

The Ex-Husband's Revenge By Dragonsky

Chapter 2157

Chapter 2157

"The eastern region? Then it looks like we'll have to work with the eastern region's Dragon Corps!" Alfred said thoughtfully.

"Mister Glasbey, you mean you'll contact the experts there to work to pursue the Scarlet Thief together?" Leon quickly figured out Alfred's plan.

The last time, Poisonwielder slipped into the area between the western and southern regions. The western region's Dragon Corps asked for help from the southern region's Dragon Corps in the same manner.

With the Scarlet Thief slipping into the area between the southern and eastern regions, he guessed that Alfred was going to do the same thing!

"Yes, that's right! The Scarlet Thief is too strong, and he's always in hiding. It's a bit of a struggle for just our men to deal with. If we have the eastern Dragon Corps' experts to help, it'll be easier for us to pursue the man," Alfred said with a low voice.

"That's right! However, I don't think it's necessary! Mister Glasbey, why don't you leave this to me? I'll deal with the Scarlet Teeth!" Leon said after some thought.

He already made plans to try and lure Scarlet Thief out!

If Alfred invited the experts from the eastern region to help, the Scarlet Thief might flee into the eastern region or even slip into the other regions if he thought the situation was bad!

Then, there would be no way for Leon to lure him out!

So, he asked for permission, wanting Alfred to forget about working with the eastern region!

"What? You want to deal with the Scarlet Thief?" Alfred was shocked to hear that, clearly not expecting Leon would want to get involved!

"Yes, please give me a few days. I'll figure out a way to deal with Scarlet Thief! If I fail, then it wouldn't be too late to ask for help then," Leon said seriously.

"That-" Alfred frowned and fell into a short silence.

He knew of Leon's abilities. Both Asmodeus and

Poisonwielder from the Eight Criminals already fell to Leon!

It did take some luck on Leon's part to kill those two, but luck was also a part of skill!

If he left the matter to Leon, Leon might get lucky again and create another miracle!

However, he quickly dispelled the notion!

Scarlet Thief was already at the intermediate Almighty State, he was far stronger than Asmodeus and Poisonwielder!

Leon managed to break into the Almighty State with the help of the Nine Suns Pill, but he was still far weaker than Scarlet Thief!

Even if Leon was lucky, he did not think that Leon would be able to kill Scarlet Thief alone!

It was just too risky. There was almost no chance of success!

"Leon, forget about it! Scarlet Thief is too strong. You're no match for him! You shouldn't get involved in this!" Alfred thought about it for a moment and quickly made a decision

Since Leon was incredibly talented and young, he was hopeful of Leon's future and his potential!

He did not want Leon to take on any risks dealing with Scarlet Thief. He was worried that Leon would end up slipping up and even falling to Scarlet Thief!

That would be a tragic loss!

Rather than that, it was far safer for him to notify the eastern region's Dragon Corps to work together to pursue Scarlet Thief!
