Chapter 1041: Blinded

Swoosh!

Bang!

Bam!

Bam!...

Another shot was fired. It was a 55,000 combat-power strike!

The Chaos Blood Sword rotated like a streak, forming gargantuan Crimson Tornado Dragon. It looked very much like an actual beast and its force was frightening! Chen Xiaobei had used the Armor Penetration Shot from the Yuanmen Archery Skill, different from the brute force delivered by the previous shot. Instead of tearing through the submarine, it penetrated the body of the sub like slicing through tofu.

The Crimson Tornado Drago had drilled a large cavity about five meters wide from one end to another. The saltwater surged in, the submarine was doomed.

It was just a matter of time when the entire fleet would be completely wiped out.

Here in the deep ocean, human beings are incapacitated and weak!

Bang! Boom! Boom!

The Crimson Tornado Dragon was already drilling a large hole into the second submarine.

Chen Xiaobei was not kidding when he said destroy two submarines with one single shot!

If there was another submarine within his line of vision, it would definitely be one shot, three subs.

This was the power of Sunslaying Divine Bow!

"Return!"

The Chaos Blood Sword returned to Chen Xiaobei, after devouring the blood essences and spirits of the marines on those submarines!

Right after, Chen Xiaobei aimed at another target.

The same shooting skill! The same Crimson Tornado Dragon!

Chen Xiaobei did not even need to go up to the surface. He stayed where he was on the reef and continued to fire the stealth arrows. All the remaining submarines fell from their grace like broken toys.

.....

On the surface, the alarm in the bridge of one of the destroyers was wailing away. Originally, there were twenty blinking dots on the large radar screen. Now, they were disappearing one after another!

"We've lost contact again! We've lost communications with a few of the submarines... It was at the exact same rate. We'll lose communications with the rest of the submarines in another thirty seconds!"

The captain looked like he had just seen a ghost, he was terrified.

Even if it were actual naval warfare, the entire fleet of submarines would not have been destroyed so quickly!

There was no logical explanation for this!

There were a few non-uniformed personnel in the bridge.

Nikkawa Uchu watched the radar screen and asked, "Master Phantom Rain, what do you think?"

Next to him, Phantom Rain had her brows furrowed and forehead wrinkled.

"I think it's Chen Xiaobei!"

"That's not possible, right?" Green Dragon Enigmatic Ninja said, "Chen Xiaobei had gone into the water for so long! He's probably running out of oxygen already. Where would he find the energy to destroy submarines? In fact, it all happened so damn quickly! This is impossible!"

"Yeah!" Black Tortoise Enigmatic Ninja said, "Even though I wield the Water Celestial Event, it would be difficult for me to stay underwater for so long! No matter how long a person can hold their breath, there is a limit! If he runs out of oxygen, he would probably drown, how could he even find the energy to destroy a submarine?"

Phoenix Enigmatic Ninja tapped his chin and said, "But, other than Chen Xiaobei, what other power could destroy so many submarines in such a short time?"

"I suggest we dive down to find out! We'll know once we see it with our own eyes!"

White Tiger Enigmatic Ninja said, "Yeah, after all, the kid does have some interesting tricks up his sleeves. If we don't see it ourselves, I think we'll find it hard to figure out what's going on underneath the ocean!"

"Alright! Black Tortoise and I will go! All of you stay here and standby!" Phantom Rain made a prompt decision. She left the bridge with Black Tortoise and dove from the deck of the destroyer and straight into the ocean.

Phantom Rain and Black Tortoise Enigmatic Ninja were water attributed elites.

Once they hit the water, they were like fish in the water.

But, as they went deeper, about 300 meters below sea level, the water pressure grew so high that they had to use their True Kang to protect themselves before they could go any further down. When they were at 600 meters deep, they had to resolve using their Celestial Water Ability to continue downward.

Their visions darkened, and they could not see where they were going but they spotted flashes of red light coming from below.

"Master Phantom Rain, why don't we go back up? If we continue, we won't be able to withstand it any longer!"

Because they still had their True Kang to protect themselves which kept the water out so Black Tortoise Enigmatic Ninja was able to speak normally. However, there was no oxygen inside, the air inside was recycled and it was becoming more difficult to breathe.

On top of that, the pressure exerted by the surrounding seawater was increasing by the minute, wearing out their True Qi.

If the cycle was stopped, they would definitely suffocate.

When their True Qu was depleted, the water pressure would crush their heart and lungs. It would be lethal.

"You go up on your own! We're almost at the bottom! I will go down and take a quick look!"

Phantom Rain did not want to give up.

"But it's pitch black! You won't be able to see anything!" Black Tortoise Enigmatic Ninja said, "Let's go up together! It's more secure for us to go up and discuss it further!"

"Are you crazy? I have to go find out what those red lights are! You go up first! I will be right behind you!" Phantom Rain ordered.

She reckoned that the flashing red light was the mysterious force that destroyed the submarines! And it was more probably the work of Chen Xiaobei! The Tenshou had kept Chen Xiaobei's presence in Japan a secret from Nikkawa Uchu because they needed him alive to study the secrets on Chen Xiaobei's body.

Even though no one else believed it, Phantom Rain was certain that Chen Xiaobei was not just a regular commoner. There was nothing that Chen Xiaobei could not do.

"That's strange. What happened to the red lights? It disappeared. Am I too late?"

Phantom Rain could not see a single ray of red light nor hear the movements of the submarines.

It was pretty obvious that all twenty submarines were wiped out!

Without the light to guide her, Phantom Rain could not see anything and had to turn back.

But just as she was turning to leave, a familiar voice came from behind her.

"Chen Yasai! Were you looking for me?"

It was Chen Xiaobei.

"F*ck! It really is you!"

Phantom Rain spun around, teeth gritted, and ready to attack Chen Xiaobei with her True Kang!

"Oops! Chen Yasai, I'm here! You missed!" Chen Xiaobei mocked.

"Die!" Phantom Rain unleashed a heavy strike at the direction of the voice.

"Chen Yasai, you really have a bad sense of direction! I'm here!" Chen Xiaobei sniggered.

"Die, you idiot!"

Again, Phantom Rain launched another attack but missed.

She was basically blind right now.

But Chen Xiaobei could see perfectly and his movement was sharp.

It was like playing of catch but blindfolded. Phantom Rain was being fooled around and she was bent out of shape.

Swoosh!

Without warning, a light shot out of Chen Xiaobei's palm and flew straight at Phantom Rain!

Chapter 1042: Defeat Chen Yasai

Swoosh...

The gold light came out of nowhere, at warp speed.

"Oh no!" Phantom Rain did not know what to do!

She was both pissed and panicky, focusing all of her attention on pinpointing the direction of Chen Xiaobei's voice, on how to attack Chen Xiaobei.

She was completely caught off-guard.

When the gold light flashed, she had no time to even use her ninjutsu.

Poof!

The gold light grew into a circle like an arc made of water above Phantom Rain's head.

Then it tapered until it was firmly bound onto her head.

Golden Circlet!

Chen Xiaobei did not even bother to use the Deity Constricting Rope. He had simply used the seabed's trophological advantages. The reason why he failed to do it the last time was because of Phantom Rain had used Kawarimi no Jutsu. This time she was blind as a bat and had flown into a rage. That was why Chen Xiaobei managed to gain the upper hand this time.

"Chen Xiaobei! What did you do to me? You bastard! What did you do? What is this thing on my head...?"

The dim golden light glowed enough for Chen Xiaobei to see her about as far as 1 meter of her surroundings.

But Chen Xiaobei had already retreated about ten meters away, away from her sight.

"Have you seen 'Journey to the West'? The thing I put on your head is the same Monkey King wore! Bright and shiny, it's eye-catching and looks rather cool!"

Chen Xiaobei smiled and said, "The important thing is, once I chant the 'Circlet-tightening Spell', the Golden Circlet will make you feel so good!"

"Do you think I was just born yesterday? Of course, I've seen 'Journey to the West!' Phantom Rain spat, "Do you think you're Sanzang? You were going to cast the 'Circlet-tightening Spell'? You might as well say that you're Buddha! Isn't it easier for you to just slap me to death?" Phantom Rain shouted as she attempted to remove the circlet.

But no matter how hard she tried, even if she were to use her True Kang, she would never be able to take it off.

"Heh, don't say I'm not modest but you will not be able to escape from my fingers!" Chen Xiaobei laughed. "I will hit you, of course! I will hit your cute little butt!"

"What did you just say? You disgusting pervert! You will die!" Phantom Rain screamed at the top of her lung, exasperated.

With her position and status, even Nikkawa Uchu would have to call her Master Phantom Rain! Those with lower ranks would have to offer their respects to her like she was a god. Chen Xiaobei was the first person to make lewd remarks at her!

The last time in the hotel, there was a hidden reason as to why she was nearly attacked by Nikkawa Okazaka.

That was a topic for another day.

Right now, she could not stand being played by Chen Xiaobei!

"Argh... Argh..."

Phantom Rain's was followed by her body's True Qi to surge violently.

Water Celestial Event activated!

The water all around started to stir, roiling viciously as if there was a giant dragon splashing around!

"Chen Xiaobei, I want you dead!" Phantom Rain's vision was limited to a one-meter radius and she could not locate Chen Xiaobei's exact position but she was confident that she could use her power to crush Chen Xiaobei!

This was the deep sea.

Any normal human being would not even be able to survive even if there was no such Water Celestial Event around them. Even an elite or Celestial-cultivated elite would consume a lot of their True Qi. They would not be able to withstand being here for too long.

Just like the last time Chen Xiaobei suffered from the deep sea current in the seabed last time.

In the natural element, human being are tiny and pathetic, without any ability to resist.

Phantom Rain believed that if Black Tortoise Enigmatic Ninja was in her position, he would not be able to last for another 3 minutes.

She had never thought that she would be here risking her life to trigger the Water Celestial Event, stirring the waters like a Tsunami. But Chen Xiaobei stood on the reef, watching her quietly, completely unaffected.

"Chen Xiaobei! Say something! Why aren't you talking?"

After a while, when Phantom Rain felt that her True Qi were nearly exhausted, only did she stop.

She tried to get a feel of her environment to gauge whether Chen Xiaobei was dead or alive.

"Chen Xiaobei! I thought you're very powerful? Weren't you going to cast the 'Circlet-tightening Spell'? I thought you wanted to have fun with it? Go ahead and read out the spell! You loud-mouth!"

When she did not hear Chen Xiaobei move, Phantom Rain let out a sigh of relief and planned to swim back up to the surface, take in a deep breath and then come down again with a searchlight to find Chen Xiaobei's body!

But as she was about to leave, she heard the sound she dreaded.

"Chen Yasai! since you want me to read the spell so badly, let me fulfill your request! Try not to cry!" Chen Xiaobei's voice rang with a hint of mockery.

Chen Xiaobei then started to read the ancient Sanskrit scripture.

"How is that possible? You are perfectly fine... Huh? What... What is happening? My True Kang..."

Before Phantom Rain could finish her sentence, she felt an immense force squeeze at her clamp down on her True Kang!

Though this should not be pretty ineffectual to the 110,000 combat-power Phantom Rain. But now her Inner Qi and True Qi, especially her True Qi which was sustaining her True Kang, was nearly dried up. The water pressure was already draining her True Qi but the pressure from the Golden Circlet was the last straw.

Bam!

Finally, Phantom Rain could not hold it any longer.

Her True Kang shattered. Without that layer of protection, the saltwater gushed toward her body and forced its way into her mouth and nose. She started to suffocate and, in a few minutes, passed out.

She was lucky that her health was 110,000 or she would have died under the pressure!

"Sigh, why do people keep thinking that I'm bullshitting when I'm telling the truth?"

Chen Xiaobei swam towards her and held her in his arms. "I said that I will read the spell but you didn't believe me. Now you can't run away anymore, can you? Hehe..."

Chen Xiaobei looked around and took Phantom Rain to the nearest submarine wreckage where he found an oxygen tank and a diving helmet, both of which he put onto Phantom Rain.

After all, she could be the reincarnated Daji. Chen Xiaobei could not let her drown.

"Huh? What is that?"

Just as he was about to leave, something caught his eye!

[Red Envelope Group of the Three Realms](#)

Chapter 1043: Ancient Ruins Under the Sea

Among the remnants of the submarine, Chen Xiaobei found a pile of torpedoes and guided missiles!

"It looks like that my enemy was getting ready to have a major showdown with me. They even armed their subs with so much ammunition! That's good! This is really convenient for me! Ahaha..."

Chen Xiaobei then put away about a dozen torpedoes and another dozen guided missiles into the Infinite Space Ring.

There were still nineteen other submarines around the area!

"I'll take them all!" Chen Xiaobei put Phantom Rain on the floor and swam from one wreck to another, collecting all the ammunition into the Infinite Space Ring.

Soon, they were all swept clean.

The Infinite Space Ring had turned into an arsenal. There was a total of 200 guided missiles and 300 torpedoes!

Using all of them at the same time could blow up an entire aircraft carrier!

"Shall I go up now and start a war?" Chen Xiaobei narrowed his eyes and raised his head up.

It was dark down there but with Waterproof Nacre, Chen Xiaobei's vision was unaffected. He could roughly see that there were about thirty military naval ships on the surface: destroyers, battle cruisers, small battleships—these were all here to launch an attack on Chen Xiaobei, loaded and ready to fire. It was not something to be taken lightly.

Moreover, hovering above were about ten Supersonic Falcon, ten F-22 raptors and a Stealth Bomber on standby.

"Forget about it..." Chen Xiaobei shook his head and said, "There's nothing to gain or lose if I fight these machines! I'd rather not waste my resources!"

Other than snatching a couple of Red Envelopes, Chen Xiaobei had also secured a few hundred ammunition.

Furthermore, he also increased his combat power by 9,000!

After absorbing a few hundred blood essences and spirits of the marines into the Chaos Blood Sword. It could now unleash attacks that were as powerful as 100,000 combat power!

Right now, Chen Xiaobei was more than capable of disposing of his enemies both in the air and in the sea. But it would be a waste of resources and would be pretty much useless to him.

"Never mind then!"

Chen Xiaobei made a decision quietly then swiftly took out the spirit cage from the Infinite Space Ring.

Whoosh...

Qie Loulan flew out immediately. As a Spirit, it was not afraid of seawater.

"Bro Bei, do you need any help?"

"Didn't you recall the remains in the seabed? Do you remember anything else now?" Chen Xiaobei asked.

"No..." Qie Loulan shook its head and said, "I would get a splitting headache whenever I think about the past..."

Wroom...

Before he could finish, there was a movement inside the Spirit Cage!

The Dark Purple Crystal Token he found inside the Xu Fu's brocade box, glowed purple and flew out of the Spirit Cage on its own.

It did not fly away, instead it hovered in front of Chen Xiaobei and pointed to the east!

Chen Xiaobei and Qie Loulan looked at each other and came to the same conclusion, "This token is pointing us in the right direction. We should be able find the remains!"

With that, Chen Xiaobei picked up Phantom Rain and together with Qie Loulan, headed east.

The Dark Purple Crystal Token flew ahead of them, not slowing down at all. It was truly magical.

Because of the Waterproof Nacre, the water pressure did not affect him, so he moved at the same speed as if he were on land.

It only took him a few minutes to travel about 100 km.

The Dark Purple Crystal Token came to a stop and, before Chen Xiaobei and Qie Loulan's eyes was a crumbling ruin!

"This... This is an ancient city!"

Chen Xiaobei was shocked.

Even though everything was in ruins, having eroded with time, you could roughly make out the walls, houses and streets.

This was a pretty large moat. From the extent of the ruins, one could tell that this ancient city was many times older than Japan!

"How did this ancient city sink so deep into the ocean?" Chen Xiaobei peered at it, examining it but he could not find any clues.

This ancient city was not recorded in the world's history.

In fact, the history that the regular citizens were taught might not be entirely true.

There were too many secrets kept hidden by men or had not been discovered.

The earth is vast! There was so much more that men have yet come to know!

"Bro Bei! Follow me! I can feel that I'm drawn in by a mysterious force!"

Qie Loulan's expression suddenly changed and he rushed toward the center of the wreckage. Dark Purple Crystal Token followed behind him. The closer they were to the center, the brighter the purple glow grew!

"It looks like the legendary treasury is right there!"

Chen Xiaobei quickly followed behind. But there was uncertain about something. "The Yin Qi exuded from the Dark Purple Crystal is really heavy. Why would anyone use it as a key to a treasury? Even my body wouldn't be able to stand carrying the Dark Purple Crystal around long-term!

Of course, he would not be able to get any answers right now.

He would need to take one step further to solve this puzzle.

The surroundings were in shambles but there in the center was a perfectly intact, as good as new, altar!

It was round in shape, about 30m in diameter and 10m tall.

The entire altar, from the very first step, was made of a clear black jade tile!

It was amazing how they were able to build an altar like that during those times.

"Bro Bei, come over here quickly!"

Qie Loulan and the Dark Purple Crystal Token had already reached the top of the altar. The purple glow was radiant, luminescing the entire altar!

"Such heavy Yin Qi!"

Chen Xiaobei rush to the top, carrying Phantom Rain and was immediately hit by the heavy Yin Qi all around him!

The extreme cold had caused Phantom Rain shivering non-stop and she hugged Chen Xiaobei tightly out of natural instinct. Her soft, perky breasts pressed against Chen Xiaobei's chest. Sadly, Chen Xiaobei was wearing the Wardragon Scale and could not experience that pleasantly shocking spring.

"Bro Bei, look!" Qie Loulan pointed to the ground and said, "If I'm not mistaken, that is a Teleportation Formation!"

"Teleportation Formation?"

Chen Xiaobei's eyes widened as he looked down at the ground.

On the black jade tile under his feet were carvings of symbols and each of them glowed purple.

"This Dark Purple Crystal Token is the core item of the Teleportation Formation! It had activated the symbols! Once the formation is activated, we will be sent to an entirely different space!" Qie Loulan exclaimed.

"How do you know all these?" Chen Xiaobei was curious.

"My memories are slowly coming back to me. I knew about this Teleportation Formation a long time ago!" Qie Loulan said.

"Where will it transport us to?" Chen Xiaobei asked urgently.

"The Abyss!" Qie Loulan answered.

Red Envelope Group of the Three Realms

Chapter 1044: Enter the Abyss

"The Abyss? What place is that? Where is the treasury?"

Chen Xiaobei was taken aback. What kind of joke is this? He had come to find the treasury! He did not have to spare to go to this Abyss.

"I don't remember much about that place... But I do know that the Abyss is a place created by a demigod!" Qie Loulan recollected. "There is a treasury there left by the demigod! That time, in order to isolate to train himself, he hid in this private space, and brought all his resources into it with him!"

"What?! A demigod's treasury?! And he even brought all his resources with him?!" Chen Xiaobei's eyes glimmered. "Then, what are we waiting for? Let's go and check it out! I would be rich if I have hundreds and thousands of Spiritual Stones."

This time, on his trip to Japan, Chen Xiaobei still had a great war ahead. The more resources he possessed, the more rewards he would get. If what Qie Loulan said was true and they find the treasury the demigod left behind, he would instantly become very wealthy!

"But I vaguely remember that there is some kind of threat... I can't pinpoint it exactly, I can't remember anything else..." Qie Loulan frowned and said.

"Could it be that the demigod is still alive?" Chen Xiaobei gasped.

"No..." Qie Loulan shook its head and said, "I remember that the demigod died in a war..."

"Died?" Chen Xiaobei looked horrified. "Only someone as powerful as him could kill a demigod! Does the fall of this ancient city have anything to do with the war?"

"That, I don't remember. But what you say makes a lot of sense!" Qie Loulan said, "The demigod is powerful enough to destroy an entire island on his own! Luckily, he's already dead. If not, we will definitely not be able to enter!"

"Okay, let's go take a look. If anything happens, I can still reverse time!"

Chen Xiaobei was ready. If they come face to face with an unbeatable enemy, he will just use the Moonlight Cache to turn back the time. As long as they do not get killed instantly and was still able to mouth a line from the Maha Prajna Paramita Hridaya Sutra then they would be able to return to the safe period!

Ultimately, his lifespan was now 9,000. It would not do any major harm for him to use the Moonlight Cache a few times.

"Reverse time? This... Is that real?"

Qie Loulan looked flabbergasted. To him, that was just a folklore!

"Of course..."

Before Chen Xiaobei could continue, their surroundings suddenly erupted and transmuted.

Boom! Bam! Bam... Vroom...

The altar shook like there was an earthquake and a strapping force spun around vigorously on the ground.

Then a dark purple screen that looked like a person-tall mirror appeared in the center of the formation.

"That is the door to the Abyss!" Qie Loulan said.

Chen Xiaobei said, "Alright, let's go!"

Pop... Pop...

They all walked into the dark purple screen.

The other side was completely dry! There was not a drop of water inside, as if they had arrived at the shore! Their surrounding was also drastically different! It was dark and coal black all around, completely desolate!

Bald withered trees, weathered rocks, and bone-piercing howl of the wind!

The name Abyss could not be more fitting!

There seemed to be no end to this bleak scenery, like the Yellow Springs road that leads to hell – no one could tell what was ahead!

Voom...

The Dark Purple Crystal Token dimmed as it had completed its mission and fell into Chen Xiaobei's palm. Chen Xiaobei then put it aside. If he realized that he did not need it later, he would just eat it to increase his health.

Xiao'er longed to taste this Dark Purple Crystal which meant that this material must be some rare stuff!

"Bro Bei, who is that girl you're carrying?" Qie Loulan alerted, "There could danger ahead. We can't carry her around like that. Should we leave her here?"

"No, this woman is dangerous." Chen Xiaobei shook his head, placing Phantom Rain on the floor. He took off the oxygen mask so that she could breathe fresh air.

Qie Loulan was puzzled. "When I was making Nikkawa Okazaka's mask, I overheard Cang Jingu mention that you have Heavenly Dog Biscuits. Why don't you give her one?"

"That's because the Heavenly Dog Biscuit is too potent. It could kill a person's heart!"

Chen Xiaobei looked down at Phantom Rain's pale, beautiful face and said, "There's a chance we could become friends. That's why I can't feed her the biscuit! I will only choose to eliminate my absolute enemies' freedom of will!"

Obviously, Chen Xiaobei suspected that Phantom Rain was the reincarnated Daji.

He did not feed Six Ear Macaque or Jiang Ziya with any dog biscuit because they might become his allies. There was a possibility that she might do the same.

Chen Xiaobei would rather suffer a loss than kill a friend's heart!

"We can't leave her here and we can't feed her the dog biscuit. That means we'll have to wait for her to wake up. If we bring her in, then we'll be in big trouble when trouble arises!" Qie Loulan said impatiently.

"We won't have to wait. I have a drug that could wake her up immediately."

A bottle of Hundred Herbs Potion appeared in his hand.

Phantom Rain had merely passed out. She would be able to wake up once she drank from the bottle.

"Wait!" Chen Xiaobei suddenly remembered something very important. "I want to check if she's the reincarnated Daji. It won't be so easy when she's awake."

"What is the reincarnated Daji?" Qie Loulan asked, puzzled.

"You won't know even if I told you." Chen Xiaobei was too fast to explain.

He placed the Hundred Herbs Potion on the floor, knelt beside Phantom Rain and then reached for her collar.

She was wearing an elegant kimono, and because her powerful health, she was not afraid of cold, ergo the very thin material. It was now soaked in seawater and clung to her body, outlining her devilish curves! She looked tantalizingly delicious!

"What the... Hormones! Don't act up on me now! We have not done our work yet..."

Chen Xiaobei swallowed as he pulled her kimono open, revealing a portion of her fair, swollen wet breasts... and that deep plunging cleavage...

"What the hell! Bro Bei! Are you really doing this? Exploiting her when she's unconscious?" Qie Loulan's eyeballs were practically hanging from their sockets.

Why did Chen Xiaobei undress her?

"Exploit my ass! Do I look like that kind of person to you?"

Chen Xiaobei rolled his eyes at Qie Loulan before reaching toward the fair, heavy breasts.

"Yes..." Qie Loulan nodded, full of certainty.

Chapter 1045: Temporary Ally

"Wow... It's so soft... So bouncy... So smooth..." Chen Xiaobei felt a deep longing inside him. He was on the verge of losing control. He was a man after all.

"Bro Bei, you enjoy yourself here... I will go check things out in front..." Qie Loulan said uneasily.

"The f*ck enjoy! Come back now! Ahem... I was not being a pervert... You must believe me..." Chen Xiaobei concentrated and said, "If she is the person I'm looking for, a Crimson Lotus will appear on her chest where her heart is once I inject True Qi in her chest!"

"Crimson Lotus?" Qie Loulan raised his brows.

"Right, take a look!" Chen Xiaobei nodded and then he started to channel True Qi into Phantom Rain's chest.

After a few minutes, Chen Xiaobei released his palm.

"Nothing..."

Qie Loulan's curiosity was replaced with disappointment.

There was nothing unusual on her left breast, much less a Crimson Lotus.

"Maybe I didn't channel enough True Qi to her? Let me try again!"

Chen Xiaobei covered her breasts with his hand again.

"Bro Bei, you go ahead and enjoy yourself. We are friends after all. There's no need to be coy."

Qie Loulan quickly turned to leave.

"Come back this instance! I am not doing anything perverted!"

Chen Xiaobei was a little agitated.

"Ah!"

Phantom Rain let out shrill cry suddenly.

She had just come to and when she opened her eyes, she saw a pervert groping her breast!

"You lowlife pervert! You took advantage of me when I was unconscious! I... I'll fight you!"

Phantom Rain was indignant. All her life, she had never let any man hold her hand, much less touch her breasts!

Smack!

Phantom Rain raised her hand to hit Chen Xiaobei in the face.

"\$%#@^ap;ap;*~"

Chen Xiabei was sharp, he quickly mouthed a string of gibberish malediction—it was the Circlet-tightening spell.

"Ah, god it hurts... My head hurts... What the hell... This thing is still on my.... Argh...It hurts like hell..."

Phantom Rain trembled. She drew her hands back instinctively and grabbed her temple.

The pain had come from the Golden Circlet!

Earlier, the circlet had latched around her True Kang, which explained why Phantom Rain did not experience any pain. But now, with her True Kang gone, the circlet was tied directly onto her head.

Once the spell was read, the golden circlet shrank, giving her a head-breaking pain.

Chen Xiaobei did not intend to torture her, he took a step back and said, "I don't care if you believe it or not, I was not molesting you!"

"Pfft! Only a fool will believe you!"

Phantom Rain took a deep breath, stood up, raised her fist and charged toward Chen Xiaobei.

"\$%#@^ap;ap;*~"

Chen Xiaobei had no choice but to continue the spell.

"Argh..."

Phantom Rain's face paled. She could not hold it any longer than three seconds, "Stop it... Please stop... I believe you, alright..."

"That's more like it!"

Chen Xiaobei stopped reading and said, "I really don't want to hurt you. If I do, I would've already destroyed your cultivation and I would have done anything I'd like to you! Why would I keep you from harm and risk getting bitten by a tigress?"

"Who are you calling a tigress?!"

Phantom Rain glared at Chen Xiaobei, she wanted to rip this bastard apart!

But the Circlet-tightening spell was too agonizing an experience; she dared not make another attempt at attacking Chen Xiaobei.

And Phantom Rain was well-aware that she was unharmed.

If Chen Xiaobei had any ill-intentions at all, he would have f*cked her a hundred times already. He would not have just stopped at touching her breast! As she thought about it, her spite toward Chen Xiaobei lessened. But she must have her revenge for being touched! That was a must!

"Chen Yasai! What plans are you cooking up in that head of yours?" Chen Xiaobei narrowed his eyes at her, as if he knew what she was thinking and warned, "I strongly advise that you refrain from trying to retaliate! Or I'll make sure you have more fun later!"

"Hmph! What's so great about using a Spiritual Item?" Phantom Rain taunted. "If you're really so good, let's fight, one to one! If you can still make me suffer, then I'll do as you say!"

"Oh please, stop being so childish! I won't fall for this kind of boorish goading!" Then Chen Xiaobei recollected himself and said to her in a serious manner, "I'll be honest with you. I did not hurt you

because I have a feeling that you are one of my friends. She has a birthmark on the left side of her chest. It will appear when someone channels True Qi into it!"

"Friend?" Phantom Rain eyed him suspiciously, "You got the wrong person. I don't have any birthmark on my body."

"You're only saying that because you've never done it before!"

Chen Xiaobei said, "How about this, you let me try again one more time. If it doesn't appear, then I'll consider letting you go!"

"Oh please!" Phantom Rain spat, "You f*cking pervert! You just want to touch me again eh? Why don't you just kill yourself?!"

"How many times do I have to repeat myself?" Chen Xiaobei said, exasperated, "If I'm really a pervert, you would have become a woman already! Why should I stand here and listen to all your bullshit?"

"You are a pervert! No many how many times you deny it, you are a pervert!"

Phantom Rain looked at him like he was a predator and covered her chest with both hands.

"I..."

Chen Xiaobei was at his wit's end. Obviously, trying to talk sense into her is useless. Though Chen Xiaobei could do whatever he wanted to her since he had the Golden Circlet on her. But if Phantom Rain really was the reincarnated Daji, they might never be able to become friends and might even become enemies!

Let's not forget that Chanism was also looking for the reincarnated Daji!

He would have to use a gentler approach!

Chen Xiaobei made up his mind and then said, "Alright. I won't look. Is that okay?"

"You won't look?" Phantom Rain still had a horrified look on her face, "If that's the case, you might as well just let me go... I will be grateful to you for that."

"Let you go? Do I look stupid to you?" Chen Xiaobei disagreed and said, "Before I am able to gauge whether you are a friend or foe, you will have to listen to my instructions! I may not hurt you, but I'm not so stupid that I would release a tigress!"

"You are the she-tiger! Your whole family is a tigress!"

Phantom Rain's eyes bored into Chen Xiaobei. Although she claimed that Chen Xiaobei was a pervert, somehow, deep inside, she believed him. If Chen Xiaobei did not treat her like a friend, he would have just read the Circlet-tightening curse and cause her to suffer so badly that she could not fight back.

He could actually do anything to her!

Chen Xiaobei had taken such a big step backward and Phantom Rain dared push him any further, and exasperate him. She would be on the losing end.

And just like that, their relationship hung on a delicate balance—they did not trust each other but they were also careful not to step on each other's toes.

They were basically provisional allies!

Chapter 1046: Daitengu

"What is this place?"

Phantom Rain was walking alongside Chen Xiaobei.

But she did not recognize her surroundings.

There was not a soul in sight, and the sky was bleak; it was dim and there was not a trace of a cloud.

It was all very unfamiliar to her, it did not look like they were on earth at all.

"You wouldn't know if I told you. Just follow me and don't even think of informing Nikkawa Uchu!"

Chen Xiaobei dismissed her question and focused his attention on the road ahead.

Qie Loulan had said that in there a certain danger lurking in this place. A danger so menacing that even he, an Eight-Stars Wight, was so afraid of. Chen Xiaobei did not dare to take it lightly!

"What you just said is not even logical I don't even have any communication tools on me. How am I supposed to inform Nikkawa Uchu?" Phantom Rain said frostily.

"It's good to be honest. If you try to pull anything, don't blame me for being rude!" Chen Xiaobei said.

"What could I do?" Phantom Rain mumbled. Slowing down her pace a little, hands behind her back, trying to activate her ninjustu!

But she had used up her True Qi. Her Dantian was emptied; she could not use unleash any ninjutsu at all.

She could only hope that Nikkawa Uchu could find this place...

Phantom Rain was reluctant but right now, she would have to follow Chen Xiabei obediently.

"Bro Bei! Bro Bei! There's danger ahead!" Qie Loulan suddenly screamed.

Because he was in Spiritual Form, people without Spiritual eyes would not be able to see him.

So, he flew about 10m ahead of Chen Xiaobei to make sure that the path was clear and warned Chen Xiaobei of any incoming threat.

"Danger? Who said that?"

Phantom Rain's eyes widened in alarm.

"You could hear his voice?" Chen Xiaobei asked.

"Of course! It's so loud! Only a deaf person wouldn't be able to hear that." Phantom Rain barked.

"That voice belongs to a spirit that I rear! Ordinary people cannot hear him!"

Chen Xiaobei pointed ahead to Qie Loulan who was flying hurriedly towards them.

"That..."

Phantom Rain froze.

Chen Xiaobei was just as surprised. "Who knew that not only are you naturally born with X-ray Eyes, you also have Yin Yang Eyes. I think you are the only mutant born with these two abilities, right?"

Actually, Chen Xiaobei's Yin Yang Eyes were actually Netherspirit Battlescouter and his X-ray Eyes were actually Golden Gaze Fiery Eyes. And these were not inherent! Only people like Phantom Rain that born with special abilities would receive favor from Mother Nature!

"Chen Yasai, what are you daydreaming about?" Chen Xiaobei laughed, "Your cover's already blown. You can stop pretending now. Do you take me for a fool?"

"You... Are you really that stupid?" Phantom Rain's voice trembled a little and she gulped. "This is a Daitengu! But you keep calling it a spirit!"

"Daitengu?"

Both Chen Xiaobei and Qie Loulan were dumbfounded at this revelation. Chen Xiaobei had felt that Qie Loulan looked like a Japanese monster called the Tengu. But he was unfamiliar with Japanese history and did not study too much about it. Who would have thought that Phantom Rain had given him a sure answer today! And from the look on Phantom Rain's face, the Daitengu must be pretty formidable.

"What is a Daitengu?" Both Chen Xiaobei and Qie Loulan asked in unison.

Chen Xiaobei was purely curious whereas, Qie Loulan wanted to find out who he was prior to his memory loss. And why was he in hibernation?

"You uncultured fools!" Phantom Rain then set to explain in detail. "In Japan, as long as you reach Sky Ninja, or as you Chinese say demigod, you can use secret technique and sign a contract with the Demon God so that your spirit will not end up in hell or go through reincarnation! Their spirit will transform into Tengu so that they can stay amongst men to continue to train themselves! As long as they train till they become an Earth God, they would receive the chance to ascend to become a real deity in heaven! And Daitengu is a Tengu that has gone through an innumerable amount of years of evolution and is very close to becoming an Earth God!"

Both Chen Xiaobei and Qie Loulan could not believe what they were just told.

"The f*ck! There is such a thing?!" Qie Loulan exclaimed. "Then, does that mean that I was a Sky Ninja? And now I'm very close to becoming an Earth God?"

Chen Xiaobei, on the other hand, asked, "Is there a difference between a demigod and an Earth God?"

He had heard Lu Bu mention the word Earth God many times before. It was apparent that they were two different things altogether.

"Demigod means the person is half human half soon-to-be-god! And Earth God is a real god! How could they be the same?" Phantom Rain said, "To put it plainly, Demigods are still human and Earth God is an entity between an ordinary human being and the deity in heaven!"

"Oh..." Chen Xiaobei nodded and then asked again, "But Qie Loulan is not as strong as you said, he only had 40,000 combat power! Let alone an Earth God! He hasn't even achieved pinnacle phase of True Nirvana cultivation!"

"Maybe it's because he was hurt badly by a Pure Yang Item... Give it some time... He will recover in no time!"

Phantom Rain came up with a logical guess.

But her shock had not dissipated.

How could Chen Xiaobei possibly rear a Daitengu?! Luckily Qie Loulan's was badly hurt or he would be the scariest enemy.

"Could it be that," Chen Xiaobei tried to come up with a logical explanation. "The ruins was an island on the sea and Qie Loulan was the owner of that island! And many years ago, the island collapsed because of the war and Qie Loulan died! His spirit then became a Tengu and had been training here ever since. After that, another force invaded this place and used the Pure Yang Item to destroy Qie Loulan! And that was why Qie Loulan could not but fall into a long deep sleep and had awakened only recently."

Qie Loulan's face fell.

Chen Xiaobei's conjecture was like repeating history. It sparked something in his blotted memory and helped him remember most of what had happened.

"Bro Bei, your speculation is accurate! I suddenly recall so many things!" Qie Loulan looked nervous. "The danger ahead is the force that had invaded this place. I was injured by their kind!"

"They? Who are they?"

Both Chen Xiaobei and Phantom Rain's blood ran cold and they were on high alert.

The danger ahead was nothing ordinary!

Chapter 1047: Xiuhcoatl

"Xiuhcoatl!"

Qie Loulan said, "That's a kind organism that transcends all earth species! Their combat power is very high, they could literally spit fire out from their mouth! The one that hurt my spirit was them!"

"Spit fire? A fire-spitting python? How could it be?"

Phantom Rain was astonished.

"It's one thousand percent true!" Qie Loulan said sternly.

"Transcend all earth species? Are you saying that this python is an alien?" Chen Xiaobei asked.

"That I'm not so sure. But I have never seen this kind of python on earth before!" Qie Loulan said.

Hiss... Hiss...

Right then, a hissing sound came from ahead of them.

A ten-meter-long, giant python with a body as thick as a tree trunk crawled toward them.

Its head was mammoth and the two glimmering fangs hung from its mouth.

Its scales were like metal and was a strange dark silver color.

There was a row of silver spikes on its back. One could see that it was extremely sharp! The weirdest part was the spot on the seventh inch of its body. The folks always said that if one wants to kill a snake, this was exactly where they should hit because this was where their heart was. This creature that called, Xiuhcoatl had fire burning at the seventh inch of their bodies!

"My god... There really is such a thing..." Phantom Rain said in a nervous manner.

"Chen Yasai, your True Qi hasn't recovered enough. Stay here with Qie Loulan. I will go and deal with that monster!"

Chen Xiaobei could sense Phantom Rain's apprehension. So, he decided to walk toward the strange looking Xiuhcoatl on his own.

"Oh, alright..."

Phantom Rain knew that Chen Xiaobei was sincere—that he genuinely hoped for her to be safe.

"You must be careful! That creature is not easy to take on!" Phantom Rain muttered.

Rumble!

Suddenly, the Xiuhcoatl targeted Chen Xiaobei. His huge body was like an armored truck that came crushing upon him.

Ding!

[Cultivation: Eight-Star Spiritual Beast. Health: Crimson Sun Spiritual Form (Pinnacle phase). Combat power: 40,000!]

Shing!

Chen Xiaobei then swung his hand and a black combat saber appeared in his hand. Judging from his combat power, Chen Xiaobei was actually powerful enough to defeat the Xiuhcoatl. He did not need to use any of his trump cards.

"My Dragon's Edge is more than powerful enough!"

Roar!

At the same time, the Xiuhcoatl had already come to a good distance to attack Chen Xiaobei. Suddenly, its humungous body suddenly contracted like a spring. It then bounced off the ground and jumped into

the air. Seemingly, it was going to land on Chen Xiaobei's throat with its dagger-like fangs! The force added from falling from above the sky was enough to slice off a person's head!

"Such a powerful monster! With that speed, it's definitely more powerful than Chen Xiaobei! There's no way that he can block his attack if he doesn't use his trump cards!"

To Phantom Rain, Chen Xiaobei had just breakthrough True Nirvana cultivation and his combat power should be around 30,000. Of course, she also knew that he would come up with different items to make up to his lack of combat power. Considering that a 50,000 combat-power pinnacle ninja was no match to Chen Xiaobei, this Xiuhcoatl should turn into dead meat within minutes. She would never expect how the whole battle would turn out.

Swoosh!

Chen Xiaobei swung his knife at the Xiuhcoatl. Immediately, a dark sword arc was unleashed and charged at the Xiuhcoatl. The speed was so fast that it caught up the Xiuhcoatl within seconds!

Klang!

The Dragon's Edge landed on the Xiuhcoatl's fangs. Chen Xiaobei did not use any fancy skill to try to kill it. Instead, he chose to block the Xiuhcoatl's lethal attack with brute force! Not only did Chen Xiaobei manage to block the attack but it also sent it flying away at least ten meters! If Xiuhcoatl's teeth were not hard enough, Chen Xiaobei would have cut it in half with his sword!

Though Chen Xiaobei did not manage to kill it with one strike, one could see that Chen Xiaobei had gained the upper hand in this battle. Without using any trump cards, Chen Xiaobei managed to defeat that Xiuhcoatl.

"How is that even possible?"

Upon witnessing that, Phantom Rain was left in awe. She did not expect that Chen Xiaobei possessed such strength without using any items to help him. According to the last intel that she received from the CIA last month, Chen Xiaobei had just achieved True Nirvana cultivation. However, the power that he just wielded was definitely more powerful than early phase of True Nirvana cultivation.

"If the intel is right... Chen Xiaobei's improvement speed... Is at least ten times of time... This is truly unbelievable..." said Phantom Rain, taken aback.

The reason why she could achieve 110,000 combat power at her twenties was because of her unparalleled talent and the number of resources that were invested unto her. Every day, she had to spend long hours training to become who she was today. Even so, the most she could improve in one month was 1,000 combat power. With this speed, she was known as the best prodigy after the Tenshou God. The Tenshou God even mentioned that she had the opportunity to become the Japanese second Sky Ninja within 100 years!

All these while, she was really proud of her training speed and improvement!

But!

The power that Chen Xiaobei just presented in front of her had completely changed how she viewed her achievement. The strike that Chen Xiaobei landed on Xiuhcoatl just now was at least 48,000 combat power!

In other words, Chen Xiaobei had at least increase his combat power by 18,000 within a month! That was at least 18 times faster than Phantom Rain. To her, this kind of improvement speed was purely a miracle. She would not have believed in it if she did not see it with her own eyes. As compared to him, she now knew that she was nothing.

"Chen Xiaobei... What kind of monster are you?" said Phantom Rain while staring at Chen Xiaobei's back.

To her, Chen Xiaobei was no longer an ordinary human being! He was a monster that defied the laws of nature!

[Red Envelope Group of the Three Realms](#)

Chapter 1048: Tinder Essence

"This is so weird... That Xiuhcoatl is obviously weaker than Chen Xiaobei! Why didn't it run away?"

Other than feeling shocked, Phantom Rain felt baffled by it at the same time as well.

Instead of running away, the Xiuhcoatl stood up and prepared to launch another at Chen Xiaobei.

"That's because the hit that Xiuhcoatl landed on Chen Xiaobei just now was not its ultimate attack! Xiuhcoatl's talent allows him to burn the blood in his heart to increase its combat power! His actual combat power is actually four times of its current combat power! Which is around 50,000 combat power!" said Qie Loulan in a serious manner.

"This kind of talent is simply too damn terrifying!" said Phantom Rain, taken aback.

After all, this Xiuhcoatl was just a tiny snake in this dimension. If the Xiuhcoatl King possessed this talent as well, it would be able to increase more combat power!

Fussh!

Suddenly, the flame on his body suddenly burst into larger flame and it turned into dark silver color as well.

"Chen Xiaobei! Be careful! That snake is going to activate his talent! It's going to boost its combat power tremendously! You have to make sure that you go all out this time! Don't underestimate it!" shouted Phantom Rain nervously.

"Damn! Chen Yasai, why do you care so much about me? I think I have managed to mesmerize you with my attack just now!"

Not only Chen Xiaobei had no intention to treat this battle seriously, he actually looked more relaxed as compared to just now.

"Pfftt! No one is going to care about a pervert like you! I'm worried about myself! My True Qi has not recovered yet! I will die here if this Xiuhcoatl manages to kill you!" said Phantom Rain, flushed.

"Good! I'm glad that you have this idea in your head! Now, we are allies! Wish the best for me and you will get to live to see tomorrow!"

"Can you take this seriously? That snake monster is about to charge at you!"

Seemingly, Phantom Rain was genuinely worried about Chen Xiaobei's playful attitude. She felt that Chen Xiaobei would get himself into big trouble sooner or later. Although she might not please by the way Chen Xiaobei acted, she was actually telling the truth. If Chen Xiaobei was dead, there was no way that she would survive in this dimension!

Swoosh!

The moment she finished talking, the Xiuhcoatl leaped into the air once again. Just as expected, its combat power was boosted! That was why its speed was way faster than before!

Bam!

While it was in the mid-air, the Xiuhcoatl opened up its mouth and spat a pillar of dark silver flame at Chen Xiaobei. The fire pillar was so huge that it was about to cover the entire area that Chen Xiaobei was standing on.

"Bro Bei! Be careful! That flame that comes out from its mouth is extremely terrifying! The temperature is hot enough to melt iron and stone!" said Qie Loulan.

"So, this is terrifying to you? Obviously, you haven't see the power of Sanmei True Fire!" said Chen Xiaobei while shrugging.

"Chen Xiaobei! Don't drag me to hell with you! Time to attack it!"

Seeing that Chen Xiaobei acted like he did not care about the incoming attack, Phantom Rain felt really frustrated. She assumed that Chen Xiaobei was not afraid of death.

"Heh! It's just a small eel! There's no need to feel afraid of it!"

One of Chen Xiaobei's hand was holding the Dragon's Edge and the other hand was holding the Sunslaying Divine Bow! Within seconds, the dark silver flame was about to hit but he was still very calm.

Position the bow!

Put on the arrow!

Pull the string to the max!

Swoop!

With the Dragon's Edge served like an arrow, it charged at the Xiuhcoatl in lightning speed. It flew so fast that it screeched when collided with the air and it sounded like a dragon roaring at its enemies! This attack that Chen Xiaobei had just unleashed was at least 55,000 combat power! Immediately, Dragon's Edge cut the flame pillar into half right before it landed on Chen Xiaobei.

Phissh!

Phussh!

Seconds later, the Dragon's Edge charged into the Xiuhcoatl's mouth and came out from its tail—landed on a piece of rock that was located tens of miles away from them!

Bam!

Bam!

The Xiuhcoatl was cut into half and fell from the sky. It was not just its flesh that was sliced in half but also the bone from its head to tail!

"How... How is that even possible?"

Phantom Rain was dumbstruck after watching the Xiuhcoatl killed before her eyes by Chen Xiaobei. A 50,000 combat-power Xiuhcoatl had just defeated with only a single strike! She had already known that Chen Xiaobei was powerful enough to defeat enemies that had 50,000 combat power but she had never expected that he was powerful enough to claim the victory with only a single strike! Clearly, this incident really troubled Phantom Rain. It was really hard for her to accept this reality.

One should know that Phantom Rain was the one that led the Tenshou Division. Last time, she was the one that assigned all those ninjas to capture Chen Xiaobei. Ninjas like Tanaka Tsuyoshi and Nikkawa Daichi were pinnacle ninjas with 50,000 combat power! Still, they were defeated by Chen Xiaobei singlehandedly.

Initially, Phantom Rain thought that Chen Xiaobei would need some time to defeat a 50,000 combat-power enemy and he would at least injured a little while trying to defeat it! To her surprise, Chen Xiaobei tore it apart like tearing paper!

One-hit-KO!

"Chen Xiaobei... I have underestimated you..."

Phantom Rain frowned and re-evaluated Chen Xiaobei from top to bottom.

"Damn! Bro Bei! You are too cool!"

Qie Loulan had no idea what was going in Phantom Rain's mind. He went and cheered for Chen Xiaobei on his own.

"No wonder you can act in such a calm manner just now! Now I know that a 50,000 combat-power monster is nothing to you!"

Don't call me a proud man! To be honest, I'm confident enough that I can defeat a Celestial-cultivated elite!"

"Yes! Yes! Yes! My Bro Bei is the best in this world! Super powerful!"

"You can defeat Celestial-cultivated elite?" mumbled Phantom Rain, shocked.

Clearly, the statement that Chen Xiaobei had just astonished her greatly!

"Eh? What's that?"

While walking toward the Xiuhcoatl, Chen Xiaobei allowed his Chaos Blood Sword to absorb its Blood Essence and spirit. At the same time, he went and observed the seventh inch of its body. He could see that its heart was sliced in half and there was a tiny dark-silver bean on the left side of his heart.

The strange part was the bean was still burning with a dark-silver flame. Soon, the fire spread to the entire Xiuhcoatl. The light emitting from it was as bright as the light from a flash bang! One could see the light from hundreds of miles away.

"I think that is the Tinder Essence!" said Qie Loulan.

[Red Envelope Group of the Three Realms](#)

Chapter 1049: Harbinger of Doom

"Tinder Essence?"

Chen Xiaobei looked closely and saw a dark silver flame, at the spot where the Xiuhcoatl's body was incinerated, melted the ground, leaving a gaping hole. As the magma spread, it ate away portions of the ground at a constant pace, as if it were going to consume the entire floor!

"This flame is actually not bad! Though it was not as good as Sanmei True Fire, I think it should be better than using the ordinary flame to concoct pill or craft equipment!"

Chen Xiaobei mulled it over.

If he needed to concoct pill later, and could not find Hong Hai'er, he could use this flame to do it first. Chen Xiaobei then took the pea-sized Tinder Essence and stored it into the Infinite Space Ring.

Phantom Rain's expression change when she saw the space ring but she said nothing. Clearly, she had seen a similar Spiritual Item and was the least bit surprised by it.

"Qie Loulan, weren't you a demigod before this? How were you hurt by this python? Could it be that their king was as powerful as a demigod?"

Chen Xiaobei asked cautiously.

If there was a monster that was as powerful as a demigod, Chen Xiaobei would pack up and leave right away.

If they go in any further, they would surely be killed by it.

"No..." Qie Loulan shook his head and explained, "When I was still alive, that Xiuhcoatl King was only at pinnacle phase of True Nirvana stage. I was doing my training when it snuck up on me!"

"No way! The Daitengu snuck up by a monster with pinnacle phase of True Nirvana cultivation... This is really awkward..." exclaimed Phantom Rain.

"You are right... It's really embarrassing that I was attacked by this weakling... This makes me feel really frustrated... It's better for us not to underestimate it... If it's still alive, I think its cultivation is definitely stronger than before!"

"Tell me, is there or is there not a treasury here? And what is inside the treasury? If I would be getting lesser than what I'm going to use, then there's no need to go in!" asked Chen Xiaobei in a serious manner.

Seemingly, Chen Xiaobei had made a calculated decision.

Only a fool would sell his hens on a rainy day.

"Treasury?"

Phantom Rain's eyes widened, waiting for an answer just as eagerly.

Who knew that Chen Xiaobei had come to look for treasure!

"I am very sure!" Qie Loulan said, "Somewhere deep inside this space, there's a treasury and in it are about 10,000 Spiritual Stones, some ancient Spiritual Items, and rare medicines..."

"What? 10,000 Spiritual Stones? That's a lot! And there's also Spiritual Items and rare medicine?! Oh, that's awesome!"

Both Chen Xiaobei and Phantom Rain put on a shocking look.

Chen Xiaobei had gone through a lot of pain for an extended period of time only to have collected 5,000 Spiritual Stones. And even though Phantom Rain was the leader of the Tenshou division, she had never seen so many Spiritual Stones at once.

Spiritual Stones had always been the best item to a Jianghu elite. With 10,000 Spiritual Stones, Spiritual Items, and rare medicine inside it, there was no way that anyone could resist the temptation to go and look for it!

Looking at Chen Xiaobei's and Phantom Rain's reaction, one could see that they were ready to venture into the deeper part of the dimension to go and search for the treasure.

"Bro Bei, don't get all worked up just yet!" Qie Loulan then added, "It's been so long. I cannot be sure that the Xiuhcoatl King had not gotten to it first. If it did, then the main door will not be able to withstand its flame!"

Chen Xiaobei was not happy to hear this.

"What are the chances, do you think, of it finding the treasury?"

"50/50 I suppose... My treasury is in a very hidden location! The Xiuhcoatl King would only be able to come across it only if it were by chance!" Qie Loulan said. "But it's been such a long time, we can't possibly rule out that it had a lucky break throughout this time..."

"That's cutting it really close! I think we should continue ahead!" Phantom Rain said eagerly.

"Chen Yasai, why are you suddenly so enthusiastic?" Chen Xiaobei pursed his lips and said, "You refuse to allow me to check your identity, and so, even if we find tens of thousands of Spiritual Stones, it has will have nothing to do with you!"

"Hmph! You're so stingy!"

Phantom Rain rolled her eyes at Chen Xiaobei.

"Don't say that I didn't give you a chance!" Chen Xiaobei said, "Just let me try it again one more time. I need to know if you're the person I'm looking for. I'm willing to split half of the stones with you!"

"You really want to try again?" Phantom Rain spat, "You lowlife! Sicko! I can't believe I was worried for you just now! I treated you as my ally but you want to take advantage of me! I know what you're thinking!"

"Then you leave me no choice," Chen Xiaobei shrugged and said, "If I can't prove that you are my friend then you are my prisoner, which means that you don't get to keep a single Spiritual Stone!"

"Oh please! Who needs your precious Spiritual Stones? Anyway, we don't even know who those stones belong to now!" Phantom Rain glared at Chen Xiaobei and said, "Who knows, maybe the Xiuhcoatl King is already inside the treasury, guarding it with his little reptile children and grandchildren and they will all sputter fire until you turn into a roast pig!"

Chen Xiaobei said cheekily, "Chen Yasai, aren't you the leader of the Tenshou division? Why are acting so childish?"

"You are the one who is childish!" Phantom Rain retorted. "That was based on my instinct! If you don't believe me then let's go and find out! My sixth sense is very good by the way!"

"What the hell?!" Both Chen Xiaobei and Qie Loulan's exclaimed all of a sudden, their eyes widened. "You really are a harbinger of doom! That... That that that..."

"What?" Phantom Rain looked quizzically at Chen Xiaobei and followed his gaze at whatever was behind her.

What she saw stopped her in her tracks.

Bam! Boom! Boom...

About a few hundred meters away, a loud stampeding noise was heard. Dusts fluttered and clouded the air, even the ground shook violently, it was as if there was an army charging at them.

But, the speed at which they traveled at was faster than war horses.

They would arrive in a matter of seconds.

A horde of Xiuhcoatl's were charging at them!

"Chen Yasai! Drink this!"

Chen Xiaobei took out a Hundred Herbs Potion and gave it to Phantom Rain.

"What is this?"

"It's a medicine that will help restore your health and True Qi!" Chen Xiaobei said, "If you don't want to become a roasted pig, then we'll have to fight side by side!"

"Okay! I'll take it!"

Phantom Rain understood the precariousness of the situation and did not challenge Chen Xiaobei.

"Here's a knife! I will hold them off first. Once you have recovered some of your True Qi and are able to fight, you can come help me!"

Chen Xiaobei thrust the black knife into the ground, and charged forward with his Sunslaying Divine Bow.

[Red Envelope Group of the Three Realms](#)

Chapter 1050: Horde of Xiuhcoatl

Bam! Boom! Boom...

Chen Xiaobei rushed to about 10 meters ahead and checked out the scene before him which gave him a massive headache.

The ground was covered with Xiuhcoatl, there were hundreds and hundreds of them, like rushing water, roiling fiercely!

"F*ck... There's so many of them... When will be able to finish killing them?"

Chen Xiaobei frowned. He had the Sunslaying Divine Bow with him so, he was not afraid but every shot would use up his True Qi. It was just like those super elites in the history books who fought against 10,000 ordinary people, and survived unscathed but died at the end due to exhaustion!

Chen Xiaobei was at a similar situation right now. If he used up all his True Qi but did not kill all of these Xiuhcoatl, the one who would die at the end of the day would be Chen Xiaobei himself.

"Ah, what the hell! I only have to hold them off until Chen Yasai achieves at least 80% recovery of her True Qi, then we won't be in too much danger! Whatever it is, I will have to buy us some time!"

Chen Xiaobei raised his Sunslaying Divine Bow, his dark eyes focused.

Behind him, Phantom Rain had drunk the Hundred Herbs Potion, and immediately felt the tiredness and hunger disappear.

But it would take some time for her True Qi to recover.

The fastest way to do that was to actually absorb Spiritual Qi.

There were still 5,000 Spiritual Stones in the Green Jade Gourd. Obviously, Chen Xiaobei did not want her to recover too quickly.

"My True Qi is taking a really long time to recoup... I don't know if Chen Xiaobei can hold them back..." Phantom Rain was worried.

"It should be no problem..." Qie Loulan looked cautiously ahead and said, "As long as the Xiuhcoatl King doesn't join the battle, Bro Bei should be able to keep them back for a while!"

"But even if he could..."

Phantom Rain hesitated, a disconcerting look flashed across her eyes.

Chen Xiaobei did not trust her fully. That was why she did not put her full trust in Chen Xiaobei as well. If Chen Xiaobei could hold this wave of Xiuhcoatl, she could use her True Qi and secret technique to inform Green Dragon Enigmatic Ninja of her position.

But if Chen Xiaobei could not do it, for the sake of self-preservation, she could not not join the battle and help Chen Xiaobei fight the Xiuhcoatl off.

At this critical moment, she could not decide between her two options: either hell or heaven; she could not afford to make the wrong choice!

"They're here!"

Qie Loulan saw three Xiuhcoatl who were ahead of the others, had risen and was about to attack Chen Xiaobei.

"Why did he give me the black saber and then use the bow?"

If Chen Xiaobei did not have the arrow, the powerful Sunslaying Divine Bow would be useless.

But what Phantom Rain saw in the next second, made her jaw drop.

Chen Xiaobei raised the bow to his chin with his left arm and then a Tiger Shark anti-ship missile materialized in his right.

Swoosh!

The string launched the two-meters-long missile!

Bam!

The explosion force aside, the Sunslaying Divine Bow alone with 55,000 combat power, smashed one of the Xiuhcoatl's head like a watermelon, and it exploded!

Boom!

The force from the blast, which was enough to blow up a carrier, hit the two nearest Xiuhcoatl and shattered their body into pieces!

Bam... Bam...

Not only was the blast force powerful, it was also searing hot and peppered with shrapnel!

Swish! Swish! Swish!

The fragments pierced the bed of Xiuhcoatl.

About ten Xiuhcoatl nearest to the blast sustained major cuts on their scales, the gashes dripping with an alarming amount of blood. They writhed in pain and screamed in pain, painting the ground red.

With their front lines fatally injured, the entire Xiuhcoatl's horde shook, and they slowed down their pace.

"Gui... Guided missiles... This idiot actually used the missiles to kill Xiuhcoatl..."

Phantom Rain was bewildered.

It was quite apparent that the twenty submarines had sunk in the hands of Chen Xiaobei and all the ammunitions on those subs were now in his hands.

That was like a small military arsenal!

Sweat beaded Phantom Rain's forehead. She knew that Chen Xiaobei was savvy but she had not expected him to be that slick!

"It looks like the Xihcoatl's horde would not be able to withstand Chen Xiaobei's attacks any longer!"

Phantom Rain sighed inwardly. She was thinking whether should she use the True Qi she had recovered to send a signal to Green Dragon?

"It won't be that easy!" Qie Loulan said, "Have you forgotten that Xihcoatl has their unique talent?"

Thump! Thump! Thum!

There was a sound of movement ahead.

It appeared that the throng of Xihcoatl slowed down not because they were afraid of Chen Xiaobei but because they were in the process of activating their talents.

Large balls of dark-silver flame grew from their bodies.

A sea of fire burst forth before Chen Xiaobei.

Rumble... Rumble...

Xihcoatl's horde carried on charging.

But this time, every single Xihcoatl's combat power had increased immensely, their speed and force were more ferocious! More frantic!

Swoosh!

One of the Xihcoatl in the fore catapulted itself, baring its razor-sharp fangs, directed at Chen Xiaobei's throat.

After using their talents, Xihcoatl's speed had nearly reached 50,000 combat power! Chen Xiaobei's combat power was 39,000 and because of the limitations of his 48,000 health, he decided to use the Primordial Witch King Combat Enhancement Training Manual. Now, his combat power was also 48,000!

Simply put, Chen Xiaobei would not be able to dodge this ferocious attack.

Swoosh!

Since he was unable to do that, Chen Xiaobei could only use the Sunslaying Divine Bow to defend himself.

Another Tiger Shark missile was launched and it was headed towards the Xihcoatl's head!

Bam! Bam! Bam!

But right at that moment, all around them, a dozen dark-silver balls of flame came flying through the air. As compared to the fire pillars, these attacks were definitely more accurate!

Boom!

The flames came into contact with the missile and exploded!

The fragments from the blast made deep cuts on the body Xihcoatl who was in mid-air but it did not kill it!

It shot past the shrapnel! Past the wall of fire!

And in a blink of an eye, that injured Xihcoatl had come face to face with Chen Xiaobei!
