

The Ex-Husband's Revenge By Dragonsky

Chapter 2156

Chapter 2156

"What?" "Mister Wolf, these pills are for us?"

"A-Are you serious?"

Both Oliver and Abraham were stunned when they heard that. They could not believe their ears!

The southern region's Dragon Corps was full of experts. There were quite a few Platinum Dragon Guards at the initial and intermediate Almighty State!

The Nine Suns Pills are amazingly effective. Those Almighty State martial artists would probably all fight over it!

They were merely Gold Dragon Guards. The two of them never expected Leon to give them something so valuable!

It caught them by surprise!

"You aren't mistaken! I left these two Nine Suns Pills for the two of you!" Leon said with a nod.

"That's amazing!"

"Mister Wolf, thank you for the pills."

"Well never forget what you're doing for us."

Both Oliver and Abraham were elated when they recovered from the shock.

They quickly got on their knees and thanked Leon emotionally!

Oliver in particular would be able to get to the Almighty State with the Nine Suns Pill!

Then, as long as he made enough merit points, he would be promoted to the Platinum Dragon Guard just like Leon!

That was his dream and goal for many years!

As for Abraham, he felt more or less the same as Oliver!

Even though he was still only at the peak of Emperor State, he was not too much worse than Oliver. He was only a hair away from getting to the Semi Almighty State!

With his current condition, he should be at the Semi Almighty State in just two or three months!

If he used the Nine Suns Pill from Leon, he would then be at the Almighty State before too long, and promoted to the Platinum Dragon Guard!

That was his dream!

It was obvious how happy and excited the both of them were!

"Alright, just get up! We're all family here. There's no need for all of this!" Leon said with a smile. He then reached out to help the two of them up.

After that, he handed the pills to the two of them, and they kept it.

"That's right! Oliver, I sent the two of you to look into the whereabouts of the Scarlet Thief, how has the investigation

been going? Did you find any useful clues?" Alfred was quickly reminded of the main topic.

"Mister Glasbey, after we failed to pursue Scarlet Thief last night, he's probably been spooked. He hasn't appeared until now. We haven't managed to find any new clues today," Oliver reported honestly.

"Despicable! That Scarlet Thief sure is cunning!" Alfred slammed the desk in frustration.

"Mister Glasbey, please calm down. Even though we haven't managed to find Scarlet Thief, we can be more or less certain after our investigations that Scarlet Thief is hiding in the area around the southern and eastern regions. It's his old trick," Oliver said after some thought.

The southern region was close to three different regions.

They were next to the western region to the west, the eastern region to the east, and the central region in between!

Before this, every time the Dragon Corps tried to capture Scarlet Thief, he would slip to the other regions to avoid being surrounded!

Of course, Scarlet Thief was from the southern region, and his mortal enemy, Henry, was in the southern region!

After he waited for the storm to pass, he would quietly sneak into the southern region again to do a crime and kill Henry!

It was precisely because of that, that the southern region's Dragon Corps failed to kill Scarlet Thief for so many years!

The situation this time was the same!

Facing the Dragon Corps pursuing him, the Scarlet Thief already fled to the area between the southern and eastern regions. As long as the Dragon Corps from the southern region continued to pursue him, he would just slip to the eastern region and avoid trouble!
