

I Rejected You, Alpha – Chapter 20

ELEIA'S POV

—

While I sit and eat , I glance at Rosie who's drinking a cup of tea , "Did you see the weather ?" I mutter before taking a bite of my food and she nods , smiling .

"It's going to snow ." She beams and Aiden groans as he takes a bite of his toasted egg and bacon sandwich .

"What ?" I mutter while chewing , glancing at him with narrowed eyes .

"Why do you two think it's going to snow ?" He shakes his head in disbelief , but growing up as a little slave , we know the weather because every time we do laundry , we have to know the weather .

I was brutally beaten when I didn't know it was going to snow and ever since , I studied the weather through the window .

"We don't think , we know ." Rosie mutters and Aiden just shrugs , rolling his eyes .

I pad over to the sink with my empty plate and wash it when he comes up behind me , his one hand holding his plate , the other rested on my waist , his hand gripping the robe in a tight grip .

"What did I say ?" He grits out in a low voice .

My insides stir as my body tenses , I could feel his excitement poking me in the a*s .

"That I shouldn't work , but I made a mess , I clean it up ." I shrug and he tuts , his hot breath fanning the shell of my ear .

"I made the mess ." He mutters in a low tone before I could think about saying anything , his hand releases the material of my robe and he snatches the plate out of my hand .

“Move .” He mutters and I listen and take a step to the side , watching him with narrowed eyes .

I think it’s hot when a man does dishes , because for sure as hell I have never seen one do them .

He dries his hands with the towel , glancing at me with a seductive look and I can’t help but smile widely at him .

I turn to Rosie , seeing her giggle and smile and I feel happy for her , but I swear , if they bother us tonight , I will kill both of them .

“Goodnight .” I mutter as I push myself off from leaning against the counter and as I glance at my best friend , she winks .

Of course she knows .

I ignore her and stride up the stairs , hearing Aiden mutter something to Stefan before I reach the top and I walk into the room , dropping my robe to the floor before I sit on my knees in the centre once more .

I think he actually liked it , why thought ? I don’t know .

Sitting on my knees as Aiden enters , I can’t help but blush .

“You really want this .” His hands rub together and I nod twice as I watch him take steady steps towards me .

It’s kind of nerve wrecking .

I stare up at him through my lashes , feeling seductive enough for him to want me .

“Panties ?” He asks and I shake my head , a grin tugging at his lips .

“Hands on your thighs , palms up .” He demands and I turn my hands out , the top of my hands laying against my thighs .

“Good .” His fingers hook into the sides of his sweatpants and I watch breathlessly as he undresses .

Standing naked in front of me , my eyes trail his perfect body , no wounds , tanned , sculpted like a god .

He's perfect .

I can't even believe I thought Regan was handsome , because he wasn't , Aiden is .

The mate bond blinded me from seeing who Regan really was .

Aiden crawls over the foot end of the bed towards me , standing on his knees , his hand reaching out towards me and his fingers lightly brush against my collarbone as he slowly brushes my hair behind my shoulder .

"You're very beautiful ." he breathes out , leaning forward and I don't know if I'm allowed to move , should I lean into him to kiss him ?

Should I lean back ?

"On your back ." He demands like he's reading my mind and I shift my legs to the side before leaning back , my legs stretched next to his side .

A cool breeze blows into between my thighs and my teeth bite my nerves and I feel me .

His face inches closer , his hands on either side of my head .

Everything feels so slow , so teasingly – I hate it .

"I love you Elsie." He breathes out as his nose brushes against mine , "I love you too ." I mutter out and his lips crash against mine hungrily .

It's like the first kiss , it's like the first breath I am able to take that relaxes me , except , my body tenses as his press against mine .

He hovers over me , leaning on his elbows , his body slowly lowering , the heat of his skin making my entire body feel like it's boiling .

He shifts his weight onto one arm , his other hand dragging down my side until his fingertips meet the skin on my thighs .

He raises my dress on the side , exposing my nakedness and his hand presses on the inside of my thigh .

I could feel how thick he is , how long he is...

It's feeling life threatening .

The room grows darker by the second as the sun set behind the thick dark grey clouds , making excitement brew in my tummy .

He breaks the kiss , glancing down at my body and I suddenly feel cautious about my body .

“So sexy .” He murmurs , his face dropping to the side and he cradles my neck , pulling my body against his and as my body slightly lifts from the bed , he tugs the dress up higher .

“Aiden .” I croak out as he begins to suck on the sensitive skin on my neck .

He hums and my insides want to melt at the vibration from his chest makes me whimper .

“Please .” I beg as his hand slowly drags down , his fingers touching me ever so lightly to the point where I might lose my mind .

He chuckles as he lifts his head , his baby blues piercing into mine as his fingers linger over my entrance .

I buck my hips towards his hand and he grins as my wetness coats the tips of his fingers .

He doesn't hesitate to crash his lips against mine as his fingers slide into me , two , stretching my walls , making me moan against his lips .

I struggle to focus on how our lips wrestle while his fingers are making me whimper and with underneath him .

My hand wraps around his wrist , my body jerking , contracting together tensely with each thrust of his hand .

I want more , but how do I tell him .

He glances out of the window as he slides his fingers out and sits up , tugging me up towards him and I freeze as he grabs the hem of the dress and lifts it off me .

He crawls in between my legs , making my legs beck once more and he positions himself to my entrance , his hand wrapped around his base and he

glides the tip between my folds , making me arch my back in pleasure as the pressure of his tip presses against my throbbing clit .

I gasp as he slips right in , his jaw tensing as he groans .

He's thick , yet so gentle .

With him fully into me , I could tell that his entire groin isn't inside of me .

"So smell end tight ." He mutters in a low growl as he starts to thrust in and out of me .

The filling sensation has me moaning , my body withering and jerking as he speeds up his pace .

Before a sound could escape my lips , Aiden crushes his lips to mine hungrily , a groan escaping his throat , vibrating into my mouth and I'm overwhelmed .

Should I lean back ?

"On your back ." He demands like he's reading my mind and I shift my legs to the side before leaning back , my legs stretched next to his side .

A cool breeze blows into between my thighs and my teeth bore on nerves eat out me .

His face inches closer , his hands on either side of my head .

Everything feels so slow , so teasingly – I hate it .

"I love you Eleio." He breathes out as his nose brushes against mine , "I love you too ." I mutter out and his lips crush against mine hungrily .

"So small and tight." He mutters in a low growl as he starts to thrust in and out of me.

The filling sensation has me moaning, my body withering and jerking as he speeds up his pace.

Before a sound could escape my lips, Aiden crushes his lips to mine hungrily, a groan escaping his throat, vibrating into my mouth and I'm overwhelmed.

"On your back." He demands like he's reading my mind and I shift my legs to the side before laying back, my legs stretched next to his side.

A cool breeze blows into between my thighs and my teeth bare as nerves eat at me.

His face inches closer, his hands on either side of my head.

Everything feels so slow, so teasingly – I hate it.

My hand wraps around his wrist , my body jerking , contracting together tensely with each thrust of his hand .

I want more , but how do I tell him .

Before a sound could escape my lips , Aiden crashes his lips to mine hungrily , a groan escaping his throat , vibrating into my mouth and I'm overwhelmed .

His kisses drag to my jaw , leaving a hot wet trail to my throat before he kisses down to the crook of my neck , my legs trembling to just clamp shut as he sucks on my skin .

My legs wrap around his torso as a low growl escapes his lips and without warning , I feel two sharp teeth piercing the crook of my neck , leaving me gasping as I try to breathe over the overwhelming feeling .

My vision blurs and I can't tell if it's tears or if I'm losing consciousness .

"Aiden ." I gasp just before I could feel myself go numb .

Waking up to him calling me name in distress wasn't what I ever imagined it would be .

My eyes flutter open and his ocean blues pierce into mine as his hands are cupping my cheek .

Relief fills his eyes as my chest rises and I breathe in .

The crook of my neck stings and when I reach for it , it's wet and blood covers my fingers .

"I'll heal it ." He bends down , licking the wound over and over and I could feel it heal .

My body feels on fire and my mind hazy .

"Are you okay ?" He asks with worried eyes as he lays next to me , his arm draped over my body and I nod .

I feel... amazing .

'Can you hear me ?' I ask through the mind link and he smiles , nodding .

We're finally one .

I don't know what comes over me , but I toss his hand off me and climb onto him , pushing him onto his back and he stares at me in amusement as I press my vuvla against his almost soft groin .

"What are you doing ?" He asks , shaking his head and I shrug , scooting back before wrapping my hand around his base , my fingers not even close to touching .

"Eleia ." He reaches for my hand but I use my other to swat his away .

"Don't tell me what to do ." I grit out and the way he thickens in my hand and grow hard has me almost shrieking in fear , but I glance down , grinning before our eyes meet again .

I raise my hips , lowering myself into his hard wood and his hands grip my hair as I take in every inch of him .

He groans as I rock my hips forward and I grin as his lips part in pleasure .

"Good ." I press my hands against his chest , my hair falling forward over my shoulders as I continue to rock him .

“Up .” He corrects me by showing me how to please him and I bounce in his hard on like it’s my jumping castle .

His fingers dig into my sides , deeper and deeper , my walls clenching around him and even though it’s a bit sore , I don’t care and keep going .

No one is going to ruin this moment , not him and not me .

“Eleia , f**k .” His chin raises more as he tosses his head completely back against the mattress and I grin , my lips parting as my legs begin to shake of the tiredness and tension .

“Hips up .” He positions me in the air and before I could move , he thrusts up into me , my legs parted wide for him and I moan as my nails dig into his chest .

This is our moment , this is what’s going to be thought of for the rest of the days .

“I love you .” I groan as my o****m build and as he thrusts hard into me , I come undone and fold forward as he stills , his hot juices spilling into me .

Our bodies collapse and with him still inside of me , I rest with my head against his chest while he strokes my back .

I stare out of the window and I notice the few snowflakes against the glass .

This was perfect .
