the situation in the basement. When he just entered this derivative world, there was a malicious gaze staring at him. After seeing the owner of that gaze, Su Xiao roughly guessed what was going on.

This time, he replaced Berserker, which was Lancelot who fought before.

Killing Lancelot, Su Xiao did not get any reward. It was a test. Killing Lancelot could replace the other party's rank, and if he could not kill it, he would be trapped in the knot forever.

The derivative world that Su Xiao entered this time was not small, but the battlefield was not big, just a city, and the main story was simple.

200 years ago, in order to reach the root of, which was the dream of all the magicians, the three magic families joined hands to call out the Holy Grail, a 'energy machine' that could fulfill any dream.

There were three magic families who participated in this matter, but there was only one Holy Grail, so the conflict between the three families intensified.

After a series of competitions, the three families agreed to use a small scale competition to determine the ownership of the Holy Grail.

The first Holy Grail War officially began. The rules at that time were not perfect. The three magic families fought fiercely, but they all ended in failure.

After the first Holy Grail War, another big Holy Grail was about to appear after 60 years.

The second time, the rules of the Holy Grail War became more and more complete, and the impact on the world structure was even smaller.

However, the three great clans still did not abide by the rules. Although the 'Order Curse System' had been completed, the Holy Grail War still ended in failure.

Just like that, the Holy Grail War was held every 60 years, and the rules were perfected.

As time went on, it was the fourth Holy Grail War.

The current Holy Grail War already had detailed rules, and the rules were as follows.

1. Absorb magic power from the Earth Vein(the initial structure of the Holy Grail).
2. Choose Master(After storing enough magic power to summon seven Servants(Follower), the Holy Grail will select a magician suitable to become Master and grant the mark of omen. The candidates must quickly start preparing for the summoning ceremony.)
3. Summoning Ritual(Summoning Servant requires a complicated magic ritual. As the prototype of the heroic spirit and summoner, there is no need to say the compatibility between the spirit and the flesh. The most important thing is to have a deep connection or medium with the heroic spirit. Summoning Servant is a ritual that can not be reached by human hands. However, with the help of the big Sacred Cup, it can not be possible.)
4. Grand Sacred Cup Link
5. Carving a spell for Master
6. Summoning Servant
7. Master and Servant Contract
8. War Begin

9. Recovers the soul of the deceased Servant(Servant)

10. Open the path to the 'roots'

To put it simply, the seven sorcerers were chosen by the big holy grail, and then summoned the temple-servant(servant, spirit) to fight, and the final sorcerer got the holy grail.

As for the seven spirits, in principle, these seven spirits must die, because the holy grail needed their souls to be full.

Although Su Xiao appeared as a spirit, he did not have most of the characteristics of the spirit, it was a fake spirit. In addition to being strong enough, his soul had nothing to do with the holy grail. His life and death had nothing to do with the appearance of the holy grail.

Compared with the reincarnation paradise, the ability of the big grail was not worth mentioning.

Su Xiao had his own body, so he could exist without mana supply, but once Su Tong Yan Ye died, Su Xiao's stay in the Sacred Cup World would be greatly reduced. He would stay for at most two days before he would be forced back.

Now he did not know what the main mission was, and the talent awakening mission was about to be activated. Once forced back, the loss was extremely heavy.

Now Su Xiao had replaced Berserker. If there was no contractor who was similar to him, other spirits could appear normally.

Moreover, if there was contractor who was similar to Su Xiao in strength, he would not become a fake spirit.

Thinking of this, Su Xiao was more or less clear about the current situation. Although he was a fake spirit, Zhong Tong Yan Ye could not have any effect on him. As for the three spells in the other party's hands, they were used to control a dead spirit.

If Su Xiao saw that Jian Tongyan Ye was wrong, he could kill the other party completely. As long as he could find a new mana supply, considering that there were not many magicians in the world of the holy grail, Su Xiao was ready to spare the other party's life first.

Su Xiao withdrew his gaze from Jian Tongyan Ye. Zhong Tongyan Ye's body relaxed and gasped for breath. It was not a good experience to be stared at by Su Xiao.

"Then, deal with you first."

Su Xiao raised his left arm. His hand that was wrapped in a metal bracer was holding a strange worm. This thing wanted to drill into his skin and flesh when he just walked out of the space crack.

His two fingers exerted force, and the fat worm with a mouth full of sharp teeth was pinched into meat paste.

Su Xiao looked at the old man who was gradually retreating in the basement. He knew the information of this old man. His name was Sutong Inkstone. The patriarch of the three great magic arts family, the Yuntong family, had lived for 500 years.

Although the magician in the world of the holy grail could master some supernatural abilities, it was amazing to live for 500 years.

The reason why the Jian Tongye could live for 500 years was that he abandoned his original body and manipulated magic insects to form the body, which was turning himself into an engraved insect.

Standing in the basement, Jian Tongye looked like an old man, but it was just a leather bag, and the rotten and smelly leather bag was about to be damaged by the insects.

The method of immortality of Jian Tongye was somewhat similar to Orochimaru in the Naruto world, but the method Orochimaru used was much more high-end.

Orochimaru was independent of his own soul and entered a new physical container. If the container was broken, he would change it into a new container.

Meanwhile, Jian turned its original body into an engraved insect. These insects also needed to stay in the human body, but this method would cause the soul to wither gradually.

In the past, he only needed to change a body for decades, but now it needs to be changed once every few months.

The reason why he longed for the big Sacred Cup was very simple, eternal life.

In the basement.

Su Xiao walked to Jian Tong Yan Ye and wiped his hand on the other person's clothes. Jian Tong Yan Ye's mouth twitched, but he did not dare to move.

"I don't know who this heroic spirit is. Although the ceremony seems to be wrong, our Jian Tong family will help you win the victory of the Holy Grail War."

Jian Tong Yan, who found that the situation was wrong, stopped retreating and intended to negotiate with Su Xiao.

"That insect... is yours, right?"

A smile appeared on Su Xiao's face, and Jian Tong Yan also smiled.

"This is caused by the magic circuit of Jian Tong family. My son's magic talent is not good, so he can only..."

Boom!

Jian Tong Yan was about to throw the blame to Jian Tong Yan Ye, but a loud explosion came.

Clang.

A pale blue blade light suddenly appeared, and a withered head flew up.

With a plop, the head fell to the ground, and the headless body of the Jian Tongye fell to the ground.

"This..."

On the side, the face of the Duan Tong Yan Ye was full of disbelief, because the death of the Duan Tong dirty Inkstone was too simple.

"The speed is good, and the blade is sharp enough. Even compared to Saber(Sword Knight), the rank is not much worse."

The head of the Tongtong Nefarious Inkstone on the ground said.

"Don't think that magicians can't fight against heroic spirits. Whether it is the Holy Grail or heroic spirits, they are ultimately summoned or formed by us magicians."

The head of Jian Tongye sneered, and cracks began to appear on the withered face.

With a hum, a large number of engraved insects with wings rushed out of the body of Jian Tongye. The broken skin on the ground had long been withered and shattered.

Chapter 690: To Step On

Weng ---

A large number of engraved insects flew in the air. This was the original form of Jian Tong Yan.

These engraved insects looked ugly. Their bodies were slender and long. Their wings were very sharp. There were red compound eyes on their heads and back. A rough estimate showed that there were more than a hundred of them.

"What? Are you not going to continue attacking?"

Jian Tong Yan's voice came. This sound did not come from the body of the insect, but from all directions.

The speed of the engraved insect was not slow, and there were many of them. It was difficult to kill these engraved insects.

These engraved insects did not rush to Su Xiao, but flew to the exit of the basement. The reason was very simple. Although Jian Tong Yan was the head of one of the three great magic arts families and had lived for five hundred years, it knew a path. The magician and the heroic spirit would not have a good ending if they fought against him, especially the strong 'Heroic Spirit' like Su Xiao. Moreover, the magic of Jian Tong family was not excellent in the attack.

Su Xiao's figure flashed and rushed straight to the swarm. Today, he could not let this old insect leave alive. The other party knew some of his details.

Although Su Xiao was not inferior to the other six spirits, it would be best if he did not expose himself.

A few dozen hexagonal energy shields appeared beside Su Xiao. As soon as the counterattack shield appeared, he immediately cut off the energy supply. In this way, the counterattack shield could leave him within a meter, but there was only one minute left.

While Su Xiao rushed forward, he also controlled the counterattack shield to fly to the group of engraved insects in the air.

When he found that a few crystal clear ability shields flew over, the Tree-faced Inkstone subconsciously felt bad and immediately controlled the insects to spread around, but it was too late.

Several dozen counterattack shields surrounded the engraved insects flying in the air. All the counterattack shields gathered together and finally formed a diamond-shaped enchantment. Although the enchantment was made of dozens of counterattack shields, it was built extremely tightly.

Boom, boom!

A large group of engraved insects rampaged inside the counterattack shield. The strength of these engraved insects was extremely strong, and the counterattack shield enchantment constantly rumbled.

Unfortunately, the counterattack shield with 400 points of strength was not something that a magician like Jian Tong Yan could break through. Not to mention a magician, even Ying Ling might be unable to break through it.

Realizing that it was impossible to break through the defensive barrier, those engraved insects stopped their useless efforts and landed on the inside of the barrier. The originally translucent barrier became gray and black.

All the engraved insects revealed fine fangs and began to gnaw on the counterattack shield from the inside.

Ka...

The sound of gnawing had reached an ear-piercing level. The magic of the Tong Family was water attribute and had the ability to absorb. The old man of Jian Tong intended to absorb the energy of the barrier and break the counterattack shield.

Su Xiao took a deep breath and tried his best to suppress the energy activity of the green steel shadow inside the counterattack shield, reducing the strength of the counterattack shield.

The counterattack shield barrier flashed with blue light, and a large amount of energy channels appeared on the surface.

Ka...

Tiny holes began to appear on the counterattack shield barrier, and it would not take long for it to be eaten up.

Previously, he found that negotiation was useless, so he no longer talked nonsense. He now wanted to escape from here. As for the follow-up revenge, he had many ways. In terms of conspiracy and calculation, no one was his opponent.

Su Xiao appeared too suddenly, and Su Xiao never listened to the nonsense of the enemy because the conspiracy Jian Tong did not work in the Martial Land.

Ka ba!

The shield barrier broke, and with a hum, a large number of engraved insects rushed out of the Inner Realm.

"Unknown heroic spirit, you will be the first victim of the Holy Grail Battle."

Jian Tong Yan laughed sinisterly, and a large number of engraved insects scattered in all directions, preparing to escape with the advantage of numbers.

"You want to leave after eating so much of my green steel shadow energy?"

Zi ---

Blue and white electric arcs burst out in the bodies of all the engraved insects.

"Ah!!"

A scream came, and the magic power and green steel shadow energy in the bodies of all the engraved insects were eliminated. The green steel shadow energy showed its fangs and devoured!

One by one, the engraved insects exploded, and a moment later, hundreds of engraved insects killed Zetsu.

"Zhong Tong Yan... is dead?"

Zhong Tong Yan's eyes widened, as if he could not believe the scene in front of him.

"It's not that easy."

Su Xiao glanced at the hint of the reincarnation paradise.

[You have eliminated Jian Tong (2/5)]

[Because the original engraved insect of Jian Tong has not died, he will recover after sleeping for five natural days.]

The old insect was not dead, it was just sleeping. If it died so easily, it would not be an old monster who had lived for 500 years.

"Bubu."

Su Xiao looked at Bobowang. Bobowang sighed and moved his nose close to the engraved insect corpse on the ground. After sniffing it, Bobowang walked out of the basement.

Su Xiao followed closely. Today, Jian Tong must die. It had nothing to do with what he had done. It was a personal grudge.

Just when Su Xiao arrived in the world of the Sacred Cup, Jian Tong intended to let the engraved insect invade his body. If Su Xiao was not vigilant and had not been completely transferred, he would likely be attacked by Jian Tong.

As long as there was no difference in strength, Su Xiao would never revenge overnight.

Su Xiao and Bobowang rushed out of the basement. At this time, Su Xiao found that this dark building was an ancient castle of the Tong family.

As a family of magic arts who had been passed down for a few hundred years, the ancient castle that they lived in was certainly not small, but the style of this ancient castle was gloomy, like an abandoned ancient castle.

The ancient castle was full of the stink of insects. What Su Xiao wanted to do was very simple. That was to kill all the engraved insects in this ancient castle. He did not believe that Jian Tong Yan was still alive. The consciousness of the other party was sleeping, and it was impossible to resist.

After rushing to the first floor, Bobowang followed the smell of insects to the depths of the castle.

After going around for a while, Bobowang found a staircase leading to the bottom at the corner of the first floor.

A wooden door cut off the downward stairs. Su Xiao kicked the wooden door. Behind the wooden door was a room with no windows. After the wooden door was broken, the moonlight reflected in the room. With Su Xiao's vision, the scene in the room came into view.

There was no window in this room, it was almost completely sealed. Only the stairs under Su Xiao's feet could enter the room.

The whole room was a big pool, the pool was about 5 meters × 5 meters, and the pool was full of gray worms, densely packed, these worms had a mouth full of fangs, squirming in the pool.

The sound of staggering footsteps came from behind Su Xiao, it was the limping Zhong Tong Yan.

Ignoring Zhong Tong Yan, Su Xiao walked along the steps into the insect pool full of insects.

As Su Xiao walked forward, the engraved insects in the pool squirmed and dispersed, they were escaping.

When Su Xiao entered the pool, there was no engraved insect within three meters of him.

"Are these not the original bodies?"

The green steel shadow energy surged out from under Su Xiao's feet and spread like a tide on the ground.

Squeak ---

The engraved insects screamed. As long as they were touched by the green steel shadow energy, their bodies were like snow touching iron.

Pa la, pa la...

All the engraved insects that touched the blue steel shadow exploded. For the engraved insects made of semi-energy, the energy of the blue steel shadow was the nemesis.

The energy of the blue steel shadow swept past, and thousands of engraved insects in the insect pool all died.

"Eh?"

A weak girl came, and a little girl with red fruit stood up in the insect pool. Among the broken bodies of those engraved insects, this little girl's white body was particularly conspicuous.

Su Xiao walked forward, the little girl with purple hair raised her head, but her eyes, which were supposed to be innocent, were dim.

The little girl was called Zhong Tong Ying, she should have been called Yuan Ban - Ying Ying, but unfortunately, she met a father who cheated her daughter, Yuan Ban-Shi Chen.

Yuan Ban - Shi Chen was a qualified magician, but he was not a good father. Using Zhong Tong Yan Ye, it was all Shi Chen's fault.

In Su Xiao's opinion, this sentence was unreasonable. He did not know whether Ban Shi Chen was wrong or not, but he knew one thing. The lack of ability of the person in charge caused all the misfortunes. Whether it was killing or protecting, his own strength was stronger.

"You want to protect Ying? Just kill that old bug, and the plum bamboo horse will be robbed? Just kill Ban Shi Chen."

"Brother, do you want to kill me?"

Jian Tong Yan looked up at Su Xiao, and a small hand pressed on the chest of the flat spread.

"Ah."

Su Xiao stretched out his left hand to Jian Tong Yan, and a roar came from behind.

"Stop!"

Jian Tong Yan rushed forward. He could no longer care about the gap in strength.

"Blargh!"

Jian Tong Yan, who was already waiting to die, retched and rolled her eyes. She looked a little cute and spat out a strange insect.

This insect was blood red all over, and its head was round. The slender insect had just escaped from Tong Ying's mouth and rushed to the only exit in the room.

"Grandpa?"

Ying tilted her head and looked at the insect on the ground. She raised her little feet and stepped on the insect. This was the original body of Jian Tong Yan.

With a click, the white little feet stepped on empty space.

Just as the bug escaped to Su Xiao's feet, he raised his foot and crushed the bug with one foot.

[You have eliminated the Jian Tong Yan (4/5)]

[Because the engraved bugs in the original body Jian Tong have not died, he will recover after sleeping for 64 natural days.]
