Chapter 2334

“Kid, the Southern Boss has seen through your tricks! Just give up and die already!”

The Grand Apostle said.

Upon a brief exchange with Leon, he realized that the Southern Boss was right about Leon having a powerful defensive tool.

Though the tool made it challenging for the Grand Apostle to defeat Leon, Leon’s weakness was his agility.

Since he completely understood what Leon was capable of, the Grand Apostle decided to stop wasting

time and planned to eliminate Leon at once.

“What, are you going to kill me? Stop joking!” Leon scoffed.

He had countless tricks up his sleeves apart from the Mirror of Sovereign, so he did not care if the

Southern Boss knew about it.

He merely refrained from using any of his other tricks on the Grand Apostle to get his guard down.

“How stubborn! I’ll show you what I’m capable of!” The Grand Apostle snorted and leaped into the air, before darting toward Leon

“Bring it on!” Leon wanted the Grand Apostle to attack and did not hesitate to meet his attack face-on.

The Grand Apostle knew that Leon had a defensive tool and did not bother to compete in terms of

strength; his movement was merely a feint and seeing as Leon approached, he stopped and darted toward Leon.

“It’s time to die, kid. Take this! Thundering Strike!” The Grand Apostle sneered viciously, before reaching both his arms to gather his true energy. The energy instantly transformed into the shape of two dragons and charged toward Leon’s back.

Thundering Strike was an Advanced Progressive class method taught to the Four Apostles by the Southern Boss.

Advanced Progressive class methods were rare in the southern region and even martial artists in the Advanced Almighty State would struggle to fend it off without using a method of equal class.

Leon was merely a young man and the Grand Apostle knew that Leon's defensive tool was located in front of his chest, so Leon was set for doom since the Grand Apostle launched the Thundering Strike at his back.

"Good job!" The Southern Boss and Devon cheered.

They all knew that Leon fell short in terms of agility and explosive power. Now that the Grand Apostle managed to launch an attack directed at Leon's back, Leon would be killed on the spot without the protection of his defensive tool.

"It's over. Mister Wolfs going to die!"

The Thompsons' hearts sank as they concluded that Leon also lacked strength. Without a defensive tool

guarding his back, Leon could not possibly survive the Grand Apostle's attack.

Instantly, they were all worried for Leon's safety and fell into despair.
