

The Ex-Husband's Revenge By Dragonsky

Chapter 2185

Chapter 2185

"That's enough for playtime, Henry, Chandler! It's time to face your wrath! Take this!" the scarlet thief scoffed as a glimmer of malice flashed through his eyes. He wanted to punish this arrogant young man, but at the same time, was worried that his victim would get away before he could do so!

Therefore, without a moment's hesitation, he unleashed his newly-acquired Platinum Martial Technique-the Fiery Serpent!

A surge of powerful energy gushed out of his hands, morphing into a fiery dragon before barreling straight toward Henry and Chandler at breakneck speed!

"That's incredible!" Henry and Chandler gasped when they saw this. They were already at a disadvantage against the scarlet thief, and now that he unleashed his Platinum Martial Technique, it was safe to say they were no match for him at all!

The two of them leaped backward, trying to dodge the Scarlet Thief's attack, while at the same time unleashing attacks of their own to break down the Fiery Serpent's power!

Fortunately, Henry got lucky and managed to dodge the Fiery Serpent by a few inches. However, the last tendrils of the Fiery Serpent caught him squarely in his chest, and he could not help staggering backward from the impact and finally plopping onto the ground in a heap, his face pale.

Chandler, on the other hand, was not so lucky; he was still partially disabled and had to rely on his walking cane, so he could not manage to dodge the Fiery Serpent as nimbly as Henry did. Instead, the Fiery Serpent caught him squarely in the middle of his chest!

Chandler's entire body was propelled backward and landed on the ground in a crumpled heap.

An excruciating pain shot through his chest as he landed on the ground, and he could not help spitting out two mouthfuls of blood. It was clear he suffered some severe injuries. His cane was flung to one side, just out of reach.

"Take this, Chandler!" the scarlet thief lunged forward, unleashing another wave of powerful energy toward Chandler, who was lying on the ground, defenseless.

It was clear that he was trying to kill Chandler first before moving onto Henry!

As for Leon, he was just a naive young man and would not be difficult at all to defeat!

He could take his sweet time killing him after taking care of Chandler and Henry!

"Oh no," Chandler's heart sank as he watched the scarlet thief lunge toward him. Considering he was yet to regain his full strength from being knocked onto the ground like that, there was no way he could dodge the scarlet thief in time.

There was nothing he could do apart from watching in horror as the scarlet thief sped toward him!

There was no doubt about it; he was going to die!

All of a sudden, Leon finally unleashed his attack. Three hidden silver needles pierced through the air, speeding toward the scarlet thief's trunk!

At the same time, Leon stepped forward and unleashed his Phantom Steps, leaving only tendrils of his silhouette behind as he appeared behind the scarlet thief, faster than the speed of light!

With that, he raised his arm and unleashed a surge of powerful energy toward the scarlet thief's back!

It was clear what he was trying to do. He wanted to attack the scarlet thief from many directions at the same time so that he would be forced to give up targeting Chandler!
