The Ex-Husband's Revenge By Dragonsky Chapter 225

Read The Ex-Husband's Revenge By Dragonsky Chapter 225 – “Alright,” Leon nodded.

He trusted Stanley quite a bit, so he directly signed his name on the document.

After that, the products were put into various trucks to be sent to the Wick Group.

At the Wick Group, Jenson took out a few samples from the products after they received them and handed them to the company's r-and-d department for testing.

Business was business, separate from personal relationships.

Even though Jenson got along with Leon, it was still the first time the Elegante Group worked with the Wick Group. He needed to perform some testing to prevent anything from happening.

Not too long later, the head of the r-and-d department brought a test report over with a look of disbelief on

his face.

“Mister Lloyd, how are the results? There shouldn't be any problems, right?” Jenson asked.

He knew of Leon's moral character. With how upright Leon was, he did not think that there would be any problems with the Elegante Group's products.

He was just doing the tests as a formality.

“Mister Wick, the products from the Elegante Group are too amazing! Many of the main test factors far exceed the benchmark for high-end products...” Lloyd said excitedly.

“What? Is that true?!” Jenson was shocked as he looked at the results a few times. He was so shocked his jaw almost dropped to the ground.

“Mister Wick, the effects of these products are amazing. They far exceed many big international brands ! However, there’s a major mistake in this. They added isobutylparaben to it, which is a prohibited substance... “Lloyd pointed at the numbers on the reports with pity.

A small stain ruined the whole thing.

It should have been an incredibly amazing product, but due to the addition of the isobutylparaben, everything was ruined. It was trash!

“Isobutylparaben? What? Is it very serious?” Jenson had a confused look on his face.

He was not a specialist in the field and did not know what that was.

If the problem was not that serious, he could help Leon with it.

“It’s very serious! Isobutylparaben is a very good preservative, but it has quite a few side effects. The most as high as ten times in compensation!” Lloyd said seriously.

“Ten times in compensation? It’s that serious?!” Jenson was shocked.

The Elegante Group’s first batch of products were worth about seven million.

In other words, if the Wick Group were to sue Elegante Group, they could unconditionally ask Elegante G
