

The Ex-Husband's Revenge By Dragonsky

Chapter 219

Read The Ex-Husband's Revenge By Dragonsky Chapter 219 – “That’s more like it. I guess I have to accept your apology! I won’t take it to heart this time. I hope you’ll know your place in the future!” Leon said plainly, ignoring Ashwin after that.

“Miss Young, if there’s nothing else, I’ll go back to work,” Ashwin had a dark look on his face. He had been thoroughly embarrassed, and no longer had the dignity to remain there. He turned around to leave.

“Mister Mercer, please wait,” Iris had Ashwin stop.

“Miss Young, do you need anything else?” Ashwin asked.

“Mister Wolf’s already developed new products. The next **step** is for the company to mass–produce them. When it comes to that, I’ll leave him responsible for it for now. After that, you’ll take over from him…” Iris addressed.

Leon did not only develop new high–end products but even increased the efficiency of the processing of raw materials.

Both of those things were incredibly related to production. Leaving them to Leon for the moment would increase productivity in the future.

“What? How could you do that?!” Ashwin was shocked.

He was always in charge of raw materials and production. Iris gave his duties over to Leon, which was taking away half of his power.

“It’s needed for work, why can’t I do it?!” Iris said unhappily.

“But, he doesn’t have any experience with production. If you suddenly give him the task, he might not be able to do it well…” Ashwin said, not giving up.

“I know. I’ll have Ariel assist him. This matter is settled!” Iris said firmly.

“That… Fine then,” Ashwin clenched his teeth as he said. No matter how unhappy he was about it, he had to accept the matter.

“Alright, let’s disperse!” Iris announced.

After that, everyone started to leave.

Only Iris, Ariel, and Leon were left in the meeting room.

“Leon, you did very well this time! I said before that I would properly reward you as long as you succeeded. How about this, I’ll give ten percent of the dividend rights of the company to you. What do you think?” Iris

said with a smile.

“Ten percent? Iris, you’re giving him too much!” Ariel was shocked.

The Elegante Group was given to Iris to manage by her grandfather. It was a marriage gift that Elder Young prepared.

Since the company did not open up its shares, and Iris was incredibly capable as well, all of the company’s shares were given to Iris.

However, **in** order to encourage everyone to work harder, she gave out dividends to the executives of the company.

The executives never got any shares, but they got the dividends.

At that moment, Ashwin’s shares were higher, occupying eight percent. The second was Ariel, with six percent. The others were given to the executives, only totaling about forty to fifty percent.

Ariel gave Leon as high as ten percent at that moment, even was even more than what Ashwin had!

It was obvious how shocked Ariel was!

“It’s not much! With Leon’s contributions to the company the last two times, just ten percent isn’t anything. I’m even worried that he’ll refuse!” Iris said with a smile

Leon did not only secure the Wick Group’s cooperation with the company, but even developed new products and increased the efficiency of raw materials. He paved a new path for the company’s future!
