

# The Ex-Husband's Revenge By Dragonsky

Chapter 2110

Chapter 2110

"What?"

"The Scarlet Thief of the criminal list?!" Leon was shocked and stood abruptly.

He was confused as to why someone would respond to his recruitment so swiftly and came to realize that Henry came to Cynthion Group for protection after being hunted by the Scarlet Thief.

The plot twist shocked him, and the others felt the same.

Iris and the others lived in the southern region long enough at this point to know about the criminal list.

They knew that the eight criminals listed were all vicious killers, but since they were all extremely powerful and were great at hiding, it was challenging to eliminate them even for the Dragon Corps.

Since the Scarlet Thief ranked fourth on the list, one could only imagine the extent of his power.

"Mister Wolf, as far as I'm concerned, the Scarlet Thief has reached the Intermediate Almighty State and he's a ruthless man. I wonder if Cynthion Group is willing to take me in," Henry said sheepishly.

He wished for Leon to think everything through before recruiting him as he did not want to involve Leon and the Cynthion Group in trouble.

However, the Scarlet Thief was an extremely formidable enemy and there was not a soul who would dare to cross him.

Henry tried seeking refuge with a few families, but no one dared to take him in out of fear for the Scarlet Thief.

Since Cynthion Group was recruiting Semi-Almighty martial artists, Henry came to try his luck and did not get his hope up.

After all, Cynthion was a new-rising enterprise and not a powerful family, so it was normal for Leon to turn him away.

As he was absorbed in his thoughts, what Leon said next shook him to his core.

"There's nothing to fear from the Scarlet Thief! Don't worry, Henry! If you pledge your loyalty to Cynthion Group, I'm more than willing to take you in!" Leon said confidently.

"What?!"

Everyone in the room, including Henry, Iris, and the others, were all stunned by his words.

Henry knew just how terrifying the Scarlet Thief could be and even some of the most powerful families would steer clear of the Scarlet Thief's way.

To his bewilderment, Leon agreed to take him in and showed no fear toward the Scarlet Thief, who was on the criminal list.

He simply could not understand what gave Leon the confidence to take the Scarlet Thief so lightly and felt shaken.
