

Chapter 19

Amanda's POV

"Wake up bady doll " I heard Tyler whisper.

"No more sleep...and don't call me bady doll" I heard him chuckle the I was picked up of the bed and thrown over someone's shoulder I felt us going down the steps then I was placed on the couch with a plate of breakfast in front of me.

"Eat then you can go to Alpha Richards pack to train them" I mumbled profanities then started eating my bacon until I spit it out back.

"What is that" I asked it felt like my throat was being burned up.

"Oh my god are you okay is there something wrong with the food?" Tyler asked worried.

"Who made that!" I asked my eyes turning red. I couldn't control Danger it was like she was trying to get through to me but she couldn't.

"Um Amanda are you okay" I shook my head coughing this is why I hate waking up in the morning.

"Who made the food?!" it know there was something in that meal that wasn't supposed to be there.

"Um.....Jackson did" he stated trying to help me up but I continued coughing.

"Call him now!" He nodded his eyes glossing over.

"Yes alpha" I looked at the guy with wide eyes. It was him who Sam telling me about he fit the description perfectly. The long black hair, and scar on his right cheek even the two different eye colors blue and red.

"When you were preparing breakfast for the pack what else did you put in the Luna's meal?" he seemed to look confused then stated.

"The only extra ingredient was an angels feather, Lucinda gave me she said it would boost our endurance " I coughed even more.

"You fool I can't have an angels feather in my system it could kill me and my reaper" his eyes widened but it had a mischievous glint in them. He wanted this to happen.

"Im sorry Luna it was a misunderstanding it won't happen again" this caused Tyler to growl suddenly two guards came in and took him to which I'm assuming the dungeons.

"Tyler I need a something to eat" he looked at me confused so I explained further.

"I need a soul to help fight my poisoning " nodded he raced up to the forest surrounding his pack.

"Are you sure you'll be okay or do you want me to stay?" I shook my head then shied into my reaper holding my head down.

"Um Amanda " I could tell he was getting scared.

"Go!" I ordered he nodded then ran back to the pack house at least he trusted me.

Tyler POV (unexpected)

I watched as my mate's skin dissolved leaving her skeleton alone but what shocked me it her skull was covered in tattoo designs. She had a dark blue robe to cover her self with and a huge scythe.

"Um Amanda" I had to admit it was kind of scary and that's a long coming from me the alpha of the strongest pack in North America.

"Go!" I nodded the took of running back to the pack house. I knew I could trust her she my mate of course but I could tell she was hiding something from me something big.

As soon as I entered the pack house this ti,etc it was filled with pack members who all bowed there head respectfully.

"Where's Clover and Storm?" I asked they were my beta and third trust me even though there girls the can kick some serious ass.

"Well I'm here but Clover is still and the Blue Moon pack she can't leave without your consent" I nodded walking towards the dungeons me and Jackson are going to have a long talk.

"Storm follow me everyone else if it's not your shiestay" Storm followed me to the dungeons all the guards bowed in respect.

"Alpha are you here to see the prisoner" I nodded.

"Lamar how's Anastasia is she okay?" he nodded chuckling.

"She's a hand full so energetic if she wasn't asleep I wouldn't be here" I laughed and he let me see Mr Jackson.

"Alpha" I growled leaning up against the wall.

"I am very confused here what did he do to be placed in this position " I sighed rubbing my temple.

"He attempted to poison our Luna " she gasped then growled.

"Why did you do it?" Just leave it up to Storm to scare the living shit out of the prisoners.

"You would know this but she's hiding a very big secret....something that if you found out it would be upsetting the pack could fall our become stronger by this discovery but I'm sure you wouldn't want to know" he stated smirking.

"What does everyone know that I don't" he laughed.

"Alpha may I speak to him alone" I turned around to see Amanda standing there with a huge smirk on her face.

"No- don't leave me with her" I raised an eyebrow at Jackson he was tied up and she was already suited with killing. I wouldn't mind him dying.

"You two have five minutes " if possible Amanda smirked more.

"That's all I ask" I left the room with Storm who seemed a little too relaxed about this situation.

I heard a howl of pain then screaming. What is going on in there.

"Don't you dare mention that name!" Amanda roared there was another howl of pain.

"You monster- I know what you did and who you are!" I heard a laugh then something snapping.

"I know who your are and I doubt the alpha would like to know what you've done!" Amanda yelled back. There was silence then a whimper.

"Fine I'll take Liam he wants you dead then he can take over your the only person able to take him down and he's scared. He like when you were vulnerable when your mate rejected you and you were broken!" As loud as growl was heard then another scream of pain.

Am I missing something here? What does he mean by Jerry mate rejected you and you were broken I didn't reject her.

"Don't lie to me why does he want me!?"

"I'll never tell you....a er all I know your little secret so that makes you vulnerable to me, make me your superior" that wasn't as loud but still audible.

"You are not my superior" I think Jackson laughed then started coughing.

"Does he know all the times you've been in bed with another male?" I growled about to break down the door but Storm stopped me closing her eyes.

"Yes I was in bed with other men but nothing happened and you more than know that nothing happened!" I heard something being ripped apart.

"We have one minutes but I doubt you'll live that long so talk"

"Okay I am who you think I am. Liam has made it priority to keep you busy and far from your loved ones like your dear Aunt Natalie I heard she found her mate too bad she dead-" he didn't finish she just dashed out the door I followed.

Amanda POV

Tyler walked out with some other girl. To tell the truth I was a bit jealous but I hid it I needed to know why he would do such a thing.

I went up to him and stepped on his knee shoving it out of place. He howled in pain.

"What would your mother think. This is unacceptable Michael would not be pleased you need another dose of beatings"

"Don't you dare mention that name!" I roared then stepped on his foot once more.

"You monster I know what you did and who you are " I laughed then snapped his other leg.

"I know who your are and I doubt the alpha would like to know what you've done!" I yelled back.

"What would your mate think oh wait she isn't here since Liam killed her it would be nice for you to see her" I whispered into his ear rubbing my hand over his shoulder then elongated my claws digging into his skin. He had to bit his lips to with hold a scream.

"Fine I'll tell Liam he wants you dead then he can take over your the only person able to take him down and he's scared. He liked when you were vulnerable when your mate rejected you and you were broken!" I growled tearing of his legs both of them.

Am I missing something here? What does he mean by her mate rejected you and you were broken I didn't reject her.

"Don't lie to me why does he want me!?"

"I'll never tell you....a er all I know your little secret so that makes you vulnerable to me, making me your superior" he stated he looked at me abdomen where the mark was. How did he know?

"You are not my superior" he laughed but started coughing.

"Does he know all the times you've been in bed with another male?" I heard a growl then glared at him while he smirked.

"Yes I was in bed with other men but nothing happened and you more than know that nothing happened!" I yelled frustrated I'm sure if Tyler heard than and since he did I have a lot of explaining to do. I tore of his arm then threw it aside.

"We have one minutes but I doubt you'll live that long so talk" he paled then gulped

"Okay I am who you think I am. Liam has made it priority to keep you busy and far from your loved ones like your dear Aunt Natalie I heard she found her mate too bad she dead-" I didn't let him finish I just dashed out the door heading to the mansion with Tyler hot on my trail.
