

R. Paradise 751

Chapter 751: He died a horrible death

The pedestrian street was crowded with people, Su Xiao mixed in the crowd, Yan Feng Qi Li often wore a black priest outfit, as long as there was enough time, it was not impossible to find each other in the crowd.

Five minutes later, Su Xiao's line of sight swept by the side of the road, immediately retracted his line of sight and raised his hand to stop a pedestrian beside him, he had already spotted his target.

"Hello, may I ask ..."

Su Xiao pretended to ask for directions and started to talk to the passerby, that passerby was very polite, so asking for directions ended quickly, Su Xiao shook his head, seemingly not getting a satisfactory answer.

On the street side, Yanfeng Eri had already looked at Su Xiao, he had felt the other party sweeping him before, but upon realizing that Su Xiao was asking for directions to someone else, Yanfeng Eri retracted his sight.

"As expected, it's hard to try to track down a Yingling."

Yanfeng Eri's tone was flat, he was tracking Su Xiao's trail, and now it was obvious that he had failed to do so.

"This ... priest?"

Just about to turn around and leave, Yanfeng Eri stopped his steps and looked sideways at the passerby who had struck up a conversation with him.

"There's something."

Yanfeng Eri looked Su Xiao up and down, but with the map in hand, Su Xiao, who was already in disguise, didn't reveal any cracks.

"Excuse me, how do I get to the Yongchuan District?"

Su Xiao didn't bother to look at Yanfeng Qi Li as she spoke, she just handed over the map in her hand and pointed out a certain location on it, it was a map that wasn't very detailed.

"..."

Yanfeng Eri took a small step back before receiving the map, and it was his small step back that caused Su Xiao to retract the short sword that had already slipped out within his sleeve.

"The Yongchuan district is at ..."

Yanfeng Eri and Su Xiao briefly introduced the path, although the evil beast in his heart had awakened, the habits he once left behind wouldn't change immediately, the once helpful and courteous Yanfeng Eri.

"So it's here, I seem to have circled around a few times already, originally I heard that there is a restaurant over there that has good steaks and wanted to try it, but now I don't have much interest in it."

Su Xiao's expression did not change much, when talking to others, too much change in expression is rather abnormal, as long as a polite smile is fine.

"A student like you, its better not to go to that restaurant, the food there is very expensive."

Yanfeng Eri's words swung around and left.

"How do you know I'm a student?"

Su Xiao looked at the back of Yabuon Eri in surprise, Yabuon Eri didn't reply and gradually walked away.

Inside Su Xiao's jacket pocket, a student ID card revealed a corner.

"Good vigilance."

Just a moment ago, Su Xiao actually had the opportunity to make a move, but considering that Yanfeng Eri's physical skills were not weak, if he could not guarantee a single strike, Yanfeng Eri would immediately use the Order Spell to forcibly summon the King of Heroes, and that would be troublesome.

Su Xiao blended into the crowd, and from the beginning to the end, Yan Feng Qi Li did not notice anything unusual.

...

Eri Yanfeng walked down the street, he was considering his countermeasures afterward, but the hunger in his stomach prompted him that he needed to eat.

Eri Yanfeng scanned the few restaurants on the pedestrian street, there was nothing he liked, but there was a Chinese restaurant in the next block, he had seen posters advertising that Chinese restaurant.

A food came to Eri Yanfeng's mind, the soft and smooth texture, the fiery and spicy flavor that made his stomach acid accelerate and eat away at his stomach sac.

Ten minutes later, Eri Yanfeng walked into that Chinese restaurant, and a waiter greeted him.

"Sir inside please."

Eri Yanfeng took a seat without bothering to look at the menu.

"One order of mapo tofu and one order of rice, the mapo tofu is spicier. "

"Yes sir."

The waiter bowed and left, this Chinese restaurant was not small, and it was just at noon, the restaurant was almost full, which made Eri Yanfeng frown, he felt that the food would be served slowly.

As expected, after waiting for thirty minutes, a plate of Mapo Tofu with a bowl of rice was brought to the table in front of Eri Yanfeng.

"Guests have been waiting for a long time, please enjoy your meal."

The waiter placed another glass of iced orange juice on the table.

"I didn't order this."

Eri Yanfeng was a bit confused.

"It's like this, sir has been waiting ..." the waiter looked at his watch, "has been waiting for more than 25 minutes, according to the rules of this store, the guest waits for more than 25 minutes to deliver the drink, if the guest doesn't like this flavor. Our store can replace ..."

"No need."

Yanfeng Eri took off his jacket, he who often ate mapo tofu knew that in a while he would be sweating profusely from the spice.

"Guests feel free to yell at me if you need anything."

After receiving approval from Eri Yanfeng, the waiter bowed and left.

Yan Feng Qi Li took out a handful of fine needles filled with runes, he stabbed the fine needles into the tofu and rice respectively, after confirming that both were non-toxic, he looked towards the glass of ice orange juice, after hesitating for a moment, he inserted the fine needles inside the orange juice.

In Yanfeng Eri's opinion, if someone were to poison him, they would definitely choose the Mapo Tofu and the rice, because he wouldn't necessarily drink this glass of orange juice.

Dangang~ the ice inside the orange juice spun and droplets of water slid down the wall of the glass.

Although the deliciousness was tempting Eri Yanfeng, he was cautious enough to make sure that all the food was non-toxic before he picked up his chopsticks.

A few minutes later, Eri Yanfeng devoured a large plate of fiery mapo tofu along with a bowl of rice, his forehead oozing with hot sweat as he was able to enjoy himself.

Having just eaten a bowl of rice with a large plate of super spicy mapo tofu, even if Eri Yanfeng was a magician, his throat began to feel dry.

He picked up the orange juice on the table and downed a few large gulps.

"Ha~"

Eri Yanaka let out a cool breath, there was nothing like a glass of cold orange juice after a spicy meal.

"Check."

Eri Shiomine tugged at the clothing on his collar.

"Ahem~"

Eri Yanfeng coughed lightly, perhaps because his throat was dry from eating too much spicy food, which made him subconsciously pick up the orange juice on the table to take another sip.

"Sir...student, you...a...total...consumption...cost ..."

The voice beside Yanfeng Eri's ear started to be distant, and he immediately noticed that he was poisoned, and it was a strong poison, but there was nothing wrong with any of the meals, and the glass of juice should be non-toxic, so what was the problem?

The truth was indeed true, both the meal and the drink were non-poisonous, the poison was placed inside the ice of the ice orange juice, the ice melted to a certain level and the poison inside flowed out.

"I am under the command of the curse of ..."

Psst!

A short blade stabbed into the throat of Yanfeng Eri, which was abnormally sharp and ran directly from his throat to his brain's medulla oblongata.

"Whew~"

Yanfeng Eri's mouth was wide open, an exhalation sound came out of his mouth, and his body tilted back uncontrollably.

"Sir, you consumed a total of one life."

Su Xiao, who was disguised as a waiter, pulled out the short knife inside Yanfeng Eri's throat and grabbed the other party's hair.

Brush pull.

The short blade slashed through Eri Yanfeng's throat, and the three effects of the Slaughtering Short Blade's Throat Breaker (passive) + Sobbing Blood (passive) + Moonlight Flare (passive) triggered at the same time.

Equipment Effect 1: Broken Throat (Passive), when slitting any creature's throat, it will deal an additional damage value.

Tip: The extra damage value is 50% to 60% of the base damage, Resistance.

Equip Effect 2: Sobbing Blood (Passive), if you successfully slit the throat and trigger Equip Effect 1, it will judge the enemy's physical strength attribute, if the enemy fails to pass the judgement, it can trigger the Sobbing Blood effect, the enemy will lose a lot of blood, the bloodshed damage per second is 4% of the enemy's maximum life value, the bloodshed effect lasts for 10 seconds, and this damage has priority.

Tip: If the enemy's life value is below 30%, the duration of the bleeding effect is -50% (5 seconds), and the bleeding effect is doubled (8% of maximum life value per second).

Equip Effect 3: Lunar Glow (Passive), Sharpness +14, Armor Break +10, Penetration +9.

...

Zi~.

Blood spurted out from within the throat of Yanfeng Eri. Yanfeng Eri's body stood upright, under that horrifying extra damage + bleeding damage, he didn't even use the command spell to die, he died extremely crisply, as for whether he was at peace or not, as could be seen from the two legs that were still stomping, it shouldn't be very peaceful.

To be exact, it should be an old miserable death, a twitch.

Chapter 752: girl with a brainwave

You killed Eri Yanfeng.

[Eri Yanfeng's important plot mission, gained 2.9% of the World's Source, now gained a total of 83.5% of the World's Source.]

[Your talent 'Spirit Eater' is activated, permanently increasing your mana by 16 points, and now has a total of 2,290 mana.]

[Reminder: Hidden Quest: The Glory of the Spirits (Completed), Yes/No to complete this quest, 26 hours and 11 minutes remaining time for the quest]]

Su Xiao chose not to complete the quest for the time being, once he completed the quest, he would immediately return to Reincarnation Paradise, there was still one thing he hadn't done, to be exact, there was a bargain he hadn't picked up yet.

A murder occurred in the restaurant, those diners froze for a moment and then came back to their senses, screaming and running out of the restaurant.

Su Xiao grabbed the arm of Eri Yanfeng that was covered in the order spell and swung his sword down.

The knife fell, blood splattered, and with a plopping sound, a waitress sat on her knees near Su Xiao, her face filled with terror, this waitress did not want to escape, but her legs were too weak from fear to run.

Su Xiao looked sideways at the waitress, the waitress was dry, eyes rolled over, fainted...

Walking to the front of the waitress, Su Xiao found that the waitress's body obviously twitched.

"Where is your store's punching bag?"

Su Xiao took Yanfeng Eri's arm and squatted in front of the waitress, a pure-looking girl.

The waitress didn't dare to play dead anymore and reluctantly sat up.

"Don't...don't kill me, I still have 12,800 yen, it's all yours, if it's not enough, if it's not enough ..."

The waitress groped all over her body.

"Where's the punching bag? What would I kill you for, I'm not a homicidal maniac. "

Su Xiao shook off the blood on Yanfeng Eri's broken arm as she spoke. The waitress was on the verge of crying in fear.

"Packing tape is there ..."

The waitress stretched out her slender fingers and tremblingly pointed behind the counter.

Su Xiao wrapped up the broken arm with the packing bag, and just as he was about to leave the restaurant, he suddenly remembered something.

"Is there a place around here with a large site but limited height, such as a large basement, underground warehouse, or something like that."

"Huh?"

The waitress's eyes were full of confusion, she didn't know who Su Xiao was talking to, and when the waitress saw the eyes staring at her, she let out a groan with a trill.

"Well...it seems like there is."

"To me."

"What?!"

The waitress was frightened. She thought that Su Xiao was leaving before, but now it seems that is not the case. Could it be that they want to kidnap her as a hostage? After that, he coveted her beauty and took her somewhere hehehe, and she eventually became RBQ.

The waitress struggled in her mind, she was hesitant to resist, but the other party had a knife in his hand, if she didn't resist and chose to be submissive, would she appear to be too loose slutty?

I have to say, this girl's brain hole is not small.

Su Xiao didn't know what this girl was thinking, he patted the other side's cheek and woke up this wandering girl, if Su Xiao knew that this girl was already brainstorming about the name of the child she had with the 'murderer', he didn't know if he would spurt a mouthful of blood.

"Calm down, first of all, this is just making a movie, what I'm holding is a prop."

"Huh?"

The waitress had a 'please don't don't treat me like a retard' expression.

"What about that one?"

The waitress pointed at Eri Yanfeng's corpse.

"Is that a prop too? It doesn't look like it ..."

As the waitress spoke, Eri Yanfeng's legs twitched as if he was dying, which was actually a normal reaction after death caused by external forces.

"Just think of him as a prop."

Su Xiao smiled gently, the waitress was rambling, and she was repenting abnormally at this moment, why did her legs go weak at the critical moment.

"Cut the crap, take me to a place that matches my previous description, or else I'll turn you into a prop as well."

"Okay, okay."

The waitress wanted to stand up, but her legs got even softer, seeing this scene, Su Xiao directly picked up the waitress, and the waitress actually blushed in ecstasy.

...

A minivan drove in the city center, the driver's seat was Su Xiao, and the co-pilot was the waitress. After the initial fear, the waitress peeked at Su Xiao, she was both scared and nervous at this time, and she was also a little excited?

Just a few minutes ago, the waitress had witnessed the murder scene with her own eyes, and at this moment the murderer was no more than half a meter away from her.

"That ..."

The waitress spoke timidly.

"What?"

Su Xiao took out a cigarette and lit it, and Boo Boo Woof in the back seat rolled open the window and poked his dog's head out the window.

"You'd better turn yourself in, the law and order of Winterwood City ..."

"Turn yourself in?"

Su Xiao exhaled a mouthful of green smoke, he found that the co-pilot this sister's brain circuit was unusually clear, before he was scared to death, now he actually began to persuade him to turn himself in.

"Yes, if you turn yourself in now, you might be able to reduce your sentence, you still have a good rest of your life ah, I read a report that fugitives have a miserable life, and it seems like you didn't kill people for money before, it was for revenge, right, did that person hurt your family, and after that, you transformed into a vengeful messenger?"

The waitress swallowed her saliva, she was no longer much afraid, instead she felt stimulated, compared to the life of being tired to death every day and being paid low wages, she enjoyed this exciting feeling at this moment more.

Su Xiao was amused by the waitress, he just casually found the leader, he did not expect the other party to be so funny, it can be called the brain whole girl.

Brainy girl's eyes showed anticipation as she looked at Su Xiao, she had already prepared a follow-up speech, just waiting for Su Xiao to pick up the story.

"Arrived?"

"Ah?"

It was hard to have Brainy Girl's train of thought interrupted, and it was still hard not to dare to have an opinion.

"The underground parking lot you were talking about before."

"Huh? Ah, it's around here, keep driving forward."

Not long after, Su Xiao drove the minivan into a large underground parking lot, this underground parking lot has been abandoned, within Noda's underground parking lot, there are only a few sparse broken cars, the sea above is full of dust.

Su Xiao jumped down from the driver's seat and surveyed the construction of the underground parking lot, overall speaking this place is not bad, it meets his requirements.

"You can drive back the way you came, if any police question you, just tell them truthfully. "

"That ..." Brainy Girl hesitated for a moment, "I won't betray your whereabouts for the time being, but I still advise you to turn yourself in."

Su Xiao's face darkened.

"Don't bullshit."

The brainiac girl drove the minivan out of the underground parking lot, as for whether she called the police or not, Su Xiao didn't care, during the Holy Grail War, someone on the police side would be in charge.

Taking out the broken arm of Yanfeng Eri, Su Xiao's fingertips flashed with electricity, and one of the token spells on the broken arm gradually dissipated, being devoured by the Blue Steel Shadow energy.

Su Xiao was luring a Yingling over, whether the other party was coming or not was still unknown.

Now that Yan Feng Qi Li was dead, if he had already formed a royal master and slave relationship with the Hero King, the Hero King would definitely sense that Yan Feng Qi Li was dead.

After Yan Feng Qi Li's death, the Hero King's magic supply will be cut off, even if the Hero King is an Archer rank and has the ability to act alone, the current Hero King is just water without a source, and the combat power that can be utilized is greatly reduced.

Not to mention the Hero King's treasure tool that is so strong that it's a bit foul, now it's unknown if he can even use the Heaven and Earth Deviation Sword.

Even if he can use it, the consumption of that EX grade treasure tool is extremely huge, without the imperial master's magic supply, the Hero King's risky use of that thing will only accelerate the speed of the decline of his combat power.

Because of this, Su Xiao lured the Hero King over and fought with the other party, he was about to leave the Holy Grail world, this kind of thing that was almost like picking up a bargain, how could he have done it?

The underground parking lot was dead silent, Su Xiao was sitting on the hood of a ruined car, holding a tablet in his hand.

After about half an hour had passed, Su Xiao put away the tablet, the Hero King did not come, with the Hero King's arrogant character, this was a bit out of character.

According to the Hero King's style of action, the other party should have appeared a long time ago, could it be that he was afraid of the underground parking lot's unfavorable terrain for him?

Su Xiao got up, since the other party did not come, then he went to find the other party.

Right at this moment, the sound of unhurried footsteps came from the entrance of the underground parking lot, Su Xiao gazed at it, and it was indeed the Heroic King wearing golden armor.

"Scumbag, how dare you put this king in such an unfavorable situation, you deserve to die."

Although the magic supply had been cut off, the Hero King's arrogance remained.

Chapter 753: Broken Blade

Inside the large underground parking lot, Su Xiao and the Hero King-Gilgamesh stared at each other dozens of meters apart.

"Don't say that meaningless bullshit, you came here for nothing more than to fight me."

Su Xiao slowly drew out the Chopper Flash at his waist.

"You think too highly of yourself, this king ..."

"Gilgamesh."

Su Xiao interrupted the King of Heroes.

"If you insisted on pursuing the Holy Grail, you wouldn't be here at all, it's best to go and find a Royal Lord who has lost his Spirit as soon as possible, such as Kenneth from Lancer's camp, that's a good choice, at least it's no problem to continue participating in the Holy Grail War."

"Heh~ that kind of bastard."

The King of Heroes laughed with some disdain.

"Ultimately, you're upset because you had an arm chopped off by me, aren't you, so upset that you'd rather give up the Holy Grail than try to kill me."

Su Xiao walked slowly into the Hero King.

"So what if I am?"

Dawning golden spatial ripples appeared behind the King of Heroes, which was his main combat ability right now, the King's Treasure.

"If that's the case, then that's great. "

It was rare for Su Xiao to talk to his enemy for so long before battle, and with a smile on his face.

"Kill me if you can, or I'll be sure to chop off your head this time."

Boom.

Stone chips flew under Su Xiao's feet as he held his long sword and quickly rushed towards the Hero King.

Whoosh~

Su Xiao used a modified version of shaving and his figure disappeared from the Hero King's perception.

The Hero King had already suffered a loss once, so he wouldn't make the same mistake, only to see hundreds of golden spatial ripples emerge above his head, with treasure tools shooting out from within each of the spatial ripples.

Boom, boom, boom...

The treasure tools fell beside the Hero King like rain, and the ten meters beside him became a no-go zone for living beings as a treasure tool pierced into the ground, causing smoke and dust to rise in all directions.

Ding, ding, ding...

Sparks flew, dense crunching sounds spread, Su Xiao appeared five meters behind the Hero King, and dozens of counterattack shields formed a large shield that was blocking his head.

Several treasure tools flew from the front, Su Xiao had no choice but to temporarily retreat.

The Hero King's strategy was effective, since he couldn't capture Su Xiao's trajectory, he used himself as bait to suppress Su Xiao with a large attack.

The treasures stopped falling from above, and the Counter Shield, which was covered in fine cracks, disassembled back into dozens of pieces and floated around Su Xiao.

The Hero King had gotten serious, and even if he didn't use the Sword of Heaven and Earth Behaving, it would still be difficult to deal with.

Su Xiao swept his eyes at the treasures on the ground, the grades of those treasures were not low, and the worst were B grade treasures.

The Hero King was an Archer rank, also known as the Knight of the Bow, although the Holy Grail War's previous Archer ranks were so strong in melee combat that people were powerless to spit, the Hero King was one of the exceptions.

Without using the Sword of Heaven and Earth's Deviation, the Hero King's melee ability was average, and if he was approached by Su Xiao, he would instantly be dismantled.

What Su Xiao had to consider now was how to get close to the Hero King, those space ripples above the opponent's head were much targeted, as long as he got close to the Hero King, treasure tools would shoot out from within those space ripples, and the density of the attack was a complete wash.

Moreover, there are too many treasures within the King's Treasure, it is not too much to describe it as endless.

"Berserker, report your name."

The King of Heroes stood in place with his chest clasped, his chin slightly raised, and the space ripples behind him flickered with a golden light.

Su Xiao's brow furrowed as she hesitated for a moment and spoke, "White Night."

"White Night ..."

The spatial ripples beside the Hero King suddenly disappeared, Su Xiao froze, the other party was giving up?

"This king doesn't have much time, so ..."

A spatial ripple appeared beside the Hero King's hand, a sword hilt slowly poked out within the spatial ripple, it was the hilt of the Heaven and Earth Perverse Sword.

The Sword of Heaven and Earth's Deviation appeared, with a golden hilt, a cylindrical sword body, and a sword body covered in red lines.

The cylindrical sword body was obviously not used for chopping, it was used to 'slice through the world', this statement was obviously a bit exaggerated, but slicing through space was still no problem.

The Hero King raised the Sword of Heaven and Earth's Deviation, he didn't have the Royal Master to provide magic power right now, and a battle of attrition wasn't a wise move.

"Mortals, tremble and meet your fate under the majesty of this king."

The entire underground parking lot began to shake as a red sword wind was released from the Sword of Heaven and Earth's Deviation.

Click, click.

Cracks appeared on the roof of the underground parking lot, the load-bearing structure above was destroyed, and broken concrete mixed with dirt poured down.

Boom!

The red sword wind spread around, and the concrete fragments disappeared silently when they touched the red sword wind, as if they had never existed.

With the King of Heroes as the round point, the red sword wind quickly spread around, whether it was concrete or metal, as long as it touched the red sword wind it would disappear.

The red sword wind surged towards Su Xiao, with the speed of the red sword wind, it was obviously not a wise choice to retreat at this time.

Su Xiao sheathed Zhan Long Shan, he held the hilt in his right hand and the sheath in his left hand, and he held Zhan Long Shan in front of him.

Looking at the oncoming red sword wind, Su Xiao breathed a long sigh of relief, he converted 300 points of mana into Green Steel Shadow energy, which wrapped the sheathed Zang Long Flash.

The long sword slowly came out of its sheath, blue light surged out, this blue light had an extremely strong cutting power, and Su Xiao's breath became sharper and sharper.

Brush pull.

Thin chopping marks appeared on the ground under Su Xiao's feet, at the same time, the Counter Shield that was already strewn with cracks beside him disappeared, and dozens of brand new Counter Shields appeared.

These counterattack shields had a variety of shapes, not the hexagonal shape that was once there, and if these counterattack shields were combined, one would find that this was actually a full body armor, a translucent armor made up of energy shields.

One side of the counterattack shield flew towards Su Xiao, and in an instant, dozens of counterattack shields were pieced together on Su Xiao's body to form a full body armor, even his head was protected.

"Break the sky."

The muscles of Su Xiao's legs bulged slightly, and with a whoosh, he rushed into the red sword wind and disappeared.

Clang!

A blue light flashed within the underground parking lot, and this light became a straight line, directly passing through the red sword wind, as well as the Hero King within it.

The Heroic King only felt a coldness in his arm, and an arm holding the Heaven and Earth Behaving Sword fell from in front of him.

When the Heaven and Earth Deviation Sword fell to the ground, the red sword wind disappeared, and a hole with a diameter of more than ten meters wide appeared above the underground parking lot, and sunlight penetrated into the underground parking lot.

The hero king forehead veins rippled, he was chopped off another arm.

With a plopping sound, Su Xiao flopped down not far behind the Hero King, and blood filled the air underneath him.

"Trying to resist the Heaven and Earth Behaving Sword with a body of flesh and blood, ignorant scum."

The Heroic King looked sideways at the already fallen Su Xiao as he laughed freely.

Su Xiao's body was covered with dense wounds, the arm that held the sword had already disappeared, and the Dragon Slashing Flash was stuck within the ground not far away.

"Cough~"

Su Xiao coughed out several large mouthfuls of blood as he propped up his body with his one arm and looked up at the Hero King.

"I hope you're still this arrogant a few seconds later."

"A powerless threat ..."

The Hero King's face changed, and his eyes suddenly widened.

"What is... this?!"

Chapter 754: regression

Psst!

A light blue energy spike broke out from within the Hero King's chest, the energy spike looked similar to a shadow spike, only it was closer to a solid body than a shadow spike.

After the first energy spike broke out from within the Hero King's body, it seemed to cause a chain reaction, as a single energy spike broke out from within the Hero King's chest, abdomen, and even his skull.

In less than two short seconds, the Hero King turned into a 'hedgehog' and his body planted itself on the ground uncontrollably.

Su Xiao, who was covered in blood, stood up, pulled out the Chopping Dragon Flash on the side, sheathed the Chopping Dragon Flash, and he walked towards the Hero King one step at a time, one bloody footprint at a time.

If they were both in full strength to fight one-on-one, Su Xiao was not the Hero King's opponent, Su Xiao realized this after he fought the Hero King for the first time.

Because of this, he tried his best to avoid fighting the Hero King in his full state, knowing that he couldn't beat them and still going to fight his opponent solo, that wasn't bravery, it was stupidity.

Since he couldn't strengthen himself in a short period of time, he had to weaken his opponent, and after Su Xiao successfully assassinated Yanfeng Eri, he managed to weaken the Hero King.

What happened after that was to take his chances and see if the Hero King appeared, if the opponent didn't appear, Su Xiao would take the initiative, if he really couldn't find it, Su Xiao wouldn't force himself.

The weakened Hero King is also not easy to deal with, the power of the Heaven and Earth Deviation Sword is obvious to all, if there is no armor formed by the Counter Shield, Su Xiao has already been sliced by that kind of red sword wind, and this is still the power displayed by the Hero King without the subsequent supply of magic power.

"This king, surprisingly, will ..."

The King of Heroes' vision began to blur, the last scene he saw was Su Xiao walking up to him, a blue smoke rising hand grabbing him to come.

The blue smoke produced by the Devouring Core wrapped the Hero King, and it didn't take long for the conquering king to become the sustenance of the Green Steel Shadow's ability.

[You killed the King of Heroes-Gilgamesh.]

[The King of Heroes-Gilgamesh is one of the seven Spirits participating in this Holy Grail War (Archer's camp), and since the Royal Master is dead, Archer's camp is a crippled camp, gaining 5.4% of the World's Source, and now has a total of 86% of the World's Source].

[Your talent 'Spirit Eater' activates, permanently increasing your mana by 30 points, existing mana is 2,320 points].

[You have obtained the Spirit Box - Gold.]

...

Because the King of Heroes' Royal Master is dead, killing the King of Heroes only gains 5.4% of the World Source, if it was normal, killing the King of Heroes would gain at least 10% or more of the World Source, this is after all the strongest Spirit of this Holy Grail War, there is no one.

Although the amount of World Source was not much, the golden quality of the Spirit Box made up for the loss, the higher the quality of the Spirit Box, the more skills and items it represented inside.

When Su Xiao picked up the Spirit Box on the ground, a puddle of blood had already appeared under his feet, the massive blood loss made him about to enter a state of near-death, once he entered

a state of near-death, he could only be slaughtered, and at this moment, a prompt appeared within the Reincarnation Seal.

[Due to the absorption of the energy converted by the Devouring Core, the Green Steel Shadow skill level is raised.]

[Castle Steel Shadow has been upgraded to LV.30.]

The corner of Su Xiao's mouth curled up, the change of the Castle Steel Shadow being upgraded to Lv.30 was not small, he had already felt it, but he did not have the time to check the change of the Castle Steel Shadow skill, instead, he opened the skill list and chose to complete the hidden quest, he sensed that there was a familiar aura approaching, and in his current state, he was unable to fight with the other party.

[Hidden Quest: Yingling's Glory has been completed.]

[You have obtained '+1 to the level of any designated skill (ignoring the cap)' can use this reward at any time.]]

[Checked that the Huntress main quest has been completed and will return to Reincarnation Paradise in 2 minutes.]]

Su Xiao leaned and sat on a concrete pillar, lighting a cigarette with blood, his battle with the Hero King lasted no more than 5 minutes, but the battle process was exceptionally tragic, the slightest lapse of concentration would kill him, the battle was just so brutal, but it was just as exciting, it wasn't comparable to any extreme sport or adventure, it was a thrilling feeling between life and death.

Two minutes is not a long time, Su Xiao just need to return to the reincarnation paradise, his injuries can be recovered.

Su Xiao exhaled a mouthful of green smoke, his eyes looked towards a concrete pillar a dozen meters away, behind that stood a Yingling, a Yingling that was about to disappear.

"How long do you plan to watch there, now is the best time to kill me."

Saber stepped out from behind the concrete pillar, her body nearly transparent, threatening to dissipate at any moment.

"If I were you, I would immediately rush over with my sword and slash at this place without saying a word."

Su Xiao pointed at his neck, at the same time, a short sword appeared within his sleeve, although he had just consumed Potion No. 1, the injury caused by the Heaven and Earth's Deviant Sword was too severe for him, this kind of injury had the power of rules attached to it and was extremely difficult to heal.

"I'm different from you, I won't take the opportunity to kill the severely injured winner after two strong fighters have fought."

Saber didn't step forward and just looked at Su Xiao from afar.

"Different from me? So what, your chivalry does give you a strong heart, but it also binds your code of conduct, if you face an enemy, any rules are bullshit, charging forward and killing the enemy's head sharply is the machete."

Although Su Xiao said so on his lips, if Saber dared to charge forward, he would give the other party a 'surprise'. The boundary break line was already divided around, not only that, there were also alchemy bombs all around, he would not gamble his life on the enemy's character, although he knew Saber would definitely not charge forward.

"No, that's mean!"

Saber shouted angrily, those pure, emerald-like eyes firm.

"Thanks a lot."

This sudden thanks from Su Xiao caused Saber to freeze.

"Thanks for talking nonsense with me for two minutes, I haven't been as weak as I am right now for a long time."

Su Xiao's body began to turn transparent.

"Berserker, did you ..."

Looking at the gradually transparent Su Xiao, Saber's gaze was a bit complicated, she was puzzled why Su Xiao was doing all this, in Saber's heart, Su Xiao was also a Ying Spirit that was about to dissipate.

"Who knows?"

Su Xiao disappeared by the concrete pillar, he had returned to Reincarnation Paradise.

Saber sighed and looked down at the arm that had begun to energize.

"Berserker, what exactly did you do all this for, a promise with someone? Perhaps, but that doesn't change the fact that you kill for fun, and if I ever get the chance, I'll be sure to show you with my actions that no man's life is to be desecrated, no matter how good or evil he is."

Saber began to gradually drift away into the air, and just as she was left with only the upper half of her body, a chain formed entirely of the power of the rules broke through the air and stabbed into her.

[Discovery of a plot character matching rule 156249.]

[Judging the current plot character's potential in ...]

[Current plot character's potential: S~SSS class.]

[Determining if there is a rule conflict with other void powers.]

[Determination complete, no conflict.]

[Selected in ... This plot character has been selected as a Space Battlefield Adjudicator (Reserve), in the future, within this spin-off world, this plot character's world line will be replaced by other Ingenious Spirits of the same rank, and this plot character's characteristics are changed, and are changed to Unique].

[Transformation in progress...10%...25%...49%...83%...100%.]

[Transformation complete, plot character 'Artoria Pendragon' has been transformed into an Adjudicator (Reserve).]

[Due to the fact that the Ruler (Reservist) status rank is lower than that of an indentured servant, he is not entitled to enter the various spin-off worlds, and is not entitled to enjoy the public facilities of Reincarnation Paradise.]

[The VIIth Space Rule is being prepared, and will teleport 'Artoria Pendragon' to the 'Void Black Abyss Battlefield' for training in 30 seconds, training time: 397 natural days, probability of death: 98.12%].

[If the Ruler (Reserve) completes his training, he will be promoted to Ruler (Full), and the Ruler (Full) is responsible for overseeing the Spatial Battlegrounds (Order 1 to 9)].

[Transmission complete, 65 plot characters selected this time, Void Black Abyss battlefield survival rate 0.53%.]

When the confused Saber opened her eyes, she was already inside an abyss formed by black rocks, and dried blood stains could be seen everywhere on the black rocks.

A black humanoid creature was looking at Saber from a short distance away, the humanoid creature was wearing a simple gas mask formed by muscle tissue on its face, the humanoid creature gave off a strong sense of power, and the ferocious aura that came out of its face gave Saber a creepy feeling of fear that she hadn't felt in a long time.

The humanoid creature stood next to the corpse of a black dragon, which was huge and had sharp bone spikes on its back.

There was a dark green conduit in the palm of the humanoid creature's hand, which was stabbed into the body of the black dragon, and the body of the black dragon was drying up at a speed that could be seen by the naked eye.

"Gamoraga no gatni (unknown language)."

The humanoid creature opened its mouth, and if translated into human language it would be: 'How could there be a creature as weak as you in the Black Abyss.'

Saber took a step back with her sword in both hands.

Boom!

The sonic boom stung Saber's eardrums, the wind pressure blew her full blonde hair up, and when she came back to her senses, the humanoid creature had appeared in front of her, the conduit formed from the creature's tissue spread out on the ground.

The humanoid creature cocked its head and surveyed Saber, Saber didn't dare to move, even if she blinked, the humanoid creature would slap her skull.

"Hey, that Lariin clan, this is ... err~ an Ingenue right, anyway she can't die yet."

A mellow male voice came from a man sitting perched on a rock not far away, a bottle of wine in his hand.

Hearing this voice, the humanoid creature began to tremble violently, plopping down on its knees and kowtowing like garlic, strangely enough, it could actually understand what the man was saying.

"I'm in a good mood today ..."

Hearing the man's words, the humanoid creature actually shed tears of joy.

"Just let you die a painful death."

The man's fingers holding the bottle moved, and the humanoid creature froze in place.

Pfft!

Blood splattered as the humanoid creature exploded into a sky of broken flesh.

"What are you looking at, you have five seconds to disappear in front of my eyes."

The man sitting on the rock took a large sip of wine, from the beginning to the end he just sat there, Saber was not even sure when the other party appeared.

If the feeling the humanoid creature gave Saber was fear, the feeling this man gave her was despair, the despair of not being able to fight back, she suddenly felt that she was very small here.

After Saber quickly fled, the man sitting on the rock threw down the empty wine bottle in his hand, a nervous smile on his face.

"That game should be starting now, right, with a hundred years to go? Hurry up and start, the Void is just too boring, so boring that I don't even have an opponent, I should have known to save my kills, but doing the math, I haven't killed a living being in 30 seconds, that's progress, hehehe."

Laughter spread far within the Black Abyss, within a hundred kilometers, all creatures were lying on the ground shivering, not even daring to utter an atmosphere, for fear of attracting the attention of a certain existence and being killed with their hands, of course, this was except for Saber who was running wildly for her life.

Chapter 755: The incredibly strong Shadow of Blue Steel

[Teleportation complete, hunter returns to exclusive room,]

[The room is absolutely safe, no one can enter except the hunter's permission.]

[The hunter-killer has returned to Reincarnation Paradise, and has begun to settle the rewards of the Derivation World.]

Derivative World: Fate/Zero

Difficulty: Lv.20

Obtain the source of the world: 88.9%.

Number of completed quests: 5. (Main quest x 1, Talent Awakening quest x 3, Hidden quest x 1.)

Overall Rating: S+. (Note: Ratings are E- to S+. The overall rating is calculated based on the total amount of World Sources obtained and the number of missions completed.)

Start collecting World Sources...

Collection of World Sources is complete and reward counting begins.

Reward received: 30 Attribute Points (gained within the Derived World included), 42,000 Paradise Points.

Comprehensive evaluation is S+, current hunter-killer level is Lv.16, hunter-killer level +4 (Derivative world rank x number of missions completed + comprehensive evaluation - mission completion time), hunter-killer level has been raised to Lv.20.

Tip: Hunter-killer rank has reached Lv.20, the next Derivation World will conduct a second-order preliminary examination for Hunter-killers, and if the examination is completed, the trial examination for promotion to the third-order will be activated.

Settlement is complete, the reward has been automatically deposited within the Huntress brand.

...

Lying inside the exclusive room, Su Xiao spat out blood, he had received a 'hammer' when he returned, and with the toss of the spatial teleportation, he had entered a state of near death.

[Checked that the hunter's body function is damaged, yes/no to pay Paradise Coins to repair it].

"Pay."

Emerald green points of light emerged and wrapped Su Xiao within, he was like being immersed within a hot spring, which could be described as a generalized relief, and the wounds and broken arms on his body quickly recovered.

[Recovery has been completed, consuming a total of 8670 Paradise Points].

Seeing the amount of Paradise Coins consumed, Su Xiao's heart ached, he realized that as his physical quality continued to improve, and the Paradise Coins needed to repair his injuries were increasing.

Moving his right arm that had been restored, there was not the slightest discomfort, this arm seemed to have never been broken, and the previous severe pain seemed to be an illusion.

This was the power of the Reincarnation Paradise, this wasn't regenerating the arm, but restoring it to the same arm it once was.

It should be realized that there was a fundamental difference between the two, if it was regenerating an arm, Su Xiao needed to exercise and adapt again, but if it was restored to the state before the arm was broken, there was no need to exercise at all, because it was the same arm that he had originally had.

With his injuries fully recovered, Su Xiao moved his muscles.

"The leveling up was a little too fast ..."

Su Xiao frowned, from the time he had successfully promoted to a second-order hunter to now, he had only experienced three derivative worlds.

Because the comprehensive evaluation was high every time, this caused his level to soar, if it was according to the promotion speed of an ordinary Contractor, from the early second rank to the third

rank examination, he would have to go through at least 7 to 8 Reincarnation Paradise, and this was still every derivative world that could complete the mainline quests.

As for the workers, most of the workers don't have a promotion assessment at all, as long as the rank arrives, they will immediately and automatically be promoted to the rank, only a small portion of workers who have mastered special abilities will have an assessment task, such as mastering high level forging, mechanical and other skills.

This is actually justifiable, with the majority of workers that weak chicken combat power, let them go to the trial world, completely let them go to the death, not to mention the survival trial, those workers every time to enter the derivative world are crying father and mother, all around to hold the thigh.

Advancing in rank Su Xiao had already experienced it once, so he would prepare more comprehensively this time.

Ignoring the matter of promoting rank for the time being, Su Xiao remembered that the Green Steel Shadow ability had been upgraded to Lv.30, and he had yet to check the attributes of the Green Steel Shadow ability.

This time, with the Green Steel Shadow ability upgrade, he felt the change before he even checked the detailed data, so he could see how big the upgrade was.

Opening the skill list, the details of the Blue Steel Shadow ability appeared.

[Castle Steel Shadow: LV.30 (Active Skill)]

Usage condition: after turning on (Shadow of Blue Steel), the hunter consumes 100 mana points per minute, and automatically turns it off when mana falls below 1%.

Skill Effect: After turning on (Shadow of Blue Steel), each melee attack will burn 160 mana points of the enemy and inflict Burning Mana x 1.5 times the real damage (240 real damage), and the enemy will suffer from the intense pain of the burning mana.

Lv.20 Additional Abilities

Aoge: This is a defensive form that generates an energy shield of any shape to defend against enemy attacks, the strength of the energy shield is proportional to the amount of mana consumed, with a single mana consumption limit of 500 points (boosted by 100 points).

Lv.30 Additional Abilities

Soul Sensory Electricity: When Blue Steel Shadow energy burns enemy mana, there is a 12% chance of triggering one of the three anomalous states of paralysis, immobilization, or stun, and the duration of the anomalous state lasts 0.2-3 seconds (the duration of the anomalous state is determined based on the Hunter's Intelligence attribute).

Tip: This Abnormal Status does not require a judgment to take effect.

Tip: This ability is a passive trigger with no cooldown.

Tip: Abnormal statuses cannot stack.

...

Seeing the effect of Green Steel Shadow Lv.30, Su Xiao was stunned, although he had long thought that Green Steel Shadow raising to Lv.30 would produce a qualitative change, he never expected that it would actually become so strong.

However, the consumption of mana value was becoming more and more horrifying, it was no wonder that the Intelligence attribute would become one of the main attributes of the Shadow of the Extermination of the Law, if there was not enough mana value, opening the Bluesteel Shadow would be 'dumbed down' after a few minutes.

Although the amount of mana consumption was horrifying, the real damage caused by the Shadow of Bluesteel had already reached a frightening level, if someone asked where the Shadow of Bluesteel was powerful, Su Xiao would surely answer without thinking, the real damage caused when burning the enemy's mana value.

In addition to a very few passive skills and rare equipment, most abilities were unable to deal real damage, to the point where some first-rank contractors didn't even know what real damage was.

The additional ability of Qing Gang Shadow Lv.30 should not be underestimated, Su Xiao because of a certain skill (Jedi Demon Physique), most of the control skills he could not master, and the equipment that comes with the control skills are usually very difficult to trigger the control effect, which results in Su Xiao not having the ability to control the enemy.

But after the Green Steel Shadow reached Lv.30, Su Xiao gained an extremely strong control ability, as long as the enemy is eroded by the Green Steel Shadow energy, there is a 12% chance of triggering a control effect, and it is still triggered randomly among the three types of control effects, which will drastically increase the chances of triggering.

Su Xiao also noticed the key point, that is, as long as the enemy triggers the control effect, the Soul Sense ability will directly take effect without the need for judgment, this is the most satisfying point of Soul Sense.

Nowadays, as long as the enemy was chopped by Su Xiao and unfortunately triggered one of the three abnormal states, then the enemy would basically be declared dead.

Su Xiao didn't even need the enemy to be stunned or immobilized for 3 seconds, as long as he could control the enemy for 0.2 seconds, he would be able to make the enemy not even have a chance to use a recovery-type potion, and would be directly chopped into pieces by him.

Su Xiao was satisfied with the Lv.30 Blue Steel Shadow ability, no, it should be a surprise, according to his estimation, after the Blue Steel Shadow ability was raised to Lv.30, his combat power was increased by at least 20%, which made him look forward to what kind of abilities would appear after Blue Steel Shadow Lv.40.

After checking out the Blue Steel Shadow ability, there was one thing that puzzled Su Xiao, that is, where did the 'Blue Shadow King' ability go? This very much was a big move, although it was said that it hadn't been awakened yet, but if it disappeared, it would simply be a bloody loss.

Chapter 756: child prodigy

Checking along the list of skills, Su Xiao saw a line of golden fonts at the bottom of the list of Shadow of Extinction's exclusive skills.

In the Shadow of Extinguishing Law's Exclusive Skill List, there were originally two skills that had golden fonts, which were the Green Steel Shadow and the Blade Master, only that the golden fonts of these two abilities were very faint.

At this moment, at the bottom of the skill list, Su Xiao saw a line of golden font.

Skill Nine.

Green Shadow King: Unawaken (Aoi Skill)

Awakening degree: 9%

Awakening Condition: ????

...

Seeing the King of Green Shadows ability, Su Xiao secretly said that it was really so, before he guessed that the 'King of Green Shadows' ability was the big move of the Shadow of Extinction, now it seemed that it was really so, not only did the King of Green Shadows become a skill independently, but it was also labeled as an 'Upanishad Skill'.

Su Xiao was curious, what type was this ability after awakening? Attack? Defense? Or aiding in combat?

Although the conditions for the awakening of the Green Shadow King were unknown, this ability was awakening at a fast or slow pace as Su Xiao became stronger.

Su Xiao had a feeling that it wasn't that the Green Shadow King ability couldn't be awakened right now, but rather that his current body wasn't able to carry this ability.

Closing the list of skills, although Su Xiao's injuries had recovered, his tired spirit could not recover.

The intensity of his battle in the Holy Grail World was not low, counting it, he had not closed his eyes for a day and a night.

With his physical quality, not resting for a day and a night was nothing, but during this day and night, he had engaged in several high-intensity battles, and during this period of time, not to mention resting, even taking a drink of water was resolved while rushing.

Now after returning to the absolute safety of his exclusive room, Su Xiao had just relaxed his spirit when thick weariness struck him.

Su Xiao didn't even take off his clothes and directly collapsed on the soft big bed, closing his eyes didn't last more than ten seconds, he already fell into a deep sleep.

I don't know how long he slept, Su Xiao opened his eyes somewhat blankly, after a few seconds, his consciousness woke up a bit, got up and walked towards the bathroom in a daze.

"Ow!"

A miserable scream came, Su Xiao was startled to the side, and he felt a furry thing stepping on his foot.

Looking down, the confused Su Xiao was stepping on Boo Boo Woof's tail, Boo Boo Woof put on an awkward expression, if he took a picture and put it on the internet, and it would definitely become an emoticon.

After washing up, Su Xiao walked out of the bathroom, the tips of her hair were still dripping water droplets.

"How long was this sleep?"

Grabbing the timer on the nightstand, he had already slept for 12 hours, although the stay within the Reincarnation Paradise was precious, but with Su Xiao's previous level of fatigue, if he went to strengthen his physical fitness or improve his skills he would definitely make a mistake.

"No housebreaking, or slippers will be your dinner."

Su Xiao left the customized oversized slipper in his exclusive room to quell the house, went out and headed straight to the Skill Enhancement Hall.

Boo Boo Woof stared at the retreating shoe and gulped, honestly, it was a little panicked.

...

In the Attribute Strengthening Hall, inside the Attribute Strengthening Bin, Su Xiao skillfully operated the screen in front of her.

[Welcome to the Attribute Strengthening Warehouse, your bare suit attributes are as follows.]

Strength: 62

Agility: 62

Physical Strength: 62

Intelligence: 60

Charisma: 6

[Huntress can freely allocate attribute points: 30 points]

[Drops, the hunter's main attributes are detected as strength, agility, and intelligence, please prioritize the three main attributes.]

The harvest of attribute points this time was a lot, a full 30 points, and this was still in the case where the quest rewarded fewer attribute points, most of those 30 points were rewards from the Source of the World.

Su Xiao pondered for a moment, since he had already chosen to develop all four attributes at the same time, he had to stick to the end, as for the Charisma attribute, just go with the flow.

Four attributes developing at the same time Su Xiao already felt quite a lot of pressure, as for five developing at the same time, that was simply impossible, even if he did that, he would be 'dragged to death' alive.

The 30 attribute points were distributed in the following manner: strength +7, agility +7, physical strength +7, intelligence +9, and the attribute points were just about consumed.

[Attribute allocation is complete, strengthening begins.]

Buzz~

The Attribute Reinforcement Bin was functioning, such a drastic enhancement of the body attributes, the reinforcement had just begun, Su Xiao's mouth grinned, the 'sour' feeling was beyond words.

The sensations of intense pain, fiery heat, and soreness echoed each other, and by the time the strengthening was about to end, the discomfort disappeared, and a feeling of generalized relief appeared.

"Whew."

Su Xiao took a long breath, a grip strength measuring device appeared in his hand, as he exerted force, the value on the grip strength measuring device climbed rapidly.

150, 700, 1843, 11354...

Ka-ching!

The grip strength measuring device was scrapped, Su Xiao was a little surprised that the difference of 7 points of strength attribute made him directly pinch this thing, knowing that this thing was green quality, and its sturdiness could be comparable to blue quality weapons.

That is to say, Su Xiao is now able to break a blue quality weapon with his bare hands, and does not need to use his full strength, it is a bit exaggerated to say that it is easy to break, but it does not need to be taken too seriously, it is moderately meaningful.

Checking the current attributes, Su Xiao's naked attributes have now become:

Strength: 69

Agility: 69

Physical Strength: 69

Intelligence: 69

Charisma: 6

...

The four main attributes were about to reach 70 points, Su Xiao had heard a saying from the intelligence merchant before that 80 points of attributes was a hurdle, after that, every point of strengthening the attributes wouldn't be as simple as it is now, the intelligence merchant wasn't clear about what was going on, and he would only be able to find out if he reached that point.

Now that 70 points of attributes had not yet been broken through, if he wanted to raise it to 80 points, if it went well, 2 to 3 Derivative Worlds, if it didn't go well, 3 to 5 Derivative Worlds were possible, after all, Su Xiao was not a constant victor, and he would also encounter strong enemies he could not fight against within the Derivative Worlds.

Su Xiao walked out of the Attribute Strengthening Hall, there was an endless stream of contractors at the entrance of the hall, these contractors all had happy faces, after all, they were here to raise their attributes to become stronger, no one would be unhappy.

Because the agility attribute was raised by a full 7 points, Su Xiao's footsteps were obviously much lighter, and his entire body was like a feather.

This was a normal situation where the physical quality was greatly increased in a short period of time, and this feeling would disappear when he adapted to today's physical quality.

Su Xiao habitually came to Xia's restaurant, but unfortunately Xia was not there, so he had to find a random restaurant, as for Boo Boo Woof, this thing had an attack of lazy cancer, and was "sleeping" in his exclusive room.

Su Xiao always felt that something was wrong, but he didn't look deeper.

After the meal, Su Xiao returned to his exclusive room, he carefully observed in the room, nothing unusual, it seems that the slippers are a bit effective in suppressing the house.

Sitting on the bed, Su Xiao suddenly had a strange feeling.

"Come here."

Su Xiao took the big slipper in her hand and slapped her palm, snapping, Bu Bu Wang looked at Su Xiao with confusion in its eyes, but its expression was unusually calm.

Don't look at Boo Boo Woof's expression is calm, in fact, it lies in its heart, its gaze from time to time looks at the bed under Su Xiao's butt.

"I went out for a while, did I break up the house, shouting for you to eat you don't have time, you foodie, you will not have time when you eat? Compared to this argument, I'm more willing to believe that Reincarnation Paradise is a charity organization."

Thespian Boo Boo Woof tilted his head once, his eyes containing 'aggrieved' tears.

Su Xiao knew this goods no better, from that aggrieved expression, he could tell that this goods must have done something wrong, but there was no direct evidence, he couldn't be served with slippers, and this matter could only be left unsettled, Boo Boo Woof sneakily posed with scissor hands, God knows how it could use its claws to make this gesture.

Sitting cross-legged on the bed, Su Xiao took out two Spirit Boxes, one dark purple and one gold, which are the Spirit Boxes of Hundred Appearances and Hero King respectively.

Chapter 757: Pupil of the Void

Su Xiao lit a cigarette, exhaled a mouthful of light golden smoke, and three minutes of Ou Huang status was added.

[You have opened the Yingling Box - Dark Purple.]

[Please begin random selection.]

A carousel appeared in front of Su Xiao, with a black pointer above it, and the carousel was divided into several compartments, which were of different colors, purple, dark purple, light gold, and corresponding to the color of the item's quality.

The abilities and items of Hundred Appearances were not too many, and the carousel presented a total of five regions, respectively:

Hidden Knowledge of the Division Book (purple), which occupies 30% of the area of the carousel.

Battle Retreat (dark purple), occupying 50% of the area of the carousel.

Mastery of a Hundred (light gold), occupies 10% of the area of the carousel.

Breath Shield (light gold), occupies 7% of the carousel's area.

Delusional Illusion (Golden Bloodline Class) occupies 3% of the area of the carousel.

...

With time running out for the Emperor status, Su Xiao directly activated the turntable, which rotated at a high speed.

Of the five zones, Su Xiao most wanted the pointer to stop at Breath Masking (light gold color), which was an ability similar to invisibility, although it was a bit incompatible with his fighting style, but it was not bad to use it to sneak into the enemy camp once in a while.

After ten seconds or so, the speed of the carousel slowed down, looking at the direction of the pointer, it was clear that it was going to stop on the area of Hidden Knowledge of the Book of the Divine (purple color), which made Su Xiao wonder if he had enchanted a fake Ou Huang state this time.

The pointer stopped, Su Xiao breathed a long sigh of relief, but then he shook his head, the pointer didn't stop on the Hidden Knowledge of the Divine Book, and eventually stopped on the Hundred Proficiencies (light gold color) area.

A scroll appeared in Su Xiao's hand, he was very unimpressed with the two abilities of Hundred Appearances, which were Hundred Proficiency and Delusional Illusion.

Not to mention whether these two abilities were powerful or not, let's just talk about the changes after using them.

One should know that most of Hundred Maung's abilities corresponded to each other and his 80 personalities, which meant that learning these two skills, if one did not get it right, he would become schizophrenic, resulting in extra personalities in his body.

Su Xiao didn't want to be schizophrenic, I should say that he was very resistant to this situation, and he believed that most contractors didn't want it.

After checking the attributes of Hundred Proficiency (light gold color), Su Xiao sighed and placed it in the depths of the storage space, if there are any other items that need to be sold in the future, just put this on the table by the way, as for whether or not it can be sold, it depends on whether or not there are any schizophrenics amongst the contractors, normal people won't buy this item.

For Hundred Appearance's Spirit Box, Su Xiao originally didn't hold much hope, the Hero King's Golden Quality Spirit Box is the main event.

Picking up the gold quality Spirit Box, Su Xiao chose to use it.

You have opened the Spirit Box - Dark Purple.

[Please start the random selection.]

The reels appeared, and if Baek Maung's reels were a mini-mart lottery, then the King of Heroes' reels were the grand opening of a world-class supermarket chain.

The carousel could be described as colorful, with at least a few hundred compartments of purple, dark purple, light gold, and gold areas, which contained weapons, supernatural carriers, defenses, skills, and even a few items with unknown effects.

Seeing this wide array of items, Su Xiao's heartbeat accelerated, and on the side, Boo Boo Woof gulped down his saliva, and his little eyes seemed to be saying, "Master, we're rich."

"Calm down, it's not certain what will be drawn yet."

In his nervousness, Su Xiao carefully scrutinized the carousel in front of him, he saw the Sword of Heaven and Earth's Deviation, the area occupied by the Sword of Heaven and Earth's Deviation was so small that if he didn't have good eyesight, he wouldn't be able to see it at all, and that small strip was even thinner than a hair's thread.

Su Xiao seriously doubted that even if he stopped this area, the pointer would completely block this area, and would even affect the items on both sides of the Sword of Heaven and Earth's Deviation.

The Sword of Heaven and Earth's Deviation Su Xiao never wished for it, but there was one ability that he wished to obtain.

The carousel began to rotate at a high speed, and because there were so many items on it, Su Xiao was unable to tell where the one he longed for was.

The item that Su Xiao wished to obtain was the Lock of Heaven, that thing was easy to use and not weak in power, more importantly, it restrained divinity, the stronger the enemy that bound divinity, the stronger the Lock of Heaven would be, which could be called a BUG-like ability.

In Su Xiao and Bubu Wang's expectant gazes, the turntable stopped.

One person and one dog stared wide-eyed, one with a human face in confusion, the other with a dog face in confusion.

"What was drawn?"

Su Xiao turned his head sideways, trying to bypass the pointer and saw the item that was obscured by the pointer, the grid was too small, not much bigger than the grid of the Sword of Heaven and Earth's Deviation.

Golden light exploded, Su Xiao's hand sank, a piece of equipment appeared in his hand, it was not the Lock of Heaven, but an arm, the style was somewhat similar to the Minotaur Lord's Arm Armor, it could wrap around a small arm and palm, this arm armor was all golden and dazzling.

[King's Imperial Honor (Set 1/4)]

Origin: Exclusive to the Moon World

Quality: Pale gold color (set)

Category: Arm Guard (Left Hand)

Durability: 102 to 102

Requirements: Strength 35, Agility 60, Stamina 28, Intelligence 30.

Equipment Effect 1: Only I am Honorable (Passive), in the event of any judgment, the holder will have +10 modifier points on top of the attribute being judged. (If a judgment is made on the strength attribute, the judgment will be made according to Su Xiao's strength attribute +10, greatly increasing the success rate of the judgment.)

Equipment Effect 2: Bow Knight (Passive), +15% long range damage, +9 long range attack accuracy.

Score: 310+

Introduction: One of the King's Sets, after collecting all four pieces will activate the set effect (double arm guards, upper body armor, and lower body armor).

Set Effect 1: Symbol of the King of Heroes (active), after activating this effect, you can spend mana to manifest A+ or below A+ grade treasures within the King's Treasure for long range/melee attacks.

Tip: This skill lasts for 20 minutes.

Tip: This skill consumes 30% of maximum mana, Soul Crystals (Small) x 1.

Tip: This skill can be used four times per spin-off world with no cooldown.

Tip: Mana will be consumed additionally by manifesting a treasure, and the amount of mana is calculated based on the treasure's level.

Set Effect 2: ???

Price: 98,000 Paradise Points.

...

After checking the properties of this arm armor, Su Xiao's depression of not drawing the Lock of Heaven was swept away, and he actually drew the light gold set.

It should be known that a set is not in the same dimension as a single piece of equipment, even if it is a purple quality set, once the set attributes are successfully activated, the effect displayed will directly catch up with the same number of pieces of light gold equipment.

Su Xiao had already obtained a dark purple set, and it was still the best of the dark purple sets.

If Su Xiao is allowed to choose between the Demon Hunter's Set and the King's Set, he will not hesitate to choose the Demon Hunter's Set, the name of the melee dream set is not touted, but practiced.

Now the situation is, even if Su Xiao put together the Demon Hunter set and the King's set, the two sets will not conflict, and even some attributes will add to each other.

Su Xiao did not hesitate to change the arm armor on his left hand, moving fingers, the King's Royal Armor deserves to be a light gold set, after wearing the finger activity without the slightest sense of difficulty, if not that thick feeling, he even suspected that the hand is not equipped with arm guards.

The Boundary Breaker on the Minotaur Lord's Armor can be removed, Su Xiao is ready to install the Boundary Breaker on the King's Royal Armor, but before that, the Boundary Breaker needs to be repaired and strengthened.

But what gave Su Xiao a headache was that the golden glow of the King's Royal Armguard was too dazzling, or rather too tawdry, this was the aesthetics of the King of Heroes, and Su Xiao didn't like this flamboyant golden color.

Spending 1,000 points of Paradise Coins, the light golden quality glow of the arm armor was hidden at the same time, the entire arm armor turned crimson, this was the equipment color modification function, which Su Xiao seldom used.

It wasn't that Su Xiao liked the red color that he spent the Paradise Coins, but the red color was similar to the color of blood, and could appropriately conceal whether his left arm was injured or not.

After opening the Spirit Box, Su Xiao opened the Seal of Reincarnation, he still had the 'Designated Any Skill Level +1' reward unused.

This kind of opportunity to break through the upper limit of skills, of course Su Xiao had to choose carefully, the candidate skills were: Absolute Demon Physique, Spirit Shadow Physique, Devouring Core, and Supreme Blade.

Absolute Demon Physique and Devouring Core were ruled out first, the benefits of improving these two abilities, although not small, were not as good as Spirit Shadow Physique and Supreme Blade.

If he improved his Spirit Shadow Physique, Su Xiao guessed that it was to improve the ratio of mana value converted into life value, but he was already very resistant to beatings, and with the Physical Strength attribute as one of his main attributes, the speed of life value increase was not slow.

This left only the Supreme Blade Ability, and Su Xiao was curious to know if the Supreme Blade Ability broke through the cap, could Zhan Long Flash have an additional attribute, or simply lower the equipment requirements needed to raise Zhan Long Flash? If that was the case, the leveling up speed of the Dragon Slash would increase dramatically, and the resources consumed would be drastically reduced.

"Paradise, I choose to upgrade the Supreme Blade."

[Alert: The Hunter has chosen to use the specified arbitrary skill level +1.]

[Choose target: Supreme Blade.]

[Upgrading in progress ...]

[Warning: Due to the special nature of the Supreme Blade skill, this enhancement has exceeded permissions.]

[Alert: Huntress identity checked.]

[Checking the number of hunting missions performed by the hunter and the degree of completion.]

...

In the endless void, a black hole devoured everything around it.

Suddenly, the black hole opened a giant eye, the giant eye is densely filled with pupils, with these pupils gazing into the void, and the black hole even stopped devouring.

"I sense that a new Law Exterminator has appeared."

"It must be wiped out."

"It can't be done, with that place sheltering us ... we don't dare to set foot there."

"Is it possible to let him grow? There is a sword ghost and a sword demon in the void already scarred, do you want another sword demon to appear, the terror of the sword demon ..."

"He's not a sword demon, he's a pure law destroyer. "

"What!!!"

"No!"

"Pure Law Exterminators are going to die! They grow up to be even more terrifying than sword demons."

Those pupils within the giant eyes fluctuated, and the space around them shattered inch by inch.

"So what's the solution? Don't forget how we were sealed here, if we cross the thunderstorm, we will be ashes."

"A group of rabble, when a law destroyer appears, there will also be a corresponding companion blade present, do you ... not desire the companion blade of a law destroyer?"

"Of course I dream of it."

"Then let him grow, we are no longer considered to be in the ranks of the 'Law', the Law Destroyer will not come all the way to destroy us, the Companion Blade, that can ..."

The giant eyes slowly closed, as if they had never appeared.

Rumbling, the black hole devoured, and calmness was restored to the void.

Chapter 758: history of blood and tears

Inside the exclusive room.

Su Xiao was checking the skill list, and the Supreme Blade ability had finished improving.

Skill Five.

Supreme Blade: Lv.MAX+ (Active Skill).

Skill Effect 1: This skill can be utilized to bind an initial weapon (Already bound: Chopping Dragon Flash).

Tip: After binding an initial weapon, two blank additional skill slots will be gained (1/2 used).

Tip: Once the initial weapon is bound, it cannot be changed. If the initial weapon is broken, it can be repaired using the Supreme Blade skill. (Repair cost will be determined by the current quality of the initial weapon)

Skill Effect 2: Can sacrifice melee weapons, successful sacrifice will be based on the quality of the sacrificed weapon to obtain a certain amount of blade value, when the blade value reaches 100%, the quality of the initial weapon to improve.

Tip: The sacrificed weapon must be of the same quality as the initial weapon (i.e. light gold in color).

Tip: The weapon to be sacrificed must be a melee weapon, and its cutting power must reach a certain value, and the category of the sacrificed melee weapon must not be too different from the initial weapon. (Such as swords, long daggers, long knives, short knives and other weapons can be sacrificed, sacrificing a long knife type of weapon will get extra edge value, and other types of weapons get a slightly lower edge value).

Skill Summary: Don't be fooled by appearances, in the future you will be glad you built this weapon.

...

The 'Specified Any Skill Level +1' rewarded by the hidden quest did not disappoint Su Xiao.

Although the Supreme Blade Skill looked complicated, in actuality, only two changes appeared, one was the +1 to the skills that could be attached, and the other was the increase in the scope of the weapon that was swallowed, and nowadays, the Chopping Dragon Flash was able to utilize light golden melee weapons that met the requirements to raise the value of the blade.

Although the scope was increased, it was also impossible to sacrifice weapons that differed too much from the Chopping Dragon Flash, such as not being able to sacrifice weapons such as war hammers and lances.

The increase in the range of weapons that can be sacrificed is undoubtedly good news, the same quality of knife weapons is too difficult to find, if it is before, want to raise the Dragon Flash to the golden quality of at least 4 to 6 light gold knife weapons, which is to be killed.

Now the situation is significantly better, the Supreme Blade can be sacrificed to a similar type of weapon as the Dragon Flash, swords, long daggers and other bladed weapons can be sacrificed.

Of course, axe-type weapons wouldn't work, that thing had an edge, but it was too different from knife-type weapons.

Although the spending is still not low, the difficulty of acquiring it is significantly reduced, that feeling of having money to buy a knife-type weapon, Su Xiao experienced it more than once.

Overall, using a melee weapon of the same level to enhance the Chopping Dragon Flash was a lot less expensive than purchasing a knife-type weapon with similar attributes.

If Chopping Dragon Flash can be upgraded to gold quality, the gold weapon with similar attributes will be so expensive that it will make Su Xiao doubt his life, moreover, the weapon that is sacrificed has a characteristic that the attack power is far more than the same level weapon, now the light gold quality of the Chopping Dragon Flash is similar to the attack power of the gold short knife Slaughter, that is a full grade difference, if the other contractors know about this point, they will surely come to kill and seize the treasures.

Su Xiao took out the Chopping Dragon Flash and checked the attributes of the Chopping Dragon Flash, and sure enough, a new attribute appeared for the Chopping Dragon Flash.

Supreme Blade Effect 3: (No skill attached).

...

The original Chopping Dragon Flash has two 'Supreme Sharp Edge Effects', the first of which cannot be changed, and will continue to increase in sharpness as the quality of the Chopping Dragon Flash increases.

The second is a skill that can take over the weapon it engulfs and can be replaced, the skill on it now is Wan Ren Zong (passive), which increases the sharpness, and after chopping off an enemy's limb, the enemy cannot recover by conventional means.

As for Supreme Sharpness Effect 3, this ability was interesting, it was different from 'Supreme Sharpness Effect 2', instead of taking the skill from the weapon it engulfed, it formed the skill based on Su Xiao's fighting style.

To be exact, no skills would appear on Supreme Blade Effect 3 for the time being, when the Chopper Flash next upgraded its quality, skills would appear on Supreme Blade Effect 3, and this skill was formed based on Su Xiao's fighting style.

Not only that, every time the Chopping Dragon Flash was promoted, the Supreme Blade Effect 3 would appear to change, and by then, the exact attributes Su Xiao was not sure of, what was certain was that the higher the quality of the Chopping Dragon Flash, the stronger the effect of this skill would be, and the more suitable it would be for Su Xiao.

Overall, this time, although the enhancement of Supreme Blade did not immediately enhance the Chopping Dragon Flash, it increased the growth speed and growth potential of the Chopping Dragon Flash, and reduced the resources consumed for growth.

Closing the skill list, Su Xiao checked the amount of soul crystals.

[Soul Crystals (Medium) x 4]

[Soul Crystals (Large) × 1]

...

Nowadays, Su Xiao didn't have a high demand for Soul Crystals (Medium), but he wouldn't sell this, there were too many uses for Soul Crystals, and it wasn't always possible to use them at any given time.

As for the Soul Crystals (Large), this was used to raise the Lv.30 Blade Master, one was needed per level.

With the Soul Crystals (Large), Su Xiao should have raised the Blade Master right away, awkwardly, he didn't have enough Paradise Coins.

Each level of Blade Master Upgrade required 100,000 Paradise Coins + one Soul Crystals (Large), and right now, there were only 46,430 Paradise Coins within the Seal of Reincarnation.

The attribute points and equipment harvested from the Holy Grail World were quite a lot, but he hadn't gained too many Paradise Coins.

Su Xiao walked towards the outside of the exclusive room and went straight to the trading market, he had two items he could bid on, which were the [Minotaur Lord Armor (Purple)] and the [Hundred Proficiencies (Pale Gold)].

The Bullhead Lord Arm Armor was very good to bid on, if he didn't have the King's Royal Arm Guard, Su Xiao wouldn't have bid on this item for the time being.

Equipment Effect: Bullhead Lord's Wrath (Active), after opening this skill, strength +15 for 10 seconds.

Tip: The cool down of Bullhead Lord's Wrath (Active) is 10 natural days.

Tip: Turning on Bullhead Lord's Rage (Active) requires 30% of your life value to be consumed.

...

Power Attribute Temporarily +15 points, what a powerful and dazzling ability, if Su Xiao used this equipment now, his Power Attribute would instantly reach 80 points from 72 points, this was not a miscalculation, according to the normal situation, after using the Rage of the Ox-Headed Lord (Active), his Power Attribute should reach 87 points, somehow, the Power Attribute was stuck at 80 points and could not be broken through, it seemed to be a bottleneck, Su Xiao could not break through this bottleneck right now. Su Xiao could not break through this bottleneck yet.

Even if he could only reach 80 points, it would still be exceptionally strong, and then the truth was not like that.

Opening the Rage of the Minotaur Lord (Active) required 30% of life value to be consumed, which was not the existing life value, but 30% of the maximum life value! In other words, if the life value is below 30%, opening this thing will directly support the corpse, which can be called a decapitation effect and a godly weapon of self-destruction.

Su Xiao has already used the fury of the minotaur lord (active) many times, the principle of this thing is to convert blood into power, there are side effects after using it, a large amount of burning blood, it will be a short period of time to get off the power after the power bonus effect, it will be very weak after the battle, and it will take time to recover, and the skill cooldown time is days long, and some of the spin-off worlds don't have a stay of ten days.

To say it is all tears, Su Xiao has this nearly died in this equipment, after that painful lesson, he rarely use this ability.

Although there are many side effects, this unscrupulous equipment is only labeled as consuming 30% of life value, and the side effects of burning blood are not mentioned.

Because of this, this thing was a godsend for fooling rookies, and some first- and second-order contractors didn't know about the 80-point level, so it was even better to fool them.

Chapter 759: a trickery

The trading market was crowded with people, with variously dressed contractors walking from stall to stall.

"Get out of the way."

A four-meter-tall mecha walked through the crowd, somewhat rampaging on the basis of its large size, and a big bald man sat in the cockpit.

"Mechanical side scum."

A girl wearing a green wizard hat dodged out of the way of the mech and compared her middle finger to the bald big man, her slender middle finger slowly stirring.

"Mystic side weakling, were you just screaming at me?"

Bald big man bashful laugh, the two seem to have been grudges, the actual is not so, this is just the daily life of the reincarnation paradise, quarrel or dating arena often, but the feud is very few, because a few words of verbal quarrels to feud is not worth it, there is no keyboard warrior here to say, after a feud is you die and I live.

"Arena, dare?"

Witch hat girl turned the short staff in her hands, slender eyebrows lightly raised, she just bored, and looking for someone to go to the arena competition is a good choice.

"Who's afraid of who, 200 coins at a time?"

The bald big man obviously had nothing to do as well.

"OK."

The two walked towards the arena, it was clear that the two would not hold a grudge because of the previous verbal argument, and if they were of similar strength, they might even form a temporary squad.

This scene often appeared within the Reincarnation Paradise, this was the land of the impossible, it was not certain when they would die within some derivative world, so people would not hide their thoughts or desires here, if a man and a woman looked at each other, it was very likely that the two would already be in the Gun bed sheets 10 minutes later, and then go their separate ways afterward.

Su Xiao sat behind the stall he often used, selling items that were very affordable due to the shortage of paradise coins, he was preparing to pit people.

The attributes of the Minotaur Lord's Armor were too dazzling, if a newcomer saw the attributes of this item, he would probably use this item as a life preserving card, not to mention the newcomers, even the former Su Xiao had done the same, until he was nearly bitten to death by an enemy after opening the skill of the arm guard for the first time, he rarely used this item.

Thinking for a moment behind the stall, the corner of Su Xiao's mouth curled up, removing the wire wheel on the Minotaur Lord's arm armor, on the wire wheel was the boundary break wire, this thing could not be sold.

Su Xiao began to put a price tag on the two items to be sold, seeing this expression on his face, the Boo Boo Woof on the side sighed, it knew that Su Xiao was trying to trap people, not knowing who would be unlucky.

[Bullhead Lord Armor (Purple)], priced at 100,000 Paradise Coins.

[Hundred Proficiencies (Light Gold)], priced at 120,000 Paradise Coins.

...

Obviously, the Bullhead Lord Armor was marked at a high price, as for the Hundred Proficiencies, this item was a Pale Gold Skill Scroll, even if there was a risk of becoming schizophrenic after mastering it, it was after all a Pale Gold grade item.

With the price tag completed, Su Xiao began to wait for the 'victim' to appear, and a few contractors quickly gathered around the stall.

A man in a suit picked up the Minotaur Lord Armor, and after he checked the quality, skills, and rating of this equipment, he smiled and shook his head.

"90,000."

The suited man quoted the price and put the Bullhead Lord Armor back in its original position.

Hearing this offer, Su Xiao looked the man in suit up and down, the other party didn't look like a newcomer in any way, and it was immediately clear to him what was going on.

"Minimum 110,000."

"Too high, the side effects of this thing, you and I both understand."

"Yes, but the grade is there."

Su Xiao's conversation with the man in the suit left the few contractors around a little confused.

In fact, the two were not agreeing on the price of the Bullhead Lord Armor, but rather the price of the Hundred Proficiencies.

"You're planning to keep this thing in the bottom of the box? To tell you the truth, I'm selling this thing with the intention of reselling it without enough profit ..."

The man in the suit was indeed not a newcomer, he was a Staffer merchant.

Su Xiao didn't want to leave the Hundred Appearance Mastery pressed to the bottom of the box, in fact, if this thing could find a buyer, it would sell for around 110,000 to 130,000, but this thing was too niche.

"Minimum 100,000, responsible for exemption."

"Deal."

The man in the suit paid the bill with alacrity, and 100,000 Paradise Dollars were credited.

Su Xiao was in a good mood, he was ready to put the Hundred Appearance Mastery in the bottom of the box, what he didn't expect was that he had just set up a stall and met a merchant who was interested in this item.

The only thing left on the stall was the Minotaur Lord's Armor, how much this item would eventually sell for depended on how much Su Xiao could fool him.

There was an endless stream of pedestrians in front of the stall, and from time to time, there were contractors stopping to bargain, there were many newcomers who had their eyes on the Bullhead

Lord Armor, and the price of 100,000 Paradise Coins directly dissuaded them, as for the experienced contractors, they would not spend a large amount of money to buy this thing at all.

Until half an hour later, a teenager passed by the stall, the teenager was not alone, he also had his arm around a female companion.

Su Xiao raised his head and looked at the two people stopping in front of the stall, this teenager is in all probability a second-order newcomer, most of the first-order contractors can't afford to buy this thing, looking at the slightly domineering demeanor, this guy's experience in Reincarnation Paradise should have been a smooth ride, as for the teenager's female companion, more than 80% of them are staff members, there is no blood on their bodies, their pace is messy and vague, and their gaze does not have the feeling of a long time of fighting.

A smooth-sailing Contractor + a female worker, this pairing, in Su Xiao's eyes = good cheat = wrongdoer = large amount of Paradise coins.

"Brother, this thing is cheaper, although the attached skill is powerful, the consumption of deducting 30% of life value is too high, and the skill cooldown time is not good, I'll offer 50,000 at most."

The teenager picked up the Minotaur Lord Armor and tossed it around in his hands, he was clearly looking at this preparation.

Hearing the teenager's words, Su Xiao said in his heart that it would be good if these were the only drawbacks.

"100,000 minimum, no counteroffer."

Su Xiao was not very enthusiastic, too much enthusiasm would only make people suspicious.

"A purple arm armor is just 100,000? You think this is dark purple equipment?"

The teenager's tone was petulant, but he did not have the stance to get up and leave.

"This is the equipment I replaced, If I didn't have better equipment, I wouldn't have bid on this."

Su Xiao's left hand raised, and the light of a light golden quality equipment was released.

"Pale Gold ..."

The teenager's eyes went straight, although he was a second-ranked newcomer, he belonged to a medium-sized adventure group, and for special reasons, and his status in that adventure group was not low.

"Better forget it, 100,000 ..."

The female employee wanted to say something, she had obviously been mixing within the Reincarnation Paradise for a longer period of time than the teenager, she was afraid of both the teenager and offending Su Xiao.

"Shut up."

The teenager's hand wandered inside the female worker's clothes, her hand slowly exerted force, the female worker's breathing obviously shortened a bit, her eyebrows slightly wrinkled, and the teenager pinched her.

"Don't be so petty when you're a bigot like you, give an honest price."

"Could be."

Su Xiao looked at the female worker, who smiled a bitter smile.

"Ninety thousand."

"Heh~ you're so generous."

"Forget it if you don't buy it, anyone with eyes knows what its worth. "

Of course, a discerning person wouldn't spend more than 60,000 Paradise coins to buy this thing, the ability of this thing was indeed strong, but it also died fast enough, the weakness of burning blood after the +15 strength disappeared was too fatal.

"80,000, not a cent more."

The teenager got up and seemed ready to leave.

"Hey~"

Su Xiao sighed, seemingly hesitating about something, and the teenager smiled.

"Don't hesitate, you have higher grade arm guards, turning this into paradise coins to enhance your strength is the right choice."

The teenager's heartbeat began to accelerate, he was a single attribute development, the strength attribute was 51 points, if the strength attribute was temporarily +15, if a punch went down the enemy would be crippled if not killed.

As for the 30% life value consumed, the big deal was to turn it on when his blood level was below 50%, 30% of 50% blood level wasn't too much.

Chapter 760: It's not about the Paradise Coin anymore.

The idea is beautiful, the present world is cruel and abnormal, the Minotaur lord arm armor is burning a certain amount of blood, and the 30% life value consumption is the maximum life value, not the existing life value.

"85,000, I'm in dire need of paradise coins right now."

"Cool."

The teenager was full of smiles as he bought the Minotaur Lord Armor, his heart was thumping, in his opinion, this was picking up a big leak, the other party was obviously in desperate need of Paradise Coins.

85,000 Paradise Coins were credited, Su Xiao's deposit became 231,400 Paradise Coins.

After the teenager left, Su Xiao immediately got up.

"Bu Bu, don't sleep, withdraw."

Su Xiao could be sure that the teenager would turn back in no time, so in order not to waste more breath, it was better to leave first.

More than ten minutes after Su Xiao left, a blonde-haired imperial sister brought the teenager to the front of the stall with hurried footsteps.

"Just...this is it."

The teenager was no longer as bossy as he was before, and at this moment, he was like a chicklet that had just come out of its shell.

"..."

The blonde royal sister suddenly grabbed the teenager's head, and those slender nails touched the teenager's eyeballs.

"How stupid are you, you spent 85,000 on something that cost 60,000 Paradise Dollars at most, and what's even more stupid is that you're bragging about it in the group."

"Sis, I...I'm wrong, I'm your own brother ah, you, don't kill ..."

"You're right, it's me who's wrong, I should have let you experience the Reincarnation Paradise has cruelty and terror."

The blonde imperial sister let go of the teenager's head, although it was impossible to attack each other in the Reincarnation Paradise, the teenager was like an amnesty, he had seen with his own eyes, his sister gouged out the enemy's eyes in her hands and crushed them.

"What are the characteristics of that person?"

"Characteristics ..."

The teenager frowned in deep thought.

"Ah yes, he's got a two-hander with him."

"Erha?"

The blonde Mikado froze, and then something occurred to her, and she sucked in a breath of cold air.

"Is it a black trench coat with a knife at the waist that doesn't hide his face?"

"Yes, but there's no knife at the waist."

"That's in the storage space."

The blonde Mikado rubbed her forehead lightly.

"My stupid brother ..."

The teenager's mouth grinned as he felt something familiar about the words.

"Sis ... I'm not Uchiha Sass to, don't...don't call me that."

"Don't talk back."

The blonde imperial sister's pupils turned into beast pupils.

"The person who sold you the equipment is named White Night."

"White Night? Who is it?"

The teenager was filled with doubt.

"I told you to usually play less with women and ask for more information about the paradise you didn't listen, go away, we can't afford to mess with that kind of monster, in the second rank, there are a few people who can't be messed with, I told you that, right?"

"I've kept it all in mind, Ranger Revolver Man, God Emperor's Crazy Milk, Cutting Bone Lucy, Shattering Skull Slammer Sanqi, Sniper Cannon Vinnie, Decapitated Night... Decapitated Night! It can't be ..."

The teenager froze in place, he had heard a certain rumor about a person wiping out an adventuring group.

"Congratulations, my stupid brother, you're 'lucky' to have met Decapitated Night, one of the perverts of the Paradise Second Order, the Paradise Coins of these are for a lesson, don't freeze, go back with me and get ready, that one's about to start, the next Spin-off Worldis hell."

The blonde imperial sister's face was heavy, although she was the leader of a medium-sized adventure group, she couldn't guarantee that she would survive the next spin-off world.

...

Su Xiao sat on the carpet of his exclusive room with his eyes closed, Chopping Dragon Flash resting flat on his legs as he was raising his Blade Master.

After a long time, Su Xiao's eyes zou-ly opened, and a sharp aura flashed through his pupils.

[Blade Art Master has been raised to Lv.31.]

Su Xiao subconsciously drew out the Chopping Dragon Flash, and a cold aura flashed by.

[Blade Master: LV.31 (Passive Skill)]

Skill Effect: Increase the attack power of knife-type weapons by 140% (6% increase), and knife skill is greatly increased.

Lv.10 Additional Abilities

Rhythm of All Things (Top Level): This ability cannot be strengthened in Reincarnation Paradise, and can only be realized by virtue of the hunter's own physical realization. (Upgraded from Advanced to Top)

...

After Su Xiao viewed the Knife Master Lv.10 additional ability, he closed the skill list and only upgraded it by one level, the additional abilities of Lv.20 and Lv.30 would not appear to change.

After many boosts of Blade Master and Cyan Steel Shadow Su Xiao realized that these two abilities didn't change too much between leveling up from 1 to 9, while at Lv.10, Lv.20, and Lv.30, a qualitative change would occur.

Su Xiao referred to the former as minor levels and the latter as major levels.

Raising the small level was an accumulation of skills, and the benefits were not too high, and when it came to raising the large level, the accumulation of the small level paid off, and the skills would see a large increase.

Su Xiao looked at the remaining Paradise Coins, there were still 131,400 points left, he traded 1400 Paradise Coins to Boo Boo Woof as pocket money, leaving 130,000 Paradise Coins.

These 130,000 Paradise Coins he was going to use them all to build an item.

Twenty minutes later, the Equipment Forging Street in Reincarnation Paradise.

This place was not part of Reincarnation Paradise's infrastructure, and most of the people who opened stores on this street were workers who had mastered forging-type skills.

They had a lot of time to improve their forging skills or forge equipment, which was one of the necessities of the existence of the staffers.

There were quite a number of contractors on the street, and the clanking sounds in the workshops on both sides of the street were connected together, and a well-built, hammer-wielding artisan was sweating by the smelting furnace, and the high temperature of the furnace could be felt in the street, and I didn't know how these artisans with average physical qualities could withstand this kind of high temperature.

Don't underestimate these craftsmen, most of them are the guests of a certain adventure group, they come here just to sharpen their forging skills, even if it's a large adventure group, the equipment they need to forge is limited.

Su Xiao came here because he wanted to repair the boundary break line, this boundary break line was originally 200 meters long, after fighting with multiple strong enemies, the boundary break line broke a few times, and now only about 100 meters remained.

The Boundary Break Line was originally an Imperial Equipment upper accessory, so Reincarnation Paradise did not give a detailed grade.

Su Xiao guessed that it was around the blue grade because of its toughness to be able to use it for so long.

Su Xiao asked a few stores in the Forge Street, and the results weren't good, although Su Xiao had already collected those broken Boundary Breaker Threads, it was very difficult to repair them.

When Su Xiao walked into the tenth store, things took a turn for the worse.

"What did you do with this? Bind the BOSS?"

A scruffy-looking old man tugged on the boundary break line, and there were obvious scars on that cut-off line.

"The strength of this thing is comparable to purple materials, it's a pity."

The scruffy old man threw down the boundary break line.

"Give up, repair is there can be repaired, but the price is too high ..."

"Bid."

Su Xiao interrupted the scruffy old man.

"50,000, I can not only repair it, but also enhance its quality, exactly to what extent can I enhance it ... between purple and dark purple, this thing is between material to equipment, the difficulty of enhancing it is not too big, the difficulty lies in repairing it."

"Deal. "

The degree of Su Xiao's alacrity made the scruffy old man quite surprised.

"How long will it take?"

"Two hours at most, if you are patient, you can wait there after paying the 40% deposit. "

The scruffy old man pointed to a wooden bench in the corner that could disintegrate at any moment.

After paying the deposit, Su Xiao took out her tablet and sat on the wooden bench to play the puzzle game.

"The enemy has thirty seconds to reach the battlefield, crush them!"

A female voice came from the phone between Boo Boo Woof's paws.

"You're such a vegetable, can you afford your 53 points of charm attribute."

Su Xiao's finger almost appeared as a stump, Bu Bu Wang dog body tensed, this plate it must win, it was about the honor of the woofers.

Two hours passed quickly, the scruffy old man had come to Boo Boo Woof's side at some point.

"Open big, open big, what are you running, hey, don't be big against the wall, you ..."

"Woof woof."

The scruffy old man and Boo Boo Woof had already fought at some point, while Su Xiao was surveying the Boundary Breaker in his hand.

[Boundary Break Line]

Origin: Chopper - Red Hitomi

Quality: Dark purple

Category: Equipment Accessory (can be loaded onto hand equipment such as wrist guards, arm guards, gloves, etc.)

Durability: 190 to 190

Length: 200 meters

Strength: 14

Sharpness: 7

Rating: 220

Synopsis: Part of a damaged empyrean tool.

Price: 31600 Paradise Coins

...

Su Xiao left the Forge Street and went straight to the Equipment Enhancement Hall, with the previous lesson, he was ready to enhance the Boundary Disconnect to avoid the thing from being damaged again.

[Welcome to Equipment Strengthening Machine #315, user holds Paradise Coins: 80,000 points].

Su Xiao took out the Boundary Breaker, and as he did so, a tray popped up on the Equipment Strengthening Machine.

Thumb~

White steam erupted from within the Equipment Strengthening Machine, and Su Xiao placed the Boundary Breaker Line on the tray.

[Equipment check in progress...check complete, Boundary Breaker Line (dark purple) costs 4,000 Paradise Points per reinforcement].

Seeing the reinforcement cost, Su Xiao froze, reinforcing the Boundary Disconnect Line was unexpectedly cheap, thinking about it, the Boundary Disconnect Line was not an equipment, if one wouldn't use it, this thing would be a sharp rope at best, but in Su Xiao's hands, it was a murderous weapon.

[Yes/No for this reinforcement.]

"Reinforcement."

[Reinforcement begins, please wait two minutes.]

The reinforcement time was also unexpectedly short.

Rumble...

The Equipment Strengthening Machine operated, and from time to time, the zipping sound of electricity could be heard with an astonishing sound.

Two minutes passed in a flash, and the tray poked out.

[Boundary Disconnect (Dark Purple) +1 Success.]

After Su Xiao checked the attributes of the Boundary Disconnect, he immediately chose to continue strengthening it, this thing had a value to build.

Level after level of reinforcement began.

[Boundary Disconnect (Dark Purple) +2 Success.]

[Boundary Disconnect (Dark Purple) +3 Failed, has fallen to +1.]

Su Xiao calmed his mind, the excitement was a bit big.

[Boundary Break Line (Dark Purple) +2 Success.]

[Boundary Disconnect (Dark Purple) +3 Failed, has fallen to +1.]

Seeing this kind of strengthening result, Su Xiao's mouth opened and closed, he wanted to curse, but didn't know what to curse.

Half an hour later, a dozen contractors had already surrounded behind Su Xiao.

"What is this brother doing strengthening the Imperial Tool Accessory, and to this extent?"

"People are stupid and have a lot of money being that it's not a complete Imperial Tool, it's hard to use this thing unless it's professionally trained."

"You guys didn't come to see it before, dropped from +2 to +1 see."

"I shit, this brother stepped on shit right, strengthen +2 can fall to strengthen +1? I haven't experienced it yet."

"It can, and he's already dropped +1 three times."

"Fluff."

Hearing the Contractor's comments behind him, Su Xiao's corner of his eye twitched.

Snort~

The tray of the reinforcement machine probed out.

[Boundary Disconnect (Dark Purple) +9 Success.]

This time it was the Boundary Disconnect that was strengthened from +1 all the way to +9 without any accidents, and there was an uproar in the surroundings.

Su Xiao didn't need to look to know that the current attributes of the Boundary Breaker must be amazing.

If it was an equipment, strengthening it to +9 Su Xiao had already called it quits, but Boundary Breaker was different, besides, when strengthening it to +7 or above, he had already protected it with the [Illusory Magic Stone].

"Continue strengthening."

Su Xiao's biting muscles protruded, he didn't believe that Boundary Breaker couldn't strengthen +10, he had to dislike this strengthening machine today, it was no longer a matter of spending Paradise Coins, dropping +1 three times in a row was something that no one could endure.

But in terms of Su Xiao's luck today, the likelihood of a successful +10 is unlikely, which should be the sentence of the message left in front of the door of the reinforcement hall, opening the box is rich for three generations, and the reinforcement destroys his life.
