

The Ex-Husband's Revenge By Dragonsky Chapter 1241

“Compensation? I don’t care about that!” Leon sniffed.

“Then what do you want?” Orvald asked apprehensively.

“It’s very simple. Didn’t you say you would cripple me and take my method and treasures? Then, I’ll do as you want. I’ll cripple your strength and make you feel the consequences of your greed!” Leon sneered.

After that, he started to walk forward toward Torvald and the others. Every step he took was like a heavy blow to Orvald and the others.

“We’re done for.” Orvald and the others paled. Their hearts sank to the depths.

Strength was the foundation of a martial artist. If their strength was taken away by Leon, then they would become a cripple and lose everything.

They could not accept paying a price like that!

“Chester, three of you flee with Sean! We’ll split up!” Orvald immediately decided as he ordered the guards.

“Yes.” The three guards acknowledged the order. They did not hesitate for a moment as they immediately grabbed Sean and Lilith and fled.

At the same time, the four other guards fled the other way with Orvald.

“Despicable!” Leon never expected them to split up to run. His expression sank.

He could not go two places at once.

As for Benedict, Vincent, and the others, they were too weak to help him pursue either side.

“Whatever, I’ll get the little one first!” Leon hesitated for a moment before he immediately ran after Sean.

Orvald’s hand was already crippled, so Orvald had already paid the price. There was no need for him to be that ruthless.

On the other hand, Sean had tried to force the Shears to marry Cynthia to Theodore. It was an incredibly despicable action. He needed to seek justice for Cynthia and the Shears!

“I can’t believe the Lapwoods from Sky County would run away like dogs. This is quite sad.”

“Leon is just an absolute monster. He’s so young, but his strength is unfathomable.”

“Whether it’s the Northern King, the Fields, or the Lapwoods, no one has ever made an enemy of him and come out of it well. We should all be careful.”

Looking at Leon scaring the Lapwoods away like that, the major forces were all lamenting the fact amongst one another. All of them started to look at Leon with fear and respect.

From that moment on, Leon had turned into the undisputed king of Springfield City. No one would ever underestimate Leon for being an orphan anymore!

“How did this happen...“

Walter and the Fields felt their hearts freeze at the sight.

The Lapwoods were their most powerful allies. They had thought that Leon would be easily dealt with with the help of the Lapwoods!

Yet, not only had the Lapwoods failed to do anything to Leon, the strongest of the Lapwoods, Orvald, had been crippled by Leon. In the end, the Lapwoods had abandoned them.

It was obvious how hopeless they felt.

The Ex-Husband's Revenge By Dragonsky Chapter 1242

“No...”

Sean was absolutely terrified when he saw that Leon was coming in his direction.

It was not just him. The guards were terrified as well.

Even though the three of them were stronger than Leon, they were all heavily injured. They also had Sean and **Lilith** there as burdens.

Lilith was not even a Supreme Master. It drastically slowed them down.

In just a few moments, Leon quickly started to catch up to them.

“Lilith, don't blame me for this.”

Looking at the worsening situation, Sean steeled his heart. Before Lilith could react, he suddenly let go of Lilith's wrist.

The pair was husband and wife, but that meant nothing in the face of great danger.

For the sake of his life, he was forced to give up on Lilith.

“Dear, you...”

Lilith was completely stunned. She stood there and watched as Sean fled, unable to believe her eyes.

Since she was very beautiful, Sean had always treated her very well. Ever since they got married, they've always had a good relationship.

Never in her dreams would she expect Sean to leave her alone like that.

At that moment, her heart felt very cold.

Leon was not someone ruthless, and his main goal was Sean. He did not even spare Lilith a look as he rushed past her, continuing toward Sean and the others.

Without Lilith to burden them, Sean and the guards sped up a lot more. They were starting to pull away from

Leon.

“You’re trying to run? It won’t be that easy!” Leon sneered. He already made the decision to seek justice for the Shears and Cynthia. There was no way he would **just** watch as Sean fled!

At that moment, he raised his hand, and over ten needles shot out with incredible force at Sean and the

others.

None of them expected Leon to have any hidden weapons. By the time they reacted, the needles had already found their target, striking the men’s backs.

The guards were all at the advanced Overlord State and above. They reacted very quickly, immediately turning around to destroy the needles.

However, Sean was **not** that lucky. **He** was only a peak Supreme Master. He was too weak. **He** only managed to strike two of the needles. The third flew past and struck his shoulder.

Sean hissed as he stumbled, almost falling to the ground.

Taking the chance, Leon leaped into the air, jumping past the four of them and landing in front of them, cutting their path of retreat.

“Crap!”

Sean’s expression darkened at the sight of Leon. He never dreamed that he would still fall into Leon’s hands, even after doing so much.

“Sean, it’s time **to** accept your fate!” Leon said coldly as he charged forward with incredible strength.

“Solomon, three of you hold him back...”

Sean paled. He turned around to flee right after saying that.

The Ex-Husband’s Revenge By Dragonsky Chapter 1243

“Brat, take this!” The three of them clenched their teeth as they charged at Leon.

However, they were still scared from Leon’s attack just now, **so** their attacks felt incredibly powerless.

Of course, the energy was Leon’s greatest trump card. He only had two left. There was no way he would waste

them on those three.

Furthermore, he did not need it when his opponents were heavily injured!

“Just lie down!” Leon shouted as he punched forward, using Double Attack at Solomon and **Eric**.

Bang! Bang!

With two intense clashes, there was no way Solomon and Eric would be able to break through Leon's defenses.

Right after that, they were sent flying by Leon just like before.

At the same time, Chester attacked.

Leon remained calm. He stepped forward and tried to use his Mirror of Sovereign to block the attack.

Chester knew that Leon had a treasure protecting him, so Chester tried to **pull** off a feint.

Unfortunately, he was heavily injured, so he was much slower than usual.

Taking the chance, Leon struck **out** with incredible force at Chester's chest.

Chester could do nothing but barely block Leon's attack.

The results were obvious. He was sent flying by Leon's second strike, just like the other two had.

After dealing with the three of them, Leon did not hesitate. He shot forward like an arrow, quickly charging in Sean's direction.

As he got closer and closer to Sean, he punched out with incredible force, aiming for Sean's back.

"I'm done for..."

Feeling the immense power behind him, Sean immediately rolled on the floor, barely avoiding Leon's attack.

However, **he** could avoid the first attack, but not **the** second one. He **was** immediately struck by Leon's second wave of energy.

Sean spat out a mouthful of blood as he rolled a few times on the ground .

Right after that, he had not even been able to get up before Leon appeared in front of him, stepping on his chest and stopping him from moving.

“Sean, it's over now!”

Leon had a cold glint in his eyes. **He** looked at Sean and prepared to cripple Sean's power.

“No...”

“Leon, I already know my mistakes. Please don't take away my strength. **If you let me go this time, I'll do anything,**” Sean said in fear and shock.

“It's already too late to apologize! You should leave all those words for your next **life!**” Leon smiled in disdain. He ruthlessly slammed his fist in to Sean's Energy Sea Point, crippling Sean's power.

Even though Cynthia was not his girlfriend, Cynthia was still second to Iris in his eyes!

Sean should never have helped the Fields against the Shears. He should not have forced Cynthia to marry

Theodore!

It had thoroughly angered Leon!

He had just taken away Sean's power. Sean was already lucky he was not killed!

The Ex-Husband's Revenge By Dragonsky Chapter 1244

After crippling Sean's strength, Leon looked over at where Orvald and the others had fled. They were already far away, and it would be impossible for him to catch up.

Even though he was unhappy about it, there was nothing he could do.

Meanwhile, Orvald and the others let out sighs of relief when they saw Leon could not pursue them. They suddenly **felt** happy about escaping such a dangerous situation.

Before they could properly feel happy about **it**, something happened.

“What a bunch of hooligans! You're trying to flee after doing whatever you want in Springfield City? Do you think the Dragon Corps here **is** just for show?!”

An old and stent voice was suddenly heard everywhere.

There was an incredibly strong amount of energy and power in that voice. It was like a lion's roar that was targeting right at Orvald and the others.

All of them spat out mouthfuls of blood as if they had been struck by a heavy blow.

At the same time, Master Haslewood appeared with Mark and Cara. There were also over a dozen guards

behind them.

It was obvious that the voice just now belonged to the old man.

“The Dragon Corps is here!”

“How strong!”

Other than Leon, everyone else was shocked to see Haslewood using only his voice to injure the Lapwoods. They were deeply shaken by his strength!

Orvald, in particular, was even more shocked!

Based on what he knew, cities like Springfield City would usually only have advanced or peak Overlord State martial artists as part of their Dragon Corps. That was why he came here so fearlessly.

Yet, the guards he brought with him had actually been injured by **just** that old man's voice alone. That was **several** times stronger than him!

He could not understand why the Dragon Corps here would have **such a** powerful person!

Of course, he did not know that Master Haslewood's condition was special. He had been sent over to

recuperate by the main office. There was no one like him in the other cities.

He did not even know that the attack Leon used just now had been given by Master Haslewood!

He had just been incredibly unlucky. Otherwise, there was no way he would have lost to Leon, and there **was** no way he would have failed to even escape!

“Mark, have all these Lapwoods captured. They'll be punished by the Dragon Corps!” Master Haslewood said

coldly.

“Yes.” Mark acknowledged before he led the guards over, capturing the Lapwoods, including Lilith.

Orvald and the others had ashen looks on their faces. They would naturally not dare to fight back against the Dragon Corps.

It was not like they stood a chance anyway.

Thankfully, none of them had any fatal injuries. Even if they were captured by the Dragon Corps, they would probably just end up confined for a few months.

It was already a silver lining!

The Ex-Husband's Revenge By Dragonsky Chapter 1245

“Master, why are you here?”

Leon walked over while Mark was capturing all of them.

“I came over to settle the matter for you in case you cause any trouble again,” he replied calmly.

The Dragon Corps was responsible for maintaining order in the martial world. Even though The Lapwoods had helped the Fields against the Shears, the matter had not caused that much trouble, so the Dragon Corps did not know about it.

It was only when Orvald suddenly came to Springfield City himself as someone in the Emperor State did the Dragon Corps get alerted!

So, Master Haslewood and the others rushed over immediately.

Of course, he knew that he had given Leon enough to survive. The Lapwoods would not be able to do anything to Leon, but the Lapwoods had still crossed **the** line in trying to interfere with Springfield City. They had broken the laws of the martial world, so the Dragon Corps needed to punish the Lapwoods!

He was also a little worried that Leon would use his power to kill someone in anger. Since there was no death on the scene, he breathed a sigh of relief.

“How could I? I don’t want to visit you guys again.” Leon laughed dryly.

“Brat, I’ve already heard about your grudges with the Fields from Cara. There’s always merit to being kind. I hope you show some mercy,” Master Haslewood did not forget to say.

“Yes, I understand.” Leon nodded.

He knew that he was being warned against taking any lives for no reason. He was not someone who enjoyed killing the innocent, so that warning had not been needed.

“Also, when you’re free, come over to visit us. I have something I want to talk to you about,” Master Haslewood said.

“**Yes, I will,**” Leon answered quickly.

After that, the Dragon Corps left.

“Everything is over!”

“The Fields are really done for now...”

Looking at the Lapwoods **leave**, everyone turned their attention to the Fields after that.

At that moment, Walter **and** the others looked incredibly ashen and hopeless!

They had lost their most reliable allies. They had already lost on all fronts!

“Leon, how will we deal with the Fields?” Benedict asked.

The Fields had always been mortal enemies of the Shears. After being forced to do all of that, Benedict’s hatred for the Fields was already at its limits. He even wanted to kill them at that moment!

However, the Shears had only managed to emerge victorious thanks to Leon. He needed to see what Leon wanted to do first.

“All of the direct descendants will have their power taken away! As for everyone else, they will have three days to liquidate all their assets. After that, they’re to leave Springfield City and never come back!” Leon said coldly.

He was not a ruthless person. On top of that, he had been warned earlier as well. In the end, he only severely punished the direct descendants.

The rest were just following orders. There was no reason for him to be too cruel.

“What?”

When the rest of them heard that, they could not believe their ears.

They thought they would have everything taken away from them and get kicked out of Springfield City, but Leon was letting them off so easily. He was even allowing them to liquidate their assets!

It was amazing news to them!

It was obvious how happy they were!

Suddenly all of the ones who were not direct descendants started to kneel down in front of Leon!

“Mister Wolf, thank you for your mercy.” All of them started to thank Leon emotionally.

The direct descendants were in a completely different state. Walter, Theodore, and the others looked like their hearts had frozen!

Walter, in particular, looked like he had aged ten years.

At that moment, he regretted everything. He was constantly regretting opposing Leon. Otherwise, there was no way they would fall to this level!

Unfortunately, no matter how much he regretted it, it was already too late!

The Ex-Husband's Revenge By Dragonsky Chapter 1246

After dealing with the Fields, Leon left everything to Benedict, Elder Young, and the others to deal with. He brought Iris and Cynthia with him as he left the place. Ruth invited herself along, getting in the car with them.

“Cynthia, I asked you to prepare the materials I need for the Pure Energy Pills before this. How are your preparations?” Leon asked,

“Yes, everything’s already prepared.” Cynthia nodded.

“Good, let’s go over to refine them right now,” Leon said eagerly.

Ever since his Sage Art reached the Foundation Stage, he was able to make Advanced Pure Energy Pills. It was able to help Semi Overlord State martial artists get to the Overlord State.

Other than that, the stronger he was, the better the pills he made.

He already took a Dragon Pill, and his Sage Art had temporarily risen to the Advanced Foundation Phase. Before the effects of the Dragon Pill were gone, he wanted to refine the Advanced Pure Energy Pills quickly.

Then, the effects of the pills would be at their best. It would not just be able to help Semi Overlord State martial artists get to the Overlord State. It would even greatly help Overlord State martial artists!

At the courtyard at Shear Mansion, Leon, Cynthia, and the others took the materials and headed to the peak of the mountain.

This was where Leon had refined his pills in the past. The furnace, Energy Convergence Circle, and other things were all already there, so he could start at any time.

Since time was of the essence, Leon did not want to delay things. He lit up the furnace and put the pendant at the center, activating the Energy Convergence Circle.

As the circle activated, the spiritual energy around the mountain slowly turned into a vortex, shooting right into his body.

Cynthia was already used to the sight of the Energy Convergence Circle, but Iris and Ruth had never seen Leon refining pills before. The two of them widened their eyes, feeling like they had seen something completely new to them!

After everything was ready, Leon took out the Snow Lotus and put it into the furnace. After that, he took the materials that were in Cynthia's hands and put them into the furnace one by one.

After that, he started to work on his skills, guiding the pure spiritual energy gathered by the Energy Convergence Circle into the furnace, controlling the fusion of the various attributes within the furnace.

After a long time, there was a buzz.

With the fusion of all the materials inside, the furnace started to shake slightly. The pills had been formed, and there was a mild fragrance in the air.

“It’s done!” Leon had a happy look on his face as he slowly pulled back the spiritual energy. He walked forward and opened the lid. There were over forty round Pure Energy Pills within.

The shape and size looked more or less like Basic Pure Energy Pills, but the color was much brighter. The energy within was much denser and purer than Basic Pure energy Pills as well.

The Ex-Husband’s Revenge By Dragonsky Chapter 1247

“Leon, are these the Advanced Pure Energy Pills? Can they really get someone from the Semi Overlord State to the Overlord State?” Ruth walked forward and asked curiously.

She knew of the effects of the Basic Pure Energy Pills, and she had one before as well. It had helped her become an advanced Supreme Master while she was still an intermediate Supreme Master.

However, Advanced Pure Energy Pills were much better than the basic ones. It could help a Semi Overlord

State martial artist reach the Overlord State!

She felt like Leon’s alchemy skills were a bit unbelievable!

“Yes, that’s right! The Advanced Pure Energy Pills I made this time are particularly effective. Even Overlord State martial artists will be greatly helped if they have them!” Leon said with a smile.

“Really? That’s great! Then give me one. I’ll let my grandfather have it later. He might be able to get to the advanced Overlord State!” Ruth was incredibly excited. After that, she did not even wait for a response before she picked one for herself.

“Is that even a gift anymore? You clearly just stole it.” Leon’s face darkened.

“Come on, it’s just an Advanced Pure Energy Pill. You’re a man, why are you being petty with a weak girl like me?” Ruth said in a cute manner.

“Can you really be considered a weak girl?” Leon’s face darkened even more.

However, he was just saying that on the surface. Ruth and the Collins had helped him so much. Ruth had even saved Iris from Harold’s hands before.

He had already seen Ruth as a friend a long time ago. There was no way he would really be petty with her.

After that, he took out a few bottles and kept all the Pure Energy Pills.

“Iris, we hurried back from Seacove City so early in the morning today. You must be tired. Go back home and rest with Ruth for now! I’ll go see Elder Shear and the rest of the family with Cynthia and try to settle our grievances,” Leon said seriously.

He knew very well that, even though he had helped Cynthia escape a marriage with Theodore and helped the Shears topple the Fields, it was separate from their existing grudges.

He still needed to do a lot more to resolve things with the Shears.

“Yes, alright.” Iris nodded in agreement. After that, they went down the hill together and split up.

In the main hall with the Shears, Benedict, and the others returned home after dealing with the Fields. All of them gathered in the hall to discuss what they needed to do **in** the future.

At that moment, both lines of direct descendants were there, including the few elders of the family. All of them were happy about eliminating the Fields, but they had looks **of** worry on their faces as well.

“Grandfather, what do we do about Cynthia and Leon?” Harvey could not help but ask, voicing out the concerns of everyone there.

Since Leon and Iris were already back together, the Shears could definitely not accept Leon again. There was

no way they would allow Cynthia to join Leon and Iris either!

However, Leon saved Cynthia and rescued the Shears this time. It would be inappropriate for them to continue viewing Leon as an enemy.

However, it would be far too absurd if they actually took a step back and allowed Cynthia to be with Leon!

None of them could accept something like that!

The Ex-Husband’s Revenge By Dragonsky Chapter 1248

Chapter 1248

“[...]”

Benedict had an uncertain look on his face. He got out of his seat and started pacing around, finding it hard to make a decision.

He had the same view as everyone else. Whether it was in consideration of the family’s name or even just as the family itself, he would never allow Cynthia to be with Leon on such vague terms!

However, he knew that Cynthia had deep feelings for Leon, so much so that it did not seem likely that it would ever go away. On top of that, Leon had saved the Shears this time. If he continued to split Cynthia and Leon apart forcibly, it would just be too cruel!

Suddenly, he felt like he was caught in a difficult position. He did not know what to do.

“Dad, debts are debts, while grievances are grievances. They’re two different things! Why don’t we return Cynthion Group to Leon? That would be a way to repay our debts! However, I will never agree to Cynthia and him!” Brad said firmly.

As Cynthia’s father, there was no way he would allow his daughter to be with Leon on such vague terms!

That would be no different from being a mistress. It was preposterous!

He was definitely the one most firmly opposed to all of this!

“Yes, Brad is right!”

“This is a good middle ground to take!”

Everyone there, whether it was the elders or Tomas, expressed their agreement.

When things between Leon and the Shears soured, Leon returned Cynthion Group to them as a way to make amends.

However, they knew that Leon’s skills in alchemy were immense. Only Cynthion Group would be able to

make the most use of Leon’s skills!

If they returned the company to Leon, it would be a way to repay Leon. Then, they would not owe each other.

anything!

“That’s a good idea.” Benedict thought about it for a moment. He was on board with Brad’s idea.

However, he knew very well of Cynthia’s feelings for Leon. Cynthia would never agree to draw the line with

Leon!

This was still a very difficult problem!

“That’s right. Harvey, wasn’t Cynthia with you the whole time? Where is she? Why isn’t she here?” Brad looked at Harvey and asked.

“That...”

“When the incident with the Fields happened, Cynthia left with Iris and Leon. I don’t know where they are right now,” Harvey answered.

“What? That despicable Leon! Just because he saved us, he didn’t even bother saying anything before he brought Cynthia away. There’s not even a trace of them right now! Does he really think he owns us now?!” Brad was furious. He slammed the table and stood up.

It was not just him. The others had serious looks on their faces as well.

Even though Leon had saved them, Leon had still constantly snuck in to meet Cynthia in private before. He had even ‘kidnapped’ Cynthia in broad daylight this time. It was like he held no regard for the Shears at all!

Suddenly, they felt a lot of anger in their hearts. They were even more resolved not to let Cynthia ruin her life

in Leon’s hands!

“Harvey, give Cynthia a call right now. Ask her to come back this instant...” Brad said furiously.

“There’s no need! I’m already back with Cynthia,” At that moment, Leon’s voice was heard as he walked into the hall with Cynthia.

Leon and Cynthia's appearance calmed the Shears down a bit.

"Leon, there's a difference between man and woman! You're already one of the most notable people in Springfield City right now. I hope you'll pay more attention to your actions. Please distance yourself from my daughter!" Brad said rudely, not bothering to be polite with Leon.

"That..."

Leon felt a bit awkward at Brad's words. He did not know how to answer.

"Dad, what are you doing? We only managed to avoid disaster today thanks to Leon.

Even if there are some conflicts between us, there's no need to attack him like that!" Cynthia said unhappily.

"I know! All of us are very thankful that he helped us this time! However, that doesn't mean he can try to have more than one girl at once, seducing my daughter without fear!" Brad said angrily.

"I..."

Cynthia's face reddened. She felt herself rendered speechless.

"Mister Shear, please calm down."

Leon took a deep breath and said sincerely, "Yes, it was my fault that I canceled the engagement last time. I came here to make up for my actions. I hope to earn your forgiveness."

"Forgiveness? There's no need! We'll be happy as long as you distance yourself from my daughter!" Brad said coldly.

"Brad is right, we don't care for any empty apologies!"

The others agreed.

All they wanted was for Leon to leave Iris and return to Cynthia. As long as Leon was not willing to do that, then everything else was just empty!

“Dad, don’t be in such a hurry to reject it! Leon actually made some Advanced Pure Energy Pills to resolve the problems between us. He’s planning on giving the family a few! It will help our Semi Overlord State members reach the Overlord State immediately!” Cynthia said in a hurry.

“Cynthia, what did you say? The Advanced Pure Energy Pills will help us reach the Overlord State?” The elders were shocked to hear that.

They were suddenly much more interested in Leon’s proposition.

“Yes, that’s right! These Advanced Pure Energy Pills I made this time will not only help Semi Overlord State martial artists reach the Overlord state, even those at the Overlord State will see a significant increase in their strength!”

“Elder Shear, there are a total of seven pills here. It’s a form of apology from me to all of you. I hope you’ll accept it,” As Leon said that, he took out a bottle and passed it over.

He knew that the Shears had seven Semi Overlord State elders. Benedict and Tomas were at the Overlord State as well. The Advanced Pure Energy Pills would help all of them a lot.

So, he gave seven pills to the Shears.

“That...”

The elders exchanged looks of excitement with each other.

The Overlord State was their greatest wish and dream. The dream was right in front of them. As long as they accepted Leon’s apology, they could use those pills to reach the Overlord State!

At that moment, they were all obviously tempted!

“I think we can talk about this...”

The elders let out smiles on their faces. Their attitudes were suddenly completely different.

The Ex-Husband's Revenge By Dragonsky Chapter 1250

Bang!

Looking at the elders being tempted, Tomas immediately stood up and slammed his hand on the table before Benedict could react.

“What’s there to discuss? Are we really going to toss away our reputation for a few pills?!” Tomas said angrily.

Cynthia was the treasured daughter of the Shears. If she continued to be with Leon and Iris, willingly becoming Leon’s mistress, it would completely destroy the reputation of the Shears when word got out!

Even he would not agree to that, let alone Brad and Benedict!

“Uncle is right! There’s no room for negotiation with regard to this!” Brad stood up and said with resolve as well.

“Everyone, it’s not just the Pure Energy Pills, I have an Advanced Power class method to give you as an apology as well,” Leon hurriedly said, taking a book out.

He had gotten Cynthia to retrieve some pen and paper after he finished refining the Pure Energy Pills to write the method down. The goal was to show his sincerity to the Shears to dissolve the conflict between.

them.

Naturally, after what happened with the Lapwoods, practically everyone in Springfield City knew that he had an Advanced Power class method. He no longer had any need to hide it.

Of course, he would never reveal the fact that he had an Absolute Method. Otherwise, he would end up inviting death!

So, he merely gave the Shears a Power Method for the moment. Once he was stronger, he would think about giving an Absolute Method to the Shears!

“What? You’re giving us an Advanced Power class Method? Are you serious?!”

Tomas and the elders were completely shocked when they saw the book in Leon’s hand. Their jaws were about to drop to the ground.

Advanced Power class methods were incredibly rare. It was something that could not be found even with

money.

The Lapwoods had even mobilized Orvald himself to get it from Leon, but they had been beaten back and left without anything!

Leon was actually giving the method to the Shears without any prompting. It really was a tremendous gift!

Suddenly, they were completely shocked. They had been moved by Leon’s sincerity!

“Leon, are you really going to give us an Advanced Power class method?” Benedict immediately stood up. He could no longer remain calm when faced with something so valuable!

“Yes, I’m absolutely serious!” Leon nodded.

He had always regretted ruining things with the Shears. If Absolute Methods would cause him that much

trouble, he would not have minded giving them one either!

“Brother, there are no grudges that can’t be resolved! I think that we should give him a chance, since he’s so sincere!” Tomas said in a righteous manner after he snapped back to reality. He was acting completely

different from before.
