

The Ex-Husband's Revenge By Dragonsky

Chapter 1131-1140

Chapter 1131

"Cynthia, my relationship with your family is already so bad right now. If I sneak you away, it'd just make matters worse. Our relationship will sour even more!"

Leon shook his head, rejecting Cynthia's suggestion.

He still hoped to resolve things with the Shears. If he brought Cynthia away and angered the Shears, there would be no way he would ever earn their forgiveness.

It only bore ill for him and Cynthia!

"But my grandfather and my father aren't willing to allow me to reconcile with you at all. If you don't bring me away, are we just going to keep on meeting each other so secretly by our whole lives?" Cynthia complained.

"We won't! Don't worry, after I come back from Seacove City, I'll try my best to reconcile with the Shears! We have to properly resolve things between us to solve the core problem!" Leon consoled Cynthia.

"How could we resolve everything?! You saw how my father and grandfather are. They won't accept this no matter what!" Cynthia said with a face full of worry.

She knew that, as long as Leon refused to leave Iris, the Shears would never accept her being with Leon.

She did not think that Leon could convince Benedict and Brad unless a miracle happened!

"That might not be the case! I can already refine Advanced Pure Energy Pills now. It guarantees that any Semi Overlord State martial artists can reach the Overlord State. As long as I get the materials I need from Seacove City this time, I'll be able to make a few of them for your family. The elders in the family will be able to get to the Overlord State with them! This might at least make them look at me in a better light," Leon said, with a smile.

"What? Are you serious?" Cynthia was shocked when she heard that.

The Overlord State was considered to be the realm of the incredibly strong. It was incredibly difficult to get to that level. Many of the older generations in the city found it hard to reach the Overlord State even after dedicating their whole lives to it!

The elders within her family were no exception!

Yet, Leon was able to make Advanced Pure Energy Pills to help Semi Overlord State martial artists reach the Overlord State!

It was obvious how shocked she was!

“Yes, I’m serious!” Leon said with a nod.

“That’s amazing!”

“If you’re able to help the Shears gain a few more Overlord State martial artists, there’ll definitely be room for things to get better.”

Cynthia was incredibly happy. Ilope started to shine in her eyes.

She knew that there were a total of five elders at the Semi Overlord State in the family. All of them wished to

get to the Overlord State!

As

long as Leon was able to produce those pills and give five to the Shears, the elders would definitely try to figure out a way to convince her father and grandfather!

That way, Leon’s conflict with the Shears would be reduced!

“Cynthia, trust me! Whether it’s for your sake or mine, I’ll figure out a way to resolve things with your family. I’m willing to pay any price!” Leon said firmly.

The Shears helped him so much, but he was caught in a really difficult situation. Iris almost died for him, so he was been forced to cancel the engagement, hurting Cynthia and the Shears deeply.

Chapter 1132

Basically, he never wanted things to go sour with the Shears. As long as he could, he would do his best to fix things with the Shears and have the Shears accept him again. Otherwise, he would regret it his whole life!

“Yes, I trust you!” Cynthia smiled sweetly.

Leon was not a saint. She could understand Leon's feelings and difficulties. She knew that Leon had no other choice back then.

However, the past was still in the past. As long as Leon was able to reconcile with the Shears, she no longer had to hide it when she was with Leon.

It was far better than asking Leon to elope with her!

"Cynthia, just be patient for a few days. Wait for good news from me at home. Don't worry, I won't disappoint you!" Leon said seriously.

In truth, other than the Advanced Pure Energy Pills, he had other plans.

He felt like he would be able to settle things with the Shears as long as he showed enough sincerity!

"Alright, then I won't go to Seacove City with you tomorrow. I'll wait for you here!"

Cynthia nodded, abandoning the thought of sneaking away with Leon.

After that, Leon consoled Cynthia a bit more before he left the place quietly.

The morning of the next day.

After Leon, Iris, and Ruth had their breakfast, they started to drive toward Seacove City.

It took about two to three hours before they reached the city.

It was Leon's second time in Seacove City. He was familiar with the place and brought the two others to a luxurious five-star hotel.

In the hotel room.

"Leon, aren't you close to the Hunts? Since Iris and you are looking for suppliers in Seacove City, shouldn't you contact Quinton Huntt to help you?" Ruth asked curiously.

"I guess we're close."

"It's not like finding a supplier is anything that difficult. I don't want to ask Quinton for something so trivial. He's already helped me so many times. I don't want to trouble him and his family anymore," Leon said after some hesitation.

Even though he helped Quinton a lot before, Quinton constantly helped him against Harold in Springfield City. The debt was already cleared.

He did not want to keep on relying on Quinton and the Hunts for help just because of that.

It just felt too dishonorable.

Furthermore, the Hunts were Cynthion Group's business partners. Quinton and the Hunts always thought

that Cynthia was his girlfriend. It would be a bit awkward for him to bring Iris there.

In the end, he still felt like it was better if he did not ask the Hunts and Quinton for help if it was possible.

"That's up to you!"

Ruth did not care that Leon did not plan on contacting Quinton.

Leon was already close to the advanced Overlord State. He was at the level where he could do whatever he wanted in Springfield City and Seacove City. Let's cancel our agreement with them later before we find a new supplier;"

Iris took out a document and handed it to Leon.

"So that supplier is from Seacove City? What a coincidence!"

Leon was somewhat surprised.

After that, he looked through the document and quickly got the gist of the situation.

Chapter 1133

Elegante's supplier was called Wright Enterprises. It was a large raw materials factory in Seacove City.

Even though Wright Enterprises already breached the contract when they started to reduce their supplies to Elegante, Ashwin was the one in charge of the contract, and they signed an agreement for a year.

It had yet to be a year, and the other party only reduced the stock instead of completely cutting them off. On top of that, Ashwin was already out of Elegante, so the matter became a lot more complicated.

In the end, if Elegante wanted to find a new supplier, they would need to cancel their agreement with Wright Enterprises to prevent any legal troubles.

“Alright, let’s head over to Wright Enterprises and cancel our contract before anything else.”

Leon kept the documents before he left the hotel with Iris and Ruth.

Wright Enterprises was a subsidiary of the Wright Group. They were mainly focused on raw materials for cosmetics.

At the regional manager’s office, a plump middle-aged man in a suit worked at his desk at that moment.

Suddenly, there was a knock on the door. A young girl in a professional-looking black dress and black rimless glasses walked in.

“Mister Kesh, I got a call from security just now. There are three visitors from Elegante in Springfield City who are looking for you. They want to talk about our contract with them,” The girl reported.

“Elegante of Springfield? I’ve been waiting for them for the past few days. They’re finally here!”

The moment Luke Kesh heard that, he dropped his work. A sly glint flashed in his eyes.

Ashwin was always in charge of the purchasing of raw materials ever since Wright Enterprises signed an agreement with Elegante..

Ashwin made sure that there were a lot of benefits for Wright Enterprises. When it came to quality, he would

often close an eye to a lot of things.

However, once Ashwin fell, Elegante became a lot stricter. It started to affect Wright Enterprises’ profits.

Luke deliberately reduced the amount sent to Elegante because he wanted to force Elegante’s higher-ups to appear so they could renegotiate things!

In the end, he wanted to take the chance to increase the prices of the materials and benefit more from this!

“Miss Carter, who are they? Are they the executives of Elegante?” Luke asked.

“Yes, they are. One of them said he was the president of Elegante, Leon Wolf. Meanwhile, the other said she was the vice president, Iris Young,” Lisa Carter answered.

“Both the president and vice president are here? It looks like the reduction in our supplies affected them a lot!” Luke was very surprised. He could not help but laugh.

Elegante was not based in Seacove City, so he did not know much about the company.

However, he knew something very well. The fact that Elegante sent two of their most powerful figures over

to negotiate meant that Elegante relied very heavily on raw materials from him. They might have been already desperate!

Of course, the more difficult of a situation they were in, the better it was for Wright Enterprises.

Even if he increased the price by even more, they would have to clench their teeth and accept it!

“Miss Carter, have them wait in the guest room. We’ll see what they say after three hours!”

Chapter 1134

Luke had a cold smile on his face.

It was obvious that he was planning on flaunting his power in front of Elegante first. He wanted to test Leon

and Iris’s wills.

Leon and Iris would be put on the back foot by that. After that, he would be in control of everything, and they would have to do as he pleased!

“What? Isn’t that a bit inappropriate?” Lisa was shocked.

They were guests. She knew that they came all the way over from Springfield City, but Luke was going to make them wait for three hours. It was too vicious!

However, the business field was like war. She knew that Luke was trying to push the other side down so he could benefit as much as possible from it!

“What’s wrong with that? Just do as I say. I don’t pay you for your opinions!” Luke said unhappily.

“Yes.”

Lisa immediately retreated from the office.

Lisa brought Leon's group to the guest room. After that, she carefully poured them some tea, making sure to treat them well.

"Mister Wolf, Mister Kesh is currently busy and isn't available. Please wait here for a moment," Lisa said politely, feeling a bit guilty.

"Yes, alright," Leon had no reason to suspect anything as he answered.

Lisa seemed very polite and well-mannered, so he had a very good first impression. He did not mind waiting

for a bit.

Yet, he never expected to not see any sign of Luke at all even over an hour after Lisa left.

"Despicable! That Mister Kesh sure is bold. He hasn't even made an appearance yet. Is he just trying to toy with us?"

Ruth was already starting to get angry and impatient before Leon could even say anything.

"Yes, it's possible," Leon's expression sank. He started to look very unhappy.

Wright Enterprises had first reduced the materials they sent to Elegante. After that, they wasted so much of

his time.

It was starting to cross the line!

Even if he always had a good temper, he was still starting to get angered by the other party's arrogance!

"How dare he toy with us?! I think he has a death wish! Leon, let's go settle the score with him!" Ruth was furious. She immediately dragged Leon and Iris out.

"Mister Kesh, whoever you are, you'd better come out right now! If you don't, I'm tearing your company apart!"

Ruth was already exploding with anger.

She was the treasured daughter of the Collins, one of the four beauties of Springfield City.

In Springfield City, all the young men were trying to get on her good side, no matter how powerful they were.

Yet, a mere manager in a small factory in Seacove City was trying to toy with her!

Her temper and pride made it so there was no way she would tolerate such a thing!

Lisa was shocked by Ruth's actions. She hurried out immediately.

"Mister Wolf, I'm very sorry. Mister Kesh is still busy with his work. Please wait for a while longer," Lisa said apologetically.

"Not done with his work? He's just toying with us," Ruth said angrily.

"That-" Lisa was speechless.

Chapter 1135

She knew very well that Luke was just trying to toy with Leon and the others, so she found it hard to say anything about that.

"What? Is he doing this on purpose?" Leon's expression sank.

Even though he already guessed that this could be on purpose, it was still just a guess. The other party might have had something important going on.

Yet, from the awkward look on Lisa's face, Leon realized his guess was right!

Suddenly, his face chilled completely. There was fire behind his eyes.

"Mister Wolf, please calm down. Why don't I go see if Mister Kesh is free to see you right now," Lisa said in a hurry.

"What's there to ask? Leon, let's not waste any more time. Let's just destroy this rotten place right now!" Ruth said angrily. As she said that, she raised her fist and prepared to fight.

With her and Leon's skills, it would not be hard for them to destroy the place!

"Please don't! I'm just a mere secretary. Please don't make things hard for me," Lisa pleaded.

Luke was the one who ordered her to see Leon and the others. If Ruth ended up causing a scene, she would be dragged into it. She could even lose her job.

“Ruth, hold on!” Leon grabbed Ruth’s hand.

He knew that Lisa had nothing to do with this. He saw that she was in a difficult spot, and did not want to end up dragging her into this.

“Miss Carter, please go see your manager right now. Have him come see us, or he’ll be at the consequences!” Leon said coldly.

Since Lisa was so polite to them, he planned on giving Luke one last chance. It was already very charitable of

him!

“Yes, alright. Thank you for understanding. Please wait for a moment, I’ll go talk to Mister Kesh right away,” Lisa shot Leon an appreciative smile before she quickly left.

In the office, Lisa knocked on the door before entering.

“Miss Carter, what is it? Do you need something else?” Luke asked as he put down his work.

“Mister Kesh, the guests from Elegante are already getting incredibly impatient. They want you to go see them right now, or they say they’ll destroy the company,” Lisa struggled to even report the matter.

“Destroy the company? They sure are arrogant!” Luke laughed coldly, not bothered by the threat at all.

They were in Seacove City, not Springfield City. They were just a small cosmetics company from Seacove City at that. Even if they were some powerful figures in Springfield City, there was nothing they could do here!

He was not afraid of them at all!

“Mister Kesh, it’s already been over an hour. Why don’t you go see them now,” Lisa said

“No! I already said I would make them wait for three hours. I won’t go even if it’s a minute earlier!” Luke sat down confidently.

“But-” Lisa was starting to panic.

“There’s nothing else to say about the matter! They’re just making empty threats to strengthen their

position in the negotiations! Just keep stalling them. Once they've completely lost all their willpower, I'll go

see them!"

Chapter 1136

Luke smiled coldly.

He needed to make sure they were begging him as they should be!

He thought that Leon and the others were there to ask him to increase their supplies.

Since Leon and the others needed him, he would make sure he placed himself high above them. He wanted to strike at their willpower. That way, he would be able to negotiate for a higher price!

"Okay then."

Lisa felt helpless at Luke's insistence. She excused herself and prepared to leave the office.

"Miss Carter, wait!" Luke suddenly asked her to stop. He had a sudden thought when he saw Lisa's back.

"Mister Kesh, do you need anything?" Lisa turned around and asked.

"Take off your spectacles!"

Luke looked at Lisa's face with a strange glint in his eyes.

"What?"

"That-"

Lisa was shocked.

She did not expect Luke to suddenly ask her to take off her spectacles. It had nothing to do with work.

She found herself at a loss, not knowing what to do.

"Mister Kesh, my eyesight is really bad. If I don't think it's appropriate for me to take off my glasses," Lisa hurriedly answered.

“What’s wrong with that? If I ask you to take it off, then take it off. Why are you wasting time talking? As a secretary, you have to listen to my orders unconditionally! If you insist on going against my orders, then you can forget about working here. Just get lost!” Luke berated impatiently.

“Okay,”

Lisa was shocked. She did not dare to talk back and was forced to take off her glasses, revealing a beautiful

face.

Whether it was her beautiful face or her alluring figure, Lisa could be considered a true beauty.

“Miss Carter, you’ve already been working with me for over a year. I only just noticed how beautiful you are!” Luke’s eyes lit up, immediately praising Lisa.

“Mister Kesh, you’re too kind.”

Lisa forced out a smile at that praise.

After working in the company for so long, she knew Luke’s character quite well. She knew that Luke was famous for being a lecherous old man in the company.

The

young and beautiful secretaries and all the beautiful subordinates were harassed by Luke before.

To avoid that, she made sure to always have her glasses on at work, covering up her looks to avoid Luke’s grasp.

Yet, Luke seemed to have finally caught on, asking her to take off her glasses so he could get a good look at

her face.

Suddenly, she found herself feeling very anxious, worried that she would be harassed by Luke

“Miss Carter, I heard that you’re about to get married to your boyfriend soon. Is that

walked toward Lisa.

are

as well.

right?” Luke said as he

“Yes, that’s right. The two of us having our wedding in half a month,” Lisa answered. She still felt very anxious. She could not understand what Luke was trying to do.

“You’ve already been working here for so long. It must have been hard for you. I have to make sure to properly reward you since you’re about to be married! Why don’t you come home with me tonight? I’ll make sure to give you an amazing gift to congratulate you on your marriage!”

Chapter 1137

Luke narrowed his eyes as a meaningful glint flashed in them.

“What? I couldn’t!” Lisa was shocked to hear that.

She already worked for close to four years. She was not a complete novice. Naturally, she understood what

Luke meant.

If she followed Luke back that night, the results would be disastrous!

“Why can’t you? Aren’t you even going to consider it?” Luke said unhappily.

“Mister Kesh, thank you for the offer. I can invite you to attend our wedding ceremony, but I don’t think I’ll go home with you tonight,” Lisa stubbornly refused.

“Miss Carter, I’m trying to give you a gift out of the kindness of my heart, but you’re refusing it! I already told you that you can get lost and forget about working here if you refuse my orders!” Luke’s expression sank, angered by Lisa’s rejection.

“It’s fine, I’ll just look for another job,” Lisa clenched her teeth, quickly making a decision.

It was just a job. It was nothing that important!

She was about to get married. She could not be humiliated by Luke just for a job and ruin her marriage and happiness for it!

“Very well!” Luke started to smile from the anger.

Since Lisa was already making it clear, there was no need for him to tiptoe around the matter!

“I don’t care if you want this job or not, but I’ve never failed to get anything I want! I’m going to have you today!” Luke said coldly as he suddenly reached out, grabbed Lisa’s wrist, and held Lisa from behind with his other hand, pulling Lisa into his arms.

“L—let me go..”

Lisa was shocked. She immediately started to struggle violently against it.

However, she was just a weak woman. No matter how hard she tried, she failed to escape Luke’s grasp.

“Just keep struggling! The more you struggle, the more excited I get.”

Luke’s eyes were incredibly fiery as his animalistic tendencies flared. After that, he picked up Lisa and

walked to the desk.

“Save me!” Lisa started to shout out in fear.

“My office’s sound insulation is really good. No one will hear you no matter how loud you are!” Luke started to laugh excitedly.

“Don’t! Mister Kesh, I’m begging you! I’m about to get married to my boyfriend! Both of us love each other very much. Please let me go,” Lisa pleaded, hoping that Luke would let her go.

“Go ahead and get married!” Luke had an evil look on his face.

After that, he pressed Lisa down on the desk and started to strip her.

“No.”

“If you keep doing this, I’ll make sure to report this to the police,” Lisa’s face was full of fear as she continued to struggle.

“The police? Go ahead! What can they do even if they find out?” Luke laughed arrogantly. His hands never stopped, He pushed Lisa down as he started to tear at her flesh-colored stockings.

Chapter 1138

“That-”

Lisa’s heart sank. She felt like she was just struck by lightning.

She knew that Wright Enterprises was a subsidiary of the Wright Group. The Wrights were one of the major families in Seacove City. Their influence was immense.

Even if Luke forced himself on her, nothing would happen to him!

Basically, with things as they were, she would not be able to escape from Luke’s clutches. She might not even have the ability to retaliate after the matter!

With that in mind, she felt herself losing all hope!

Bang!

Right at that moment, there was a loud sound coming from the door as it was kicked open.

Right after that, the door flew off, causing a cloud of dust to rise.

“What’s this?”

Luke was shocked. He turned back to see Leon with a cold look on his face. Ruth and Iris were behind Leon as they walked right inside.

“Brat, who the heck are you? Who told you you could barge inside? Get lost!” Luke was furious.

He was just about to get Lisa, but he was interrupted by Leon. There was no way he would be happy about it.

“You’re the manager of Wright Enterprises? It seems like it’s quite hard to meet you!” Leon said coldly. He looked at Luke before looking at Lisa who was being pushed down by Luke. His eyes started to burn in anger.

Even though he did not know what went on between Luke and Lisa, it was obvious that Lisa failed to ask Luke out, and was assaulted by Luke instead.

“Mister Wolf, please save me,” Lisa was elated when she saw Leon appear. She suddenly felt a hint of hope in her heart.

“So you’re from Elegante!”

Luke was taken aback when Lisa addressed Leon. He quickly realized who the three of them were after thinking about it.

“Let her go!” Leon said coldly. His gaze looked incredibly sharp.

“I-”

Luke shuddered when he felt Leon’s gaze.

However, he quickly reacted. They were just from a small cosmetics company in Springfield City. They were not important people!

This was Seacove City. It was his territory!

There was no way he would be afraid of any outsiders, considering who he was!

“Brat, do you think I’d let her go just because you asked?!” Luke retorted furiously.

“Die!”

Leon did not waste any time. With a wave of his hand, a massive wave of power shot toward Luke.

Luke did not even have the time to react as he was sent flying by Leon. He slammed into the wall behind him, and his mind went blank.

“I’m saved.”

Lisa was incredibly emotional when she was saved. She hurriedly tidied up her clothes and ran to Leon and

the others’ side.

“Mister Wolf, thank you for saving me,” Lisa thanked Leon. Her face was full of gratitude

.

At the same time, Luke held back the pain in his body as he started to climb up from the ground.

“Brat, how dare you hit me? Do you not want our supplies anymore?” Luke said angrily.

"I would have forgotten if you didn't remind me! Mister Kesh, right? This is our contract to dissolve our agreement. Please sign it!"

Chapter 1139

Leon recalled his official business. He accepted the document from Iris and slammed it on Luke's desk.

"What? Do you want to cancel our agreement? Am I hearing things?"

Luke was stunned. He could not believe his ears.

He thought that Elegante sent their two most influential executives because they wanted to ask Wright Enterprises for more materials..

He never would have dreamed that they were not here to plead with him at all. They were here to cancel the agreement!

It completely shattered his expectations!

"Stop wasting time! I'll give you one last chance. Sign this right now and I'll consider letting you off!" Leon said coldly.

He was already furious after being made to wait for over an hour.

However, his main purpose this time was to get the agreement canceled. They were also at Seacove City, not Springfield. He still had a lot of important matters to attend to and did not want to waste any time.

If Luke was willing to sign the dissolution, he would not bother being petty!

"Impossible! You just hit me, and now you're trying to cancel our agreement? Dream on!" Luke sneered after he snapped back to reality.

Elegante was a company specializing in cosmetics. They heavily relied on raw materials. They were one of the larger customers of Wright Enterprises.

There was no way he would cancel the agreement, whether it was for the sake of company benefits or other reasons!

"You don't know your place! Since you want to die so much, I'll grant you your wish!" Leon was feeling incredibly frustrated.

Wright Enterprises first reduced their supplies for no reason, and they were now refusing to cancel the agreement. It was very frustrating!

Did Luke think he was a weakling?!

At that moment, frantic footsteps were suddenly heard. An impressive-looking young man walked in with five or six guards who were wearing uniforms.

Leon caused too much of a commotion. The security department was mobilized, and they immediately rushed over.

Luke was suddenly a lot more confident when he saw his subordinates.

“Brat, I’m warning you! We’re in Seacove City. It’s not somewhere you can do whatever you want! If you know your place, then beg me for mercy right now. After that, the price for the materials will be increased by fifty percent. Only then will I consider renewing your supplies! Otherwise, I’ll make sure you won’t be able to leave this place standing up!” Luke said arrogantly.

“Just with you guys? What a joke!” Leon sniffed, not caring about them at all.

“Brat, how dare you underestimate us. You sure are arrogant!” The man in a suit was furious. He and the guards were all angered by Leon.

“Brat, you asked for it! Since you want to die, I’ll grant you your wish! Mister Woole, teach this kid a lesson. Show him his place!” Luke coldly ordered the man in a suit.

Looking at the huge number of disadvantages Leon had, Lisa had a look of worry on her face. She said anxiously, “Mister Wolf, this isn’t your concern. You should leave!”

Chapter 1140

“It’s already too late to leave now!” The man in a suit sneered. With a wave, the six guards immediately surrounded Leon’s group, sealing off their retreat.

“This is bad!”

Lisa paled at the sight. Her heart immediately sank.

Even though she did not know the three of them, she could tell that Ruth and Iris were gentle and weak

women like she was.

So, it left Leon to face the enemies alone. There was no way Leon would be able to beat six able-bodied guards!

In complete contrast to Lisa's worries, Ruth started to have an excited look on her face..

"Leon, there's no need for you to do anything! Let me and Iris handle these minions!"

Ruth immediately stopped Leon from doing anything. After that, she walked forward with Iris.

"Yes, that's a good idea!"

Iris was quite eager and did not reject Ruth's suggestion.

It was already a few months since Leon and her started training. Even though she was usually calm and cool, nowhere near as violent as Ruth, she still wanted to test out the fruits of her training.

How beautiful!

Looking at Ruth and Iris walk forward, Luke and the others finally saw how beautiful they were. All of them were completely stunned!

Luke in particular was absolutely gobsmacked. He was immediately tempted by them!

Springfield City was an incredibly scenic place with great conditions. It was an amazing place that birthed many beautiful women. It was quite well-known.

Iris and Ruth were able to stand out from so many amazing beautiful women to be known as the four great beauties of Springfield City!

Even when it came to the whole country, Iris and Ruth were stunning women who were almost unmatched.

Even if one scoured the whole Seacove City, they would not be able to find a woman that could match Iris and Ruth.

At the very least, Luke and the others never saw any woman as beautiful as Iris and Ruth before!

"So beautiful! They're like goddesses!"

Luke gulped as he looked at them with a fiery gaze.

He thought that Lisa was already incredibly beautiful.

Yet, when he saw Iris and Ruth, Lisa completely paled in comparison!

When it came to beauty, they were dozens of levels above Lisa!

Even rare was the fact that Iris and Ruth both seemed to have incredibly stunning temperaments. One was cold and noble, while the other was lively and cute.

Anyone who was able to gain the favor of either woman would probably be willing to even give up ten years of their lives!

“Mister Woole, help me capture those women! I’ll have to properly try them out tonight!”

Luke looked incredibly excited as he pointed at the women.

He was already well-known for being a lecherous old man in the company. Just looking at Iris and Ruth already stirred him greatly!

At that moment, he no longer cared about the contract. As long as he could get Iris and Ruth, he was willing to give anything!
