

The Ex-Husband's Revenge By Dragonsky

Chapter 222

Read The Ex-Husband's Revenge By Dragonsky Chapter 222 – “I hope you'll use him well in the future! Oh, is that so? Is he that capable?” Iris was surprised.

“Incredibly so! If you don't believe me, you can ask Ariel,” Leon pointed at Ariel next to him.

“Yes, Leon's right. Mister Wallace is quite capable,” Ariel nodded.

She was with Leon at the factory for the past few days and saw Stanley's abilities for herself. He was talented.

“It looks like he's capable! Why don't I do this? The second factory's manager, Mister Lennon, is about to retire in a month. Once he retires, I'll send Mister Wallace over as his replacement,” Iris said.

Since Leon and Ariel were both recommending him, **Iris** regarded Stanley a lot higher than she did.

“Alright,” Leon was happy. After that, he seemed to think about something as he added, “Iris, there's something else.”

“About that ten percent dividend. I feel like I can't take it all by myself. I feel like half of it should be given to Mister Wallace. The two of us should share it. It's more reasonable that way!”

Ariel was shocked when she heard that, “Giving Mister Wallace half?”

“Leon, is there something wrong with your head?! Even though Mister Wallace has contributed to these two things, the main person in charge of the developments was still you. He was just supporting you and helping with some discussions. His contributions were minimal. On top of that, Iris already agreed to make him the manager of the second factory. That in itself is rewarding enough. You don't have to give him your dividends!

Ariel rolled her eyes at Leon like he was an idiot.

Ariel was with Leon those few days, so she knew how exactly how helpful Wallace was.

Stanley was clueless about developing the new products, so Leon practically did it all himself.

As for the increase in efficiency of the processing of raw materials, Stanley did give some valuable ideas and experiences, but the person who made it happen was Leon.

In the end, the fact that the efficiency was able to be increased by over twenty percent was down to the

unknown mystical water that Leon provided,

She felt like Leon's contributions were the greatest for those two matters. The fact that Leon was recommending Stanley to be the manager of the second factory was already a good enough compensation. for Stanley.

“No, I don't feel that way at all! If it wasn't for Mister Wallace's ideas and designs, there's no way I could've thought about developing the products. His contributions were invaluable. I feel like his contributions were the same as mine,” Leon shook his head and said.

Ariel was incredibly frustrated as she said, “Based on what you said, I must've helped you quite a lot by being by your side the past few days. Even if I didn't contribute that much, I still worked hard! Shouldn't you think about giving me some as well?!”

“That...”

Leon thought about it earnestly and felt like Ariel was being quite reasonable. He nodded and said, “Yes, thanks to you helping me out in the past few days, I was able to fully concentrate on developing the products.

Why don't we split it into three parts? What do you think about three point three percent each?”

“You...” Ariel was dumbfounded. She gaped in disbelief.

She just joked just now, but Leon agreed!

What was the logic in that?!

She was so shocked she started to doubt herself!

Iris raised her hand to stop the two of them, “Alright, stop fighting with each other.”
