

R. Paradise 91

Chapter 91

On top of the building, the store Manager was confronting Shinohara Yukinori, his goal wasn't to fight, but it was gain time.

“It seems like I'm a little bit old, if it was some years ago, I would've taken your hand just like I did with your boss.”

The store manager was wrapped by his Kagune. His back was full of thorn-like Kagune which was an Ukaku specialized in long-range attacks.

The current Manager had a combination of attack and defense.

“Iwaccho.”

Shinohara Yukinori called Iwao Kuroiwa by his Nickname.

Iwao nodded, as the two worked together for a few years, they knew what the other thought without needing words.

“Hirako Take, Left.”

Hirako may be a Superior class Investigator, but his strength was unquestionable. He was in no way weaker than a quasi-special one.

“Yes.”

“The rest go kill the rest from the Aogiri tree.”

Yukinori knew that the others didn't have any way to deal with this ghoul, it was not worth it to send them to their deaths.

“Amon, you go with them.”

Yukinori looked at Amon and said, even though Amon had good talent, he was still too young and lacked combat experience.

Surprisingly Amon stayed still.

“Amon.”

Yukinori raised his voice.

“I want to fight with you.”

“This is an order, and you will obey it.”

Yukinori's tone was serious.

“I want to stay, please let me fight with you.”

Amon was young and reckless, it's apparent that he wasn't afraid of death, he even pleaded to join the fight.

“You are strong and have good talent, but it isn't the time.”

Yukinori said helplessly while Amon still couldn't understand why and kept standing in the same place.

"I..."

"Don't pull us back."

In this fight, Yukinori won't have time to take care of Amon.

"Iwaccho, I'm sorry."

Yukinori's tone was full of apologies. He knew that his two teammates might die today.

"I know my strength, and I know what I should do."

Yukinori nodded at the two, and they activated the switch on Shi.

Wouch!

Shi clang on their bodies forming a black armor.

"Go."

Yukinori shouted and rushed along with the two.

...

On top of a building, a group of Contractors was watching the scene through a telescope.

"The main task is almost the same."

The white-haired old man put down the telescope and smiled in front of everyone.

"Coldfish, our main task has been completed."

"Well, very good, you still have a few people."

"Exactly two people... Can you..."

Coldfish raised his hand and interrupted the one speaking.

"That should be done later, the CCG has the upper hand, and we gained a lot of benefits from this battle. We can't be greedy, we need to withdraw."

Xi Lo Lo was unwilling to leave, but she didn't dare to say anything. She was a worker, and she didn't have any combat ability.

The contractors left the roof in turn.

One person was sitting on the rooftop while holding a timer in his hand.

The timer was diamond shaped and gave a feeling as if it was some Sci-Fi object. The timer showed 144 hours and 3 minutes, which was about six days. The timer was counting down.

"Six days, the time for interfering with the transmitter is too long."

Hot looked at the store manager in the distance with a sneer.

As long as the time ends, the interference would be successful, and his strength will rise greatly.

“Every road will lead you to the king’s position, and I will go with this.”

Hot said while his eyes were full of ambition.

Hot was just pretending in front of ColdFish.

“The abnormal contractor of the CCG, I hope I will see you after the transmissions succeed.”

Hot burst out with laughter as the fight continued.

Although Ho was a fire mage, his body wasn’t weak.

...

Su Xiao was hurrying over toward the roof of the building.

The building was strangely built, getting to the rood would require changing stairs several times.

As for the elevator, it was damaged and won’t work anymore.

Su Xiao was climbing the stairs as an explosion issued above him.

He didn’t stop but continued toward the roof.

On his way to the roof, Su Xiao saw Uchino and four ghouls fighting.

To be exact, Uchino was standing in place while the others were attacking.

Uchino counter attacked a ghoul, and the latter’s body seemed to turn into liquid as it separated. But quickly they joined together again forming the body of ghoul-like nothing happened.

That happened in three seconds, which reminded Su Xiao of Nico’s body.

Compared to this ghoul, Nico was slower, but he was more resilient.

Su Xiao stopped and as he arrived the others stopped fighting as well.

“This will be a very difficult opponent.”

Renji Yomo quickly said as he gestured to the other ghouls to wear their masks.

Du Du Du!

A sound of gunfire was heard, Uchino was about to stop until he heard Su Xiao’s voice.

“Don’t stop.”

Su Xiao jumped up and used his Dragon flash to avoid the gun bullets.

Renji stepped with the other ghouls while Uchino did the same thing.

They just watched Su Xiao pass by without trying to stop him.

Su Xiao didn’t have time to play with them, he needed to quickly go to the rood and help Yukinori and the others.

After finishing this mission, Su Xiao will get 10,000 contribution points which will allow him to raise another rank and get the blue liquid from the shop of the 24th branch of the CCG.

In case Yukinori and the others die, the mission would be a failure and the chance to get so much contribution points would be lost.

The liquid will increase 4 points Vitality and 2 points in strength which would be a lot, especially the vitality.

If it wasn't for Queen staying in front of him last time, the bullets would've penetrated his body, and his hp would be too low to continue the fight.

If he wasn't lucky to have Queen in front of him, he would've been dead right now.

Therefore, the bottle of liquid is a must have. If he lost his life, then everything else wouldn't matter.

Chapter 92

“Boom!”

Weapons collided.

On the roof, the Manager and the CCG Investigators were fighting.

Although four were fighting a single person, the manager was calm. After only a few rounds, Yukinori and the others were injured.

“The gap is too wide.”

Yukinori sat on the ground as he looked at the manager.

They couldn't do anything to the manager.

Yukinori was seriously injured as he rolled on the ground.

“Take, use that.”

“Are we letting him go?”

“Let's delay for five minutes, no it should be three now.”

Yukinori looked straight at Iwao as he said.

“Do it.”

The two activated Shi, so it took its original form.

Shi started to suck their blood.

Because it's still a prototype, after 30 seconds, Shi will start devouring the flesh of the one using it.

“Come on Shi, do it.”

A few seconds later, Shi turned red as Yukinori and Iwao stood up as if they turned berserk.

Perceiving the change that happened to these two, the manager guessed that this was a new weapon developed by his old friend.

“It seems full of madness.”

With his weapon in his hand, Yukinori quickly slashed along with Iwao, the two started to suppress the manager who could only defend.

It didn't last long before Yukinori couldn't hold on and stepped back.

“Yukinori!”

Iwao quickly attacked the manager before retreating beside Yukinori.

“Shi is really good, but the side effect is too severe.”

Yukinori lost all of his combat power, and his upper body was being bitten by Shi.

Compared to him, Iwao was in a much better state, but his power was almost drained as well as Shi continued to swallow his blood.

“This isn't good.”

Take's face was ugly, he could tell that if this continues, all of them will die here.

He looked at the side with eyes full of unwillingness.

“Don't give up, your savior is here.”

Itsuki's voice sounded from the headset, and all of them regained hope.

Boom!

The door of the roof was slammed open, it was an iron door so slamming it open was proof of how strong this person was. The door became U shaped with a footprint in the center.

As the door fell down, the manager looked at the person who came.

After the smoke started to fade, a figure appeared in front of them.

“Is this building a labyrinth or something?”

Su Xiao who was smoking walked out from the darkness into the roof. After rushing all the way here, he wanted to take a break, but he heard the sound of battle and had to join the battle quickly.

Su Xiao sighed and hurriedly walked toward the manager.

The store manager was different from his daughter, his combat experience was more abundant.

But he wasn't without weakness.

The manager didn't eat any fresh human for a long time, and this resulted in the decrease of the Rc cells in his body which made him weaker.

“Do you want to eat that?”

Su Xiao held dragon Flash in his hand while pointing it toward the ground.

The manager's arm lifted as he caught a piece of Shi.

Shi was full of Rc cells. It has hundreds if not thousands more Rc cells in it than a human.

“Don't let him eat it. Otherwise, you might not be able to fight him.”

As they talked, the manager swallowed a large piece of Shi.

As the manager was eating, Su Xiao rushed toward him.

When he was on his way, he rushed as fast as possible fearing that the manager would kill these four, so he used a bit of his stamina just to get here.

Su Xiao attacked the manager with Dragon Flash aiming at his head. With the swing, a blue arc appeared moving with the sword.

Fighting with the manager, Su Xiao directly opened Qing Gang Ying without hesitation.

The manager lifted his arm and wrapped it around Dragon Flash.

Clang!

The sound of metal clashing was heard.

As they collided, the energy for Qing Gang Ying poured into the manager.

The Rc cells in his body started to burn. The manager snorted this kind of pain was nothing, he fought for a lifetime, and this can't affect him at all.

“A sharp sword, but this level of attack can't take my life.”

While the one hand grabbed Dragon flash, the other hand stabbed at Su Xiao.

The attack was fast, but Su Xiao reacted in time and the attack passed by his head leaving a few strands of hair behind.

Su Xiao continued to fight the manager, even though his attributes should be lower than the manager, he still had superb sword skills.

Clang! Clang! Clang!

The sword and the hand clashed several time and sparks flew around as the two attacked dozens of times in just a short moment.

One short and one tall figure were fighting and trying to kill each other while the other four were watching from the side.

“Amazing.”

Amon looked at this scene, and a huge wave appeared in his heart.

The man in front of him was much younger than him, but he can fight with the one eyes owl alone.

“The Headquarters transferring him to the 24th district and having him becoming a temporary zero team's member was because of this.”

“Take, I will go and help.”

Iwao was less injured than Yujinori and the others, so he wanted to help.

“No, we may affect his battle.”

All four stayed silent as they watched.

At this point, in the command car, someone smiled looking at the fight.

“Sure enough, it was a right choice doing this.”

Thinking about this, Itsuki continued to watch in the car.

The fight on the rooftop was reaching its climax.

The manager gave Su Xiao a feeling that he was getting stronger each moment.

That wasn't wrong as the manager ate Shi and started to regain his power.

The manager was 3 meters tall now from his original 2 meters while his body was shining with a red luster.

The manager regained his former glory and was no longer the old man that was cut by the CCG Investigators.

Boom!

Su Xiao kicked the manager on his waist making him step back a few steps but without sustaining any injury.

This battle made Su Xiao excited which made the manager a little bit uncomfortable.

“What an exciting battle. A powerful enemy is really the best.”

The long battle didn't make Su Xiao discouraged; instead, it ignited his fighting spirit.

It's different feeling from fighting Nico, that kind of battle was too boring.

“Let's continue.”

Chapter 93

The manager stood in his place as if thinking about something.

In fact, he was considering whether he should retreat or not as his purpose was to gain some time until Kaneki is rescued.

Boom!

A loud sound came which made the manager look at its source to find someone fighting.

“That kid Kaneki have escaped.”

A smile emerged on the Manager's face as Kaneki was successful in his escape, his mission has ended.

“An opportunity!”

Su Xiao's figure flashed as he rushed toward the manager. The manager was only distracted for a moment, and Su Xiao grabbed this opportunity.

The sword slashed with high speed at the manager.

“This is bad.”

Su Xiao's sharp sword made the manager panic. The moment he was distracted, Su Xiao attacked.

A cold feeling emerged in the Manager's eyebrows. The sword has yet stabbed, but the manager felt a stinging feeling on his eye.

He mustn't let the sword touch him. Otherwise, he would be finished. The manager used his arms to defend.

Wouch!

The manager's arm was already scarred, and it finally couldn't resist Su Xiao's Dragon Flash as it cut through it.

Not only did the sword manage to pierce the manager's arm, it even reached his bones.

Su Xiao held the sword in one hand and reached with the other hand to thrust it into the ground.

Ding!

The manager was nailed to the ground.

Su Xiao kicked on the manager's face which seemed to crack.

When Fighting, Su Xiao mainly used Dragon Flash because it has the strongest attack power, but he still had more weapons, which was his body. When fighting, Su Xiao used almost every mean he can to win.

The manager was strong, but with one hand nailed to the ground he couldn't fight properly, not to mention, the bones on that hand were cracked, and he was unable to use it right now.

After the kick, Su Xiao didn't stop, he pulled out Dragon Flash and slashed at the Manager's throat.

If the manager's throat was slashed, he would be in trouble. Even if he doesn't die, he will be slower.

Before the sword reached his throat, the manager hurriedly stepped back, but his pace wasn't faster than Su Xiao's sword.

The manager squatted down to avoid the sword.

Blood spewed out, and the manager's brows were wrinkled.

The Manager's combat experience was rich, he reached out his hand and attacked Su Xiao from his position.

This attack was full of killing intent as the manager wanted to penetrate Su Xiao's body.

Su Xiao quickly defended with Dragon Flash using one hand on the handle and the other on the back of the sword.

Wouch!

The huge force behind that attack send Su Xiao flying, and the ground under him was filled with spiderweb-like cracks.

That attack was too strong. Su Xiao estimated that this attack had at least 15 points in Strength behind it.

The manager's body wasn't much injured other than his arm.

Taking into account who he is, these injuries weren't fatal.

Su Xiao was physically exhausted, and he would take a while to recover.

Su Xiao didn't have any injuries. He was a human, so if the one part was injured, his combat power would decrease.

The Manager looked at Su Xiao silently.

His injuries started to heal at a visible rate with a Zizi sound.

The sound of metal being eroded and blue smoke appeared on the surface of Dragon Flash.

Su Xiao quickly took a cloth and wiped the blood from the blade.

In less than two second, 4 points of durability were lost due to the manager's blood.

The exact cause was unknown, but the manager's blood eroded his weapon.

After recovering, Su Xiao continued to fight.

His sword flashed as he attacked the manager. The attack succeeded, but the manager counter-attacked again.

Amon on the side could only watch with the other as the fight continued.

...

On a bridge far away from the building, Takatsuki was wrapped by bondages while sitting on the edge of the bridge.

"Time is almost up."

Takatsuki looked at the building at a distance. She could hear the sound of the battle on the roof.

"Yes."

Kichimura Wachuu was standing behind Takatsuki as he took out a remote detonator.

"It's almost time to retreat, let's get started."

After that, Kichimura without hesitating pressed on the detonator.

Boom!

A huge explosion sounded from the building, and smoke rose to the sky.

After the explosion, the building was full of silence while a large number of crows were startled by the sound and flew away.

"How come the building wasn't destroyed, is the explosives, not enough?"

Takatsuki got up feeling strange about what happened.

Tok! Tok!

Kichimura pressed the button repeatedly without getting any reaction.

“The explosives were dismantled, only the two most secretive ones were still there.”

Kishimura was furious as the plan failed.

“These suspicious guys told us about this, maybe it has to do with them?”

Takatsuki began to suspect the contractors.

The contractors from the ghouls' side weren't fast enough, and their positions weren't high enough, so they didn't gain Takatsuki's trust.

But Su Xiao was different. He was a temporary member of the Zero team and a powerful force invited by Itsuki, his words won't be ignored.

This is the benefits of strength and status.

“No, those guys were killing CCG Investigators all along and even more than we do. I also made some people keep an eye on them, and it's almost impossible for them to betray us.”

Hearing Kichimura's words, Takatsuki didn't say anything, but she was still unconvinced.

“That guy that almost killed me, I will take my revenge on another time.”

Takatsuki turned around and left with Kichimura following after her.

...

On the rooftop, Su Xiao sat down with a long cut on his abdomen and a thick hole on his shoulder.

The manager escaped after seriously injuring each other.

He wouldn't have received this injury if not for the tilting of the building suddenly throwing him off balance which the manager took advantage of to injure him and escape.

Su Xiao was fighting with sword and skills while the manager depended on his strong defense and attack power. So after the sudden change on the ground, Su Xiao was in a disadvantage.

Although the manager escaped, he left something behind. The three-meter tall Kagune which was always behind the manager was left here.

Chapter 94

Su Xiao stared at the Kakuhou on the ground, and suddenly a notification from the Reincarnation Paradise appeared.

Kakuhou (SSS Class)

Origin: Tokyo Ghoul.

Quality: Green.

Type: Material.

Rate: 24 (Note: Green items rate is between 10 and 30)

Introduction: A good item for making equipment, it can be transplanted into the body which would give 10% chance of becoming a ghoul, 89% of death, and 1% unknown variation.

Price: 2,500 paradise coins.

...

Although he didn't kill the manager, he got his Kakuhou.

An SSS class Kakuhou is very rare, and few had the chance of getting one.

The store manager lost an eye, but it didn't mean he lost his combat power.

The manager had eight Kakuhou inside his body and his daughter, Takatsuki had ten.

He can use it to make a Quinque, and he can also sell it to the Reincarnation paradise.

Su Xiao had asked before, and it seems that making a Quinque would require at least 3,000 contribution points.

What he lacks most was contribution points so he won't make one.

Although the material won't have the same price as a finished Quinque, it's better if he sells it as is.

Weapons had their limitation, and in the Reincarnation Paradise, he can go find a forger to do the task.

Su Xiao was ready to take the material and store it then sell in the Reincarnation paradise.

Boom!

The building was once again moving, but it won't fall for the time being.

The CCG already killed most of the ghouls and only a few survived.

“Quickly, Escape from the building. Hurry up!”

Itsuki's voice was heard in the headset. He was using the public channel which was heard by everyone.

“Byakuya, Are you okay?”

Yukinori was being held by the others as he was injured by Shi when he asked.

“It's nothing. I won't die in a short while.”

Su Xiao stood up, and pain assaulted him from the injuries he had.

“Retreat, we won, the attack is over.”

Yukinori and Iwao were smiling as they won and regained the 11th district.

“Iwao-sama, the second team issued an urgent request for help. They suffered some injuries and there seem to be more 60 Ghouls.”

Iwao's face changed as he immediately supported Yukinori and went downstairs, preparing to go and help.

Amon had light injuries, so he hurriedly went to help.

Su Xiao held his lower abdomen as he walked slowly. His injuries were somewhat heavy. Although he won't die, it would affect his combat effectiveness.

Just as he was preparing to leave, two figures jumped on top of the building.

From the look of it, they didn't seem to come for him, they were just passing by.

Su Xiao tried to look in their direction, and finally, he saw them.

In the front was a man with a medium build and white hair with a mask on his face and only one eye was out of the mask while carrying a blue haired girl.

“This is, Kaneki?”

Another person was following after them as they moved quickly which was Nishiki Nishio.

Kaneki has already transformed from an S class to an SS class ghoul.

Unfortunately, their path happened to be the same path as Su Xiao.

Kaneki only looked at Su Xiao from afar.

He didn't care too much, he saw that Su Xiao was a CCG Investigator and he was injured.

Kaneki didn't care as he looked at Su Xiao with dead eyes.

“Be Careful!”

Touka yelled as she recognized Su Xiao.

“Kaneki, stop, let's not get any closer to that human.”

Kaneki stopped and looked at Touka with doubt.

“This guys is CCG's black reaper, his a terrifying guy.”

Kaneki looked around and wanted to find another way, but unfortunately, Su Xiao was in their way.

“It doesn't matter, he is seriously injured.”

Kaneki moved forward while Touka kept her eyes on Su Xiao, so he doesn't use any long distance attacks.

“What arrogance, if you just passed, I wouldn't have even stopped you, but knowing that I'm an Investigator, you actually want to attack me.”

Su Xiao's eyes narrowed as the wind blew on his hair.

If Kaneki and the others passed by him, he wouldn't pay attention to it, but the other guy's arrogance made him unable let Su Xiao be as he was injured.

Su Xiao stood in the center of the roof which was about 20 meters wide. Kaneki and the others just had to jump on another rooftop and continue on their way.

As for why they didn't leave the building, it was because there were many CCG Investigators in the area. Even if Kaneki is stronger now, he won't be able to fight all of them.

There were thousands of CCG members here, not to mention Kaneki, even if Takatsuki was here, she wouldn't be able to do a thing.

The two approached from the side.

Su Xiao held Dragon flash in his hand while the other hand was on his abdomen.

Tick! Tick!

Blood dripped on the roof. Su Xiao seemed as if he given up resistance as he stayed in the same place and didn't attack.

Just as Kaneki was six meters away, Su Xiao faintly smiled.

Touka saw Su Xiao's smile, at this moment, she felt a chill to the bones as if she was stripped naked in front of a man.

“Escape...”

Su Xiao moved before Touka yelled.

He stepped on the ground while enduring the pain as he rushed toward Kaneki.

Dragon flash moved with high speed and made a piercing sound.

Wouch!

Blood splashed along with a few white strands of hair.

At the moment of attack, Kaneki reacted and tried to avoid, so only his cheek was hit slightly, and his mask was ripped.

After a heavy gasp, Su Xiao looked at Kaneki.

“I just want to leave this building, is that too much to ask?”

The wound on Kaneki's face healed quickly.

Even with these injuries, Su Xiao was sure he can handle these three.

“Nishiki-senpai, take care of Touka, I will deal with the Investigator.”

Nishiki moved in front of Touka after Kaneki placed her down.

“Kaneki, let's go, don't fight this guy.”

Su Xiao's sharp sword made her fearful.

“It doesn't matter, everyone has something they want to protect and even if it means I need to lose everything I will still protect you by killing him.”

Kaneki didn't want to escape. Su Xiao was too fast.

Kaneki Vs. Su Xiao who was injured.

Even if a tiger was injured, he was still a tiger.

Chapter 95

Bang!

The building tilted yet again, and it will collapse at any moment.

The walls that were holding the building's full weight fell down.

On the rooftop, Su Xiao was facing Kaneki. He took a breath and moved forward while still pressing on his lower abdomen.

Kaneki rushed toward Su Xiao and used his Kagune to stab at Su Xiao from four different directions.

Even as his strength improved, Kaneki was still not that strong when it comes to close combat. If he wants to be a warrior, then changing his hair color isn't enough.

At least in Su Xiao's eyes, Kaneki ability was too weak.

With one sword strike, Kaneki saw a white line in front of him before numbness spread in his arms.

His hands were cut. Kaneki only frowned. Compared to the torture he went through, this was nothing.

Cutting Kaneki's arms, Su Xiao didn't stop his attacks.

Kaneki flew backward without his control as he vomited. Several deep sword marks on his skin appeared.

Only a few attacks and not only his arms were cut off, but his body was also full of wounds as well.

Boom!

Kaneki landed, and Su Xiao stopped in his place and adjusted his breathing. There was already a pool of blood under his legs.

Not only did he have a wound on his stomach, but he also had another wound on his shoulder, so he must finish this quickly.

Enduring the pain, Su Xiao rushed toward Kaneki.

Kaneki was kneeling on the ground, his arms grew back and his wounds healed.

Su Xiao didn't want to wait for his enemy to recover, so he rushed at him while raising Dragon Flash.

"Take this."

Nishiki's kagune attacked, even if it's not strong, Su Xiao still jumped to avoid it.

Su Xiao's reaction was quick, but his injured body dragged him back as his muscles were twitching and the jump was broken.

Boom!

Nishiki's Kagune attacked Su Xiao from behind, and blood marks appeared on his body. The attack connecting made Even Nishiki himself surprised.

Seeing the blood stains under Su Xiao, Nishiki sneered.

“Black Reaper-san, you seem to be seriously injured.”

If it was before, Nishiki would've directly killed Su Xiao.

But now, Su Xiao was injured and can only use his power for an instant which gave Nishiki this opportunity.

Nishiki rushed toward Su Xiao, and his Kagune stabbed at him.

The Kagune was avoided, but Nishiki followed and punched toward Su Xiao.

After the series of punches were avoided, Nishiki felt uncomfortable.

Su Xiao clenched his Dragon Flash and took a deep breath as his eyes flashed.

A light blue arc appeared on the surface of the Dragon flash as Su Xiao lifted his hand from his abdomen and took a normal fighting stance.

Dragon flash moved, and blue light flashed.

Wouch!

Nishiki's hand was cut without him realizing what happened.

“Nishiki-senpai.”

Kaneki recovered and leaped from the ground moving toward Nishiki, but unfortunately, it was too late.

Su Xiao's second attack arrived.

The sword moved and Nishiki could only feel his ears humming and his eyes blackened.

With a bang, his body fell to the ground. Even with serious injuries, Nishiki was taken care of by two attacks.

“Nishiki!”

Touka on the ground saw this scene, Nishiki was a member of their group, and there was friendship between them.

“Nishiki-senpai.”

Kaneki didn't shout, but his head dropped.

“Once again, someone important for me was taken away, this is unforgivable.”

Kaneki's shoulders were shaking. Su Xiao knew that Kaneki was tortured by Nico, so his spirit isn't in its normal state.

Kaneki cracked his finger.

“I will kill you.”

When Kaneki attacked, Su Xiao passed by Nishiki's body toward Kaneki.

Time was precious, he was losing too much blood, and he won't be able to hold for long.

If his body can't respond, then he would choose to retreat, but he currently can fight.

In front of him was the protagonist of the world, he wanted to know if he was to kill him, what can he get.

In the other worlds, killing a specific enemy would be rewarded.

Like when he killed the king in One Piece's world, the treasure he got had high value.

Su Xiao quickly rushed toward Kaneki who was very unstable.

“A thousand minus seven is?”

Kaneki looked straight at Su Xiao as he asked.

What greeted him was his sharp blade.

What is a thousand minus seven? It's equal to a knife to the face.

Su Xiao used his full force which connected to Kaneki's chest, and a horrible wound opened.

At the moment when the strike connected, Su Xiao could even see Kaneki's heart.

Kaneki spat out a large mouthful of blood.

Su Xiao's eyes sunk and he didn't speak.

Usually, he would provoke his enemy, but now it's different. He was seriously injured and wanted to end the fight quickly.

After the attack hit, Su Xiao didn't stop and continued to attack.

Wouch! Wouch!

After several attacks, Kaneki's chest and throat and other vital part were full of horrible wounds.

Su Xiao lost too much blood that he started to feel dizzy, and he was weakened too much.

After being hit, Kaneki didn't show any sign of falling down, but instead, he rushed at Su Xiao and punched.

It can be seen from the punches that Kaneki received some training, but that all.

Although Kaneki changed from an ordinary person to an S class ghoul, there is still a big gap in ability.

Holding his sword, Su Xiao blocked in front of him.

The sword connected with the flesh and consequences can be imagined. Kaneki's fingers were cut.

Kaneki's combat experience wasn't enough, but his resilience was too much. If he doesn't cut his head, he won't stop fighting.

Kaneki's kagune was wrapped on his neck to defend. It seemed like Nishiki's tragic death made him learn his lesson.

Although Kaneki was unstable, his instincts were doing all the work for him.

On the rooftop, a strange scene was taking place. Su Xiao's sword was attacking Kaneki but his face getting paler.

Now it's a question of whether he could cut Kaneki's neck first or lose too much blood and get defeated.

Chapter 96

"Boom."

A loud noise came from the rooftop.

Su Xiao hardly stood up and supported his body using dragon flash. He almost couldn't hold on.

There was an iron water tank in the distant, with a large crack, and stained in blood. Kaneki Ken was lying under the water tank.

At this time, Kaneki Ken was tattered with sword scars all over his body while his legs were twisted.

Only accepting attacks but not fighting backs led Kaneki Ken to lose strength first, and finally, Su Xiao won.

Su Xiao walked slowly to Kaneki Ken, preparing to kill the protagonist of the plot.

But after only two steps, he felt that his pants were being pulled, then he looked down. It was Touka that caught his pants.

"I will not let you succeed."

Touka was lying on the ground. She was wearing a half-face mask which was worn by Kaneki Ken previously, staring at Su Xiao with hatred.

"Wasting my three seconds, but it seems that you have a lot of value."

Su Xiao suddenly stared at Touka who could be regarded as a half main female lead. As for the other half of main female lead, it was Rize.

In Touka's desperate eyes, Su Xiao raised the sharp knife in his hand.

But in the next moment, Su Xiao suddenly jumped to the side, rolling a circle and then squatting on the ground.

"Ding, ding, ding...."

More than a dozen red crystal sharp objects were thrown to where he stood previously.

If Su Xiao did not roll over in time, he has been penetrated.

A man with a black rabbit mask appeared not far away, it was the Kirishima Ayato.

At this time, Kirishima Ayato's eyes were full of anger, along with some fear.

Kirishima Ayato rushed to the front of Kirishima Touka, and silently picked her up.

Kirishima Touka grabbed Kirishima Ayato's clothes, and her little white hands were trembling.

“let's fight for our new and old hatred. Last time you almost killed me, but your current state seems pretty bad.”

Kirishima Ayato talked while gnashing his teeth since he and his sister were almost killed by Su Xiao, he hated Su Xiao extremely.

Mainly because his sister was almost killed, the reason why did Ayato joined the Aogiri tree was to gain the ability to protect his sister.

Su Xiao stood up and looked at Ayato with a smile.

“You can try it.”

Ayato's appearance prevented Su Xiao from killing Touka.

However, Ayato's thought of killing Su Xiao was also naïve. Although he was in a bad state, he still could kill his opponent.

The “Ghost Roar” ring that was acquired from the treasure chest dropped by gecko came with a skill.

Roar (active), after activating this effect, it will ignore the pain for 20 seconds, and during this period, each time user receives an attack, his attack speed will increase by 5%. (The increase in the attack speed limit is 50%, and the bonus will disappear after the skill period ends.)

.....

As long as he activates this skill, Su Xiao could ignore his injuries and fight for 20 seconds.

When Su Xiao was in his best state, he almost killed Kirishima Ayato in seconds.

Although losing a lot amount of blood caused Su Xiao to be a bit weak, he may not be able to kill Kirishima Ayato, but it was absolutely no problem to take some parts from.

Su Xiao's calm state made Kirishima Ayato somewhat hesitates.

But Kirishima Ayato could not bring himself to flee, so he began to shoot large ukaku which looked like red crystal.

The longsword cut incessantly, the large pieces of ukaku were smashed into the sky.

Su Xiao put his finger on the Bluetooth headset and said a sentence with no mood.

“Marude, this is Byakuya, I need support on the roof.”

A very simple sentence, but made Ayato's face change.

“Damn.”

Ayato looked at Su Xiao with unwillingness, only could choose to retreat temporarily.

Kaneki Ken was far away from Kirishima Ayato, and there was Su Xiao who stood between them, so Kirishima Ayato chose to abandon Kaneki Ken and flee with his sister.

“Support will come in one minute, Try to hold on, Byakuya.”

Su Xiao suddenly asking for help scared Marude Itsuki.

“The enemy fled.”

In a dangerous situation, Su Xiao will not insist on pursuing them. He did not call someone because he did not need it at all.

And he was afraid that after other Investigators would kill Kaneki Ken and a treasure Chest won't drop anymore.

This was not a guess, but a painful lesson.

In the underground of the 24th district, because of Yuna and Arima Kisho, Su Xiao did not see any treasure Chests.

This made him think of a possibility, if the plot characters help to fight, it will affect the rate of treasure Chest drops.

It was not that there won't be any treasure Chests at all, but the rate of their dropping was very low. With Su Xiao's great unlucky hand, the rate of dropping treasure chests will be even lower.

Su Xiao just had the opportunity to let Touka and Ayato die. He could kill these two after he activates the roar skill.

But the cadres of Aogiri tree were nearby. After the skill effect is over, he will become like a fish on a cutting board and be killed easily.

It was not worth it to take the risk of losing his life only for those two's Treasure Chests.

Su Xiao held his lower abdomen by one hand and walked slowly toward Kaneki Ken.

“I won't die here.”

Kaneki Ken supported his body with lots of strength, but there was a bright sword light which greeted him without any hesitation.

Puchi!

blood sprayed, and a head with a shocked face flew up.

Kaneki Ken died, and there were a lot of tips from the reincarnation park.

[You killed the plot protagonist: Kaneki Ken (20% growth).]

[Kaneki Ken is the protagonist of the plot (1/3), gaining 10% of the world's source, and now the total world's source is 24.3%.]

[You get the treasure case (blue).]

[You have activated the achievement mission: astounding sky.]

[Achievement mission: astounding sky.] (10% completed)

Difficulty level: Lv.4—Lv.?

Mission Description: The protagonist of the plot? Become the soul under my sword, even if you are the son of the derivative world, the astounding sky will break all the fatalism.

Mission Information: Each time you kill a plot protagonist, you will get the corresponding number of mission completions. (According to the comprehensive information of the protagonist's luck, strength, background, etc.)

Mission period: None.

Mission Reward: Calculated according to the final completion level (minimum reward blue quality equipment or items, highest reward ???).

.....

After killing Kaneki Ken, Su Xiao discovered that Kaneki Ken was not the protagonist like Luffy's 'the son of the world,' the reincarnation paradise had mentioned in the beginning.

To be exact, Kaneki Ken was only the nominal protagonist of the plot.

Kaneki Ken could not be killed before growing into a ghoul.

On the contrary, Kaneki Ken's life became indifferent after he became a ghoul.

Kaneki Ken was also a poor person. He was a protagonist, but no one cares whether he was alive or not at the beginning of the plot. Looking at other types of protagonists like Naruto or Luffy. They were a real son of the derivative world.

There was only Su Xiao who stayed on the roof, dangerous contact.

Su Xiao looked at Kaneki Ken's body. There was no hatred between the two, but they only became enemies. The protagonist of the world was not an important target. But in Kaneki Ken's emotional situation, if he does not kill him, he will get endless troubles.

Su Xiao did kill Nishiki, and he still had to stay in the ghoul world for a while. Su Xiao will not give Kaneki Ken any opportunity to grow and get his revenge on him. That was the most folly choice.

It was necessary to remove the roots, if it is not too risky, Touka wouldn't have escaped.

When Su Xiao was preparing to leave the rooftop, the hint from the reincarnation paradise appeared again.

[It has been detected that Kaneki Ken has died and the power of destiny has been redistributed.]

[The power of destiny has been assigned, the current plot protagonist, Touka(1/2), Rize(1/2).]

This time was a group announcement, and other contractors also received it.

The cold fish and other people who have retreated had changed their faces, but they quickly recovered.

In the reincarnation paradise, it was not uncommon for the protagonist to die. The protagonists had stronger luck, the higher the death rate of the protagonists because the treasure chests they drop will be higher than their own strength by a level, or even two to three levels.

.....

In a dark house, crying and pacifying echoes, a naked man with a black mask, was squatting on a female high school student on the sofa, surrounded by several bodies, looking like a female high school student's family.

The masked male body suddenly stopped.

“Kaneki Ken died? Hey, I targeted him for a pretty long time, I just want to kill him after he grows bigger. Who is it, who is it!”

The masked male hysterical roared, his cold eyes seemed to want to kill.

The masked man suddenly looked at the female high school student with dark eyes under him, her family was killed, her body and mind were insulted which made the female high school student on the verge of despair.

After discovering that the female high school student had become desperate, the man with the mask was stroking the slender neck of the female high school student by his withered hands.

“Crispy....”

The contractor was so unscrupulous in the derivative world.

.....

On the rooftop of the Aogiri tree's strong point in the 11th district, Su Xiao frowned after receiving a reminder. Sure enough, Kaneki Ken was not the protagonist in the true meaning. After he dies, someone immediately replaced his position.

“The first team has been cleaned up and has killed ghouls from the designated area.”

“The second team cleaned up...”

There were reports came from the earphone, and the words on the public channel authority only represented the situation, which was the end of the fight, and their own victory.

“We won.”

The tone of Marude Itsuki was gentle, Su Xiao heard the excitement he was suppression.

In the confrontation with the ghouls, the proportion of CCG winning was not large. After all, compared with ghouls, human body quality was much worse.

After Marude Itsuki announced the victory, Su Xiao received the prompt about completing the task.

[Faction mission: cover the battle. (completed).]

Difficulty level: Lv.4.

Mission Description: Assisting the 'special countermeasures team' against the Aogiri trees and ensuring their victory.

Mission Information: The CCG camp mission will not be calculated in mission clearance evaluation.

Mission period: Until the end of the operation in 11th district.

Mission reward: 10,000 camp contribution points.

Failure penalty: none.

.....

Yes/No Completion of the mission, after the completion of the mission you will receive 10,000 camp contribution points.

Su Xiao chose to complete it, and his CCG contribution points became: [superior investigator, contribution point 17723/10000, promote to the next rank: Yes/No.]

He, of course, chose to get the promotion, he wanted to exchange the bottle of blue-quality medicine, and it needed him to be a special Investigator.

According to past experience, he will soon be able to get promoted to a special investigator, but Su Xiao discovered one thing.

Although he promoted quickly, he has no real power inside the CCG.

This was also normal. The time he joined CCG was too short. The rapid promotion was due to the influence of the reincarnation paradise.

Su Xiao didn't care whether he has any real power. He just wanted to go back to the temporary branch of the 24th district to redeem the bottle of blue-quality

[human genetic enhancement fluid]

.

After his strength increase by 2 points and vitality increase by 4 points, Su Xiao's combat power will be improved, if he fought the manager again after that, it wouldn't have the same ending.

Chapter 97

After cleaning the battlefield, CCG personnel gradually withdrew from Aogiri tree's stronghold.

Su Xiao was sitting in a medical car. His wounds had been bandaged. Although the wound in his lower abdomen was bleeding a lot, it did not hurt his internal organs.

With his tenacity, this kind of injury could be healed quickly after only a proper rest after bandaging.

"Well, the two wounds did not hurt your internal organs, remember to take your medicine on time."

After a nurse bandaged Su Xiao's wounds carefully, she gave Su Xiao several medicines.

"The ghoulish Investigator is such a dangerous occupation. You were injured two times in less than half a month."

The nurse looked at Su Xiao with a smile.

“Who are you?”

When she bandaged his wounds made Su Xiao’s face full of cold sweat, and the nurse’s delicate face became more familiar, and he gradually recalled some bad memories.

He had a battle with Takatsuki Sen when he first entered the ghoulish world, after that this nurse bandaged his wound.

When he thought of the strong pain, Su Xiao’s cheeks shook.

“...”

Su Xiao who had fought with Takatsuki Sen was very reluctant to see this nurse again.

Under the sweet smile of her face, she definitely had a black ‘devil heart’ under this pink skin.

The way she cleaned up his wound was cruel so that Su Xiao remembered it very deeply.

“It seems that you remember me, my patients will not forget me generally.”

Su Xiao nodded and got off the car in silence.

“Remember to take medicine, you can’t stop to taking it.”

Su Xiao’s footsteps stopped, after a long time, he answered ‘got it.’

The siren sound was heard, and a faint bloody smell came with the fresh air of the night.

“My arm, where is my arm.”

“Hurry up, this person lost a lot of blood, make a blood transfusion!”

The mourning of the wounded people was endless. Although CCG won, they still paid a hefty price.

“Doctor, can I still stand up again? Answer me!”

A ghoulish Investigator whose spine was cut through, grabbing the doctor’s arm in a panic, and he couldn’t feel his lower body.

The doctor turned his head and asked other medical staff to carry the wounded person to the car.

The ghoulish Investigator was desperate, lying on the stretcher and looking up at the starry sky.

Compared to the wounded people of CCG, the ghouls in Aogiri trees were obviously much quieter, they were all packed in body bags.

CCG’s car team retreated incessantly, Su Xiao returned to the division in 20th district at about one o’clock in the middle of the night.

His fighting level tonight was not small, losing a lot of blood made him very tired.

After coming to the house where Marude Itsuki arranged for him, Su Xiao fell asleep directly. When he woke up again, the sky was already bright.

He took the alarm near the bed, it was already 10 Am.

After washing himself, Su Xiao came to Marude Itsuki’s office.

“How about a rest? I saw you injured seriously yesterday.”

Marude Itsuki put down a document in his hand, he already guessed Su Xiao’s intention for coming here.

After the war with the Aogiri tree ended, Su Xiao would return to the 24th district. He was a member of the zero team after all.

“The wounds healed and I can fully recover in three days.”

Su Xiao had eaten the last [Salt Rice Ball] before fighting Kaneki Ken last night, so the recovery rate of his injury accelerated a lot.

Normally, his injuries would take at least half a month to recover.

“That’s good, You want to go now?”

“Yes, I want to go now.”

“I will arrange a car for you.”

Marude Itsuki took a phone call and said a few words. A few minutes later, a young lady wearing a suit opened the door.

“Byakuya-sama, the car has been arranged for you.”

After saying goodbye to Marude Itsuki, Su Xiao took the vehicle back to the 24th district.

Soon, the vehicle arrived in the temporary division of the 24th district, and Su Xiao got off the car and entered the temporary division.

The temporary division still looked the same, some staffs were at work.

Su Xiao went straight to the logistics department of the temporary division, and the thin old man with small round sunglasses was lazily lying behind the window.

Su Xiao knocked on the glass of the window, and the old man who was about to fall asleep looked up.

“Who is that? It turned out to be Byakuya, is there anything you need?”

“I want to exchange something.”

The thin old man became concentrated immediately.

“Let me see, you are an Associate Special Class Investigator in the record, please select the items you need.”

When the thin old man was talking, the redemption list appeared in front of Su Xiao.

[Human gene strengthen liquid]

Redemption conditions: 15000 points CCG contribution value, Associate Special Class Investigator.

[Crushing Elf (Boutique)]

Redemption conditions: 13,000 points CCG contribution value, Associate Special Class Investigator.

....

Su Xiao chose [Human gene strengthen liquid]. After the selection, his CCG contribution points began to drop rapidly, and finally, there was only [Associate Special Class Investigator: contribution value 4823/130000.]

The promotion of a special class Investigator required a contribution of 130,000 the CCG 's contribution points. Su Xiao did not need the position of the special class Investigator rank, so it was a wise choice to directly use the CCG's contribution points and improve the strength as soon as possible.

Spending CCG contribution value will not make position decline. He has previously asked the reincarnation park.

After successfully getting what he wants, Su Xiao had an extra green medicine in his hand. The medicine was contained in a glass tube, and the outer layer of the glass tube was inlaid with fine metal lines for reinforcement.

Su Xiao couldn't help but smile when he was holding [human gene strengthen liquid]. He went deep into the 24th area for this bottle of strengthening liquid and then participated in the battle in the 11th district.

But it was all worth it. After drinking this bottle of liquid, his strength will improve a lot.

After getting the [Human gene strengthen liquid], Su Xiao walked quickly to his room.

“Byakuya-sama...”

A staff member just wanted to call Su Xiao, but he has already late.

The staff member hesitated for a moment and eventually did not bother Su Xiao.

In the room, Su Xiao locked the door and pulled the curtains. Although this series of actions was somewhat suspicious, [Human gene strengthen Liquid] did not indicate what will happen after he drinks it.

The only thing described was that it has no side-effects and it will improve his attributes, as to what will happen after use was, nothing was said.

For caution, Su Xiao put dragon flash nearby.

Unplugging the seal of [Human gene strengthen liquid], Su Xiao smelled it. First, fresh sent of plants reached his nose.

Taking a deep breath, Su Xiao drank all the [human gene strengthen liquid].

A horrible taste filled his mouth as he frowned.

“What a strange taste.”

Su Xiao sat in bed waiting for a change, but after a long time, he did not feel anything.

Checking power and physical attributes, there was no enhancement.

Can't it be the item was fake?!

As Su Xiao was pondering, a sense of warmth spread all over his body.

This warmth was very calm as it spread. In the end, he felt that his whole body was soaking in warm water.

His blood flow rate increased, and the muscles around his body began to twitch slightly.

Su Xiao clearly felt that the body was getting stronger, his heartbeats were more powerful, his breathing was getting smoother and smoother, and his mind seemed to be clearer.

The injuries he got during the battle in the 11th district were healing at a speed which was visible to the naked eye.

It was no wonder that the [Human gene strengthen liquid] was a blue-quality medical item with obvious enhancement effect and a peaceful process.

Chapter 98

Half an hour later, the warmth in Su Xiao's body disappeared, and he immediately checked his status.

Contractor No. 13013.

Name: Su Xiao (hunter)

Level: LV.2. (First stage). Every 10th level a stage and the stage promotion has no attribute bonus. It is the hunter's authority in 'reincarnation paradise', which corresponds to the world difficulty and task difficulty.)

Health point: 100%. (This attribute cannot be fully digitized and changes depending on the degree of injury)

Mana points: 253. (Intelligence x 10, the current mana value recovery rate, 6 points per hour.)

Strength: 15 (13+2)

Agility: 13

Vitality: 10 (6+4)

Intelligence: 12

Charm: 3

Luck: 1

Hunter's talent: Devouring, after killing a target, the hunter will permanently take 1 to 15 points of mana points.

This talent takes up to 100 points of mana point per derivative world.

.....

Unsurprisingly, Su Xiao's strength increased by 2, and Vitality by 4.

Su Xiao clenched his hand, feeling his new power.

Not only that, the increase in vitality attributes made him feel that the various functions of his body had been significantly enhanced, and the resistance, endurance, and recovery had been significantly improved.

At this stage, the vitality having 10 points was already not low, and his three main attributes were between 12 to 15 points.

Drinking this [human gene strengthen liquid] may be the biggest gain for him after entering into the ghoulish world.

Su Xiao adapted to the changes in his body which became stronger. This time, the Vitality had increased greatly, so there was no imbalance, he could adapt quickly.

When Su Xiao was adapting to his new strength, fierce battles were happening in the underground passages in the 24th district.

.....

“Boom, bang!”

Kagune collided with Quinque, and a group of ghoulish Investigators fled in the underground passages in the 24th district.

“Confirm the route quickly, I can’t hold on anymore.”

Yuna wielded the sickle and slashed a ghoul. She had put on ‘Shi’ and her fighting power was greatly enhanced.

Even if Yuna kept cutting ghouls in front of her, there were too many ghouls, and the underground passages were full of ghouls.

These were all ordinary ghouls, most of them were in the B and A grades.

“Quick, quick, I am trying to confirm the route.”

A young ghoul Investigator was looking confused while using a compass to identify the route, the fear on his face couldn’t be difficult covered.

“Yuna, can we get back to the ground successfully?”

Behind Yuna, there were several young ghoul Investigators.

The reason why Yuna entered the 24th district was that the headquarters issued a task which asked Yuna to lead the new recruits to experience the outer layer of the 24th district.

The outer layer of the 24th district was not too dangerous. It was a good place to learn new things. After those new recruits graduates, they will be sent here for the experience.

“Quick!”

Yuna shouted and kicked a ghoul who was making a swoop at Yuna.

“Let’s leave, damn CCG.”

A ghoul suddenly spoke. There was some fear on his face.

This made Yuna somewhat confused. It was obviously impossible to for those ghouls leave. Those were new recruits behind her.

The bloody hatred between the ghouls Investigators and ghouls made the two sides have no possibility to concede.

“Bullshit! Just step on my body if you have the ability.”

Yuna looked at those new people behind her and sighed. Her two powerful teammates were not here. Otherwise, these ghouls in front of them wouldn't be that dangerous.

“I've determined the route, to the left.”

The newcomer with a compass showed excitement on his face. He found a way out based on the route they came from.

“You go first, I will be after you.”

The sickle in the hands of Yuna span, flesh splashed, and several ghouls were killed.

“But Yuna you....”

“Shut up, go quickly!”

Yuna's pretty face was a little distorted which was because of those new recruits' stupid behaviors

“Ok, ok, let's go.”

Several new recruits were very embarrassed and retreated immediately. After they ran for a distance, Yuna waved the sickle and then turned around to run.

There were many ghouls in the channel that followed Yuna. But they didn't attack her, just stayed not far behind.

Yuna's slender brows wrinkled, although she could not figure out the reason, her pace became faster.

Because of being in the outer layer of the 24th district, Yuna's team quickly arrived in the front of the metal door which was leading to the ground, and the newcomers were waiting there.

Yuna pulled the key on her neck and threw it at those new ghouls Investigators.

The metal door opened and Yuna got out the metal door in a few steps. The metal door slammed suddenly and was locked from the outside.

“Boom, boom, boom.”

The booming was constantly coming from the metal door, and ghouls' screaming roar could be heard vaguely.

The blood slipped from Yuna's fingertips as she sat on the ground.

“Contact the temporary division, tell them there is an abnormality in the underground of the 24th district, a large number of ghouls were intended to go out to the ground.”

Yuna returned to the ground with the support of the new recruits, there were more than a dozen temporary tents on the ground near the entrance to the 24th district.

There were more than 20 ghoul Investigators near the tent. There were men and women. These people had the same characteristic, that was, youth.

There were a lot of new recruits who graduated at the same time. Yuna just camped near the entrance to the 24th district, which would be a lot easier.

Every time, she brought a few new recruits to enter the outer layer of the 24th district and fought with ghouls, so that the newcomers could adapt and fight with ghouls as soon as possible.

As for why did she choose 24th district, because there were many ghouls here.

As long as they don't go deep into the 24th district, it is not too dangerous, and there is no risk of getting lost.

Su Xiao spent a few hours to enter the deeper layer of the 24th district last time, and these newcomers only entered for about five minutes. The two were not comparable.

When the newcomers near the camp saw Yuna, who was covered in blood, they all came around. This is the first time they saw Yuna injured. Yuna was a special Investigator which was very powerful in their hearts.

Some newcomers who knew how to tend to wounds began to help Yuna to deal with her wounds clumsily.

“Hey, what are you doing?”

Yuna looked at a teenager with unhappiness, and the boy was scared back for two steps.

“I, I want to bandage your wounds.”

Yuna pointed at a girl and gestured to let the girl help her to deal with the wounds.

The boy turned back and was somewhat depressed. Yuna's age was not big, and she was beautiful, she was also a goddess in the youngster's minds.

“Yuna, I have already contacted the temporary division.”

A little fat new recruit stood in front of Yuna.

“What does the temporary division say? have you told them what is wrong here?”

After bandaging her wounds, Yuna stood up with great efforts.

“Reported, but the division said that Arima Kisho is not there.”

Yuna's face changed.

“The temporary division said they would tell Byakuya.”

The little fat boy talked and breathed incessantly, and Yuna didn't care.

“Is that guy back? good.

You have to guard the entrance, the door may not last long, those damn ghouls, are they crazy?”

Yuna was angry and inadvertently touched her wound, which made her breathe deeply.

However, Yuna quickly showed a happy smile, she had already thought of the miserable appearance of those ghouls soon after Byakuya arrives.

Chapter 99

In the temporary division in the 24th district.

Su Xiao went into the bathroom as he was full of sweat and took a shower.

He initially tested the changes in his body. In the past, the intensity exercises exhausted him, but now it was only slightly better now today.

His Vitality had been raised from the initially 6 points to 10 points. It was not only increasing two-fifths of his endurance, as it's not a matter of one plus one equals two.

Su Xiao rubbed his hair and got out of the bathroom. A rushed knock came from the door.

After opening the door, an anxious staff stood at the door.

“Byakuya-sama, something happened, Yuna-sama just asked for help, saying that there is an abnormal change in the underground of the 24th district.”

“Abnormal changes? What happened.”

Su Xiao became serious. He had some alertness with the 24th district. After all, the impression he got when he went into the 24th district was too deep.

“There are a lot of ghouls in the underground passage. Now they are attacking the security gate. If you see it in person will be better.”

Su Xiao took the shirt on the bed and rushed to the underground entrance of the 24th district.

Ten minutes later, Su Xiao arrived at the entrance, and the scene that caught his eye made him frown.

The entrance was a mess, temporary tents were scattering, and occasionally a large patch of blood could be seen on the ground.

the blood was warm which indicated that it happened recently.

“Byakuya, you're here.”

Yuna's weak voice came from the collapsed tent, and Su Xiao walked there quickly.

“Is the door broken?”

Now the situation was very obvious. The ghouls forced the door open and came out from the 24th district, and Yuna was fighting using her life.

Yuna's chest was pierced.

“I suppose I'm going to die soon.”

Yuna became pale, the loss of blood made her life hung by a thread.

“You will not die, for now, I brought medical staffs.”

Su Xiao took Yuna out of the semi-collapsed tent and immediately she was taken over by medical staff to help her urgently handle the wound.

“Byakuya, those new people may...”

“Yeah, I got it.”

Those newcomers probably all died.

After those medical staffs who came with Su Xiao urgently dealt with Yuna’s wound, they immediately took Yuna back to the temporary branch. Yuna’s lung was pierced and needed surgery.

Before Su Xiao came to the underground entrance, he could see some bloody footprints near the door. This was the center of the battle.

Yuna could have fled before, but she did not choose to escape. The young girl knew that being an Investigator wasn’t just a job but also a responsibility.

Su Xiao walked into the underground entrance, the metal door fell obliquely on the ground, the metal door had been twisted, and there were large footprints on it, which seemed to have withstood the powerful attacks.

Slight footsteps came in the direction of the ground, Su Xiao became alerted, and dragon flash appeared in his hand.

A sneaky figure walked into the underground entrance, Su Xiao rushed forward.

The person screamed and was shocked by Su Xiao, and raised his pistol and fired a few shots indiscriminately.

Boom, boom...

The gunshot sounded far away of the underground passage, dragon’s flash was on the neck of the person.

“Human?”

Su Xiao looked at the gun in his hand, which was CCG’s unique firearm.

“You, are you Byakuya-sama?”

The person holding the gun was a young man with a slightly fat body. His face was very fat. His clothes were full of dust and blood. If he looks carefully, he can recognize that this is CCG’s uniform.

“Tell me about what happened here.”

Su Xiao did not need to guess about the person’s identity but knew that he was the surviving newcomer.

On the way, the staff of the temporary branch had already explained what happened to Su Xiao.

Yuna took the newcomers to experience on the out layer of the 24th district. After that they were attacked by a large number of ghouls, Yuna escaped from the underground of the 24th district and asked for help from the temporary branch.

Crying SFX

The little fat man was sitting on the ground, and the pistol fell as he held his face and cried.

“We, we were attacked, Yuna-sama, made us leave first, Crying...”

The mood of the little fat man was very unstable, and he should be seriously frightened.

Su Xiao understood everything through the fat man’s intermittent speech.

After Yuna withdrew to the ground, she gathered the new recruits.

Yuna knew that although the metal door at the entrance was strong, it could not withstand the uninterrupted attack by ghouls. So she let the newcomers withdraw first. She stayed at the entrance alone to meet the enemy. At that time, Yuna set her mind on dying here.

A large number of ghouls breaking into the ground will make humans who lived near the 24th district suffer.

As an Investigator, Yuna’s method was correct. But the newcomers suddenly became passionate and insisted on dying with Yuna. This was the newcomer who wanted to help Yuna tend to her wounds previously.

The move of the handsome youth made other new recruits’ emotional. They believed that if they worked together, they could resist the ghouls.

These newcomers were star students in the college, and they were all confident in killing ghouls.

The actions of these new recruiters made Yuna pretty angry.

It was fortunate that they didn’t make any chaos. Yuna was sure that they would die as soon as the battle starts.

Just as Yuna prepared to give the newcomers a lesson and send them away in some rude manners, the metal door at the entrance was smashed.

The next thing became simple. Under the help of a large number these stupid teammates, Yuna almost died. The new recruits had not waited for the start of the battle. They Fled immediately.

And the handsome, passionate boy, after seeing the rushing ghouls, he was the first person to escape, precisely because of his escape, it provoked the fear of others and made them escape.

Look, I’m not the first one to escape. With this kind of mentality, those new recruits had run away before fighting.

The handsome boy ran a little slow, so he was eaten by a ghoul, there were only bones left behind. The skull was also taken away by a psychopathic ghoul, and it would be made into a ‘crafts’.

Yuna was defeated while covering the stupid teammates while fighting against ghouls and because of the difference in number.

“Bastard Ito asked us to leave, but we dragged Yuna-sama with us.”

After that, the little fat man cried even louder.

“So, how many new recruits have survived this time? How many people roughly?”

Su Xiao’s question was not answered, the little fat man cried even sadder.

“Kalakala....”

Su Xiao clenched the handle of dragon’s flash as he had the urge to kill this little fat man.

Everyone had been weak, but crying is useless.

“Byakuya-sama, what should I do now?”

The little fat man looked up at Su Xiao, only to see that Su Xiao was on the phone.

The phone was quickly connected, and the voice on the other side of the phone was very noisy.

“Arima Kisho, do you know what happened in the 24th district?”

“Zi Zi ~, I know, zizi...”

The signal from Arima Kisho was very bad. After a while, Arima Kisho had a better signal there, but it was still intermittent.

“I am... not going now, hold the entrance...will be better, I will handle it soon...”

Su Xiao understood Arima Kisho’s main meaning, let him hold the entrance of the 24th district, and not let the ghouls break into the ground.

“you aren’t... in the underground, right? “

In Tokyo, there were not many places with bad signals. Arima Kisho was a special Investigator in the 24th district. It was impossible for him to leave Tokyo.

thinking in this way, There is only one place that Arima Kisho could be in now.

“Yes, I am underground..., you are here..., the source ...I.. solution.”

The phone was still intermittent, which made Su Xiao very speechless.

If he doesn’t guess wrong, Arima Kisho probably was in the deeper layer in the 24th district.

“Understood, there is something to be conveyed to you, Yuna was also underground, and now she is seriously injured, but we reached her in time, she has been sent to receive treatment.”

Arima Kisho was silent.

“That’s it.”

After that, Su Xiao hung up the phone.

the little fat man looked at Su Xiao with tears in his face and his eyes full of worship.

“I……”

Little fat man just wanted to talk, Su Xiao raised his hand to signal the person not to make a sound, he pressed his finger on the ground.

Subtle vibrations came from his fingertips, and a large group of unknown enemies ran in the underground passages and approached them quickly.

“I will give you a task, return to the ground to contact the CCG General Administration and let them send additional personnel to the 24th district.”

Chapter 100

After the fat ghoul Investigator left, only Su Xiao stayed in the underground passage.

The rushing footsteps came closer, as Su Xiao was preparing for the battle.

In the dim passage, thousands of ghouls seemed to be hidden which made Su Xiao's forehead full of cold sweat.

Hearing the sound of footsteps, even thousand is an underestimation.

Although Su Xiao was a ghoul Investigator, he will not sacrifice his life for CCG. Joining CCG was only to complete the task.

It was undoubtedly a foolish action to be faithful to an organization with bad intentions.

Su Xiao was hesitant. Should he strategically retreat?

After a while, the sound of footsteps gradually disappeared as the ghouls seemed to go to another way.

This made Su Xiao feel relieved. If there were too many ghouls, he could only choose to retreat.

There must have some great changes inside the 24th district. Otherwise, the ghouls will not be so crazy.

Now Arima Kisho was in the deep part of the 24th district. Arima Kisho mentioned that the 'source' will be handled by him.

Does 'source' refer to the reason for the dramatic changes? It was impossible to tell with the information he had.

“Here, be careful, those 'beasts' went far away.”

“Honey, can we still go back to the 'central city'?”

A man and a woman's conversation came from the deep area of the passage.

“Ughh, we can't go back temporarily, we can only escape to the ground first. How do did those 'beasts' rush out, there was such a strong wall blocking them.”

“Dad, I am scared.”

“Lixiang, don't be afraid, Dad will take us out.”

Su Xiao who was in the passage frowned as he listened to the sound which was from a family of three, the parent and the daughter.

Su Xiao knew a lot of information from those words.

In the deeper area of the 24th district, there may be a large number of ghouls, and the 'central city' from the couple's words may be the deepest part of the 24th district.

The two also mentioned the 'beasts'.

How could there be a beast underground? If 'beast' is a metaphor, then Su Xiao thinks of a possibility. Those ghouls who wore grass skirts should be what they called 'beasts'.

The footsteps were getting closer and closer, and the couple walked to the entrance with their daughters.

What caught their eye was a figure wearing a white trench coat with a sharp blade in his hand. The sunlight at the entrance made them unable to see the face of the figure, only to see a pair of cold eyes.

"Zero team."

The husband spoke, his tone changed, and his eyes were helpless.

"Honey, it seems that we can only fight."

The couple stood in front of their daughter, she had short hair, small body, watery eyes, which made her extremely cute.

"Can you let us go, if we fight, it will not end well for you as well, zero team member."

The male ghouls' kagune appeared it was koukaku, it seemed that he had at least two kakuhou, with one in each shoulder.

Two gray-white kagune swords were formed which were wrapped the man's arms.

Kakuja! This ghouls must be a kakuja, and his strength was around the SS level. It could be seen from the standing pose that he was not a fool as he should be professionally trained.

After the male ghouls showed his kagune, the female ghouls' kagune also appeared.

The female ghouls was ukaku, a pair of huge red wing spread behind her body, at least three meters in diameter.

The larger kagune, the higher the concentration of Rc cells in ghouls' body.

This ghouls couple was surprisingly SS-class ghouls, and they were supposed to cooperate well from seeing their actions.

Couples lived with each other every day, it was not surprising that they could cooperate well.

"Please, we don't want to hurt you. Our family has never eaten humans. we only ate those ghouls who died."

The tone of the female ghouls seemed to pray.

“What can I get if I let you go?”

The couple looked at each other.

“We just want to leave the 24th district, why do you have to kill us? I have never seen you in the zero team.”

The temper of the male ghouls was not that good, as the killing in his eyes was surging.

“Oh? Are you sure?”

Su Xiao’s mouth curled up, and held the dragon flash in his hand tightly, dragon flash made a clear sound.

Without knowing why Su Xiao felt that there was something alive in the dragon flash, it became easier to use each time.

When he guarded the back door of Aogiri tree stronghold in the 11th district, he actually had the illusion that dragon flash was cooperating with him.

Su Xiao smiled bitterly and shook his head. How could the sword cooperate with him in a fight? This was just a dead object.

Even if the knife can really gain consciousness, it is not something that dragon flash could obtain.

Su Xiao smile and dragon flash’s slashing sound made the ghouls couple have a numb feeling. The little girl was even hiding behind her mother as if Su Xiao was a beast.

The intuition of ghouls was more acute than that of the beasts. The ghouls’ couple feels that the human in front of them may have slaughtered their peers in large amounts, and the number was far beyond their imagination.

The ghouls couple was a little bit afraid, they were not afraid of fighting, not afraid of dying, both of them were SS-class ghouls.

But their daughter was hiding behind them. If they fight with dangerous enemies, their daughters will be in danger. After all, the sword has no eyes.

The feeling Su Xiao gave the ghouls couple now was not ‘too dangerous’, but super dangerous.

“You’re after the kakuhou, aren’t you? If you let my wife and daughter leave, I can give you the kakuhou.”

This man was a ghouls, but he had the responsibility of a man.

“Honey...”

When women just wanted to talk, they were stared by the men, and women ghouls was afraid to speak.

“Dad.”

Little girl grabbed his father’s clothes and shook her head with tears.

Su Xiao was speechless. The family of three in front of him only needed a producer and a camera.

“What happened in the deeper area of the 24th district.”

Su Xiao suddenly spoke, which made the female ghoul a little happy, as long as they can communicate, there will be a chance.

“Nothing....”

The male ghoul just wanted to talk, and his wife quickly stopped him.

“Honey, the ‘King’ of the previous generation has abandoned us. The ‘King’ of this generation is not strong enough to lead us. Now we are free people and no longer need to be faithful to him.”

After listening to his wife, the man closed his eyes with some pain.

“Talk.”

The female ghoul revealed some guilty in her eyes, sometimes women could give up a lot of things for their children.

“Mr. Investigator, the ‘beasts’ in the deeper area of the 24th district has been released. I don’t know whether have you seen ghouls looked like primitive people. Now the ‘central city’ is occupied by the group of “beasts”.

They were different from us. We were the same as humans except for eating people.”

Even if the couple agrees to answer the Su Xiao question, they all gave brief answers.

“Where does the ‘beast’ come from, and who is the two ‘kings’ you just mentioned.”

Su Xiao’s two questions seemed to make the couple hard to answer.

“The beasts came from the deeper area of the earth. I don’t know the specific information. As for the two kings, it’s a long story.

The ‘king’ is the leader of the ghoul, and the ‘king’ of the previous generation abandoned us. The king of the previous generation is called Yoshimura Kuzen... “

“Pop.”

A loud of slapping sound came.

The man slapped his wife.

“You forgot who saved our lives. You forgot that who specially sent us medicine when our daughter got sick, it was her father. Without that person, our daughter may have died. If it wasn’t for the current king having hostility with her father, we would have long been loyal to her.”

The man looked painful, after slapping his wife, he seemed to use all his strength.

The female ghoul looked at the ground and stopped talking, her face was full of guilt.

Puchi!

Blood splattered, and a bloody kakuhou was thrown at Su Xiao.

“This kakuhou is yours, let my wife and daughter go.”

Su Xiao took over kakuhou and did not give way.

“It seems that you know a lot of secrets. I can let you go and provide you with a safe place, but I need some information.

Don't underestimate the world on the ground. SS-class ghouls liked without a large group to take cover will soon become Quinque.”

When male ghoul just wanted to refuse, they found that Su Xiao's eyes were more and more dangerous.

“Your daughter is so cute, it's a pity to let her die, isn't it?”

The expression of male ghoul was distorted, as he was eager to swallow Su Xiao. After ten seconds, the male ghoul sighed and chose to compromise.
