Chapter 2332

“Great Apostle, huh? Don’t bother coming up one by one! Why don’t you all come at me at once? Don’t

waste my time!” Leon glanced at the Great Apostle contemptuously.

“You are too arrogant, brat! I am more than capable of taking care of you on my own! Let me teach you

the consequences of crossing the Spears!” The Great Apostle was once again enraged by Leon’s attitude and charged toward him swiftly.

“Know your place!” Leon scoffed and faced the Great Apostle’s attack directly as he did earlier.

“Die!” The Great Apostle narrowed his eyes darkly.

Though Leon managed to defeat the Fourth Apostle, the Great Apostle assumed that the Fourth Apostle might have failed because he underestimated Leon, or because Leon had some sort of tricks up his sleeve.

Since the Great Apostle was more powerful than the Fourth Apostle and was quite close to reaching the Advanced Almighty State, his power was almost unmatched by anyone in the Southern region with the expectation of the Southern Boss and Arthur, so Leon could not possibly defeat him even if he managed to beat the Fourth Apostle.

The Great Apostle wielded his power and was prepared to confront Leon when the Southern Boss

stopped him.

“Great Apostle, that kid has a defensive
took on his chest
and it’s like in the Intermediate Almighty
State! Use your speed, not your power, or
you might end up like
the Fourth Apostle!” The Southern Boss
reminded and exposed Leon’s trick.
He did not know how Leon defeated the
Fourth Apostle, but he knew that Leon
could never be in the
Intermediate Almighty State at such a
young age.

Indeed, the Southern Boss’s belief was
confirmed as he watched the fight
between Leon and the Fourth
Apostle earlier; Leon’s agility and
explosive power fell under the spectrum
of the Peak Overlord or the
Semi-Almighty States, which was far from
the Intermediate Almighty State.

The Southern Boss was always aware of the defensive tool Leon possessed and thought that it was a low-level tool. However, thinking back to how the Third Apostle failed to assassinate Leon in the past and seeing how the Fourth Apostle was defeated, the realization dawned on him that the defensive tool Leon owned was in the Intermediate Almighty State.

He underestimated the power of the tool, and this led to his repeated failure in eliminating Leon.
