

## Real Daughter 301

### Chapter 301: Plans

However, Su Lin did not have any real power. Could it be that Su Lin wanted him to give him the shares?

No, Su Zhen immediately rejected his idea.

Even if it was his biological son, he did not trust him very much. He was afraid that if he went out, he would not be able to get the shares back.

Then they would be moved.

When Su Lin saw Su Zhen's expression, he knew that Su Zhen must have thought of something, but he was still conflicted.

Su Lin sighed and said, "In the past two days, the share price has been falling rapidly again. I'm afraid that when you come out, the entire Su Corporation will be gone. Sigh, I feel terrible when I think about how this is your life's work. But I don't have any real power. I'm afraid I won't be able to enter the company tomorrow."

When Su Zhen heard Su Lin's words, he found it difficult to calm down.

In the end, Su Zhen only said, "Bring Secretary Li over tomorrow."

Regarding the Su Corporation, Su Zhen still wanted to ask Li Sheng for some specific information.

At the same time, he wanted to see how tomorrow would go.

Su Lin nodded with a heavy expression and left.

As soon as they returned home, Su Fei and Chu Yun went forward anxiously to ask about the current situation.

Su Lin shook his head and said, "The situation is not optimistic. I estimate that in a few days, the Su Corporation will no longer be named Su."

When they heard this, Chu Yun and Su Fei were shocked. They did not expect it to be so serious. It seemed like they had to make some preparations. They could not be finished with the Su Family.

Especially Chu Yun. Now that she thought about how Su Zhen had actually slept with a few men, she felt like she could vomit what she ate from the night before.

Su Lin looked at Su Fei and said gently, "Feifei, the house has been a little chaotic recently. Don't go out and run around, understand? Don't worry, no matter what happens to the Su Family, I'll settle you down well."

Su Fei looked at Su Lin and a sweet smile appeared on her lips. She said gently, "I understand, Brother. I'll be good."

Su Lin patted Su Fei's little head dotingly and went upstairs.

As for Su Fei, the moment Su Lin turned around and left, her eyes turned from gentle to cold.

The Su Family was about to be finished. How could she still expect Su Lin to protect her?

Chu Yun pulled Su Fei to her and Su Zhen's bedroom. Then, she moved out her small treasury and placed it in Su Fei's arms.

She said to Su Fei with a serious expression, "Nothing has happened yet. Let's quickly move these valuable things away. Otherwise, when the Su Family goes bankrupt, these things will be auctioned off to repay their debts."

As she spoke, Chu Yun opened the safe in the bedroom and took away all the cash.

Under Su Fei's shocked gaze, Chu Yun opened a secret box under the bed. There were more than ten gold bars inside.

Chu Yun placed everything in Su Fei's arms and said seriously, "Feifei, put everything away. Remember, even if it's your brother, you can't take it out, understand?"

Chu Yun and Su Zhen were still husband and wife. It was not safe for her to have all these things.

The only person Chu Yun could trust now was Su Fei, his biological daughter. Su Fei nodded at Chu Yun and said, "I know, Mom. I don't trust anyone but you."

Chu Yun hugged Su Fei with a gratified expression and said, "Hurry back to the house. I'm afraid your brother will have thoughts later and want to come to your father's house to get something. It won't be good if he sees it."

Su Fei immediately covered all the valuable things in her arms. When she walked out of the door, she specially asked Chu Yun to go out and check on the situation before she dared to return to her bedroom with her things.

At this moment, Su Lin was rummaging through Su Zhen's study.

Even if Su Zhen was indeed extremely short of money previously, Su Lin felt that Su Zhen must have kept something.

It was Secretary Li who reminded him today. If his family really went bankrupt, everything might enter the stage of the auction to repay the debt. Therefore, he would take out as many of these private things as he could now, just in case.

He did want it to come to him not being able to live because he did not have any money left,

After sweeping through the study, there was only one safe left.

However, Su Lin did not know the password to this safe.

Su Lin found Chu Yun and asked frankly, "Mom, do you know the password to the safe in Dad's study?"

Chapter 302: Transfer of Shares

Chu Yun sneered in her heart. She was right. Su Lin was also making plans for himself.

Su Zhen did not tell anyone the password to Su Zhen's safe, but Chu Yun knew it in her heart.

However, she was not so kind as to tell Su Lin the password.

Chu Yun said with a worried expression, "I don't know about that either. Only your father knows the password to your father's safe."

Seeing Chu Yun say this, Su Lin sighed slightly. It seemed like he had to find an opportunity to go to the prison to talk to his father.

He was the only son of the Su Family now. These things were supposed to be handed to him in the future. It was not a big deal to get them in advance.

However, that night, Chu Yun quietly sneaked into Su Zhen's study and took away all the valuable things in the safe.

The next morning, Secretary Li went to the prison to see Su Zhen.

After knowing about the opening of the market today, Su Zhen said, "Draft a share transfer contract and send it over. I'll transfer the shares to Su Lin. I'll have to trouble you to teach Su Lin more about the future."

Li Sheng frowned slightly and said, "President Su, aren't you going to wait a little longer? I'm already arranging for the finance staff to help you out. After all, President Su is still young. What if he can't suppress those shareholders even if he takes the shares?"

Li Sheng looked down on Su Lin's ability.

As long as Lin Yin was still Su Zhen's daughter, he would have to raise the flag and let Lin Yin come to the company to preside over the situation.

"In my current situation, it will take at least a few days for someone to come in and take the blame. The Su Corporation can't wait. I guess in the next two days, it will be decided if the Su Corporation can still exist," Su Zhen said with a worried expression.

Li Sheng also sighed helplessly.

If he did not give him the shares, Su Lin would be ostracized and the company would be leaderless.

Li Sheng did not think that Su Lin was reliable. He had a feeling that Su Lin would be destroyed with the Su Corporation.

And this premonition was very strong.

However, this was the Su Family's own business after all. Since Su Zhen had said so, he could only do as he was told.

Besides, he really didn't have a better solution.

The transfer of shares went very smoothly. When Su Lin obtained those shares, he could not wait to contact Zheng Chao and verify the price so that he could sell them as soon as possible.

When Lin Yin received Zheng Chao's news, the corners of her lips curled up slightly. Then, she gave the lowest price and sent it to Zheng Chao.

When Zheng Chao saw the price of the mysterious person, he was a little surprised. It was so low?

However, he still conveyed the message truthfully.

As expected, when Su Lin saw the price, he instantly expressed his objection.

"This price is really too low. A full 35% of shares is only sold for 100 million? That person is here to snatch money, right?! Zheng Chao, you don't want to help me on purpose, right?" Su Lin questioned unhappily.

Zheng Chao also pretended to be helpless and said, "You're my future brother-in-law. I naturally want to help you, but you know very well what the market is like now. If you don't believe me, you can go out and ask now. Is anyone willing to take over this mess of the Su Corporation? I worked hard to help you get this price."

Su Lin did not believe Zheng Chao's words. In his impression, these shares could reach a price of more than a billion yuan at the highest.

Even if there was something wrong with the Su Corporation now, it would be normal to sell it for at least 500 to 600 million.

Su Lin, who did not believe it, really went out to investigate. In the end, it was really as Zheng Chao had said. No one wanted to take over the Su Corporation's shares.

First, the Su Corporation's internal projects were not profitable. There was also a construction site that had been forced to stop work by the government and various debts.

No one wanted to get involved in these troublesome problems.

Helpless, Su Lin could only compromise.

Lin Yin looked at the message from Zheng Chao and smiled. Then, she sent another message: 70 million.

Su Lin was about to go crazy. He had only hesitated for a day, but the other party had already reduced the price by 30 million.

When Zheng Chao heard Su Lin's crazy voice, he felt happy.

It was indeed retribution.

Zheng Chao said calmly, "The other party said that the Su Corporation's shares are getting less and less valuable. As your future brother-in-law, I advise you not to hesitate anymore. Otherwise, think about it again. If the other party reduces it by another 30 million, it won't be worth it.."

Chapter 303: Lu Ming Snatching the Key

Su Lin gritted his teeth in anger. In the end, he compromised.

He was really afraid that the shares would be worthless.

When Lin Yin received the news, she immediately asked Jiang Chen to bring the lawyer over to sign the transfer contract.

She had prepared a lot of money, but she did not expect that there was still some left. This was beyond Lin Yin's expectations.

After Jiang Chen sent a message that the shares had been transferred, Lin Yin lay in her apartment with a satisfied expression.

When Lu Ming came over, he saw such a beautiful and quiet scene.

Hearing the sound, Lin Yin turned to look at Lu Ming and smiled. "You sneaked into my house again."

Lu Ming shook the key in his hand and said, "I didn't sneak in. I used the key you gave me."

Seeing the key in Lu Ming's hand, Lin Yin was furious. This bandit had brazenly snatched the key to her house.

Looking at Lin Yin's hateful gaze, Lu Ming smiled and said, "I know you're not convinced, so I brought you my key."

As he spoke, Lu Ming took out a key from the bag beside him.

While Lin Yin was in a daze, Lu Ming began to introduce the keys one by one. "This is the key to the apartment next door, this is the spare key to the private house in Shenglin Bay, this is the key to the courtyard of my old residence, this is the key to two large flats in the city center, this is the key to the three villas by the sea, this is the key to Country F's manor, and this is the key to the three villas in Country M..

Lu Ming looked at the marks on the key and read them out one by one. Lin Yin felt a headache coming on.

Was Lu Ming flaunting his wealth? He was simply inhumane as a baller.

"Stop, stop, stop!" Lin Yin said loudly. "I'm not interested in your keys. Hurry up and return mine to me!"

Lu Ming held the key tightly in his arms and shook his head. "No, I like this one. As long as it's yours, I like it!"

Lin Yin was speechless. She turned around and looked at the scenery outside the window.

Lu Ming went forward with a fawning expression and asked Lin Yin, "Don't be unhappy. I'll make you something delicious tonight, okay?"

Lin Yin glanced at Lu Ming and said stubbornly, "I don't care about your food." Looking at Lin Yin's awkward expression, Lu Ming kissed her cheek.

Then, under Lin Yin's gaze, he instantly escaped Lin Yin's attack range and obediently hid in the kitchen.

Lin Yin glared at the shameless Lu Ming in embarrassment. Then, she raised her hand to touch her cheek, but her heart overflowed with sweetness.

As soon as Su Lin received the 70 million yuan, he instantly felt at ease. It was more reassuring to have this money in hand.

As for the half-dead Su Corporation, let the fool have a headache.

Su Zhen was released from prison two days later. He did not even have the time to go home to clean up before rushing to the Corporation.

The moment they entered the Corporation, many strange gazes gathered on Su Zhen.

Su Zhen thought that it was because he had not showered for a few days in prison and he stank, so everyone looked at him and quickened their pace. However, the moment he stepped into his office, Su Zhen was instantly stunned.

The things that originally belonged to him were now piled in the middle of the office.

Su Zhen roared, “Li Sheng!”

At this moment, the employee outside stood at the door and whispered,

“President Su, Secretary Li is in the meeting room now.”

Su Zhen’s head was on fire and his entire body was filled with killing intent as he pushed open the door of the meeting room.

Instantly, everyone inside turned to look at Su Zhen, who was standing at the door of the meeting room.

Li Sheng knew that Su Zhen would come out today, but he did not expect Su Zhen to come to the Corporation.

In his surprise, Li Sheng respectfully went forward and asked, “President Su, why are you here today?”

Su Zhen looked around at the people in the meeting room. They were all directors and shareholders of the company from before.

From the looks of it, they were here for a shareholders’ meeting.

Su Zhen snorted and said, “Why can’t I come to my own Corporation? I haven’t asked what you’re doing. Where’s Su Lin? Where is he?”

Li Sheng looked at Su Zhen in surprise and asked, “Didn’t President Su tell you? He sold all the shares of the Su Corporation to someone else. Today is the first day the new chairman comes to the company.”

Su Zhen looked at Li Sheng in shock and shouted in disbelief, “What did you say?”

Chapter 304: New Chairman

Li Sheng looked at Su Zhen's surprised expression and instantly understood that Su Lin had not told Su Zhen about this.

Su Zhen did not believe that the Corporation that he had worked so hard for his entire life would be sold by Su Lin, this wastrel. "Impossible. You must be lying to me."

As he spoke, Su Zhen turned to Director Zhao and asked with a smile, "Director Zhao, you must be joking, right? Could it be April Fool's Day today?" Chairman Zhao looked at Su Zhen with pity.

Because of a son's willful behavior, the Su Corporation fell into a financial crisis. His father even sold himself to raise money. In the end, he even sold his shares at a low price.

Sigh, raising a son like this was really a little tragic.

"President Su, accept reality!" Chairman Zhao said helplessly.

Su Zhen shook his head in disbelief and looked at the other directors.

In the end, when he saw everyone's mocking and pitying gazes, Su Zhen shouted indignantly, "I don't believe that anyone can eat all my shares!" "Is that so?!" A cold voice sounded from behind Su Zhen.

Su Zhen suddenly turned around and saw Lin Yin standing behind him with her men.

Su Zhen's uneasy premonition suddenly rose. "What are you doing here?"

Lin Yin looked at Su Zhen with a smile and said, "As a major shareholder, I'm naturally here to see what my Corporation looks like. How is it? Do you like my gift?"

Su Zhen looked at Lin Yin and shook his head. "It's not like that. This is my Su Corporation. How can an unrelated person like you enter? Security officer! Secretary Li, quickly call the security officer up and chase Lin Yin away!"

Li Sheng was also surprised. He did not expect Lin Yin to be the largest shareholder of the Su Corporation.

Lin Yin waved her hand slightly. Sun Biao, who was behind her, immediately went forward and handed the document to Li Sheng.

"Secretary Li, from now on, I'm the largest shareholder of the Corporation. As for you, you can continue to stay as a secretary. Your treatment will not change. Of course, it depends on your choice. I'll give you ten seconds to think it through."

Li Sheng looked at Su Zhen and then at Lin Yin.

It did not seem good to jump ship openly in front of his old boss.

However, he then thought about it. He did not jump ship. Su Zhen had given up on the Corporation himself. When he chose to transfer the shares to Su Lin, he should have expected an unpredictable outcome.

Therefore, when Sun Biao counted down to one, Li Sheng bowed respectfully to Lin Yin and shouted, "Chairman, I'm your secretary, Li Sheng. I hope we can work well together in the future!"

Su Zhen looked at Li Sheng, who had jumped ship in front of him, in shock.

He turned to look at the shareholders who had been following him and questioned, "Are you going to acknowledge this little girl as the chairman too? Aren't you afraid that she'll sell the company?"

Chairman Zhao rubbed his nose awkwardly and said, "We've already sold our shares. We're just here to celebrate with President Lin today."

There were also many shareholders who agreed.

Li Sheng said weakly, "President Su, Chairman Lin currently holds 70% of the shares."

Secretary Li's hidden meaning was obvious. Even if Su Zhen instigated all the other shareholders to defect, it was impossible for him to suppress Lin Yin.

Su Zhen really did not expect such an outcome.

The Su Corporation that he had worked so hard to maintain for so long had actually fallen into Lin Yin's hands.

"Didn't President Su call for security officers just now? Secretary Li, since this is your last request, satisfy him. Call the security officer up. I want to see if the security officer will chase me away or President Su." Lin Yin's gaze landed on Su Zhen's face.

Her gaze was gentle, but it was extremely arrogant.

Secretary Li was in a difficult position, but in the end, he called the security officer over.

Su Zhen looked at Lin Yin angrily and scolded, "You bastard, you planned all of this, didn't you?"

"Why are you making it sound so ugly? Shouldn't it be your son who's stupid?" Lin Yin's words were filled with sarcasm.

"Lin Yin, who are you calling stupid?!" Su Lin's voice came from behind.

Everyone looked at Su Lin, who was about to fight Lin Yin.

The next second, Su Lin, who had yet to approach Lin Yin, was picked up by the bodyguards behind her..

## Chapter 305: Shareholders' Meeting

Lin Yin looked at Su Lin, who was being controlled by the bodyguards, with disdain and said word by word, "Of course I'm saying that you're stupid! If you didn't have the brains to bid for that piece of land, why would the Su Corporation's cash chain break?"

Su Lin instantly understood. His father was right. All of this was definitely Lin Yin's scheme.

He looked at Lin Yin with red eyes and said angrily, "That call of yours was fake, right? You deliberately led me to think that the old airport was a treasure land, right?"

Su Lin was so angry that the veins on his forehead had already spread to his neck.

Lin Yin smiled brightly at Su Lin. "How did I lie to you? You were the one who eavesdropped on my call first. Are you blaming me? Besides, how is this not considered a treasure land? Aren't there many rare treasures? Any one thing is a priceless treasure. How did I lie to you?"

"You!" Su Lin was speechless by Lin Yin.

"Besides, no one with a brain will buy that piece of land at a higher price than the market price. In the end, you just can't. Your brain is empty and it's filled with grass! Otherwise, the Su Corporation wouldn't have reached this stage so quickly!" Lin Yin belittled Su Lin arrogantly.

Everyone looked at Su Lin with mockery and laughter.

Su Zhen, who was at the side, also looked at his stupid son angrily and cursed, "Idiot!"

Su Lin, who had been scolded in public, felt ashamed. All that was left was a pair of red eyes that glared fiercely at Lin Yin. "Lin Yin, one day, I'll kill you!"

Li Sheng shook his head speechlessly.

Although Su Zhen was not a very bold CEO, he had been conscientious for so many years and could still maintain the Su Corporation.

Why did he have such an impulsive and angry son who couldn't control his emotions?

Not only had she ruined her family business, but she was even threatening Lin Yin in front of everyone.

Lin Yin smiled and said to the lawyer who had brought her over, "Lawyer Liu,

I've been threatened. If anything happens to me in the future, please get the police to investigate Su Lin immediately."

Lawyer Liu smiled at Lin Yin and said, "CEO Lin, I'll remember it."

"Damn it, Lin Yin, don't be too arrogant! Let go of me, or I won't let you off!" Su Lin still did not restrain himself.

Everyone shook their heads. This person really couldn't recognize the situation. He was already controlled by someone, but he still dared to be so arrogant.

"Since you're here, don't be in a hurry to leave. Let's see how the Su Corporation you lost fell into my hands," Lin Yinyan said with a smile.

When Su Zhen heard Lin Yin's words, his heart bled.

This was the hard work he had spent most of his life on!

On the other hand, Lin Yin turned to look at the remaining shareholders opposite her. Her eyes were smiling, but they were filled with a sharp aura as she glanced at the entire venue and said, "Hello,

shareholders. First of all, I'm very happy that we're all a part of this Corporation. Secondly, as the largest shareholder of the Corporation, I'm very worried about the future development of the Corporation. Therefore, for my own benefit, I've decided to take the position of chairman. I wonder if everyone has any objections?"

Lin Yin said casually, her tone light, but her attitude was as arrogant as it could be.

Actually, if Lin Yin wanted the position of the chairman, she didn't need the consent of the other shareholders.

With Lin Yin's current shares, one person could hold a shareholders' meeting and decide.

She was still pretending to be polite now. Naturally, she wanted to make the Su father and son suffer.

Hence, the remaining shareholders echoed, "As the chairman, President Lin is what everyone wants!"

"CEO Lin is young and promising. You will definitely make the Corporation flourish."

"That's right, that's right. We firmly believe that under President Lin's leadership, our Su Corporation will go further."

"Did you say something wrong? What Su Corporation? It should have changed its name to Lin Corporation."

"Yes, yes, yes. I was confused. Hahaha!"

"Congratulations on CEO Lin becoming the chairman of the new corporation."

"We have to hold a banquet tonight to celebrate!"

Seeing that the shareholders, who had once nodded and bowed to him, had now turned to Lin Yin to curry favor and flatter her, Su Zhen felt like vomiting blood.

Su Lin was so angry that smoke was about to rise from his head. His anger had already burned away all his rationality.. “Lin Yin, you’re going too far!”

Chapter 306: Corporation Changes Name

With that, he raised his fist and was about to punch Lin Yin.

Unfortunately, in the next second, he was thrown to the ground by the bodyguard. His arm was folded behind his back, and there was the crisp sound of bones breaking.

Su Lin gritted his teeth and shouted in pain.

Lin Yin looked down at Su Lin, who was in a sorry state on the ground, with a disdainful gaze. She smiled and said, “Su Lin, if I were you, I would be smart enough to quiet down and watch carefully. Why are you still as stupid as ever?”

“Lin Yin, you’ll die a horrible death for being so greedy.” Su Lin gritted his teeth and cursed.

Dying a horrible death. In her previous life, she did not do anything. Didn’t she die a horrible death too?

She was not afraid of a curse. She wanted to see if Su Lin could still shoot her in this life and make her die a horrible death.

“You can’t control how I die this time. You’d better think about how you’re going to die.” Lin Yin’s gaze turned cold, and even her tone was cold.

With that, Lin Yin continued to look at the shareholders at the conference table and smiled. “Just now, some shareholders said that the name of the corporation needs to be changed. I agree deeply. After all,

the name Su Corporation is no longer feasible. It's not good for the future development of the corporation. It's a little unlucky."

She wanted Su Zhen's family to see what they had worked hard for their entire lives fall into the hands of others and become stronger by the day.

And they could only watch helplessly without being able to get a share. This feeling of powerlessness should be very interesting.

"Lin Yin, how dare you!" Su Zhen's jealous and angry voice sounded. There was craze and redness in his eyes.

Lin Yin glanced at Su Zhen and smiled. "I've decided to change it to the Shisheng Corporation. Any opinions?"

Without exception, everyone praised Lin Yin's suggestion.

At the side, Su Zhen's throat itched slightly and he coughed out a mouthful of blood.

Su Lin was frightened and shouted anxiously, "Dad! What's wrong?"

Then, his voice was filled with jealousy and anger. "Lin Yin, if you kill my father, I won't let you off for the rest of my life."

Lin Yin did not expect Su Zhen to be so angry that he would cough blood.

But on second thought, it made sense. It would definitely be unbearable when someone's emotional support suddenly disappears.

Su Zhen swayed his weak body and sat at the side, panting.

No matter how much Su Zhen and Su Lin fought, they could not change the fact that the Su Corporation had officially changed its name to the Shisheng Corporation.

The news of Lin Yin becoming the chairman of the Shisheng Corporation was notified to every employee of the corporation through the company's intranet.

When Su Fei and Chu Yun rushed over to look for Su Zhen and Su Lin, they were stopped at the door by the security officers.

Su Fei questioned angrily, "You're just a small security officer. How dare you stop the chairman's wife?"

The security officer looked at the former chairman's wife in disdain and said coldly, "Don't talk nonsense. The chairman of our Shisheng Corporation is a woman. She's still unmarried. How can there be a chairman's wife?"

Su Fei looked shocked. "What nonsense are you talking about? What Shisheng Corporation? This is clearly the Su Corporation! What's your name? I'll get Dad to fire you later!"

Su Fei did not want to believe that the Su Corporation, which she relied on to survive, had really fallen.

The security officer sneered and said, "Su Corporation? That's already in the past. This is the Shisheng Corporation now."

"The sign outside the building clearly says Su Corporation. Don't try to lie to me. I don't believe you. Let me in," Chu Yun said.

Although she knew that this matter was serious, she still couldn't accept it.

It was as if someone wanted to go against Chu Yun. As soon as Chu Yun finished speaking, a team of construction workers had already different-sized signs to replace everything with the name of the Su Corporation on it.

Su Zhen and Su Lin were held by a group of bodyguards and thrown to the entrance of the Su Corporation.

Seeing this scene, Chu Yun and Su Fei hurriedly went up to ask what had happened and why even Su Zhen and Su Lin had been thrown out.

Before Su Lin could answer, Li Sheng came out with his assistants and secretaries and instructed the construction team, "The chairman has instructed us to clear everything related to the Su Corporation today."

The person in charge of the construction team quickly agreed in a clear voice and started working with the people below..

Chapter 307: Start Over

Some dealt with some of the lower signs, and some went straight to the top floor and dismantled the words that occupied almost half the floor. The cleaning staff dealt with the various nameplates and some things that represented the company culture in the building.

The finance department, marketing department, administrative department, and other departments were also sorting out some information from the past.

Su Zhen was about to go crazy. He hugged the sign that the construction worker had torn down and was about to throw into the trash and refused to let go.

This was his life's work. He could not lose it just like that.

On the other hand, Su Lin and the others watched helplessly as the wall which had a Su Corporation sign a second ago was replaced by the Sheng Corporation. Everyone's expressions were a little ugly.

After the announcement on the official website, the matter of Lin Yin becoming the chairman of the Shisheng Corporation instantly became a topic of surprise.

Many people were guessing that Lin Yin had such ability because of the Lu and Mu families.

However, only Lu Ming and Mu Heng knew that Lin Yin had relied on herself to take over the Su Corporation this time.

It had to be said that Lin Yin was courageous and bold. She was quite capable.

When Lin Yin stepped into the classroom again, everyone who had looked down on her looked at her in disbelief.

After all, everyone in the class basically relied on their parents to survive, but Lin Yin was different. She was now the chairman of a corporation.

Those who had once said that Lin Yin was no longer the eldest daughter of the Su Family and wanted to bully her well all shrank their heads and did not dare to look at Lin Yin anymore.

In the past, they didn't dare to offend Lin Yin because she was the eldest daughter of the Su Family. Now, Lin Yin had directly become the head of the family, so they couldn't afford to offend her.

Perhaps their parents would have to bow down and curry favor with Lin Yin when they saw her.

However, they also knew that the Su Corporation's financial situation was not optimistic previously.

In this situation, wouldn't Lin Yin go bankrupt soon after taking over the Corporation?

Therefore, many people were waiting to see what would happen next.

At this moment, in the Su Family villa, Su Lin thought so too.

He said to Su Zhen, who had been hugging the Su Corporation's signboard in a daze, "Lin Yin definitely won't be able to clean up the mess from the corporation previously. When the time comes, we might be rich again and Lin Yin will go bankrupt. We can still buy it back."

As he spoke, Su Lin took out a card and said, "Dad, this is the 70 million yuan I sold my shares for. As long as we have this 70 million yuan, we can definitely make a comeback. As long as you're around, we can create a new Su Corporation."

When Chu Yun heard the 70 million yuan, her eyes lit up. She went forward and persuaded, "That's right. You don't have to worry about not being able to start over when you have money."

Su Zhen was helpless and he seemed to have suffered a huge trauma. He was on the verge of death, as if there was something wrong with his mind.

"Dad, say something? Don't scare me!" Su Lin said anxiously.

Su Zhen has always made the decisions in the Su family. Even if he had wanted to be independent in the past, if Su Zhen could not make it, he felt that he might be helpless.

Fortunately, after Su Zhen calmed down for a while, he slowly woke up.

He touched the sign of the Su Corporation and said in a slightly dazed tone,

"You're right. As long as I'm still around, the Su Corporation can start over."

As he spoke, Su Zhen took the bank card from Su Lin's hand and stood up. He said with a tired tone, "Go and rest. I'm fine."

The Su Corporation had fallen, and many of those shops and properties had been sold to fill the hole of not having enough capital.

Now, all Su Zhen had was the 70 million yuan in his hand and the villa he was living in.

The next day, Su Lin brought Su Zhen to Zheng Chao. The father and son asked Zheng Chao about the good project he had mentioned previously.

It was not that Su Zhen wanted to be so lowly, but he had limited funds now. There were many good projects that he could not enter just because he wanted to.

Therefore, he wanted to come to Zheng Chao to try his luck.

Zheng Chao said with a smile, "That's easy. Since I promised Su Lin, I'll do it. It's just that I want a guarantee. Shouldn't Feifei be sent over for me to check first?"

When Su Lin heard Zheng Chao's words, his fists hardened.. "Didn't we say that the new business has to be stable first?"

Chapter 308: Selling Su Fei Again

Zheng Chao lowered his eyes and smiled. "I'm just afraid that you guys will go back on your word. Don't worry, I won't announce to the public that Feifei is my future fiancée. This way, if I can't go on with it, Feifei can continue to get married in the future. You know, I'm in a hurry to find someone who's willing to marry me."

"Alright!" Su Zhen made a decision.

Between a daughter that he was not biologically related to and the future of the Su Corporation, he knew which to choose.

Moreover, Su Fei had already been sold once and so many people had slept with her at the same time, she was already filthy.

Now, it was Su Fei's blessing that Zheng Chao wanted to take over.

“Dad!” Su Lin shouted with disapproval.

He was not happy to give such a pure and kind Su Fei to Zheng Chao to begin with. Now, Zheng Chao was actually pushing his luck. How could he stand this?

“It’s settled!” Su Zhen had an unquestionable expression.

As Zheng Chao sipped his tea comfortably, he said, “Then let’s do it tonight.

Send her to my apartment at Linshui Pavillion first. Su Lin, what do you think?”

Su Lin was instantly furious. He said angrily, “Zheng Chao, don’t go overboard!”

It was not that the house in Linshui Pavilion was bad, but because it was Zheng Chao’s place to play with women.

Previously, Zheng Chao had even held a sex party there and invited him to attend together.

However, at that time, he only wanted Su Fei, so when he saw so many lewd scenes, he came out.

He knew that in the industry, this was normal.

They had money, looks, and status. They didn’t have any burdens in life. If they didn’t play with something exciting, life would be so boring.

Therefore, he was very dissatisfied with Zheng Chao at that time, but because Zheng Chao and Su Fei were engaged, he did not care.

However, he did not expect Zheng Chao to place Su Fei there today. How could he tolerate this?

His Feifei was so clean and kind. How could she live in such a place and be compared to Zheng Chao's sex workers?

Zheng Chao was definitely humiliating Su Fei.

Su Lin sighed slightly and said, "I only have that one private property, so I can only place Feifei there. Don't worry, I've already restrained myself a lot. It's good that I've turned over a new lead, right?"

Su Lin clenched his fists while Su Zhen stood up and said, "That's it. I'll get Su Lin to send Su Fei over tonight."

Su Lin was so angry that he gritted his teeth and left with Su Zhen.

After returning, Su Lin did not know what to tell Su Fei. In the end, when he was about to leave, he only said, "Feifei, I'll bring you out for a spin."

Su Fei looked at Su Lin, whose expression was written all over his face, and asked gently, "Brother, what's wrong? You don't look very happy?"

Su Lin did not know how to tell Su Fei that he and his father had sold Su Fei to Zheng Chao.

On the other hand, Su Zhen was quick and decisive. While Chu Yun was not around, he covered Su Fei's face with the knockout powder he had prepared and threw her into Su Lin's car.

Previously, Su Zhen could trick Su Fei into selling herself because the ship incident had not happened yet. Su Fei still trusted him as a father.

But now, Su Fei no longer trusted Su Zhen.

In addition, Su Zhen felt that his true colors had long been exposed, so he did not want to hide it anymore. He directly used violence to speed things up.

Su Lin looked at Su Fei in the backseat with heartache, his heart struggling.

He was a man, so he naturally knew why Zheng Chao wanted Su Fei in advance.

Therefore, there was a high chance that Su Fei would be ruined by that beast tonight.

Su Zhen's cold voice came from outside the car window. "Su Lin, you'd better not have any other thoughts. You have to think about the future of the Su Family. If the Su Family doesn't stand up again, you'll really have nothing forever. In the future, you won't be a rich young master with status. You'll be like those poor people, working for the rest of your life and living a poor life."

Guilt flashed across Su Lin's eyes. Then, he turned around abruptly and stopped looking at Su Fei.

They drove speedily and Su Lin quickly sent the unconscious Su Fei to Zheng Chao's apartment.

Seeing Zheng Chao come out in a bathrobe, Su Lin's heart ached and his eyes darkened.

Zheng Chao did not expect the Su father and son to be so ruthless as to knock Su Fei out and send her over.

He reached out to Su Lin and smiled. "Leave her to me.."

Chapter 309: Su Fei

Zheng Chao watched as Su Lin reluctantly handed Su Fei to him. His heart was filled with disdain. Then, he said, "Go back."

With that, Zheng Chao closed the door in front of Su Lin and threw Su Fei onto the bed.

It was boring to do it when she was unconscious. Zheng Chao asked the doctor to wake Su Fei up. Then, he looked at Su Fei with a smile, his gaze mocking and disdainful.

Su Fei looked at the unfamiliar surroundings and Zheng Chao, who had a malicious expression. She instantly panicked. "Why am I here? What are you doing?"

Zheng Chao admired Su Fei's panicked expression and took a few sips of red wine with a satisfied expression before saying slowly, "Your father and brother sold you to me in exchange for the project."

Su Fei's eyes widened.

She was not surprised that Su Zhen would sell her out, but this time, even Su Lin was involved. This was a little unacceptable.

Didn't Su Lin love her?

Was this the love Su Lin was talking about? When he encountered problems that would affect his interest, he could not withstand a single blow.

Su Lin and Su Zhen were indeed father and son. The two of them were as selfish and heartless as each other. It was disgusting.

"Zheng Chao, I don't care what agreement the Su father and son made with you. It has nothing to do with me. I'm going back now," Su Fei said as she got up and ran out.

In the end, the door could not be opened no matter what. Su Fei panicked and shouted at Zheng Chao, "Zheng Chao, let me out! What happened between you and the Su father and son has nothing to do with me!"

Zheng Chao slowly put down the wine glass in his hand and stood up to walk towards Su Fei. He smiled sinisterly and said, "This is not between me and them, but between me and you."

As he spoke, Zheng Chao's hand brushed across Su Fei's face. Then, he pinched Su Fei's cheek hard and said ruthlessly, "Because I'm a little disabled in my legs, you don't like me anymore. You despise me. Tell me, shouldn't I seek justice from you?"

Su Fei looked at Zheng Chao's dark and violent expression and explained in a panic, "I don't despise you. It was clearly your Zheng family who broke off the engagement, wasn't it?"

Zheng Chao touched Su Fei's lips heavily. "Just because our Zheng Family broke off the engagement doesn't mean that you don't despise me. Su Fei, today, I want you to serve a handicapped person like me well."

As he spoke, Zheng Chao pulled Su Fei's hair and threw her to the ground.

Su Fei fell to the ground, her limbs turning red.

Seeing that it was extremely hard, Su Fei quickly put on a pitiful look. Her eyes were filled with tears as she looked at Zheng Chao and cried, "It hurts! Brother Zheng Chao, don't be so fierce. I'll be afraid."

Su Fei had also thought it through. She just had to accompany a man. Why did she have to hurt herself?

Hence, under Zheng Chao's interested expression, Su Fei slowly got up and climbed onto Zheng Chao's body. She said softly, "Brother Zheng Chao, I still have you in my heart. At that time, I was sad for a long time when you broke off the engagement. How could I despise you? You've been with me for so long.

Don't you understand my feelings for you

Su Fei felt that her expression was already soft enough, but Zheng Chao, who was opposite her, did not seem moved at all. He only looked at her coldly.

Su Fei was secretly annoyed for a moment before she continued, "I came here in a daze today and didn't even wash my body. Why don't I take a shower first before I talk to you?"

“Talk? Su Fei, you’re already an adult. At a time like this, words can’t solve it. Or are you trying to talk dirty in bed?” Zheng Chao looked at Su Fei mockingly.

Then, Zheng Chao took off the towel around him and raised his hard penis at Su Fei.

However, Su Fei despised it a little. That tiny thing looked very fragile.

Zheng Chao sensitively caught the disdain hidden in Su Fei’s eyes and pressed her to the ground. “Stupid b\*tch, you still dare to look down on me. It seems like you won’t be obedient if I don’t teach you a lesson.”

As he spoke, Zheng Chao pulled off Su Fei’s underwear and pressed it under her. He held his already hard penis and stabbed it roughly under Su Fei’s body.

Even though it was a small penis, it still tore the dry tunnel apart in an instant.

It hurt so much that Su Fei’s scalp went numb..

Chapter 310: Not the First Time

When he stabbed into her without encountering any obstacles, Zheng Chao was stunned for a moment. He pulled Su Fei’s hair fiercely and questioned, “It’s actually not your first time! Damn it, how many men have you slept with?!”

Thinking about how he and Su Fei had been dating for a long time and he had never touched Su Fei, Zheng Chao felt indignant.

This b\*tch had actually been slept with by another man long ago!

Could it be that Su Fei was no longer a virgin when she was with him?

Thinking of this, Zheng Chao's anger intensified.

Su Fei was in so much pain that she could not speak. At the same time, she did not know what to say. Was she going to say that, yes, it was not her first time?

Seeing that Su Fei was silent, Zheng Chao became even angrier. He stabbed Su Fei's lower body fiercely, causing Su Fei to raise her neck and cry for a long time.

After that, Zheng Chao felt that it was not enough to vent his anger and planned to embarrass Su Fei.

Initially, he did not want to do this. He just wanted to take Su Fei's first time and humiliate her.

But at the thought that Su Fei might have made a cuckold of him long ago, he did not want to let Su Fei off so easily.

Since he had played with so many other people's women in the past, this time, he would treat it as sending Su Fei out to return the favor.

Zheng Chao used his foot to poke at Su Fei's hole, which still had white and turbid liquid flowing out of it. The thumb on his foot humiliatingly pierced into Su Fei's hole, simulating the posture of sex as he entered and exited.

Then, under Su Fei's panicked gaze, he quickly took a photo and sent it to the group.

Su Fei, who was on the ground, was ashamed and resentful, but she thought that since Zheng Chao had already taken advantage of her, it would not be worth it not to take some rebates.

Hence, Su Fei placed her hands behind her and raised her lower body slightly.

Coordinating with the frequency of Zheng Chao's toes, she moaned seductively.

Su Fei had thought that her actions would please Zheng Chao, but she did not expect that when Zheng Chao saw Su Fei's flirtatious appearance, he could not control the anger in his heart.

He looked angry. He picked up his phone and pointed it at Su Fei's face. He took a photo of this lewd scene and continued to send it to the group.

Then, she sent a message inside: Come to the Linshui Pavilion if you want to sleep with her!

Su Fei did not expect that her simple act of currying favor would cause her trouble.

On the other hand, Zheng Chao put down the cell phone in his hand and stabbed Su Fei's vagina with his big toe as if he was venting his anger.

Towards the end, it could almost be said that it was not an exaggeration to say that he was kicking her.

Su Fei's eyes were filled with tears of pain, but she still endured it.

Not long after, there was a knock on the door. Zheng Chao pulled out his toes that were buried in Su Fei's vagina and wiped the liquid on Su Fei's body with a look of disgust. Then, he was about to open the door.

Su Fei instantly panicked. "Brother Zheng Chao, don't open the door first. I'll tidy up my clothes first."

As she spoke, Su Fei was about to pick up the clothes on the ground and put them on.

In the end, her clothes were kicked aside by Zheng Chao before they could reach her.

Zheng Chao smiled ambiguously and said, "Why do you want to wear clothes? You still have to take it off later. How troublesome would that be?"

Then, Zheng Chao walked to the door in a few steps. Under Su Fei's terrified gaze, Zheng Chao opened the door.

Su Fei screamed and got up. She picked up the clothes on the ground naked and covered herself.

At this moment, the men outside the door saw Su Fei's comical scene and smiled mockingly. Then, the group entered the room and the door closed again.

If Su Fei still did not know what Zheng Chao wanted to do. Then she would be a fool.

She knelt on the ground and begged Zheng Chao, "Brother Zheng Chao, I love you. Can you really bear to treat someone who loves you like this?"

At this moment, a man with a tiny braid smiled and said, "I remember now.

Damn, Zheng Chao, isn't this your ex-fiancée? Didn't you always treasure her?

You didn't even let us make a few lewd jokes. Are you so generous today?"

Zheng Chao looked at Su Fei, who was already teary-eyed, and a cruel smile curled up on his lips. "What fiancée? I broke off the engagement a long time ago. She's just a b\*tch who can sleep with anyone. Why wouldn't I be willing? Tonight, you guys can have fun. If it's not enough, I'll call a few more prostitutes from the clubhouse over."

Zheng Chao's words instantly made Su Fei fall into despair. She shouted, "Zheng Chao, can you not do this? I'm different from those prostitutes.. You can't humiliate me like this!"
