

# The Ex-Husband's Revenge By Dragonsky

Chapter 2124

Chapter 2124

"You want me to hand over Cynthion Group? Dream on! Give me your worst and let's see what you scums are capable of!" Leon said in contempt.

"Very well! You asked for this! I'll kill you as you wish!" Enraged by Leon's attitude, the Third Guardian was about to leap into action when the Fifth and Sixth Guardians stepped forward.

"Third Guardian, don't waste your time! The two of us are more than enough to deal with him!"

"Yeah. You don't have to waste your time with him!"

The Fifth and Sixth Guardians said as they assumed that knew the full extent of Leon's power after fighting him once.

They already learned from the Hiltons that Leon was only a mediocre martial artist and managed to defeat Rodney during the sales drive with the help of a defensive tool in the Peak Emperor or Semi-Almighty State.

Since most weapons could only be used up to three times within a short period, they were confident that they could easily defeat Leon as they were both in the Semi-Almighty State.

"Um, very well! I'll stay back for now!" The Third Guardian nodded thoughtfully.

He agreed with the Fifth and Sixth Guardians and considered Leon an amateur, so he saw no point in getting involved.

He decided to send the Fifth and Sixth Guardians to fight Leon while he observed to prevent Leon from using his poison daggers and to find a chance to capture Iris and Cynthia.

If the guardians failed to capture Leon alive, they would have to capture Iris and Cynthia instead according to the order they received from the Southern Boss.

"Prepare to die!" The Fifth and Sixth Guardians sneered and stepped forward, before launching two powerful attacks at Leon without hesitation to finish Leon off.

"Don't you dare!" Henry scoffed and charged forward to stand before Leon, Iris and the others.

He gathered his energy in the palm of his hand and countered the attacks launched by the Fifth and Sixth Guardians.

"Baam!"

Following a deafening sound, the two forces clashed.

Henry did not budge at all, whereas the Fifth and Sixth Guardians were forced to back away a few steps with pale looks on their faces.

The two instantly realized that Henry was an Almighty martial artist.
