

The Ex-Husband's Revenge By Dragonsky

Chapter 2047

Chapter 2047

"I have a Sun Pill here. It can help martial artists who use Light Methods! Mister Thompson, I'll give this to you. You can try using it later," Leon said as he handed the Sun Pill over to John.

He encountered quite a lot of trouble in recent times, and John helped him a few times.

He wanted to repay that no matter what!

Even though the Sun Pills were very valuable, he made twelve of them this time. He could not use so many himself!

So, decided to just give one to John, using it to repay him!

"Alright. Mister Wolf, thank you," John did not forget to thank Leon after accepting the pill. However, he did not care that much.

After being with Roanne for so long, he already knew that Leon was Cynthion Group's chairman. He also knew that the Energy Nurturing Pills from the company were quite good.

He thought that the Sun Pill was probably just at the level of the Energy Nurturing Pills and that they would be able to improve the strength of a martial artist.

However, since he was already in the Semi Almighty State, the little bit of improvement was nothing to him!

There was no way he would be particularly affected!

"Leon, let's go!" Ruth said after that, pulling Leon toward the room.

Iris, Roanne, and the others followed behind him.

"Doesn't Mister Wolf have too many women around him?"

John had a strange look on his face as he watched Leon and the girls leave.

Iris, Cynthia, Ruth, and Snow were all absolute beauties. All of them seemed to be incredibly close to Leon as well!

He was older and had more conservative thoughts, so it was normal for him to feel strange about it all.

Of course, that was Leon's private matter. It had nothing to do with him!

However, even Roanne was pulled into it all. They were going into a private room together.

It felt a bit inappropriate!

However, Roanne was the heiress of the Thompsons, while he was no one significant. He could not forcibly stop Roanne.

"Whatever. I'll have to remind her to pay more attention in the future. She needs to keep some distance from Leon lest any bad rumors start to spread," John silently made the decision. After that, he decided to forget about it as he ate the pill in his hand.

The moment he ingested the pill, John's face changed dramatically.

The moment the pills were digested, they immediately turned into countless waves of immensely strong true energy, surging into his limbs!

The true energy was incredibly warm. It was at least several times more pure and dense than the Energy Nurturing Pills he had before!

He quickly felt the bottleneck he was stuck at for so long starting to loosen!

"What kind of miraculous pill is this? Isn't it too strong?!" John widened his eyes in disbelief!

The Semi Almighty State might just be one level away from the Almighty State, but there was a massive gulf between them!

Within the southern region, many of the older generations found it impossible to get to the Almighty State even after training their whole lives!

He was no exception!

He was already very old. When it came to training, it was hard for him to get the best effects. It only made getting to the Almighty State even harder!

Yet, he just ingested the Sun Pill from Leon, and he immediately started showing signs of breaking through!

It was obvious how shocked he was!

After that, he no longer bothered thinking about it as he hurried to his room, preparing to train and seize the chance to reach the Almighty State!

As long as he could get to the Almighty State, his position in the family would rise!
