

Chapter 17

Amanda's POV

"Um...why am I here Miss Black?" I looked at him then rolled my eyes. I hate being called Miss it makes me look old.

"Don't call me Miss it makes me feel old" he nodded then entered my office with me following.

"Then what should I call you?" he asked nervously.

"My name is Amanda but we're at work so your forced to call me Miss Black. Since we're alone in my office call me Amanda save my youth" he nodded fiddling with his fingers.

"So why did you call me- oh I'm sorry I didn't realize there were other people in the room" he apologized seeing Tyler and Skylar but what really shocked me was that Liam was there.

"You what are you doing here?" I asked trying not to growl even though everyone here was a supernatural it would look unprofessional.

"Oh I'm just here on business terms" I glared at him but proceed to sit down on my chair ready to listen.

"Skylar did they call?" She shook her head glancing at her brother.

"Well you can leave I'll see you tomorrow and....here treat yourself if you get the job you can't dress like that" I handed her two hundred dollars but she looked hesitant.

"Relax it's from me to you and because I'm a friend of your brothers" she nodded taking the money then walked out shyly.

"Now I have three males in my office and one of them aren't supposed to be here " Liam smirked.

"Now, now that's no way to treat your superior" as soon as the words left his mouth and image of the mark on my stomach flashed through my mind.

"Your not my superior now state your business or leave " I nearly growled right there but kept my cool.

"I have a proposal " this caused me to raise an eyebrow at him.

"And that is?"

"Oh Amanda darling...it wouldn't be fun if I told you now would it?" Tyler growled but covered it up.

"State your business or leave it don't have time for this is am a very busy person " he chuckled throwing his head back causing his long brown hair to fall from its ponytail.

"I need you to do something for me it's very....urgent" my head snapped in his direction. I knew where he was going with this.

"I'm not interested " this caused him to laugh.

"Oh trust me you will be seeing it's someone you and I both have a problem with. I just need to compromise a few things" Who does he want me to kill.

"No I'm busy don't you see I have an issue to deal with " I pointed at Conner.

"I can see that but this is more important something to do with Michael-" I cut him off.

"Don't you call that name in this office I am not doing it now leave" I had to bit my lip from growling.

"No, no, no this won't do, you passing up an offer what has gotten into you" I glanced at Tyler who looked confused just as much as Conner was.

"Look I'm at work this isn't the place or time to discuss this and I'm not doing it" he wanted to ask me to assassinate someone in my office in front of my mate and employee hell no.

"Wait...they don't know do they" my eyes flashed red seeing Danger was on the edge.

"Know what?" Tyler glanced between me and Liam then growled.

"No they don't and I would like to keep it that way. I'm not in the mood just leave!" I growled at him causing him to jump back.

"It could tell them let them all know the real you....the you I know" he winked at me causing me to growl again.

"Conner out! Now" he dashed out of the room scared but I could see him smirking I need to fix this.

"Tyler out you too go back to your pack I have something very important to discuss " he stood his ground.

"No anything you have to say you can say it with me here" I sighed rubbing my temple.

"Please I'll tell you later just go" I pleaded with him he finally curved then mumbled to me he was in the car. Once he walked out of the office I lunged at Liam.

"You could've blown my cover!" He didn't look fazed.

"So your mate doesn't know it's you who's well harmed countless the-" I cut him off with a growl.

"Who is it?"

"Micheal Richards"

"Nope"

"And why not?"

"Because I said so someone else"

"Norman Carville" I nodded writing it down.

"Reason?"

"I need him....out of the equation"

"Reward?"

"I won't tell"

"That's blackmail!"

"And you've done much worse haven't you?" I growled crushing the pen that was in my hand.

"You need to go"

"Fine I want it done by this weekend" I nodded then stepped out of my office with my handbag thrown over my shoulder. I viciously stepped into the elevator then pressed the button leading to the first floor once it stopped it stepped out but not before saying goodnight to the person behind the front desk.

"Explain?!" Tyler growled causing an human near by to stare. I glared at him snarling almost crushing my keys.

"I will just get in the car" he told me getting into the passenger seat. I went in to the driver's seat then drove off.

"So....what do you want to do?" I didn't give him a second glance just drove onto the highway.

"No answer. I see....well you need to explain what you and Liam were talking about" I gripped the steering wheel tighter my knuckles turning white.

"Look I just really want to go home right now and- watch the road you idiot!" I screamed at the car that was trying to hit mine. It didn't stop it just continued then it hit me. It was that exact car that hit me last time.

"Shit" I pressed on the gas speeding up this car but the other one was still on my tail.

"What the hell slow down" Tyler yelled panicking.

"Unless you want to die in will. Look in the back left up the middle seat and hand me what you see" he looked shocked but followed.

"You have a gun in your back seat" I just took it from him taking of my blazer leaving me in my tank top.

"What you see here should not be spoken of again now take the wheel" I let go of the steering then jumped out the window landing on my two feet. I saw Tyler grip the steering then quickly parked the car.

"Are you crazy....damn you look hot" I rolled my eyes then ripped my skirt to reveal my booty shorts. What I never leave home unprepared. The car chasing us stopped and two persons stepped out both wearing masks and both smirking.

"Why are you following me?" I asked growling at the end.

"Oh well were just following the S-" I cut him off with a gun shot. I can't afford Tyler to find out a er all his pack does hate my guts.

"I see he doesn't know well it wouldn't hurt to tell him" I growled trying to think of an excuse for why what we should tell Tyler.

"Look I don't know who your looking for but if you know what good for you, you'd leave" they laughed but I silenced them by shooting one straight in the chest.

"Anything else?" The other looked scared but nodded dragging his partner towards there car.

"You just killed him!" I winced at his harsh tone.

"It was self defense and he's not dead...he still has ten hours to seek medical attention"

"How is that self defense?!" I ignored him and got in the car.

"Let's go I'll explain on the way" he growled but still came into the car then instructed me to his packs territory. This is going to be a long night.

Hello there!

That's it for this chapter hope you enjoyed and there's good news I literally just finished the first three chapters of Mal's story I just need a title to post it please tell me what you think is best.

1. Story of a teenage...vampire?
2. How to hide your fangs
3. A teenage vampires guide to life
4. Trying to blend in with the mortals
5. Fangs and Claws
6. Your a vampire?
7. Your friendly neighborhood...vampire?

These are the some of the titles I have come up with the story has already been written all I have to do is make it longer and make it sound a little less childish. Oh and Mal's new name is Dracula not Vampira sorry!

Well that it for the modifications if you enjoyed please comment, vote and follow.
