

## R. Paradise 71

Chapter 71

“Nice to meet you.”

After that, Juzo Suzuya gave them a smile.

“Ha?”

Marude Itsuki put one hand like a claw and trembled in front of him.

Shinohara Yukinori next to him saw this scene, he pressed his hand on his forehead with a look of having a severe headache.

“Oh my god.”

Shinohara Yukinori looked around and immediately noticed Su Xiao behind Juzo Suzuya.

Marude Itsuki also noticed Su Xiao, the original stiff expression suddenly disappeared.

“Shinohara, the headquarters sent him to us temporarily? Great!”

No wonder that Marude Itsuki was so happy, the 14th district was almost cleaned by Su Xiao, and everyone knew it.

“Marude, you may be happy in vain, Byakuya was transferred to the 24th district to ‘kill the rats’ with Arima Kisho.”

Marude Itsuki was surprised.

“In the 24th area? It seemed that no one can reach there except the zero team. Did Byakuya become a member of the zero team? Is there a rule of the zero team?”

“He is a temporary member.”

When he heard the temporary members, Marude Itsuki’s eyes lit up.

“A temporary... member, haha, there may be a chance to change. If there is a BlackDeath in the action of the 11th district, even if Yoshimura Kuzen is there, we will not have too many casualties.”

When Marude Itsuki was talking, he had already walked to the door, passed Juzo Suzuya, and greeted Su Xiao with enthusiasm.

“Superior class Byakuya, we met before, now we are in a meeting, you can join us.”

Su Xiao was a bit stunned because of this sudden ‘passion’.

“This ...”

“the People you are waiting for will arrive soon, at least one day.”

Su Xiao didn’t refuse and sat in the conference room.

“That... Juzo Suzuya, you can just listen by the side.”

Juzo Suzuya looked at Marude Itsuki stunned.

“Listen?”

“Listen from outside!”

“Boom.” The door of the conference room was closed.

Marude Itsuki naturally tended to hold the grudges. He usually looked mischievous, but he was really a very reliable person.

Juzo Suzuya wore bright red slippers and leaned against the wall next to the door, the meeting continued.

“So, now that we talk about the latest attack, Aogiri tree's actions were obviously organized and disciplined, so I am concerned that they have a leader, and from the past cases, their leaders...”

Marude Itsuki began a detailed introduction to the action, Su Xiao yawned and put his hand on the chin.

“I may release very harsh instructions, but please endure this, please.

The plan will be launched after a week, move those who survived to the residents of the 11th district. There are very few ghouls who appeared in 14th district, they can be transferred to the 14th district. I will deal with the media.

That's all, disbanded. ”

“Yes.”

The meeting was finally over, Su Xiao was already asleep, the attacks in the past few days made him very tired.

“Byakuya, let's go.”

Shinohara Yukinori wakes up Su Xiao.

“Well? Is it over? Marude Itsuki is so talkative.”

Su Xiao yawned and stood up.

“Marude is also worried about casualties of this attack. We have worked together before. He cannot be reckless, no way.”

Su Xiao and Shinohara Yukinori went outside, the two worked together before. Su Xiao cleaning the 14th district also had a significant influence on the future of Shinohara Yukinori.

After all, Su Xiao cleaned the 14th district when Shinohara Yukinori managed the 14th district.

The two just walked out of the conference room and saw Marude Itsuki at the door.

At this time, Marude Itsuki smiled with purposes and walked toward Juzo Suzuya who was leaning against the wall.

“You are Juzo Suzuya, you are really a thin guy.”

Juzo Suzuya did not speak, and looked at the ceiling with no emotion.

Shinohara Yukinori, who was chatting with Su Xiao, saw this scene.

“This is not good, I need to go there now.”

Shinohara Yukinori walked quickly over there.

Marude Itsuki found that Juzo Suzuya did not care about him, and he was not angry, but put his head in front of Juzo Suzuya with a weird expression.

“Do you eat your meals properly? Do you have a dick?”

Apparently, the guy Marude Itsuki who tended to hold grudges was trying to pick a fight with him, because Juzo Suzuya interrupted his meeting previously.

“Ok?”

When Juzo Suzuya heard the phrase “Do you have a dick?”, he got some reactions.

“Forget it, forget it, Marude, Juzo Suzuya was definitely tired when he arrived at the branch. Let it go, let’s go to have lunch.”

Sugawara Yuki’s hands pushed the shoulders of Marude Itsuki, and the two walked out.

“What is wrong, I just chat with him.”

“Forget it, let’s talk tomorrow, let’s go.”

After that, Sugawara Yuki turned back and made a pose of pleading to Su Xiao by mouth.

Juzo Suzuya just arrived in the 20th district, and he was unfamiliar with the environment. Moreover, this little kid had no basic concept of right and wrong, he easily causes troubles.

In the 14th district, only two people can deal with Juzo Suzuya, one is Shinohara Yukinori, Shinohara Yukinori taught Juzo Suzuya, and treat Juzo Suzuya very well.

The second person was Su Xiao. If Juzo Suzuya is not obedient, Su Xiao will kick him until he becomes obedient.

....

After Marude Itsuki left, Juzo Suzuya moved his head and looked at the direction Marude Itsuki walked in. The pair of light red eyes deeply remembered the appearance of Marude Itsuki.

Juzo Suzuya this little kid also held grudges.

“How are you going to revenge, with your current combat power, Marude Itsuki can kill you in ten minutes.”

Juzo Suzuya did not look at him anymore.

“Byakuya, I am hungry.”

“Let’s go.”

Su Xiao took Juzo Suzuya and walked out of the branch. After looking around for a while, they found a BBQ shop.

This BBQ shop was luxuriously decorated, it seemed that the cost per person is not low.

Su Xiao was not short on money. Before leaving the 14th district, he received a large amount of bonus in the branch of the 14th district.

“Sir, please go in this way.”

The waiter brought those two to a seat.

After Juzo Suzuya chose a piece of beef that was expensive which made people shocked, then looked at Su Xiao with a smirk.

Su Xiao chose a lot of meat and fish.

Soon, a wire mesh self-service grill was placed in front of those two.

The beef that Juzo Suzuya chose was a kind of pork tenderloin called ‘Wagyu Japanese beef’.

“Zizzi.”

The surface of the beef on the self-service grille had oily flowers, and the animal oil dripped in the charcoal fire.

Su Xiao tasted a piece, the taste was really good, the meat was smooth and tender, the flavor was delicate, and the feeling was endless with the unique sauce.

After eating a nice meal, Su Xiao walked on the street as he was bored, he had been busy after entering the derivative world.

He didn’t get used to this.

The sky was already a little dim, walking on the street, Su Xiao saw a coffee shop in the distance.

Take a closer look, the name of the coffee shop was Antique!

This was a coincidence, Su Xiao was not looking for Antique on purpose, he just wandered after dinner.

Now that he had come here, he may go in and check the rough situation of ghouls’ side.

Although the fighting power in Antique was very strong, there were Yoshimura Kuzen, Yomo Renji, Koma Enji, Irimi Kaya and others.

However, in the 20th district, if Su Xiao does not take the initiative, the Antique will not dare to take actions unless they did not want to continue to live in the 20th district.

Su Xiao pushed open the door of the coffee shop, and the bell on the door made a loud sound.

“Welcome.”

Some crispy sound of children came.

Su Xiao walked into the coffee shop and found a little girl with brown hair and white skin.

He recognized the little girl, the person was Hinami Fueguchi who just lost her parents.

Didn't know why, after Hinami saw Su Xiao, she was stunned in the same place, as if she saw something terrible.

“No, don't come over.”

When Hinami Fueguchi spoke, she started crying and sat on the floor.

Su Xiao had recently killed too many ghouls and was full of the smell of blood, and Hinami Fueguchi had a natural ability, super-perception.

Chapter 72

The coffee shop became silent.

Kirishima Touka, Yomo Renji, Nishio Nishiki, and others are all in the cafe.

“Sorry, my staff had recently experienced grief, and the mood is somewhat unstable.”

Yomo Renji, who was, the store manager stepped forward and apologized.

“This guy is...”

Kirishima Touka whispered, looking at Su Xiao with horror.

The ghouls in Antique were different from other ghouls. They generally did not prey on humans and only ate the bodies of those who killed themselves.

Rolling up her short blue hair, Kirishima Touka hesitated, then finally went forward and acted as a waitress.

In the coffee shop in Antique, the store manager and the waiters were ghouls.

This was a cafe that had a lot of ghouls.

The store manager, Yomo Renji, was a horrible character and an SSS class ghoul.

The store manager killed too much when he was young. He opened this coffee shop in the 20th district after he got older.

His purpose was to let the ghouls live in harmony with human beings. They will not take the initiative to prey on human beings, they would just survive.

Su Xiao sat in front of the bar, and Juzo Suzuya looked around in curiosity.

“Guest, what do you like to order?”

The store manager's white hair was neatly groomed, dressed tidy, and his face was gentle, like an old gentleman.

The strange thing was that the store manager's eyes seemed close, perhaps because his eyes were too small?

“Since I came to the coffee shop, I would like to have a cup of coffee. I heard that the coffee in your store is ‘excellent.’”

Su Xiao didn’t come to fight. He just wanted information.

In the coffee shop, he did not see Kaneki Ken. There were two possibilities. The first was that Kaneki Ken was not here or perhaps he was taken away by Aogiri tree, and Su Xiao guessed it was the latter one.

“Guests, please wait a moment.”

The store manager was busy, he recognized Su Xiao, so he personally welcomed Su Xiao, the big god of death.

KirishimaTouka handed a towel and padded it on the bar in front of Su Xiao. She wanted to leave.

“Wait.”

Su Xiao suddenly shouted, and Kirishima Touka’s body stiffened.

“What, what happened? My guests.”

Kirishima Touka bowed her head and pretended to be shy and did not dare to look at Su Xiao.

“You have a brother, right?”

After Su Xiao said this sentence, KirishimaTouka only felt a coldness rising from her feet and went straight to the brain.

“How come, I don’t have a brother?”

Kirishima Touka then looked pretty nervous as she walked away, Su Xiao just wanted to mess with her.

“Guest, your coffee is here.”

The store manager handed over a cup of coffee and asked Su Xiao to have it patiently.

“Touka, prepare tomorrow’s ingredients.”

KirishimaTouka seemed really relieved by this order and walked quickly into the room.

The unique aroma of coffee floated, Su Xiao didn’t have the habit of drinking coffee, but after smelling this strong fragrance, he couldn’t help but take a sip.

After drinking a sip, Su Xiao’s eyebrow picked.

“Nice.”

The store manager smiled.

“Thank you for the compliment.”

The store manager took a cup of coffee and walked out of the bar, sitting next to Su Xiao.

“You don’t drink coffee often, right? Coffee should be tasted slowly. Otherwise, it will affect the taste. Just like life, although it is bitter, you can only taste other flavors in bitterness.”

“I don’t have the habit of drinking coffee. I just have a ‘friend’ working here, so I came to see it. Unfortunately, he is not here today.”

Su Xiao continued to drink coffee.

“A friend?”

The store manager looked at Su Xiao with confusion.

“Yeah, ‘friend,’ his name is Kaneki Ken, I don’t know if the store manager can contact him. We haven’t seen each other for a long time.”

Su Xiao put down the coffee cup and looked at the store manager meaningfully.

“It turned out to Kaneki Ken. He recently went out. It was a pity that he took time off.”

Su Xiao was basically sure that Kaneki Ken should be in trouble.

“Yes, since it is like this, then forget it.”

Su Xiao drunk all the coffee.

“Suzuya, let’s go.”

Su Xiao seemed to be relaxed but actually perceived the surroundings. All the eyes were on him which mean that all the people here recognized him.

Su Xiao tried to take out money.

“No, this coffee will be my treat.”

The store manager stood up, and his face was calm.

Although the contact with the store manager was not long, Su Xiao found that the store manager was different from most of the ghouls he had seen. He did not have such a feeling of madness and perversion.

It was more like a wise old man, a wrinkled face, occasionally showing helplessness to the world.

“Then, thank you.”

Su Xiao and the store manager stood up and looked at each other.

“Guests, if you have chances, please come to ‘Antique’ for drinking coffee again, even if it’s at night is still okay, the surrounding environment is safe.”

The store manager’s sentence revealed a variety of meanings.

It was not only to invite Su Xiao, but also give him kindness, but also to conceal it at the same time. The 20th and 14th districts were different. The ghouls here were very peaceful and will not harm human beings.

At the same time, he asked Su Xiao not to make a crazy move to eliminate the 20th district.

The store manager may have already known that Su Xiao found something.

It was a terrible thing to eliminate the ghouls of a region.

The store manager also wanted to avoid BlackDeath.

“Perhaps, we will meet again shortly.”

Su Xiao smiled at the manager, and a red light flashed in his eyes.

Su Xiao walked out of the cafe.

The store manager sat back and sighed, Kirishima Touka walked out of the room.

“Is this guy the Blackdeath that appeared recently? This guy is definitely a madman...”

Touka showed a worried expression, she was also afraid of Su Xiao clearing the 20th district, so the antique can only move to some other place.

“It’s a terrible guy.”

Nishio Nishiki was only an A class ghoul, so he was even more afraid of Su Xiao, and his legs were somewhat soft.

The A class ghouls that were killed by Su Xiao were more than Nishio Nishiki had seen in his life.

“Pure humans can be so strong. If I’m not wrong, he should’ve come to find Kaneki Ken...”

After the store manager spoke, the coffee shop became silent.

—————

On the way back to the CCG branch, Juzo Suzuya was very cheerful.

“Ah, oh, I just had a strange feeling in that coffee shop.”

The intuition of Juzo Suzuya was very accurate, except for the two of them, the rest were all ghouls.

“Who knows.”

Walking on the street in the night, Su Xiao lit a cigarette.

Juzo Suzuya ran to the left of Su Xiao but didn’t know why he then went to the right side of Su Xiao.

“Byakuya-nii, how can I become as strong as you?”

“Opportunities, hard work, not afraid of death.”

Juzo Suzuya nodded without really understanding.

Five minutes later, the two returned to the CCG branch.

After Su Xiao returned to the temporary residence, he took a shower and lied on the bed.

A blood-red card appeared in Su Xiao's hands, and he was ready to open the 'scarlet card' that Queen had dropped to see if he could harvest anything useful.

Tomorrow he may go to the 24th district. If he can add some combat power or supply, it would be a good thing.

[Yes/No use of the scarlet card.]

When he chose to use it, the 'Scarlet card' gradually dissolved and turned into a reddish liquid that floated in the air.

The light red liquid suddenly began to spin quickly, forming a vortex in front of Su Xiao.

On the end of the vortex contained a space that fit one hand, so he put his hand in it.

After some exploration, he touched a smooth, soft object.

Su Xiao smiled. He seemed to touch a piece of equipment. What unlucky, his luck was still good.

The hand was pulled out of the red vortex, and the hint of the reincarnation park came.

Upon receiving the hint of the reincarnation park, Su Xiao's smile on his face disappeared, and he stayed in the same place. After a long time, he swore.

The hint of the reincarnation park was.

[You randomly got a 'silk bra.']

### Chapter 73

Holding the bra in his hand, he was a bit shocked, what made him even more speechless, this was actually a piece of equipment!

[silk bra]

Origin: Catalog of Magical Forbidden Book, School Street, No. 3 Street.

Quality: white

Genre: Armor.

Durability: 11/15

Requirement: women's exclusive equipment.

Equipment effects: charm +1, cup +1.

Rating: 7 (Note: White equipment with a white equipment rating of 1 to 10 and a score of 10 will be marked as 'rare' with special attributes attached.)

Introduction: The cup is the charm, believe me, it can't be wrong.

Price: 900 paradise coins.

....

Su Xiao scratched his head. This thing was of a little use to him and could only be sold in the reincarnation paradise.

The red vortex was still there, Su Xiao started the second chance.

With the last lesson, he began to look for hard objects.

Soon, he touched something, its appearance was very hard, and the texture was smooth.

Holding an attitude of giving it a try, Su Xiao pulled out the item.

[Universal wrench]

The reincarnation paradise only gave two simple words, Su Xiao's face was blue as he raised a silver-white wrench.

This thing was not even equipment, it was an ordinary item in the reincarnation paradise, the workers in the reincarnation paradise will use it, and its value should be within 3 paradise coins.

How can Queen have this in her storage space? Is she a worker?

It was obviously impossible, Su Xiao guessed a kind of answer.

Queen may have often open scarlet cards so she may put these in purpose in her storage space.

In the reincarnation paradise, no one can ensure that he will be able to leave the derivative world alive. Queen puts a lot of useless items in the storage space just in case.

This way, even if she is dead, she will not let enemies get benefits.

With the character of Queen, she would definitely do this.

Su Xiao sighed and did not have any hope for his third selection.

With his permanent passive unluckiness, and with a large amount of trash in Queen's storage space, the chance of getting good things was too low.

Su Xiao casually took out a thing from the bloody vortex and looked at it.

“Oh my..”

What appeared in Su Xiao's hands was a bottle.

[Rejoice shampoo (manufactured by workers)]

After hesitating for a long time, Su Xiao endured not to throw away the bottle of shampoo.

This was also a harvest. If he is in the wilderness in the mission, it is not bad to wash his head by the river.

After forcibly comforting himself, Su Xiao sat in the bed, and put dragon flash on his legs and began meditating to release the depressed mood.

The method of meditation Koshiro taught him was not simple.

Recently, he had a feeling that after he meditated, his perception will become more and more acute.

Like black white's sniper previously, Su Xiao could feel it in advance, and it was not unrelated to frequent meditation.

Su Xiao recently killed a lot of ghouls, but he did not fall in madness by the unnecessary killing. Although he was full of blood, his mind was very firm and unaffected.

And this was perhaps related to his frequent meditation.

As long as he had time, he will meditate for two hours before going to bed, which has become a habit.

At the end of the meditation, Su Xiao felt a bit tired, and this fatigue could make him fall asleep more quickly.

---

Night time in the 4th district, Shinjuku City.

The moon was high, although there were all tall buildings in the 4th district, it was dark as if humans had given up this area.

It was the truth. There were no human beings in the 4th district because of the proliferation of ghouls.

“Shh.”

The whistle came, a figure in a black robe with a wide hood appeared in the suburbs of the 4th district, surrounded by wild grasses, and could hear the night sounds of wild animals from time to time.

The black shadow carried a linen bag. The bag was large, there was something hidden in it.

“The contractors of the ghouls camp were all junks, dragging down the speed of the task of mine. There was surprisingly only one person in CCG camp. What happened?”

A low male voice came under the hood.

A pair of black triangular eyes appeared under the moonlight. Only these eyes could be seen, and you could feel that the owner of the eyes was definitely a bad person.

Those eyes were full of negative emotions, mean, cruel, and crazy.

“Hooo, hoo.”

The bag behind the triangular-eyed man swayed a few times, listening to the hoo, there should be a human inside the bag.

The triangular-eyed man surprisingly came to the suburbs of the 4th district at around 10pm and also packed a person in a bag.

“Be quiet, or I will cut your tongue.”

The triangular-eyed man dropped the bag and kicked against the bag.

A cry came from the bag, and the person's sound stopped.

“Right here.”

The triangular-eyed man untied the bag, and a boy came out.

The boy was about seven or eight years old and looked cute, and his face was full of dirt.

On the small face which was full of dirt, there were two clear traces of tears, and the clear eyes had already become red.

“You are unlucky, I can't find anyone else, so I can only choose you, but the amount of flesh and blood is somewhat not enough.”

The triangular-eyed man made weird laughter, and his dry fingers like chicken feet, buckled in the mouth for a while and pulled out a sticky substance like chewing gum.

“Pooh!”

The triangular-eyed man spat out black saliva, cautiously made the sticky substance in his hand into small pieces and threw it around, and left a part in his hand.

After finishing all this, the triangular-eyed man took out a scimitar as long as a palm and made weird laughter.

“Hoo, hoo, hoo.”

The little boy was even more afraid and struggled desperately on the ground, but his hands and feet were tied with tape, and he could only wriggle on the ground.

“You are so small, how many pieces should I divide.”

The triangular-eyed man was thinking.

“Five, you are too small.”

The triangular-eyed man licked his lips with his tongue, and the machete in his hand approached to the little boy...

In the suburbs under the moonlight, a cruel scene appeared. A man in a black robe was using a knife to skillfully cut the child. Although the child was sealed, he made a low voice from time to time.

Ten minutes later, the little boy turned into a pile of minced meat, which was thrown to the ground randomly, and there was some a black sticky substance that could be seen faintly on the fragments of the body.

The triangular-eyed man was hiding in the distance and waiting silently.

An hour later, two red lights passed under the night, which were ghouls' red eyes.

“Is this a murder? Haha, it is really good luck, I surprisingly can eat human flesh.”

The ghoul picked up the little boy's body and gorged it after discovering that there was no abnormality around him.

The triangular eyed man curled his lip as if he was somewhat dissatisfied with only one ghoul appearing.

“Explosion.”

As the triangle-eyed man murmured with a low voice, the gorging ghoul suddenly burst out.

“Boom.”

The blood mist splashed, although it was an explosion, no fire appeared, but lots of minced flesh flew.

This time, the blood smell was even heavier. Not long after, it attracted more than a dozen ghouls. These dozens of ghouls began to grab the body of the little boy. The human flesh was rare in the 4th district.

The triangle-eyed man shouted again, and those ghouls burst at the same time.

They all had a characteristic, that is, they had eaten the body of the little boy.

Two hours later, the bloody smell on the suburban of the 4th district attracted dozens of hungry ghouls, all of the ghouls were attracted by the bloody smell of the little boy.

“Sixty, seventy, it’s enough.”

The triangular-eyed man was hiding in the distance, and a black light appeared in the palm of his hand.

“Boom!”

A loud sound came, and the dozens of ghouls that were in the same place exploded.

The soil splashed and shattered.

When the aftermath of the explosion receded, two white treasure cases floated on the ground.

“Hey, surprisingly two white treasure chests appeared, but it’s normal. I’m ‘double servings’.”

The triangular-eyed man was satisfied and put the boxes into the storage spaces and received the hint of completing the ‘Achievement Mission’ from the reincarnation paradise. When he entered the derivative world, and he just started to smash ghouls in the 4th district. Although he was also in ghouls’ camp, he had special ways to avoid the deduction of the value of contributions points after killing ghouls.

The triangular-eyed man’s face that was full of joy became black. He seemed to have received some news.

“How can reincarnation paradise always warn me? I am supposed to get double rewards after the task, or you can just execute me.”

The triangular-eyed man sneered with disdain and did not care about the warning given by the reincarnation paradise.

He was the target that Su Xiao had to hunt, the N.12470 contractor!

## Chapter 74

The next morning, in the park of CCG branch in the 20th district, there was a shade of trees.

Su Xiao supported the ground with one hand and maintained an inverted posture.

“543, 544, 545...”

Su Xiao was doing one-handed inverted push-ups to exercise arm strength.

Sweat dripped down his cheeks while there was a small pool of water that appeared on the ground beneath him.

Although the reincarnation Paradise could increase the value of attributes, Su Xiao never slacked off his own exercise.

When perceiving the feeling of getting stronger, most people will be addicted to it.

Imagine being able to feel stronger every day. How pleasant it is.

“Superior Byakuya, someone is looking for you.”

A male Investigator walked up to Su Xiao.

Su Xiao put power to his arm and stretched his body.

“Who?”

“Special Arima!”

After telling the name Arima, the Investigator showed a look of admiration.

“Arima? I understood, where is he?”

After getting the position of Arima Kisho, Su Xiao picked up his top and left the park.

Unexpectedly, the person that waited for him was surprisingly Arima Kisho.

In the restaurant of the CCG’s branch, Su Xiao was eating the food in front of him.

In the seat in front of Su Xiao was sitting a man with a handsome look with white hair and glasses.

He is Arima Kisho, the strongest Investigator in CCG.

“So, are you, my boss, now?”

Su Xiao ate the last bite of breakfast and looked up to see Arima Kisho.

“Yes, you are temporarily transferred to the zero team and are responsible for the investigation of the 24th district.”

Arima Kisho spoke with a gentle tone and looked like a male god with no expressions.

Su Xiao thought for a while.

He also had 12 days of free time, although the 24th district was dangerous, it was also a good place.

If he wants to become stronger quickly, he needs to take risks, then he will get rewards. This was the iron law of the reincarnation paradise.

“When will we go?”

“Now.”

The first impression Su Xiao gave other people was murderousness, which could be seen from his only three points of charm.

And Arima Kisho was without expressionless, so the interactions between the two were very simple and clear.

Arima Kisho did not ask for testing Su Xiao’s strength, as he could clean the 14th district, which showed his power.

Su Xiao followed Arima Kisho to leave the CCG branch of the 20th district and drove to the 24th district.

The 24th district was located on the edge of Tokyo and belonged to the suburbs of Tokyo.

To be exact, the 24th district was a wilderness, and the real 24th district was underground.

In the meeting room of the branch of the 20th district, Marude Itsuki stood by the window and looked at the car which was far away, and sighed.

“He still left, if Blackdeath joins this....”

MarudeItsuki looked somehow disappointed.

“Marude, it doesn’t matter, I may have a way.”

Shinohara Yukinori patted on Marude Itsuki’s shoulder and looked at the vehicle that was far away. Didn’t know what he was thinking.

“A way? Tell me.”

Marude Itsuki looked at Shinohara Yukinori with surprise.

Shinohara Yukinori mysteriously smiled and put his head near Marude Itsuki’s ear, and said something in a low voice.

“Yes, that’s it. I haven’t thought that you can still think of this way.”

Shinohara Yukinori’s face was black and looked at Marude Itsuki speechlessly.

24th district, a CCG bulletproof car parked on wild grasses.

“Right here.”

Arima Kisho took the lead to get off the car, Su Xiao also got off the car.

A hole with a diameter of more than ten meters wide appeared in front of Su Xiao.

This was an entrance to the underground. The entrance was dark, and a vague whine sounded as if a ghost was crying.

It was the sound of the wind, which meant there was a lot of space underground.

“Yuna, introduce the situation in the 24th district to superior Byakuya.”

In the main driver’s seat of the car, a beauty who was like a student walked down.

This beauty named Yuna, about 18 or 19 years old, had a long black hair, a white sailor suit, and her chest was only slightly raised, and the left and right hands were carrying Quinque boxes.

Yuna glanced at Su Xiao and cleared her throat.

She could guess by a glance that this was also a cold guy.

“In the 24th district, we call it the underground maze. So far, we have been unable to explore the 24th district thoroughly.

In the 24th district, there are a lot of meat walls... “

Su Xiao had some doubts. He only heard slightly about the meat walls in the underground of the 24th district. He did not know the specific appearance and only knew a little bit of information.

“Yes, meat walls. That is a kind of meat wall made of kakuhou, and it is similar to the technique of making Quinque.

It is because of these meat walls that the difficulty of exploring the 24th district has been greatly improved... “

Yuna began to introduce the exact situation in the 24th district.

In general, there were now three teams exploring the 24th district, including Arima Kisho, Su Xiao, and Yuna.

As for the other members of the zero team, because of Su Xiao, they were all transferred by the headquarter.

The original words of the headquarter were that the decentralized combat power was in various regions and the current situation was unstable.

Although Yuna had a weak look, she was a quasi-special Investigator.

“The information in the 24th district is here. Now we just pass by here, and I’ll give you some general introductions. And we will start actions in the afternoon.”

The three people stood silently in the same place, Su Xiao could not help but wonder, will they stand to the afternoon?

In the end, Yuna spoke first.

“You two, are you going to stand here?”

Arima Kisho did not speak but go directly to the car.

Su Xiao was looking at Yuna, Yuna also looked at Su Xiao, the two just looked at each other.

“Back, to, the, temporary, branch.”

Yuna said this sentence words by words with a strange tone.

Through a short period of contact, Su Xiao found that his judgment on Yuna was wrong.

This beauty Investigator was not very cold, but slightly nervous, moody.

Five minutes later, the three people drove to the temporary branch, which was a three-floor villa.

Here was the place where the Investigator temporarily rests in the 24th district, there were very few Investigators in the 24th district. Now there were only three people.

Going into the branch, Su Xiao saw some busy staffs.

Except for these staff members, there were no other Investigators in the branch, which made the temporary divisions somewhat sloppy.

“Don’t look like that. Except for the newcomers, there are only three Investigators, that’s us.”

Yuna changed her previous cold attitude and became passionate.

“What’s the specific time to explore the 24th district?”

Su Xiao looked around, the structure here was very simple, the important department, only the logistics department, and the Information Investigation Section.

The logistics department should provide all kinds of materials, and the Information Investigation Section record the situation in the 24th district.

“We will go at one o’clock in the afternoon, the restaurant is inside, and there is your residence.”

After that, Yuna’s white face suddenly came to Su Xiao, and the pretty nose shook.

“I smell blood, I like your smell.”

Su Xiao’s mouth twitched, this woman is completely a replica of Juuzo Suzuya, even more, neurotic than Juuzo Suzuya.

No longer paying attention to this nervous girl, Su Xiao walked to the window of the logistics department. He had received a reminder of the reincarnation paradise.

[Hint: You have entered a special area, temporary division of the 24th district.]

[Hint: The temporary division of the 24th district is a hidden area. In the logistics department of the temporary branch, the CCG contribution value can be used to exchange items.]

Su Xiao was curious about what items can be exchanged in the logistics department.

“Superior Byakuya, welcome to the logistics department. Our items are inexpensive and useful, but they are never free.”

A thin old man with a small round sunglasses looked at Su Xiao in the window with a smile.

Su Xiao was a bit stunned, is this really the logistics department of the CCG branch? He seemed to come to a store.

During the talk of the thin old man, a list of items appeared in front of Su Xiao.

After seeing the first item on the list of items, Su Xiao seemed to have a flame burning in his eyes.

The glory blue light that he saw, he saw it for the first time.

At this moment, Su Xiao felt fortunate to be able to come to the 24th district.

Chapter 75

At the top of the items list, there was a bottle of potion with a blue glow.

The blue light, like blue diamonds, was very glorious.

The list of items was written separately.

.....

Below these three items, there were a lot of medicines, Quinque, and other items.

But in addition to these three things, Su Xiao did not want to exchange other items, those things were so expensive.

To be exact, what Su Xiao wanted to exchange was the bottle of [human genetic strengthening fluid], which added +4 physical strength and +2 strength.

And this was the first blue item he saw.

Blue-quality items were very rare, they had more points when they were scarce at the same time.

This bottle of [human gene fortification liquid] was not an item in the ghoul's world but from the reincarnation park.

That's why the 24th district should be a special zone. Otherwise, this exchange function will not appear.

In other districts of the CCG branches, there was no such function, at least 14th district and 20th district did not have this function.

Perhaps it was because the 24th district was very dangerous? Or was it a special location in the 24th district? Su Xiao did not know.

He only needed to do one thing now, that is, to get into the deeper area of the 24th district and explore the unknown area of the 24th district.

Exploring the unknown area of 24th district will help him obtain some CCG contribution point, but the premise was the unknown area was valuable to CCG.

If after he exchanges [human gene fortification solution], there are still surplus in his contribution points, he can consider the [Crushing fairy] which is a very powerful pistol.

Su Xiao was a solitary, he did not have teammates, so he needed a certain long-range ability. If he encounters a special enemy and he cannot fight in long distances, he may die.

It was not easy to develop distant capabilities and required a lot of investment.

And the skills attached to the [Crushing fairy] let Su Xiao see the way to have that type capability quickly.

The ability of [Crushing fairy] was to lock the enemy, then fire six consecutive shots.

What Su Xiao was most concerned about was the tracking bomb marked by the rapid shooting ability.

His shooting method was very bad, but [Crushing fairy] did not need shooting skills when activating the skill, it was a very good choice.

As for the last [C-type syringe of battlefield], it was also a good thing to save lives.

These three things were all that Su Xiao wanted to get, but after seeing the existing contribution points, he can only sigh and choose what he can get.

[Superior Investigator, contribution points 2053/10000.]

First, he had to upgrade to the quasi-special Investigator to exchange these items, followed by a massive CCG contribution point.

There were still 12 days of free time. He needed to get a total of 33,947 points of CCG contribution points, he had a long way to go.

However, the 24th district was notoriously dangerous, and the number of ghouls should be quite large, he could also obtain contribution points by handing in kakuhou and exploring unknown areas.

It was not impossible to get so many contribution points this way.

In the afternoon, Su Xiao, Arima Kisho and Yuna gathered.

“Checking the materials, every time we explore in the 24th district, it’s not just one or two days.”

Arima Kisho carried a big bag, carrying a Quinque in his hands, and put on a white trench coat.

This white trench coat was only for the zero team. Now Su Xiao was wearing the same one, the trench coat was fitting, which was very suitable for wearing in battle.

Yuna was also dressed in the same way. The package behind was filled with food, fresh water, and other living materials.

Su Xiao had nothing to take, his materials were in the storage space.

The storage space was two cubic meters in size, not too big, but it could contain a lot of materials.

In the storage space, more than two-thirds of the space was filled with food and fresh water, enough for him to use for a long time.

The rest of the space was combat equipment and restorative food.

“I have no problem, we can leave at any time.”

Yuna looked at Su Xiao with some strangeness.

“What do you use during the fight?”

The dragon flash appeared in Su Xiao’s hand, and he raised the handle.

“This.”

“Haha.”

Yuna snorted and pointed to the dragon flash in Su Xiao’s hand.

“This is a common metal weapon. Can it really break through ghouls?”

Obviously, Yuna did not trust Su Xiao’s strength.

“Dazzling!”

A cold light flashed, a few black long hairs flew, dragon flash had been placed on Yuna’s neck.

“Snigger.”

Yuna looked at Su Xiao with shock.

“So fast!”

Not only Yuna, but Arima Kisho looked at Su Xiao.

“Do you feel that it can penetrate ghouls now?”

Yuna put her finger on the blade of dragon flash, and stroked it lightly, a trace of blood appeared on her slender finger.

Yuna put her hand in her mouth and sucked the blood on it.

“With this sharpness, there will be no problems.”

The dragon flash was strong, Su Xiao was very good at using this long life, but the quality of dragon flash was too low, just white equipment.

If its score was not up to 10 points, this knife might not be able to keep up with Su Xiao's pace. Even so, when fighting Queen, dragon flash seemed somewhat weak.

It was a matter of time until he changes his weapon, but it was still troublesome for Su Xiao to replace it.

Frequently replace weapons definitely not a good thing. He needed a weapon that can grow up.

It was a pity that the difficulty of obtaining such a weapon was absolutely not low. With his current strength, it was somewhat idiotic to dream of getting that kind of weapon.

“Let's go, the 108th exploration of the 24th district.”

Arima Kisho took the lead out of the temporary branch, Su Xiao and Yuna followed.

Soon, the three came to the front of the dark hole, and the hole went straight to the underground, and the sound of 'ghost crying' came from the hole, as if there was some kind of monster hidden in it.

Chapter 76

Su Xiao walked into the dark hole, the slightly bloody air flew across his cheeks.

The hole went downhill and gradually led to the underground.

After a long distance, the hole became narrow, but it was at least five meters high, seven or eight meters wide. Didn't know how much time did it take the ghouls to dig to form a hole of this size.

After entering the hole, he found that although it was underground, it was not too dark to see his fingers.

At the top of the hole, a plant with a gray branch was attached, which had a dense root and a strange flower.

The flowers hang on the top wall of the hole, emitting faint white light, making it possible to see inside the hole.

“Tick, tick.”

The water dripped from the roof, while Arima Kisho and Yuna stayed far away.

“Don't touch the liquid, it's the liquid released by 'light flower,' which is highly toxic.”

Yuna immediately reminded Su Xiao, and Su Xiao nodded.

“Don't be reckless, there are more than 50 Investigators that died under the poison of 'light flowers”.

Finding out Su Xiao was not noticed, Yuna reminded again.

“Well, thank you.”

Although Yuna was somewhat nervous, she was a good teammate.

After walking for a few hundred meters in the hole, a metal door appeared in front of the three.

“We’re here.”

Arima Kisho put his hand into the neckline, pulled out a necklace with a golden key.

The key was inserted into the metal door, and the metal door opened.

“Every time I enter this broken door, I always have the feeling that I can’t get out of it. Which stupid guy build something like this, bastard.”

After Yuna whispered, she muttered silently for a while.

This was the level that CCG built very early, preventing the ghouls in the 24th district from leaving the 24th district. There were only two keys, one in Arima Kisho’s hand, and another one was in Washuu Matsuri’s hand.

The metal door opened and a stinking smell came.

There were two crossroads after the metal door.

Inside and outside of the metal door were two different worlds.

The wall inside the metal door was no longer a soil layer, but a dark red meat wall.

Su Xiao took out dragon flash, and its tip stabbed the meat wall. The meat wall was hard.

“Snigger.”

After the dragon flash smashed into the inside of the meat wall, the meat wall began to lock, trying to catch the dragon.

“Arima, which side will we go this time?”

Yuna and Arima Kisho were very familiar with each other, the two were long-time partners.

“You decide.”

Arima Kisho carried his Quinques in his hands, respectively, ‘Narukami’ and ‘IXA’.

Yuna took out a coin and threw it up.

“Front, let’s go the right side.”

Arima Kisho nodded.

Su Xiao looked at this scene with some doubts. Is there no regular route?

“It’s weird, this way to choose the road.”

Yuna looked at Su Xiao with a smile.

“Don’t you have a regular route?”

“No, no, no.”

Yuna’s words made Su Xiao more confused.

“These walls are not fixed, they frequently change, like the crossroads ahead of us, sometimes two, sometimes three, or even five.

This was also why the 24th districts cannot be thoroughly explored, the entire region was ‘alive’.”

After listening to Yuna’s explanation, Su Xiao frowned.

“How can we get out after going deep into the 24th district? In the current situation, it is not impossible to be trapped.”

“Of course there is a way, if we have this thing, we will not have problems to leave.”

Yuna threw a compass.

Arima Kisho who was standing aside spoke.

“This exploration time is set at two days. If there is no harvest after two days, we will return to the ground and return to the temporary branch to revise.”

Arima Kisho thought for a while and continued to say:

“Superior Byakuya, what are you best at?”

Arima Kisho wanted to know about Su Xiao’s information.

“Fight in front, perception, and attack.”

“Good.”

Arima Kisho pushed the glasses on his nose.

“I will be in the lead, Yuna is in the middle, behind will be you.”

Su Xiao had no opinion on this formation, but Yuna pouted.

“I am not a newcomer. Why am I in the center? It is awful.”

Yuna looked at Su Xiao, feeling that she was not Su Xiao’s opponent, she could only choose to be centered.

The three-person team began to move into the 24th district.

“Roar!”

They did not go far, a roar came in front.

“God, don’t let us be so unfortunate!”

Yuna whispered and turned back to run.

Arima Kisho did the same reaction, he did not hesitate to run backward.

“Withdraw quickly, something is coming soon.”

Did not need ArimaKisho shout, when Su Xiao found that the two escaped, he also turned and ran, his body vaguely surpassed Yuna.

“what is that.”

During the running, Su Xiao took the time to ask Yuna.

“That’s a ‘monster’. The 24th district and 14th district are different. There are not only ghouls.”

Soon, the three ran back to the front of the crossroad.

Although the terrain of the 24th district will change, this change was cyclical. Generally, it will change significantly in seven or eight days, and there were only minor changes in peacetime.

“The right side is gone, the blood eye is on the right side.”

Yuna gasped quickly, and she looked at the hole on the right side with horror.

Su Xiao can’t help but frown. What kind of monster could make Arima Kisho also run away?

” The blood eye is in action, do you want to give up.”

Yuna vaguely had thought of retreat.

“No, the range of blood eye is not wide, explore the left channel.”

Arima Kisho took the lead, and the three entered the left channel.

He hadn’t seen the ghouls yet. The 24th district had already given Su Xiao a shocked.

The poison dripped all the time and a monster that was so powerful that Arima Kisho had to escape.

The three people went through the 24th district very smoothly. After a few hours of travel, there was no problem. No ghouls appeared. This made Su Xiao have some doubts. Weren’t there many ghouls in the 24th district?

“Boom.”

A loud sound came, and there was a shock in the passage, and dust fell.

“The blood eye is starting to go crazy again.”

Yuna’s face became a bit ugly, she seemed to be afraid of the creature named ‘blood eye’.

“It has entered the molting period, and I fought against it last week.”

Arima Kisho’s words were surprising, he surprisingly fought against the unknown monster.

After an hour of deep travel to the 24th district, Su Xiao had entered a state of loss.

No wonder here had a name of the maze in the 24th district. There were at least dozens of roads that have been added to the way of crossroads they had walked through.

A corner appeared again in front.

“Wait.”

Su Xiao suddenly made a noise, Yuna and Arima Kisho looked at him.

“what happened?”

Yuna’s body was tight.

“There was a bloody smell, and it was very fresh, just after the corner.”

Yuna looked at Su Xiao with a dubious suspicion, lightly and gently approached the corner.

Yuna turned her head and nodded to the two.

Arima Kisho stared at Su Xiao, and the two were slowly approaching the corner.

After Su Xiao leaned into the corner, he found that two ghouls were eating a body after the turn.

From the red eye on the body, it was also a ghoul.

Su Xiao first saw the ghouls in the 24th district. The ghouls here were very different from the ghouls outside.

They didn’t look different, but they wore differently.

The two ghouls in the 24th district were surprisingly wearing grass skirts, and the neck of one of ghoul was surprisingly hung with a bone-toothed necklace.

Su Xiao was stunned, did he just meet a primitive ghoul?

Chapter 77

“It’s so weird that those ghouls dress like this.”

Yuna whispered it seemed that she had never seen such.

“Are these ghouls very rare in the 24th district?”

Su Xiao asked.

“It should be rare. I explored the 24th district for a half year, and this is the first time I see this kind of dress.”

Yuna was surprised to see those ghouls.

“Special Arima. You have been exploring the 24th district for a longer time. Have you seen this kind of ghouls before?”

Arima Kisho did not answer Yuna’s question but just walked out from the corner.

In the vagueness, Su Xiao felt that Arima Kisho probably knew something.

When he first met Arima Kisho, Su Xiao had a strange feeling that this person seemed not a human. Ghouls could only possess the kind of powerful body.

However, this was only Su Xiao’s guess. He had seen with his own eyes that Arima Kisho ate human’s food and then acted with him for a long time without any abnormality.

Judging from the behavior that Arima Kisho showed, He could not be a ghoul.

His body had the strength of a ghoul, but its behavior wasn’t like one.

During Su Xiao's thought, Arima Kisho had already stepped out of the corner, and his Quinque 'Narukami' appeared.

'Narukami' was an S+ Quinque, it had three forms.

The first form was a cannon shape that was ranged attacks.

The second form was a pincer-type that could launch a radio ball remotely.

The third form was a sword shape which was very strong and suitable for close attacks.

Now Arima Kisho used the sword type.

"One person fights with one ghoul, we must resolve it as soon as possible."

Arima Kisho looked at Su Xiao, his meaning was obvious.

Arima Kisho's current action made Su Xiao more confused. The two ghouls were not too strong, and he could solve them by himself.

Did he want to try to test his strength? It was not likely, the strength of the two ghouls could not meet the test standards.

After entering the 24th district, Su Xiao had many doubts. There should be some secrets here, and Arima Kisho probably knew some.

But he and Arima Kisho were not familiar, the person was not a warm-hearted person, so it needed him to explore on his own.

"Yes."

Su Xiao held dragon flash and stood on Arima Kisho's side.

The two were in the direction behind the two ghouls. The two ghouls were rushing to eat and did not notice the two.

Arima Kisho extended three fingers and started counting down.

After Arima Kisho took the last finger together, the two rushed to the two ghouls at the same time.

On the way to the assault, Su Xiao found that Arima Kisho was very fast, almost as fast as him.

This made Su Xiao more skeptical about Arima Kisho being a human. His agility was 13 points, can an average human in the ghoul's world reach 13 points?

After rushing over, Su Xiao and Arima Kisho arrived behind their goals at the same time.

By now, the two ghouls had reacted.

A bright light along with the sword made the ghoul's head fly.

Fast, accurate, with one strike, Su Xiao solved his goal.

Looking up, there was a headless body in front of Arima Kisho.

In the distance, Yuna was staring at the two people stunned. She had already known the strength of Arima Kisho, but she didn't think that Su Xiao was also so strong.

“Oh, how can I become the weakest?”

Yuna was not reconciled, but she can't do anything.

After Su Xiao killed the ghoul in front of him, the reincarnation paradises gave a hint.

[You killed the resident of 'Diakman'.]

[CCG contribution increased by 46 points, 'Diakman tribe' reputation value -92, now 'Diakman tribe' reputation exceeds -50, and the Diakman tribe will attack you actively.]

After receiving the reminder of the reincarnation paradise, Su Xiao was more confused.

What is this 'Diakman tribe', there was no such organization in the story.

“Snigger.”

Arima Kisho opened the back of the ghoul's body and took out a kakuhou.

“This kind of kakuhou is very precious. If you want status, you can turn it over to the Information Investigation Section in 24th district.”

Arima Kisho opened his bag and took out a bottle of water, rinsed the blood on the kakuhou, and put it in his backpack.

Su Xiao learned that, and he took out the kakuhou of the ghoul. After touching the kakuhou, the remainder of the reincarnation paradise appeared.

[You get kakuhou (type 1), which can be used to exchange 40 points of CCG contribution.]

Whether it was killing the primitive ghouls or taking out the other's kakuhou, he could get a lot of CCG contribution points.

The contribution obtained by killing primitive ghouls was ten times more than killing the ghouls on the ground.

The reason for this was still unclear for Su Xiao. Mysteries appeared one after another, and the 24th district became more mysterious.

Just as the three men continued to move deeper, a pair of red eyes stared at the three in the distance with hatred, and a ghoul stood at the end of the passage at 100 meters away.

“not good.”

Arima Kisho revealed a rare expression, and he seemed to be worried about something.

The ghoul in the distance also looked like a primitive person. After seeing the bodies of the two ghouls, he made two strange sounds.

“Woo, woo.”

The swearing of the primitive ghoul was short and sharp, and it passed very far away.

Arima Kisho changed the form of Narukami into an unknown type.

“boom.”

A golden electric ball was shot, it directly shot the ghoul.

After being hit by the electric ball, the ghoul twitched and fell to the ground, and a smell of scorching came. The ghoul was killed after being burnt.

Arima Kisho slightly closed his eyes which were behind the glasses, and his face was a bit ugly.

“Prepare to fight with the enemy, Yuna come behind me.”

Arima Kisho pressed the suitcase, and his other Quinque appeared.

Quinque ‘IXA’, S+ Quinque, could be changed into a variety of forms, which was a weapon for attack and defense.

“Where is the enemy?”

Su Xiao looked serious. Although he did not perceive the enemy, Arima Kisho’s weird performance alerted him.

“Soon...”

Arima Kisho’s words had not finished, Su Xiao felt a slight vibration on the ground.

“Tzuuu.”

It seemed that there were thousands of horses running wildly on both sides of the channel, and the light ash on the top of the hole fell.

“Woo, woo, woo.”

That strange sound came again.

In the two directions, the front and back of Su Xiao, ghouls rushed to them, and both ways were blocked.

These ghouls were all dressed as primitives. The grass skirt and bone tooth necklace were almost standard. Some primitive ghouls’ faces had some weird tattoos.

If he looks carefully, he will find that the pattern is a bloated fish.

A pair of big bare feet stepped on the ground, dust rushed, and the primitive ghouls rushed forward while yelling.

“Oh my.”

Su Xiao snorted, it conservatively estimated that there were at least three hundred primitives ghouls on both sides of the passage, surrounded them.

“Although we haven’t fought together, let’s cooperate. Otherwise, we will all die.”

Su Xiao looked at Arima Kisho, and Arima Kisho seriously nodded to Su Xiao.

“Cooperate, you are responsible for the left side, mine is the right side, don’t be surrounded by ghouls.”

In the battle, it was easy to close the relationship, especially the current crisis of life and death.

“Then, then what should I do.”

Yuna bitterly, helplessly asked.

“Support us at any time.”

Su Xiao held the dragon flash tightly in his hand and prepared to meet the enemy.

“Believe in me.”

Although Su Xiao was only a superior Investigator, he was one level lower than Yuna, but positions didn't matter, strength was the most important.

“Chu.”

A primitive ghoulish leader made a short scream. The primitive ghoulish leader picked up a long tree root with a few bird feathers on its end.

After this strange scream, those ghouls who were crazy like beasts rushed at Su Xiao.

Chapter 78

The underground passage Su Xiao stayed at was not too wide, it was only about three meters, and at most only four ghouls can rush on him at the same time, which made his pressure decrease.

Four ghouls rushed to Su Xiao, and the strange thing was that they didn't use kagune.

It was now impossible for Su Xiao to think much, even if these ghouls do not use kagune, they are still hard to get rid of.

Su Xiao held dragon flash tightly, and cut out, and a few white lines appeared.

Puchi! Puchi!

Several arms were cut off, those ghouls in front of Su Xiao screamed in succession.

Su Xiao continued his attacks!

A sword passed, all the ghouls in front of him had their throats cut, and blood spewed out. The timing of this sword was very precise.

The four ghouls in front of him fell down, but other ghouls behind filled in the space immediately, they did not give him time to take a rest.

Su Xiao concentrated highly, and the long sword immediately slashed into the newly added ghouls.

Flesh and blood splashed, the residual limbs flew, in less than two minutes, Su Xiao had already made a road with bodies.

After discovering this situation, Su Xiao immediately jumped onto the bodies.

Although the bodies were somewhat soft and would cause the lower plate to be unstable, if he doesn't stand up on the ghouls' bodies, other ghouls will hold the high ground.

Standing on the pile of bodies, he took advantage of his position to continue his attack.

The sound of battle and the roar of the ghouls were connected in a chain.

It had been five minutes since they started the fight, Su Xiao did not see any ghouls use kagune.

These ghouls seemed not to know how to use kagune, or they did not have kagune at all.

In contrast, these ghouls were very strong, and their physical defenses were very high. The durability of the dragon flash had dropped by 3 points in a very short time.

The durability of the dragon flash was now 28/40. If this battle lasts for more than two hours, the durability of the dragon flash may reach 0.

In helpless, Su Xiao could only open Qing Gang Ying. He now had 253 magic values, and Qing Gang Yin could last for two hours.

The light blue arc appeared on the surface of the dragon flash, and the assistant power to attack the enemy's body was significantly smaller.

Just after Su Xiao cut off a ghoul, another ghoul surprisingly leaped in the distance and rushed into Su Xiao.

Su Xiao kicked the ghoul in front of him and cut the ghoul from bottom to top by the long sword in his hand.

The ghoul who rushed in the air was directly smashed and lost its half head. Su Xiao stopped paying attention to it.

Just as he was preparing to kill a ghoul in front of him, he suddenly felt a stinging pain in his calf.

Looking down, it was the ghoul that had been smashed as it bit on his calf

.

Previously, these ghouls gave Su Xiao the feelings were strong, and their body was hard.

Now it needed to add one more, they were tenacious.

Su Xiao lifted his calf and the ghoul, who bit his calf, had its teeth were torn down.

Unrelentingly stepping on the ghoul's head, a white liquid splashed out, and the skull that had been cut off was directly crushed.

In this very short time, a ghoul had already rushed to him.

Su Xiao's face changed because the distance was too close.

This was not difficult for him as during fights he must be flexible. Dragon Flash in his hand-rolled and the handle turned forward.

The handle hit on the face of the ghoul, and the ghoul screamed and took back a few steps.

Dragon flash slashed, and the ghoul was killed.

“Boom.”

A gunshot behind him, a ghoul that was immediately close to Su Xiao was directly headshot.

Su Xiao looked back, Yuna held a slender gun in her hands. It was Yuna's Quinque Red Moon.

Discovering Yuna could attack from a distance, Su Xiao became a bit relaxed.

Under the cover of him and Arima Kisho, Yuna could exert a strong fighting power.

Arima Kisho was in a similar situation with Su Xiao, they both stood on the bodies.

Now Yuna was in the middle of two piles of bodies.

One side was Su Xiao, and the other side was Arima Kisho.

The mechanical killing began, and at the same time, it was inevitable that Su Xiao got hurt because he fought with many ghouls at the same time. Some primitive ghouls held a kind of black stone spear in their hands, hidden among many ghouls.

Those ghouls that held black stone spears were very dangerous, but the number was not much.

Su Xiao thigh was stabbed by one of the spears and blood splashed out.

“Chu, chu.”

Two short screams came, that was the ghoul leader who had been hiding in the distance.

After a short scream, all the ghouls became crazy, hysterical rushing to Su Xiao, this should be the signal of attack.

The pressure suddenly increased, and Su Xiao almost could not stop it.

Su Xiao’s eyes began to flash with red light as screamed and attacked three times in front of him.

Puchi! Puchi! Puchi!

After the three attacks, the ghouls in front of Su Xiao were cut to pieces.

The intense fight continued for 20 minutes which cause Su Xiao’s power to drop significantly. Su Xiao will soon be unable to hold on.

Even if his attribute points had improved a lot, in this kind of full-strength battle, he couldn’t hold for too much.

Su Xiao looked at Arima Kisho next to him, Arima Kisho’s gentle look had disappeared, his glasses were broken, and his whole body was full of blood.

“Chu, chu.”

A long and short scream came, and the ghouls who were fighting with Su Xiao suddenly stopped and gradually retreated.

Su Xiao gasped heavily, and some looked at those ghouls confused.

Looking at the scene, his feet were stepped on the dead bodies.

Su Xiao and Arima kisho took distance from the ghouls.

The leader looked at Su Xiao and Arima Kisho with hatred, who had a fish-shaped pattern on his face which twitched from time to time.

It may be that they killed too many primitive ghouls, and the leader of the ghouls chose to retreat.

A large group of ghouls retreated from both sides of the tunnel, and Su Xiao did not choose to pursue.

This group of unknown ghouls was too strong. If the battle lasts for another 10 minutes, he will be overwhelmed by the crowd.

When those ghouls disappeared completely in sight, Su Xiao leaned against the wall, and his body felt a sense of powerlessness.

Arima Kisho was not better than him, he was holding 'Narukami' against the ground to stand.

“What do we do now?”

Yuna's physical strength was very abundant, she only supported in the center of the two.

“Leave this place right away.”

“Leave this place right away.”

Su Xiao and Arima Kisho spoke at the same time, Yuna was stunned.

“The blood smell here is too heavy and may lead other ghouls to come here.”

Su Xiao lit a cigarette and barely stood up straight.

“Return to the temporary branch, this exploration is over.”

It seemed that Arima Kisho didn't expect meeting the primitive ghouls, so he wanted to end this exploration ahead of time.

Yuna shrugged and said she was no objection.

The three returned in the direction they come from, and after walking about 10 minutes, the three temporarily stopped.

Su Xiao and Arima Kisho both needed rest, and Yuna took Quinque on the sidelines with vigilance.

Su Xiao sat on the meat wall. In this battle, he scored 2670 CCG contribution values, without calculating the Kakuhou.

He was no longer thinking about those Kakuhou because if other ghouls appear, he will die there.

....

After Su Xiao and Arima Kisho left the place of the fight, several ghouls slowly approached that place.

“Who is the new guy, he is too strong.”

“I don't know, but we have to be careful in the future. Tell the children after going back home to not leave the 'Central City' for the time being.”

These ghouls were different from those of the primitive ghouls. They wore normal clothes, but the clothes were a bit old, and they spoke the human language.

A ghoul with bitter face looked at those bodies and said:

“These beasts that haven’t evolved cleanly, they need to get stronger, or they won’t be able to come out again.”

“What do we go, now ‘the leader’ is not in the central city, she is fighting with the CCG on the ground.”

Several ghouls were silent, and eventually, these ghouls chose to leave and walked deep into the 24th district.

Chapter 79

After taking a break for roughly half an hour, the three people recovered some physical strength.

Su Xiao took off his shirt and took out a large bucket of water from the storage space. He emptied it on his head, and the water was stained in red when it reached the ground.

Arima Kisho and Yuna did the same thing, it could dilute the bloody smell on their bodies and reduce the chance of being discovered by ghouls.

“Is it so dangerous for you to explore the 24th district every time?”

Su Xiao looked at those two, exploring the 24th district was inevitably too dangerous.

“Of course not. It was the first time we encountered this kind of ghouls. Where did these ghouls come from? They are so strong even without kagune.”

Yuna’s answer made Su Xiao feel surprised. She had been exploring the 24th district for half a year. Hadn’t she encountered this situation before?

“Superior Arima, You seem to be familiar with these ghouls.”

Su Xiao looked at Arima Kisho with a deep gaze.

Arima Kisho took off his glasses and smashed the broken glasses.

“They are special ghouls only in the 24th district, but I don’t know the specific information.”

Arima Kisho looked indifferent, maybe he answered Su Xiao’s question because they fought in the bloody battles.

“Is it? Take this.”

Su Xiao had two bags of dried meat in his hands and threw them to Arima Kisho and Yuna.

Yuna grabbed it very easily, but after the dried meat was thrown in front of Arima Kisho, Arima Kisho took a step back subconsciously.

“Pada.”

The bag of meat fell to the ground, and one of Arima Kisho’s hands hung in the air.

It was almost impossible for Arima Kisho not to catch the dried meat thrown by Su Xiao, with Arima Kisho’s close fight ability, catching the dried meat in this distance was normal.

Arima Kisho wore the glasses and picked up the dried meat on the ground.

Yuna squirted and ate the dried meat and did not notice the scene.

But Su Xiao noticed that there was a problem with Arima Kisho's eyes, and Arima Kisho needs to rely on the pair of glasses to maintain his sight.

Su Xiao had always been wondering why Arima Kisho wore a pair of glasses because it was inconvenient to wear a pair of glasses in battle.

“Good food, it can recover energy quickly.”

Arima Kisho ate the dried meat and looked at Su Xiao.

“I recommend you wear contact lenses.”

In the near future, Su Xiao will fight side by side with Arima Kisho, just as they had dealt with the primitive ghouls. If Arima Kisho dies, he will be not far from death.

“I used to wear it, but I am not used to it.”

The two stopped talking, Yuna looked at the two confusedly.

After finishing the break, the three people set off and prepared to leave the 24th district.

“The meat wall in this direction has not changed, we can be returned in the same way.”

Yuna led the way ahead, holding a tablet in her hand, recording the route where the three came from.

Their current position was already in the deep part of the 24th district. The passage was intricate, it was completely a maze.

“God, the route has changed.”

Yuna held the tablet in her hand, the bloody red meat wall in front of her blocked her route.

According to the tablet display, there was a road here, but now it was a dead end.

“What should we do now, break this meat wall?”

Su Xiao took the knife and stepped forward.

“You can try and see how much the terrain has changed.”

Su Xiao held the handle of the dragon flash tightly by both hands, the longsword entered the meat wall, and pulled it harshly, tens of centimeters long crack appeared.

Yuna rushed forward to see the situation after the hole.

It was the other side of the meat wall that appeared into Yuna's sight.

“Ah, we can only use the most stupid way.”

Yuna put away the tablet and pulled out a compass in the backpack.

Su Xiao put away the sword away after pulling it out of the meat wall, and the meat wall began to heal gradually in less than a minute, the meat wall returned to its original condition.

“Is the compass effective?”

In the intricate 24th district that had lots of directions, Su Xiao felt that the role of the compass was minimal.

“Effective, I have tried many times, no matter how complicated the route here, as long as there is a specific direction, you can get out of the 24th district.”

Although the three were trapped in the 24th district, Yuna and Arima Kisho were not nervous. It seemed that it was not difficult to go out.

“Left, right, left, right...”

Yuna’s slender fingers swayed from side to side and began to choose roads by fate.

Arima Kisho did not speak, as if he is used to it, just waiting for Yuna to choose.

“On the right, the airflow on the right is faster, and the chance of a dead end is not great.”

Su Xiao suddenly spoke, Yuna’s fingers were stiff in the air.

“The airflow is faster? Why didn’t I feel it.”

Yuna looked at Su Xiao with some suspicion.

Su Xiao took the compass from Yuna.

“I am leading the way, is that okay?”

“Yes.”

The answer from Arima Kisho was very simple.

“Okay.”

The two followed behind Su Xiao and walked quickly.

Five minutes later, a bloody red meat wall appeared in front of the three people. This was a dead end.

“Cough, occasional mistakes.”

Su Xiao looked puzzled at the meat wall in front of him. He did feel that the air flow here was faster.

“Byakuya, are you reliable or not, how do I feel here is deeper than we just stayed.”

Yuna scratched her head and looked at Su Xiao with doubt.

Yuna was not blaming Su Xiao, even if she led the way, she also chose the route by fate.

“Probably, no problem.”

The three continued to walk. Ten minutes later, a meat wall appeared again in front of Su Xiao.

Unlike the last time, there were several ghouls in the dead end in front of the three people.

“We have been hiding from you, why are you forced to follow us, we don’t want to fight.”

One of the ghouls was full of tears and looked at Arima Kisho with fear.

“All Ghouls are going die.”

Yuna’s Qunique box in her hand changed, and ‘M. Red Moon’ appeared.

“Boom, boom, boom....”

After random shots, the blood filled the passage.

“Go on.”

Su Xiao did not believe that he could not find the correct route.

Twenty minutes later, a meat wall appeared in front of the three people, and a dead end!

After half an hour, it was still a dead end.

After an hour, it was a dead end.

Su Xiao’s mouth twitched, and he seemed to be lost.

“Can I try?”

Yuna looked at Su Xiao with some helplessness. Su Xiao did not speak but silently handed over the compass in his hand.

The way Yuna chose road was different from Su Xiao. Whenever she encountered a crossroad in the route, Yuna would murmur for a while and then choose the route.

Even if Yuna led the way, the situation had not changed.

An hour later, the three stood in a dead end.

“Damn, we had bad luck this time.”

Yuna stamped her feet, clenched the compass in her hand, and the compass slammed.

Two pairs of cold eyes looked at Yuna, Yuna was shocked and quickly checked the compass.

Fortunately, the compass was just some scar in the appearance, no serious problem.

“I will do it.”

Arima Kisho took the compass, this time Arima Kisho led them.

It had to say that Arima Kisho was very lucky with the pro-son of the original author.

In the next twenty minutes, the three never encountered a dead end.

“According to this progress, we won’t be able to go out soon, I’m full of blood and feel slimy, it’s so uncomfortable.”

Yuna pulled the neckline of her shirt and gave some envious looked at Su Xiao and Arima Kisho.

The two were male, they didn’t care about the naked upper body, but Yuna couldn’t do the same.

The three people approached a corner, and ArimaKisho was walking in front, suddenly stopped.

“How...?”

Yuna just wanted to make a sound, and Su Xiao behind her rolled his arm, and he caught Yuna’s mouth.

After Yuna saw the situation in front of her, her big eyes widened to the limit and her pupils shrunk.

Chapter 80

Arima Kisho at the forefront, he slowly started to retreat, and at the same time made a gesture of asking them to be quiet.

Su Xiao was not a bad teammate. After Arima Kisho nodded, the three began to retreat gradually.

The reason why the three people did this was that after the corner, there was a large space in front of them.

In this space, there were at least thousands of monsters ghouls gathered.

The reason why they were monsters ghouls was that these ghouls appearances were very strange and even horrible.

The skin of these ghouls was dark, like the coke burned by fire, and coarse.

Unlike the common ghouls, these ghouls’ kagune was in an external state, and these ghouls were bikaku.

These monsters ghouls didn’t have red eyes. To be exact, they didn’t have eyes.

Their eyes should have been degraded and a grayish white shell attached to the surface of their eyes.

The three people had noticed the ghouls, but these ghouls did not notice the three.

After the three men left for a certain distance, Arima Kisho was relieved.

“I have seen this kind of ghouls before. They rely on hearing to prey. It is extremely difficult to deal with them. If we alarm them with this kind of group, we will not be their opponents.”

Sure enough, Arima Kisho understood some secrets of the 24th district.

At least in the original book, Su Xiao had never seen primitive ghouls and this kind of eyeless ghouls.

“What should we do now?”

Yuna looked at Arima Kisho. It seemed that she treated Arima Kisho as the leader.

“Change the road.”

Su Xiao did not speak, and Yuna had no objection.

The three people started looking for other routes, but after two hours, the three people found one thing.

Except for those where the eyeless ghouls were located, the other four routes were dead ends.

According to the compass, that direction was the only way out.

The three people sat together in a passage and began to discuss a countermeasure.

Without them knowing, Su Xiao had a notebook and a pen on his hand.

“Here, here, and here, we have never been there. From the map I painted, the 24th district has a funnel shape.

The direction leading to the depth of the 24th district was the head of the ‘funnel,’ and the small head that led to the ground, it was just like this, that will appear With a fixed direction, we can walk out of the 24th district.

From the 17 dead roads that I led previously, this was the only way out.”

After Su Xiao wrote and painted in his notebook, a detailed map appeared on the notebook.

The map was even labeled with latitude and longitude, as well as the zoom ratio.

Yuna looked at Su Xiao with adoration.

“How did you do it, have you remembered the route we have walked before?”

Not only Yuna, the nervous girl, was shocked, but Arima Kisho also looked at Su Xiao with amazement.

The carbon pen quickly swirled in Su Xiao’s hands.

“My previous ‘profession’ was a bit special. I often sneaked into a place to find a specific person. This is a professional habit.”

Yuna thought about it.

“It sounds like a killer.”

“Nature is the same, and the beliefs are different.”

Su Xiao looked up at the two.

“Now, we wait for the next time the terrain changes in the 24th district, or try to walk into the dangerous area.”

Arima Kisho and Yuna thought for a while.

“Our supplies are not able to support us until the next change of the 24th district.”

The food and fresh water Yuna and Arima Kisho carried could only support them for four days. In the case of where they starved, they could support themselves to the next change of the 24th district. But in that case, their combat power will drop sharply.

Su Xiao's materials were enough, but he did not want to be trapped here, the time spent in the derivative world was precious.

“Without the sound, those special ghouls will not notice us.”

Arima Kisho spoke, it seemed that he wanted to take a chance.

“So, we take the risk once.”

Arima Kisho and Yuna stood up.

“Since we decided to take risks, I have a plan.”

Su Xiao suddenly spoke.

“A plan?”

“Since those ghouls are perceptual of sounds, we can arrange sound sources on the map. After that, we wait at this position on the map. The sound source will make sounds, attracting the attention of those special ghouls, then we take the opportunity to pass through.”

Su Xiao did not want to fight against those eyeless ghouls. Seeing the attitude of Arima Kisho, those eyeless ghouls were hard to deal with.

“Yes, I have used a similar method before, and the effect is remarkable.”

“Where does the sound source come from?”

Su Xiao smiled and pulled out a mobile phone, and the thumb pressed the mobile phone screen to operate quickly.

“Time is set to five minutes, enough.”

After that, Su Xiao put the phone on the ground, and the three people ran forward.

Soon, the three came to a dead end, where the location was very close to those the eyeless ghouls.

“Beep, toot, toot, toot.”

Cheerful music came from afar, Yuna, the neurotic girl, began to twist her body, her hands shaking in front of her.

“It's surprisingly my favorite leek spin song.”

Yuna's style of painting suddenly changed, so that Su Xiao was speechless, and Arima Kisho also turned over his head.

A few seconds after the music rang, a rush of running sound came.

“Boom, bang, bang...”

It seemed that thousands of horses were rushing, and three people were hearing that while they were not far away.

Not long after, the big footsteps were far away, and the three looked at each other and rushed to the only way out.

There was not much time, who knew if those eyeless ghouls will suddenly come back.

The three were very fast, Arima Kisho took the lead, Yuna was in the middle, Su Xiao was last, it was the original formation.

In just a dozen seconds, the three went to the corner they previously stayed at.

Arima Kisho stopped suddenly, holding one hand behind him, his palm facing Su Xiao and Yuna.

Su Xiao immediately stopped and looked at the large space after the corner.

In this space, some eyeless ghouls were still staying in the same place. Some of the ghouls remained.

“What do we do?”

Yuna whispered.

“Don’t make a sound, walk slowly.”

Arima Kisho walked slowly in front, and Yuna walked behind him.

Su Xiao stood in the same place and did not move. Arima Kisho looked at Su Xiao with some doubts.

Su Xiao pointed to the back by his fingers and pointed to the two men, his fingers swinging forward.

The meaning was obvious. The three people will make a louder sound if they walk at the same time, and they did not know when those ghouls behind will come back. You will pass first, I will follow after you.

Arima Kisho nodded and made a gesture to ask him to be careful.

Yuna stretched out her thumb and stood in the same place, waiting for Arima Kisho to pass first.

Su Xiao did this, not to sacrifice himself to save others, now the three were a grasshopper on the rope, any wrong thing would make them face a bad end.

Arima Kisho’s pace was not fast, but very stable. This space was about 200 meters long. It was not too long, but it was not short.

Less than three minutes, Arima Kisho passed through space carefully.

“Roar.”

A low roar voice came, the body of the three people stiffened, it turned out to be an eyeless ghoul that was sleeping on the ground was awakened by his companion’s kagune.

The eyeless ghoul rudely took off the kagune and went to sleep.

Yuna had already walked to the center, and there were four or five eyeless ghouls at her feet. Her movements were very careful.

Su Xiao stayed behind to put his ears close to the ground and perceived the sound of the ground.

It was very safe, those eyeless ghouls that had been taken away by the sound source had not returned yet.

Su Xiao began to move slowly, his every step was very careful.
