Chapter 2322

Chapter 2322

"Damn it!" The Southern Boss's expression darkened.

Knowing that his strength did not rival Arthur's, he wanted to back away but was then reminded that Rodney was standing behind him.

If the Southern Boss moved away, Arthur's attack would land on Rodney and Rodney might very well be killed on the spot; naturally, the Southern Boss would only stand his ground.

"Sir, allow me to help you!" The Great Apostle noticed the Southern Boss's predicament and hurried over to his side, before launching a powerful attack toward Arthur. "Take this, old man!"

The Southern Boss took the opportunity to launch an attack of his own at Arthur as well.

"Baam!"

Following a gigantic noise, the combined attack launched by the Southern Boss and Great Apostle clashed with Arthur's power.

Though Arthur was extremely powerful, the Southern Boss and Great Apostle were not to be underestimated.

Southern Boss was only slightly weaker than Arthur, and the Great Apostle long reached the Intermediate Almighty State a few years ago and was not far from reaching the

Advanced Almighty State.

Since Arthur was facing two strong opponents by himself, he was instantly sent flying by the combined attack.

Thankfully, Arthur was a formidable martial artist and managed to brace himself for the overpowering energy. Still, he fumbled and backed away a few steps helplessly, his blood boiling from the impact.

"Trying to bully us with your number? Arthur, let us help you!" The two elder men behind Arthur were instantly enraged when they saw the Southern Boss and the Great Apostle teaming up against Arthur.

They were none other than the Second and Fifth Elder of the Thompsons; along with the Third Elder, they all supported the second bloodline.

For safekeeping, Arthur only brought the Second and Fifth Elder with him and left the Third Elder behind to guard their family estate.

"Us, too!" The Great Elder and Forth Elder stood forward as well.

All martial artists from the Thompsons' first and second bloodlines darted forward to surround the Southern Boss and the Spears.

The Spears, on the other hand, instantly gathered around the Southern Boss and Rodney to confront the Thompsons.

Tension rose in the air and a war was at the brink of raging.

With the addition of the Thompsons' second bloodline's support to Loen's side, the Spears already lost the advantage of the number.

Since the Thompsons were far more powerful than the Spears, it would be unwise to face the Thompsons in a war.
