"Leon, where did you go so early in the morning?"

Iris and the others looked quite happy at the sight of Leon. After that, they walked over to him.

"Oh, I went to the mountains to get some air, and I got some things done there."

Leon explained simply, brushing past the matter.

At that moment, John rushed over from behind.

"Mister Wolf, thank you! The Sun Pill you gave me last night helped me reach the Almighty State! I don't know how to repay you," John said emotionally.

When it was known that Cynthion Group would be organizing another sales drive, a lot of the older generation and the second generation of the ancient martial arts families were immediately interested in it!

After that, a lot of them made preparations, planning on personally bringing some direct descendants and other core figures over!

It caused Cynthion Group's reputation and influence to reach its peak!
