Chapter 2346

Chapter 2346

"Mister Wolf, the Four Beasts Formation is too powerful. You can't handle it! We need to change our plan and retreat!" Yuri shouted in an attempt to convince Leon to run.

"That's right! Mister Wolf, please leave with Yuri and Roanne. The Thompsons and I will stay behind to stop the Hiltons and Spears! Don't worry, we will protect you at all costs, even if it means the death of us!" Arthur agreed along.

Upon hearing Yuri's words, realization dawned on Arthur. Since the Thompsons and Leon were all struggling to win, there was no doubt that defeat awaited them and the only solution left was for the Thompsons to focus their forces on letting Leon, Yuri, and the others escape.

So long as Yuri and Roanne escaped alive, the Thompsons' legacy would live on and the others would gladly die for it since it was still better than having every last member of the Thompsons slaughtered.

"That won't be necessary! Elder Thompson, Yuri, don't worry! I've already considered a way to deal with this Four Beasts Formation!" Leon said thoughtfully as he stared at the Four Apostles intently.

The ancestor of the Wolfs had left a legacy that contained countless information, which included not only books about medicine and martial arts but also information concerning formations.

The Energy Convergence Circle and the Light Convergence Circle he used to cure Roanne were all formations and Leon knew that he could find a solution from his ancestor's legacy.

However, he did not study the art of formations much before this and was caught by surprise when the Four Apostles attacked him with the Four Beasts Formation, which resulted in his temporary defeat.

Upon experiencing what the Four Beasts Formation was capable of, Leon began to see how it worked and was confident he could break it.

"What?!" Arthur and Yuri were both shocked that Leon refused to run or retreat given the circumstances.

Everyone on the battlefield was shocked as well, as they all witnessed how the Four Apostles injured Leon, so none of them believed that he had what it took to deal with the Four Beasts Formation.

Leon's stubbornness was nothing short of a suicide attempt in their eyes and they could not understand why Leon seemed so confident.

"Mister Wolf, have you gone mad? This is our last chance to retreat and if you refuse to run, we'll all die here!" Arthur shouted in frustration.

For a moment, Arthur desperately wanted to leave Leon behind and order the Thompsons to run with Yuri and Roanne; however, Leon helped Angus and his family multiple times and Arthur himself mistook Leon as the person who killed Yonas, so he could not bring himself to leave Leon and run.
