

# The Ex-Husband's Revenge By Dragonsky

Chapter 2084

Chapter 2084

"Rats! I can't believe how powerful Leon Wolf truly is!" the Southern Boss stared at Leon and Rodney onstage with a dark expression.

According to the Black Gorilla and Charlie's reports, he made Leon out to be an insignificant character from Springfield City, and thus never gave much thought to him at all!

However, it turned out that Leon did not only manage to establish a successful company like Cynthion Group, but he also possessed outstanding martial arts prowess and attained the Emperor State, which was not too far behind Rodney!

Leon had great potential in his future, and he was certain that if he did not find some way to get rid of Leon as soon as possible, it would be considerably harder for him to do so in the future!

Fortunately, luck was on his side, and this duel was the perfect opportunity for Rodney to do just that!

Although Leon and Rodney appeared to be equal matches in battle, he knew that Rodney was yet to employ his secret weapon, which was the ring he was wearing, and thus still stood a good chance of winning!

The ring Rodney was wearing was an Almighty Weapon that was capable of unleashing attacks on the Peak Emperor State!

With such power, defeating Leon would be as easy as ABC!

At the thought of this, the Southern Boss grew even more certain of his malicious intent. He shot Rodney a meaningful glance, indicating for him to kill Leon at the first chance he got!

When he received the signal from his father, Rodney immediately understood his message. With that, he leaped backward, widening the gap between him and Leon, and paused in his footsteps.

"This ends here, Leon Wolf! I'll let you know once and for all what a foolish mistake it was to mess with the Spears!" Rodney scoffed as a glint of malice flashed through his eyes.

After their brief combat, he could vaguely tell that Leon's power was on par with his, which was the Initial Emperor State. Neither of them attained the Intermediate Emperor State yet!

Not only that, but he knew that Leon also possessed an Almighty Weapon on him, but with the misinformation Charlie gave him, Rodney naively thought that the Mirror of Sovereign was only capable of defenses against the Intermediate Emperor State!

Whereas he, on the other hand, possessed an Almighty Weapon that was capable of unleashing attacks of the Peak Emperor State, which was far more powerful than Leon's defenses could hold off!

It was clear who was going to be the winner in this case!

"Is that so? Well, come at me with everything you've got, then! I'd like to see you try!" Leon replied calmly. He could tell that Rodney was prepared to unleash his secret weapon now, and he waited for this moment since the beginning of their duel!

"Tsk, I can't believe how foolish you are up until this moment! Be prepared to die!" Rodney sneered. Then, without a moment's hesitation, he unleashed a surge of power straight toward Leon!

At the same time, he activated the ring and unleashed another gush of true energy at the same time, sending it barreling straight toward Leon at breakneck speed!

It was clear that Rodney pulled the same trick again; he chose to unleash the secret weapon's powers at the same time he did to prevent anyone from finding out what he did!

If everyone discovered that he cheated during his duel with Roanne, this would come back to bite him in the bum!

However, since he attempted to cover up the secret weapon with an attack of his own, it was inevitable that the true power of the secret weapon would be masked, but he was certain that it would be more than sufficient to take down Leon!
