## Chapter 18

After the treatment, Leon was completely pale. Sweat beads formed on his head as he sat on the floor. He almost fainted from his exhaustion.

He was still not a true doctor. He could not use his internal power with his treatment. He barely managed to perform the treatment by relying on that unknown energy in his body.

"Cough!" At that moment, Elder Young suddenly responded. He abruptly opened his eyes and spat out a few mouthfuls of blood. He quickly stained his clothes and the floor red.

Right after that, Elder Young shut his eyes, not moving at all. Even his breathing stopped. It was like he died!

"Grandfather..."

"Dad..."

Iris and Gilbert both exclaimed at the same time. They let out a cry of agony as they ran over to Elder Young.

"I knew this guy was just trying to stand out and show off. I didn't know he would end up causing all this trouble. He ended up costing Elder Young his life. The world is getting worse because of people like you!" The assistant shook his head. He knew that this would be the result of Leon's recklessness, so he was not surprised.

Graham shook his head in regret as well. He thought that Leon was using the Six Points of Fate, but it seemed like he was just overthinking it!

"Leon, it's all your fault! You killed my father!" Gilbert was furious as he grabbed Leon's

collar. He pulled the thin Leon up from the floor. His eyes were red with anger. He wanted to kill Leon on the spot.

Even though Elder Young was on the brink of death, he was at least still breathing. As long as he did not die, they still had a sliver of hope.

However, thanks to Leon's reckless treatment, even that hope was taken away!

The anger in Gilbert's heart was understandable.

"Men! Take this man away! He killed Elder Young. Take him to the police immediately!" Gilbert shouted angrily, and several security guards ran in from outside.

After that, he captured Leon like he was a criminal.

"I..." Leon's face was pale, not knowing what to do.

"Grandfather..." Iris started crying. She was filled with regret and disappointment.

She already investigated Leon before this. Leon was a part of the Mansons for three years and was regarded as useless the whole time. He had no talents, so how could he know medicine?!

She should not have trusted Leon. Otherwise, her grandfather would not have died!

It was already too late for her to regret anything!

At that moment, Elder Young suddenly let out a few intense coughs as he slowly woke up.

Graham and his assistant were dumbfounded at the sight.

Even Iris and Gilbert were stunned.

Even Leon himself was shocked.

They never would have expected that Elder Young would miraculously be alive after he died earlier!

"Grandfather, y-you're alright? That's amazing!" Iris was the first to react. She hurriedly helped Elder Young up as she cried emotionally.

"Dad, how do you feel right now? Gilbert rushed over emotionally as well.

"What happened?!" Elder Young frowned as he looked at the mess in front of him. After that, he looked at the bruise on his chest and seemed to realize something.

He looked at Graham and said gratefully, "Graham, you are a Holy Doctor. Thank you for saving me!"

Graham felt incredibly awkward. He did not know what to say at that moment.

"Grandfather, it wasn't Graham that saved you. Leon was the one who saved you..." As Iris said that, she suddenly remembered that Leon was captured by their security guards.

Hurry up and let Leon go!"

She hurried over and pushed a few of the guards aside, "What are you standing there for?

Leon finally regained his freedom and breathed a sigh of relief internally. "Leon, I'm sorry. We misunderstood you just now..." Iris hurriedly apologized to Leon. Her

face was red and she felt incredibly embarrassed.

"It's fine. What's important is that Elder Young is awake," Leon said. Iris still felt incredibly bad about it. Leon saved her grandfather, yet the Youngs repaid his

kindness with contempt. They almost hurt Leon.

all.

Yet, Leon did not complain at all. He did not seem to have any intentions of blaming them at
