

Rejected Protector Chapter 51 - Tips

It's been several hours since our conference call. Gamma True and Councilman Bari have made it here. We are all at my beach house waiting for the technicians to set all the equipment. My beach house will serve as a secondary command center. Alpha Keenai will be able to assess all of the systems we have here and run things remotely when we all leave to go in the field. It was late night/early morning when everyone got in, so we took a break for everyone to get some rest. I couldn't sleep so I've been up talking with my teams out in the field. I found out that there has been constant movement at the Ventura house and the Council house in San Diego. We are not sure which house they have Seleste in, but we believe it is one of those. The other house has remained quiet, with no one in or out for the last couple of days.

The sun is beginning to come up and I can hear everyone moving around and getting dressed. I am so ready to get the day started. Onyx has been driving me crazy. He can feel Tamaska. The connection is not strong enough to get to her yet, but he can feel her. The only thing keeping him from losing his shit is that Tamaska seems calm right now. I don't know what will happen if that changes. I still haven't figured out how to tell Gamma True and the councilman how I will be able to track Seleste. At this point it shouldn't matter. All that is important is finding her and keeping her safe. These people are so dead. I have already told my people to show no mercy. We only need one kept alive. Hopefully, we can catch the councilman there or at least someone who knows who the councilman is.

Just as I have breakfast set up on the table, everyone trickles into the room. The conference room is serving double duty today. My warrior omegas who travel with me will be cleaning and changing the room over for us so we don't have to move until it's time to move out. I've also had the omegas turn the office next door into a weapons room. This will make it easier for us to grab the weapons and move out. We are going all out with weapons blazing. We won't be able to shift since the homes are located in a human populated area, although the house itself is fairly isolated we can't take the chance of being seen by regular humans. Alpha Keenai and Councilman Bari contacted their people in government and had this area blocked off from local law enforcement so that only shifters respond if humans call law enforcement about the battle we are about to have.

Just as we start to go over the information we have, Seleste projects into the room with all of us.

“Holy sh!t Seleste. Can you give a girl a warning.” Talia says.

“I wish I could Talia.” Seleste answers with a smile.

“Babygirl, are you ok?” Gamma True asks.

“Hi daddy. I am ok for now, but I need you all to hurry. They are talking about moving me or getting rid of me. I can’t teleport out right now because it will give away that I have powers. Tamaska said if you all get close enough, we may be able to teleport some of you to our location.”

“Can you give us any more details about the area you are in. We think we have it narrowed down. Onyx can sense you, but its not strong enough to find you yet.”

Seleste looks at me for the first time. I can see the recognition in her eyes. She knows what I am to her. WWe just look at each other for a moment.

“I was able to do a spirit walk this morning before they started moving around. The home is on a beach. There are no other homes close to it. It’s a 3 story, ocean blue home. There are a lot of windows, but they all have protective film on them, so you can’t see in.”

“That helps a lot. We will be with you soon.”

“ Just hold on Sweet Pea. I promise, we will find you.” Gama True says then looks at me.

“You will explain to me later how you can sense her.” Gamma Tre says.

“Chill dad. It’s all in the goddess’ plan.” Seleste said.

She pretty much just told them that we are mates.

“I have to go. But before I go I need to tell you this.” She says and looks at Alpha Clark via the screen. “We were right. There is a leak in your pack. At first she provided my location unknowingly, but as of last week, she started willingly working with the rebels. She is obsessed with you and has agreed to help them if they help her get you.” Seleste said.

The female sitting next to Alpha Clark growls when Seleste mentions the female wants him. I'm guessing that is his mate.

"Do you know who the female is, Seleste?" Alpha Clark asked

"No I don't. They did not say a name, but I bet if you and your sister Yvette think about it, you will be able to narrow it down. The whole time I was at your pack and when we went to the vampires, she spent a lot of time at the bar complaining about the attention you were giving me. SShe has been obsessed with you for a long time and has been trying to get your attention. According to the rebels here, she was very vocal about her desire to be your luna and not letting anyone get close to you."

Alpha Clark and Yvette looked at each other and both said "Tracy".

According to them, Tracy has been obsessed with Alpha Clark since high school. He took her on one date, but nothing ever happened between them. He told her from the beginning that he was waiting for his mate. She tried several times to s.educe him. He had to bar her from his area in the packhouse and threatened to kick her out of the pack.

"Alpha Clark, we will leave you and your Luna to plug that leak." Councilman Bari says. "The council supports anything you decide to do. We understand that treason is punishable by death. We would not stand in your way if you decided that way and you do not need an official trail since we pretty much have an ear witness. Once you confirm it's her, do whatever you want with her. Since this meeting is recorded, this can serve as my official stand."

These rebels and the people who help them will learn that we will not be showing them any kind of mercy. They came after our kingdom and after we get my mate back, we are coming after them.

"Seleste , the twins and your dad will be with me. I confirmed that the description you gave is one of the houses we were watching and were planning to attack anyway. Talia will link you when we are close enough to that location. I will be one of the ones breaching the house so that I can quickly get to your location inside of the home. Only teleport us in if things go bad. If your life depends on it, I need you to do whatever you have to do to survive. If you have to teleport out once we get there, do so. We won't be leaving anyone alive and we will be blocking all communication, including mind linking, so the word will not get out."

She nods her head and fades out.

“Ok everyone, my team is already in position. We’ll take the helicopter to the town then get close to the home with SUVs. Let’s get our gear and head out. Councilman Bari, we confirmed that there is some unusual activity at the council house. We would understand if you wanted to detour there.”

“No, I want to get to Seleste first and then take care of the snake in the council. Can you keep a team on it and report to us? Can we also get video coverage so we can identify the members meeting there. Even if they are not part of the rebels, they are meeting illegally and did not register their use of the home.” Councilman Bari says.

“We can do that and with the new technology we just got from the bears, we can also get you sound. You will be able to play back what they are saying as well.”

Rejected Protector Chapter 52 - Tips

The councilman, Gamma True, the twins and Talia all follow me to the helicopter. I will be flying us there. There is actually no room for a pilot anyway. Everyone else is already in place. The rest of the council will meet us there, but they are only going to be part of the clean up crew.

The flight takes only about 25 minutes. We load and load up in SUVs. The mood is very tense. Onyx is bouncing around in my head. He can feel Seleste now. We are definitely close to her. I ask Talia to try to link Seleste. They are able to establish a link. The rebels are in the process of interrogating Seleste. She agreed to leave the link open with Talia so we can keep up with what is happening with her. Onyx can feel a little of her anxiety. Talia told us they just threatened her with wolfsbane and torture if she does not tell them where the protector baby is and who is in charge of the child. Seleste is telling them that she has no knowledge of a baby protector being born recently, which is true. Seleste is telling them that she is a gamma of her pack and the descendent of an original, she is much too young to worry about babies. She reminded them that her dad is going to kill all of them when he finds her. That is also true.

Talia says that Seleste is now trying to negotiate her freedom. She told them that her parents are very wealthy and her pack will pay a ransom to get her back. She told them that it would be better for them to get a ransom, take the money and run. That is the only way they will live. They are laughing at her.

They think that there is no way anyone can find her and they think she is just a weak little she-wolf. They are wrong on both parts. We tell Talia to let her know that we are only about 5 minutes away. We've parked the vehicles and are coming in on foot. I have told the team that is there to surround the building. The bears have already blocked all means of contact. We had Talia warn Seleste before we went silent. Which is a good thing because they had started to threaten Seleste and I think me and her dad would completely lose it if we heard the threats being made.

We made it to the house. The bears have taken out all of their alarms and cameras. I feel a sharp pain on the side of my face. Onyx takes over at that time and orders everyone to breach. My men immediately set up a perimeter in the house and started taking out every rebel they saw. Onyx is running to the second floor. He is following the bond between him and Tamaska. Tamaska is telling him to hurry, they are trying to drug Seleste again. They have already hit her a couple times. Onyx is trying to take some of the pain from her. Tamaska told Onyx that they were told to k!ll Seleste if we found her. I make it down the hall. I entered the room that I thought she was in, but it was empty. I feel her near me, but don't see her. I tell her dad and the team to search all of the rooms. So far we have come up empty. I can tell that Seleste is fighting them now. I can feel her anger mixed with fear.

After we have searched all of the rooms on the second floor, I go back to the original room and start looking again. I open my senses and I know that she is here. I let Onyx lead me to where he feels her the strongest. We ended up in the closet. I open the closet and her dad and I enter. We go all the way to the back of the closet. I use Onyx's vision to see any gaps that could be a hidden door. I find the door on the back wall of the closet. I indicate the door to Gamma True, then radio the team members close to me to let them know that I am going in. Gamma True Kicks the door open. The shifters inside charge at us. Seleste trips one of them. Gamma True is on him immediately and rips his throat out. I grab the other one and Onyx rips his head off his body. We saw Seleste's blood on him. He had to die immediately.

Seleste told us that a couple ran into a tunnel under the house. I had my men pursue them. We only need one left alive so they can k!ll or capture the two in the tunnels. It does not take my men long to find them in the tunnel. Once they dragged them back to where we were, Seleste told her dad that the one closest to him was the one trying to drug her. Gamma True grabbed him.

"I told you my daddy was going to k!!l you." Seleste said as Gamma True pulled his head from his body.

I looked at the other one.

"I guess it is your lucky day. You get to live a little while longer. How long and how well depends on what you tell us."

"You might as well k!!l me. I'm not telling you filthy dogs anything." He says.

"Famous last words. You can tell us voluntarily or involuntarily and then you will die like all the others."

We drag him out of the house and head back to my beach house.

Now that things have calmed down, I can take a moment with my mate. As soon as we get out of the vehicle in front of the house, I grab her and pull her to me. I just need to feel her in my arms and smell her scent. Her dad is looking at me like he wants to snatch her back from me, but the twins tell him that I am her mate, so he lets us have our moment. He goes to call Seleste's mom to let her know that Seleste is safe and I'm guessing he is also telling her about me being Seleste's mate.

"Alpha Blake, I hate to ruin your moment with my cousin," Drew says, "But we need to get her checked out. Can you take her inside so the healers can look at her."

I'm not ready to let her go, so I carry her bridal style into the house.

"I can walk, you know."

"I know, but I need this contact. Onyx is not ready to let you go yet."

"So does that mean that you and Onyx accept us?"

"From the moment Onyx figured out the message Tamaska sent him, you have been ours and we have been yours. I don't know why the moon goddess blessed me with you as my second chance mate, but I will spend my life loving, protecting and supporting you."

"You understand that I will not be a typical Luna for your pack Alpha Blake. I belong to all supernaturals."

“First, I am your mate, you never have to call me Alpha and second, I am aware of your purpose and destiny. I want to share that destiny with you. My pack has worked with the protector for generations so it is an honor for my pack to have the protector that we have always served as their luna. That means they will fight harder and protect you with their lives.”

“The moon goddess truly knew what she was doing when she gave me you.” Seleste says just as the healers walk in the room.

I step back so that they can examine Seleste. They found no serious injuries. The marks on her face are already healed. Seleste is given a clean bill of health.

Gamma True came into the room as the healers were finishing up. He congratulated us on being mates then told me that if I hurt his baby girl, Alpha or not, I would answer to him. I definitely know what he is capable of.

“I have no intentions of ever hurting Seleste. The moon goddess blessed me with a second chance. I would never jeopardize that. Seleste is everything to me.”

“Good. Keep it that way son and we will get along just fine.” Gamma True says.

“I love you daddy.” Seleste says.

“I love you more baby girl. Your mom sends her love. It took a direct order from Alpha Connor to keep her from being here right now. She said you better video call her later.” Gamma True said.

Now that everyone knows Seleste is ok. We set up a conference with everyone in an hour to go over the video we got from the council’s house. Hopefully, we will catch another traitor. Alpha Clark will also give us an update on the traitor at his pack. For now, I’ll just show Seleste to my room so she can freshen up and change clothes. Her dad brought some of her clothes with him. While Seleste is getting ready, I head down to the conference room. I am so ready to catch a traitor. He will wish that he never thought to grab my mate.

Rejected Protector Chapter 53 - Tips

As we sit and listen to Seleste talk about the she-wolf of my pack, it is clear to Yvette and I that Tracey is the one. She has been trying to get my attention for

years. I have never given her any encouragement, but she never gave up. I had to order her to stay away from the alpha's private living area because she kept trying to seduce me. I made it clear to her that I was waiting for my mate. Now I have my mate and we have to deal with this.

After the meeting ended. Alpha Keenai, Councilman Bari and the warriors headed to California, while Rose and I headed to my pack. I contacted Gamma Francis and her mate to let them know about us suspecting Tracey of being a traitor. Francis will have people watching her. She will also have warriors hanging around the bar. Hopefully, they can catch her in the act of meeting with the rebels. She is going to die for her actions, no doubt, but I need to have concrete evidence that it is her.

"Little mate, I did not want to introduce you to my pack under these circumstances, but I am glad you will be by my side through all of this." I say to my mate.

"As long as she doesn't have a reason for trying to be with you, I will be ok, and we will handle this together. So Garnet, does she have a reason to think she has a chance of being with you?" Rose asked me.

"No. I made it clear to everyone in my pack that I was waiting for my mate. I waited for you. I would never put my mate in that kind of situation of having to deal with she-wolves in my pack."

"Ok, we will handle this and let all the other she-wolves know that they can stop trying to seduce my mate now."

I bet she has no idea how happy I am that she is my mate. Truthfully, I started crushing on her from all the things Seleste said about her. I believed that she would be the perfect Luna for my pack. Seleste once mentioned that she thought we would be perfect for each other and she was right. Rose is perfect in every way possible.

The trip back home did not take that long. I had my Beta and Gamma meet me in my office. We got all our new equipment set up so that we could conference with the rescue party and see the rescue real time. All other parties are patched in. Lacey and young Alpha Connor are with us here. Young alpha Trevor will be making a trip back to the academy to brief them on

our situation after the rescue. Lacey will be staying here for now to wait for her mate to return.

Alpha Blake, Gamma True and Councilman Bari, along with all of Seleste warriors, with all the special forces are enroute to the house that they are keeping Seleste in. The council have secured the area and have gotten the allied witches to put a shield around the area to keep the humans from seeing what is really happening. The local non supernatural law enforcement has been told to stand down. As far as they know, this is a federal operation.

We're all on the edge of our seat as we watch the team breach and set out looking for Seleste. Alpha Blake runs for the second floor. He and his team are going room to room. All of the rooms appear empty. One of the techs pulled up a blueprint for the home. There appears to be a hidden room and escape tunnel under the home. Alpha Blake and Gamma True go back to one of the rooms to look for the hidden entrance to the tunnel.

Rejected Protector Chapter 54 - Tips

The pack cheered and dispersed to the side of the packhouse where the food was set up. I received a link from the sentinels at the pack gate notifying me that Tracey just left the territory. Maybe things will happen faster than we thought. When we got in my office, I let my team know that Tracey has left the territory and is heading in the direction of the bar. Gamma Francis contacted the warriors and hunters scattered around the bar so that they could be on the lookout for her. They will notify Gamma Francis when she arrives and start the live recording of her so that we can see what is happening real time

I log in with Councilman Bari and the others and update them on what is happening here. I let them know that we will hopefully have Tracey and who her contact is tonight. Councilman Bari again let us know that we are clear to carry out justice without a trial once we have clear evidence that they are involved. Tracey we will k!ll quickly, but we will keep one or two of her contacts alive to question. I should not be so calm about k!lling a pack member, but traitors will not be tolerated. She is willing to put the whole kingdom in jeopardy for her own selfish desires.

Councilman Bari excuses us from the conference call. We all get a chance to greet Seleste and she reassures us that she is ok. She only had some mild bruising, and they are all healed. She confirmed that Alpha Blake is her second chance mate. We congratulate the two of them, plan to meet up soon

and log off. Seleste tells us that she will call us tonight to update us on what they find at the council house.

We didn't have to wait long for Tracey to show her hand. Shortly after ending the conference call, Francis got notified that Tracey was at the bar in a heated conversation with three men; at least one is a wolf. The other two smell like some type of shifter the men report. The wolf appears to be in charge. He is probably Tracey's contact. The whole bar has hidden cameras and has been wired for sound. Once we started observing, we got a live feed of Tracey and the three men she is talking to.

"I have someone who may interest you. I need her gone as soon as possible." Tracey says.

"Why should we care about this she-wolf? She is not our problem."

"You said if I helped you, you would help me get Alpha Clark. You need to keep your end of the bargain. I need this she-wolf gone because she is his mate and will be able to break the spell that we are going to put Alpha Clark under to convince him I am his mate. It won't work if his fated mate is there." Tracey said.

"That is not our problem. We agreed to get our witch to make the potion and do the spell for you, but that was all. We are not interested in kidnapping another she-wolf. All of our friends who took the last one are all dead. I don't intend to end up like them, so no thanks. You deal with your own problem or accept the fact that he does not want you and never will. But don't be sad, we will continue to keep you satisfied." Shifter number 1 said while rubbing her arms.

"Why do I feel like I want to throw up?" Rose said.

"No, that's not going to work. I want Alpha Clark. I only want to try the three of you that one time because I had never had three at one time. It was fun, but will never be repeated. That shewolf could smell the three of you on me. I can't risk that." Tracey said.

"We can give you something to hide our scent on you. You know you want more of us. No little doggie will make you feel like we did, and you know it." The other shifter said.

I am trying so hard to keep calm right now.

"I will do all three of you again if you get rid of the she-wolf for me. In fact, I will do all of you on a regular for that." Tracey says,

"Baby, you are not worth that risk. We can get sloppy pvssy from anywhere. What makes you think we would be willing to do anything to get what we can always get for free. You are nothing but a d!ck hungry. You will come back for us long before we get desperate enough to do this suicide mission for you." The wolf said.

"Well." Tracey said, "Did I mention that she is Seleste's best friend and that they trained together. So, I am sure that she knows everything that Seleste knows, maybe even more since she is a higher rank than Seleste. She is a bigger prize. Don't you think your boss would love to get his hands on her. Plus, she is a beautiful shewolf. You all could have fun with her. I bet she is even pure. She is the type that would wait for her mate. But you better hurry, Alpha Clark is her fated mate. I'm sure she won't be pure much longer. Neither of us want that." Tracey says.

"How would we even get to her? I'm sure your alpha will have protection around his mate."

"I will get you the patrol schedule for the next couple days. Then I'll s.educe the patrol at the front gate so you can sneak in. I have an omega who will do whatever I say. I will have her drug the alpha's food so that he and the other ranked wolves will be knocked out. You will be able to get in and out before anyone knows what happened." Tracey said.

"How do we know we can trust this omega to do this?"

"She is my little cousin and I have her convinced that the alpha is my mate. She will do anything to help her poor cousin get her mate back. She is very naive and very loyal. I almost hate to do this to her. She could get k!lled if caught, but oh well, we all make sacrifices. I will sacrifice everything to get my mate back."

"You are truly crazy. You would set your own family up to get k!lled for a male who isn't your fated mate and has made it clear that he does not want you. He has never even touched you. That is the craziest thing I have ever heard. I don't trust you much, but getting this beta might be worth it." The wolf says.

‘Good. So, tomorrow night will be the best night to move. Jeremy will be on duty and he has a crush on me. It will be easy for me to s.educe him. I will go to him at 11:00 pm. Give me at least 10 minutes to get him to loosen up, then it will be a go.’ Tracey said.

“We are putting a lot in your ability to s.educe this wolf.” Shifter number 1 said.

“Baby, not many men can resist the chance to get some of this. He will fall in line and get a thrill in the process. I just hope I get an org*asm out of it. If not, you three will have to help me out afterwards.” Tracey says.

I can’t believe how evil she is. I can’t believe we didn’t see this before now. TThere is no telling how much evil she has done and gotten away with. I can tell by her conversation that she is comfortable doing this kind of thing. I tell Francis to have her men intercept her when she leaves and grab the three males as well. I advise Francis to have her men grab them quietly because we don’t know if others in the bar are working with them.

After about 30 minutes, Tracey gets up to leave. She is grabbed and injected with wolfsbane and soon as she walks out the door. The warrior walks with her to the car looking like they are making out on their way to the car. For a person like her, this is a believable scenario. The other three are captured just as easily. The warriors are able to sneak up behind them and inject them before they can react. The shifters are injected with a sedative. They are all brought back to the pack and placed in the cells with silver all around them. Silver is harmful to most shifters.

Rose and I are standing in front of Tracey’s cell when she wakes up.

“Why am I here? What is the meaning of this? Are you so threatened by me you had me locked up? I knew Alpha Clark really likes me.” Tracey says.

“Wow. You really are delusional. I am so glad I get to k!!l you soon. You are beyond redemption.” Rose says.

“You wish you could k!!l me. Like you said, it’s illegal to k!!l pack members.” Tracey Smirked

“True, but it’s not illegal to k!!l a traitor.” Rose said.

"So now you spreading lies about me? I expected better from a beta. I am not a traitor and you would never be able to prove otherwise. I love my pack and would never do anything against the male I love." Tracy says innocently

"You almost sound convincing, but I do have evidence of you being a traitor and you will die tomorrow by my hands. I am going to enjoy removing your head from your body." Rose said with a smile.

"Alpha, are you going to let her threaten me like this? I demand she gets banished for making false allegations." Tracy screamed.

"What's false about what she said? You are a traitor and we do have evidence. By the way, Tamara will not be drugging our food tomorrow." I say.

"What do you mean? What does Tamara drugging your food have to do with me? She has her own issues and if she plans to drug you, it has nothing to do with me. We are only distantly related. We are not all that close. Punish her and let me out of here." Tracey says.

"Tracey, how could you? You came to me crying saying she stole your mate, and you needed my help. You said no one would be hurt and that you only needed them to sleep so you could talk to the alpha alone. I can't believe I listened to you and almost did something very stupid. You are right about one thing; I no longer have anything to do with you." Tamara said and ran out of the dungeon.

"She is lying alpha. I never told her that." Tracey says.

"I am bored of your lies. We have you on video and audio planning my abduction. We also have confessions from several people that you told you got rid of Seleste because you thought she was getting too close to my mate. You were dumb enough to give them details of Seleste's abduction that were never shared with the public. With all of that, you have been found guilty and are sentenced to death." Rose said

She is so se.xy when she is being bada.ss. She is not even flinching at anything Tracey is saying, just knocking Tracey out with the facts. I am the luckiest male around to have Rose as my mate.

"Baby let's go. She is not worth anymore of our time tonight. Like you said, she dies tomorrow, and I will not lose any sleep about it. She not only jeopardized the security of my pack, but put the whole kingdom at risk for

someone who will never want her no matter how many potions or spells she tries to put on me. You are my one and only." I say to Rose giving her a kiss.

Tracey stands in her cell yelling. She is still trying to convince me that she is innocent and being set up.

"Don't worry Tracey, we will play the video for the pack and you to view right before we kill you. I'm sure they will love to hear how you feel about them and all your sexcapades. Enjoy your last night of living." Rose said as we walked out of the dungeon while Tracey continued to yell.

Francis and James have been questioning the other three. So far, they are not talking. I let Councilman Bari know about what happened. Councilman Bari is coming to get the prisoners tomorrow to take them to a secret council owned prison. They will get all the information needed.

The next day was fairly uneventful all things considered. We called the pack together and told them about what Tracy did and informed them that she was sentenced to death. A couple pack members asked if she could be banished instead of put to death. I explained that she is much too dangerous to just get released out in the kingdom. Some of the pack members grumble a little. The ones grumbling were mostly her family members. Even they stopped grumbling when Tamara spoke and told them how Tracey set her up to drug me and the ranked wolves. Tamara told them how she heard Tracey try to put all the blame on her. All the pack members know that Tamara would never try to hurt anyone, but that she is loyal to a fault. Finally, I played a clip from the video with Tracey telling the rebel when and how to enter the territory and packhouse. By this time Councilman Bari had arrived. Although Rose wanted to kill Tracey with her own hands, Councilman Bari decided that the council member would carry out the sentence. That way the anger would be directed at the council and not the leaders of the pack. He had a point, so I agreed. Councilman Bari called in this giant werewolf. He carried out the sentence, her death was very quick which was more than she deserves, She tried to get my mate kidnapped and raped. I'm glad Councilman Bari will be dealing with the prisoners. I want to kill them for thinking about harming my mate.

Councilman Bari loads up the prisoners and they leave immediately for a destination. Good riddance.

Rejected Protector Chapter 55 - Tips

I can't believe it is morning already. Yesterday was pretty eventful. After I was rescued, we met with everyone remotely. Alpha Clark had to leave the meeting to deal with his pack. They figured out the traitor. It turns out her name is Tracey. I don't know where Jenay came from. Maybe that was the alias she used with the rebels. I need to mention the name Tamaska heard to Rose just in case there is another traitor. I sent Rose a quick text just telling her that Tamaska heard that the traitor's name was Jenay instead of Tracey. After a couple minutes, Rose texted back and said that Tracey's cousin said that Tracey often goes by Jenay when she is away from the pack. Okay. I'm glad that is settled. I would hate to think Rose and Garnett would be dealing with multiple traitors. Although I know Rose can handle anything those she-devils throw at her and Garnett will back her up one hundred percent.

Councilman Bari let us know that the video surveillance of the council house did not reveal the actual council member but gave them clues to the identity of the person. They saw family members of one of the council members. The grandson of a mid-level councilman was seen at the house meeting with other rebels and discussing attack plans. After I was rescued, they all quickly left the area. The council member's grandson actually called the council member when he was leaving the area, but they were not able to listen in on the call. It's pretty fair to assume the member is involved, but we need to get concrete evidence against him. Councilman Bari advised everyone to get some rest and be ready to meet up tomorrow evening after Alpha Clark and Rose have handled the traitor at their pack.

After being dismissed, Alpha Blake and I spent a little time with my father and video chatted with my mother. My mom told him that he better take good care of him or she will personally come to see him. I told him that my mom was serious, and she was deadlier than my dad. He just smiled and told my mom that he will always take care of me. My mom seemed satisfied that I was in good hands. Jarvis and I stepped out of the conference room, so my mom and dad could have some alone time. They do not spend a lot of time apart. When my dad traveled for the pack, we usually went with him as a family unless it was a mission. He would keep his time away to a minimum.

Alpha Blake and I made plans to visit my pack when things settle down. I want Jarvis to meet the rest of my family and I want to introduce him as my mate to the ones that he already knows, such as the royal gamma.

One of the first things we did after things settled down was talk and get to know each other. I found out that his first name is Jarvis. I'm glad that I can now call my mate something other than Alpha Blake. He accepted me without question. I really believe that Jarvis is the perfect mate for me. I don't think that Trevor and I would have made such a great team. I think Jarvis understands the role of the protector better and since he is already a protector champion, his pack is structured to function and thrive when he travels. He has an awesome beta who runs the pack when he is away and supports the mission of the protector completely. He has the best-trained warriors in the kingdom, well after my warriors anyway. Many of them are already part of the protector force. I met several of them during my rescue. They were excited when they found out that I am their future Luna. This pack will accept me and my role as protector and not expect me to be a traditional luna. My old pack would support me being the protector as a gamma, but they had different expectations for their Luna. I know the elite 12 would back me, but the pack members would want me to be present more and in this current time, that would not be possible. I do understand that the rejection from Trevor was necessary to get both of us where we needed to be. Lacey is perfect for Trevor and our pact. She is beta born, so she can step directly into her role and she has the spirit to be the heart of our pack. Enough of Trevor and Lacey, let me focus on my amazing mate. I swear he is the most handsome man I have ever seen. He has the look of Jason Momoa, the swagger of Denzel Washington, and the body of The Rock. Yes, he is the perfect specimen of a man. Not only is he handsome, but he is dependable, honest, loving and everything a shewolf could want in a mate. I am so grateful to the moon goddess for him.

"Tell me more about yourself mate," Jarvis said.

"I think you know mostly everything about me. I have spent my life training and preparing to be the protector. I have literally been training since I was able to walk. Outside of training, I spent a lot of time with my friends. I know Talia and the twins told you about our circle of 10 friends. We were all born within days of each other." I say

"Ok, what's your favorite color?" Jarvis asked. I guess we are doing the twenty questions thin now. He's so cute.

“Blue,” I answer. “Yours”

“Blue as well. Mostly Navy.” Jarvis Answered. “What’s your favorite food”

“I love all food. I sometimes have a favorite of the week, but it changes when I taste something else amazing. I blame my mom for being such a great cook.” I say with a smile.

“I can’t wait to taste your mom’s cooking,” Jarvis said.

“What do you enjoy doing besides being the alpha?” I asked.

“Like you, I spent most of my time training to be alpha, then being alpha and working with the council. Like my dad did before he retired. That reminds me, I need to call him and my mom. I know they have heard the news by now.” Jarvis said.

We continued talking for a while, then decided to let our wolves run and hang out for a while. Both Tamaska and Onyx needed time together. For Onyx, he never thought he would get a second chance and Tamaska knew he was out there but did not know how long it would take him to be ready for our second chance mate. It’s a good thing the moon goddess moved things along or I probably would have still been waiting.

After letting our wolves spend quality time together, Jarvis and I returned to his beach house and spend a lot of quiet quality time with each other. Before retiring for the night, I sent text messages to Rose, Talia, Lacey, Francis, and Mona and let them know how well things are going and let them know that the rest of the night will be dedicated to my mate, so I will not be answering my phone. They all had a good time teasing me, but since they are all newly mated, they completely understood. Let’s just say, the night ended on a magical note. One I will never forget and one that I am so thankful that I waited for. It was pure perfection. My mate is so awesome. And since he fell asleep holding me close to him, his night was equally amazing. I am so excited about our future together.
