

The Ex-Husband's Revenge By Dragonsky

Chapter 2071

Chapter 2071

"Rats! How can this be?" Both the Southern Boss and Devon's expressions darkened when they realized that Roanne attained a new level in her training.

This was especially harrowing for the Southern Boss; he dreamed of the day that Cynthion Group's Supreme Pure Energy Pills would lose effect, or perhaps something would go wrong so that he could recruit everyone else to pitch a fight against Leon and get his hands on Cynthion Group in the process!

However, now that Roanne successfully attained the Emperor State, every last glimmer of his hope dissipated in the wind!

However, on second thought, this discovery solidified his plan to get rid of Leon and get his hands on Cynthion Group!

The Supreme Pure Energy Pills manufactured by Cynthion Group were capable of creating mass soldiers of the Emperor State, so long as he managed to get his hands on them, the Spears would be able to rise to greater power in no time!

When that happened, expanding his power to the rest of Sky County would be as easy as ABC!

This was his lifelong dream!

At this moment, Roanne stood up.

"Your pills work amazingly, Leon! I can't believe that you managed to help me attain the Emperor State from the Advanced Overlord State in just a couple of days! You're incredible!" Roanne chirruped in delight, her entire face flushing red as she gazed at Leon with an expression of awe and admiration.

Although she was not as into martial arts as Ruth was, she still possessed astounding talent at this, and coupled with the fact that she grew up in an environment that prioritized martial artstraining, she naturally placed a lot of emphasis on her training as well.

Now that Leon managed to help her attain the Emperor State in such a short time, she could not help feeling overjoyed at this, to the point where she was beginning to idolize Leon!

"What?" everyone was utterly shocked to hear this. They all wondered how a young girl like Roanne managed to attain such a high level of training in such a short time.

Now, they finally discovered that Roanne already attained the Advanced Overlord State a couple of days ago!

It turned out that Leon used some sort of magical concoction of his to help Roanne breakthrough not one, not two, but three power levels at once, and finally attain the Emperor State!

One could only imagine their shock at this discovery, especially Hugo. His jaw dropped, and he was staring at Roanne as though he was struck by lightning.

They were not the only ones stunned by this; the Thompsons were already murmuring amongst themselves.

"That's incredible! Mister Wolf is an impressive alchemist!" Yuri felt as though his heart was about to leap out of his chest in excitement. Although he was not entirely sure how Leon managed to help Roanne break through her plateau, one thing was clear; with Leon's expertise, perhaps he would be able to help him do the same!

Yuri was beginning to get excited just at the thought of this and immediately leaped into action.

"Mister Wolf, since you helped Roanne breakthrough three of her plateaus at the same time, does that mean that Cynthion Group has developed a pill that's even better than the Supreme Pure Energy Pill?" Yuri asked gleefully.

"Yes! President Wolf, has Cynthion Group come up with an even more powerful pill?" everyone turned to stare at Leon, their eyes ablaze with excitement and anticipation.

All eyes were on Leon at this moment, waiting to hear what he had to say!
