THE EX HUSBANDS REVENGE

Chapter 216

George was stunned.

Iris was dumbfounded.

Even Ashwin and all of the executives of the company were gobsmacked!

They would never even have dreamed of the fact that Leon would not only fulfill the promise but even develop cosmetics that were so amazing!

The effects of those cosmetics were even much better than some international brands!

"Good!"

"That's amazing!"

After a moment, Iris stood up and slammed the table, shocking the other executives into standing up as well.

Everyone stood up!

"Leon, y-you're too amazing! This is just a complete miracle!" Iris was far too emotional, and she gave Leon a big hug right in front of everyone. Her smile looked like a hundred blooming flowers, absolutely beautiful.

Even though she did not know how Leon did it, she still knew something very well.

If the company had such amazing products in the future, it would make them a top international brand, let alone make it into the high-end marker!

It was obvious why she was so emotional!

"Iris, you're…" Even Leon was dumbfounded.

It was the first time Iris ever hugged voluntarily, and it was in front of so many people from the company.

He felt a warmth in his heart. It felt like all the hard work he put in in the past few days were incredibly worth it!

Iris finally realized that something was off, and she hurriedly let Leon go. She blushed as she said, "I-I was just too happy, and lost my composure…"

"It's fine, I don't mind…" Leon had a vibrant smile on his face. He was a bit reluctant, wanting Iris to hug him for a while longer.

However, he knew that it was impossible!

Looking at that scene, Ashwin's expression soured immensely.

"Impossible! This can't be real! He's just a piece of trash from a third-grade university and isn't even specialized in this field. How could he just casually produce such amazing results?! There has to be some problem!" Ashwin shook his head furiously, unable to accept the cruel truth.

"That's right, the data is incredibly strange. Could something have gone wrong with the machines?" George looked like he woke up from a dream as he voiced his suspicions.

Hearing what Michael and Ashwin said, the executives all started to calm down. Quite a few of them started to wonder if the test went wrong.

"Mister Proctor, you are quite shameless! The machines were fine before this, why would they suddenly have some problems for no reason? How could you give us such a rotten excuse?!" Ariel was

incredibly frustrated.

"That…" George found himself at a loss for words.

"That's not necessarily true! Something might have just suddenly gone wrong with the machines. It's not impossible! At the end of the day, I feel like we should recalibrate them and test again to make sure things are fine!" Ashwin said stubbornly.

"That's true, the data is a little crazy. We should do another test to be sure…" Quite a few executives agreed.

"Ashwin, have you caused enough trouble?! The truth is right in front of you, why are you trying to force things?!" Iris said unhappily.

"I…" Ashwin opened his mouth but did not rebuke Iris. He still had a look of reluctance on his face.

"Miss Young, it's fine. Since everyone doesn't believe it, we can just do another test," Leon said nonchalantly.

"Then… Fine," Iris nodded after some hesitation.
