

The Ex-Husband's Revenge By Dragonsky

Chapter 1001-1002

C 1001

"You're not too bad after all!" Leon sighed a breath of relief, only to tense again when Ruth picked up the flask containing the Pure Energy Pills.

"The Pure Energy Pills? Those work like wonders!" Her eyes lit up when she saw the pills.

She knew how rare they were because it cost her grandfather a small fortune to obtain one.

Surprised by the discovery that Leon was in possession of multiple Pure Energy Pills, she felt as though she won the lottery.

Leon's heart sank at the grin on her face.

He saved ten Pure Energy Pills to himself and since he gave three to Vincent, he thought that he only had seven left. It was not until later on that he remembered he traded the Sharp siblings with two Pure Energy Pills in exchange for the Fairy Fruit.

He no longer had enough supply of the pills and the ones he had were reserved for him, Iris and Louisa, not

for Ruth.

"I'm warning you, Ruth. The making of the Pure Energy Pills is extremely difficult and I only have five pills left. If you dare to touch them, I'll make you pay when I recover!" He warned to prevent her from taking the pills.

"So stingy! Don't worry, I'll just take two and leave you with three. That should be fair, right?" She said reluctantly.

"Fair?! You are stealing what's mine and you call that fair?!" He roared furiously.

"Um, I'll just take one then. That should be fine, right?" She muttered guiltily, finally realizing that she was out of line for robbing Leon when he was helpless.

"No! Not even one!" He said darkly.

“And I’m supposed to just listen to you?! No way! I’m going to take one right now. It’s not like you can take the pill back from my stomach once you recover!” She scoffed wilfully, before swallowing one of the Pure Energy Pills.

“Why you!” Furious, Leon watched as she swallowed the pill helplessly.

“Such a pure force of energy! As expected of the Pure Energy Pill!”

Ruth was pleasantly surprised when she sensed the energy that surged through her veins, noticing that it was almost a hundred times more powerful and purer than the energy within the premium Energy Nurturing Pills.

The Energy Nurturing Pills were used to strengthen martial artists’ power, while the Pure Energy Pill served to help martial artists get past the bottleneck of their training.

Martial artists at the Peak Innate State could be guaranteed to enter the Realm of a Supreme Master once they took the Pure Energy Pill. Even martial artists at the Realm of a Supreme Master would have a much higher chance in reaching the next power level after taking it.

Though the chance of that happening for people in the Realm of a Supreme Master, Ruth was unlike any

other. She was the most talented martial artist Springfield City ever saw in the past hundred years and since she trained with the Mysterious Maiden Method, she was brought to the edge of a breakthrough by the Pure Energy Pill.

Chapter 1002

The true energy in her energy core began to react and surged. Feeling that she was close to a breakthrough, she said, “Leon, I’m going to focus on my energy now! Don’t disturb me!”

Ruth was overjoyed as she did not expect to reach the next power level simply after taking one Pure Energy Pill. Not daring to delay, she sat on the ground and began to practice the Mysterious Maiden Method in hope

to reach the next level.

“Who exactly is the one disturbing the other?!” Leon gritted out angrily.

If Ruth did not barge into his room, he would have been asleep a long time ago and would not be left tossing with rage in his **bed**.

She ignored him and focused on her internal circulation, **as** she pushed the boundaries of her power with the help of the Pure Energy Pill.

“What’s wrong with her? Is **she** really reaching a breakthrough?” Shocked, Leon stopped arguing **with** her and observed her carefully. Soon, he noticed that her true energy was raging, **which** was a sign of a breakthrough.

“That’s not right. She just reached the Intermediate Supreme State yesterday, so how **can** she reach the next level within a day? I must be overthinking.” He shook his head.

Under normal circumstances, it would take two to three years of hard work to reach the Advanced Supreme State from the Intermediate Supreme State and even for geniuses like Ruth, she could not possibly go **up** two

levels within two days unless there was a miracle.

As he was absorbed in his thoughts, the scene before him shook him to his core.

Ruth jolted and her true energy began to stabilize as she successfully reached the Advanced Supreme State.

“You did it? H- How is this possible?!” Leon’s jaw dropped.

He never imagined that a miracle would happen.

Within two days’ time, Ruth rose from the Initial Supreme State to the Advanced Supreme State.

It was unheard **of and** he would have never believed it if he did not see **it** with his own eyes.

“I did it! I reached the next level! Leon, you’re heaven-sent!”

She jumped from the ground and beamed in excitement.

She only moved to the Dragonbay Villas a little over a week ago, and already managed to go up two levels

and even Ruth herself was stunned by **this**.

She knew that she only managed to achieve such success because of Leon’s Mysterious Maiden Method and his Pure Energy Pill. Without him, **she** would have never leveled **up** with such ease.

Unfortunately, neither the Mysterious Maiden Method, nor the Pure Energy Pill were offered by Leon willingly. She eavesdropped to learn one, and robbed him of the other.

“Ruth, are you even human?” Leon gaped at her as though he saw a ghost.

Breaking through levels was always extremely challenging for martial artists, yet Ruth was managing it like it was as easy as breathing to her.

He finally realized why Ruth was said to be a genius and that he underestimated her talents.
