

The Ex-Husband's Revenge By Dragonsky

Chapter 2021

Chapter 2021

"Scott, you asked for this! Since you people want to die, I won't hold back! Behold, the power of a Platinum Martial Technique! Tiger's Roar!" The Poisonwielder narrowed his eyes coldly.

Instead of cowering before the Dragon Guards, he took a step forward and blasted two powerful waves of true energy from his palms.

His energy combined with the air around him and seemed to have transformed into an image of a fierce tiger before the Dragon Guards' eyes.

Like training methods, there were levels in Martial Technique as well and they were categorized into Sky, Earth, Platinum, and Gold.

The higher the level, the more powerful the Martial Technique would be.

The Hellish Fiery Punch Scott wielded was a Gold Martial Technique that could amplify the energy of a martial artist; however, the Tiger's Roar was a Platinum Martial Technique, which was distinctively more powerful than the Hellish Fiery Punch, i

"Damn it! That's a Platinum Martial Technique! Back away!" Scott gasped and immediately commanded the others to retreat, but it was too late.

"Baam!"

The Poisonwielder's Tiger's Roar tore through the attacks and swarmed them with the aftermath.

Scott, who was closest to the attack, spat a mouthful of blood and was instantly disabled like Fletcher and Randall.

Oliver, Abraham, and the others were in slightly better states but were still injured by the Poisonwielder's energy and all lay sprawled across the ground with a pale look on their faces.

Fletcher and Randall, who managed to get up, stared at the sight before them darkly.

Fletcher knew that he would not have fallen victim to the Reaper's Breath if only he accepted Leon's Essential Detox Pills. If he was not so ignorant, both Fletcher and Randall could have easily defeated the Poisonwielder alongside the other Dragon Guards. However, the situation took an unexpected turn due to the mistake made by the western region branch of the Dragon Corps and the Poisonwielder managed to defeat them all using the Reaper's Breath and his strength.

Fletcher's heart was instantly heavy with remorse and guilt, but it was too late.

"Accept your fate, kid!" The Poisonwielder burst into evil laughter before turning his attention back to Leon, determined to kill Leon right there and then.

"Mister Wolf, we will stop him! R- Run!" Fletcher and Randall white-knuckled through their injuries and lunged themselves at the Poisonwielder once again to allow Leon to run.

If Leon could get away, the Dragon Corps would have the means to counter the Reaper's Breath and there will be another chance for them to regroup for another attack, 1

However, if Leon died, it would only become more challenging for the Dragon Corps to hunt the Poisonwielder down.

Hence, Fletcher and Randall knew that they had to risk their lives to protect Leon from harm, or they would live the rest of their lives in remorse.
