

# The Ex-Husband's Revenge By Dragonsky

Chapter 2030

## Chapter 2030

In a room inside the temple, the Poisonwielder sat on the floor and attempted to expel the poison from his body.

He found this place a few days ago and decided to hide there because it was remoted and rarely visited by people. Hence, it seemed impossible for members of the Dragon Corps to find him.

Indeed, despite the effort of the Dragon Guards from the western region in finding him for the past two days, they were not able to track him down, so he was certain that he was safe and had no concern that the Dragon Guards would come after him.

Sometime later, he withdrew his energy and opened his eyes with a dark expression.

"Damn it! What kind of poison is this?! Why can't I get rid of it?!" Furious, the Poisonwielder shoved at the table beside it, causing it to break into pieces.

Since he escaped from the Tiddertons Mansion, he produced a few other types of antidotes to try and expel the poison from his body.

However, the Veratrum poison was a slow-acting poison that could not be countered, and the Deadly Veratrum poison was made from the Veratrum poison by adding motherwort to amplify its power, making it even harder to be countered.

No matter what he tried, the Poisonwielder simply could not get rid of the poison and it continued to spread throughout his body.

At that moment, the poison already reached his lungs and was dangerously close to his heart. If he failed to expel the poison as soon as possible, he would perish once the poison spread into his heart.

"I guess I have no choice but to use the motherwort!" The Poisonwielder took a deep breath to suppress his anger and took out the motherwort that it robbed from the Tiddertons.

As an expert in poison, he could tell that the poison he was drugged with contained motherwort, which was the reason why it was so difficult to counter it.

Motherwort could either maximize a poison's effect or treat a patient who was poisoned.

By taking the motherwort, he would be able to counter the poison inside his body.

Since the Poisonwielder studied a dark method, he originally planned on using the motherwort to get to the Intermediate Almighty State, before using what was left of the motherwort to strengthen the effect of his Reaper's Breath.

However, he was left to use the motherwort to save his life and all his effort were to waste.

"Wolf, just wait! Once I get rid of the poison, I'm going to skin you alive!" The Poisonwielder roared resentfully

Not only did Leon succeed in poisoning him, but he also broke one of the Poisonwielder's arms and severely injured him.

Leon was the reason why he came close to dying in the Tiddertons Mansion and end up wasting the motherwort.

He simply could not appease his anger unless he could tear Leon into shreds.
