Chapter 2119

"Okay," Sherlyn muttered, before kneeling next to Henry.

"Alright, it's not that big a deal! Henry, why don't you two get up?" Leon helped them up from the ground and added, "Also, this is a Cleansing Pill. Sherlyn, this is my welcoming gift to you. This pill can cleanse and restructure your internal circulation to enhance your potential. I hope that you can devote yourself to training and become an accomplished martial artist in the future."

Since he already helped Henry get to the Almighty State, he could not leave Sherlyn out.

Out of the sympathy he felt for Sherlyn, he instantly decided to offer a Cleansing Pill to Sherlyn. On top of that, he planned on arranging for Sherlyn to work in the Cynthion Group under Cynthia and Ruth. Hence, Sherlyn could raise her power level as well.

"Thank you, sir," Sherlyn said sheepishly.

After witnessing the death of her family and wandering with her grandfather in the past years, she became introverted and started to develop a fear of strangers.

Leon's kindness shed light onto the darkness she was living in and she felt nothing but gratitude for him.

"Henry, you've just reached the Initial Almighty State so you need to take the chance to reinforce your power level. Just keep training here for the moment. I'll have something

arranged for a place for you and Sherlyn to stay in," Leon said.

"Yes," Henry said.

With that, Leon, Iris, and the others left the reception room.

Leon returned to the chairman's office alone and took out his phone to call Oliver and Abraham to confirm what he heard from Henry.

One could never be too careful and though he sympathized with what Henry suffered and treated them with kindness, there was no way for him to tell if Henry's story was made- up or real.

Since Leon made a few enemies in the southern region with the Southern Boss and the Hiltons waiting for a chance to kill him, he was worried that Henry might be a spy arranged by the Southern Boss.

For safekeeping and to ensure his friends' safety, he decided to investigate Henry's background.

According to what Henry mentioned, he joined forces with the Dragon Guards in the southern region in the past to ambush the Scarlet Thief; if he were telling the truth, there would be records in the Dragon Corps and all Leon needed was to send Oliver and Abraham to look for the record, which was the reason why he was calling them.

Once the call was answered, the two instantly went through related files and confirmed that Henry was telling the truth.

Leon felt relieved and all doubts he was lifted.

He then gave Mason a call and ordered him to go to the chairman's office as he intended to entrust Mason with the task of settling Henry and Sherlyn down.
