Chapter 2350

Chapter 2350

"Out of my way!" Leon was prepared for the attacks from the other Apostles and waved his arm, sending a few poisoned daggers at them.

"Those are poisoned daggers!" They gasped.

They heard from Joel that Leon possessed a poison that killed upon contact and seeing the blue glow on the daggers, they instantly realized that Leon covered the daggers in poison.

Not daring to stop, they darted away from the daggers.

Taking advantage of that, Leon continued with his attack at the Grand Apostle and aimed directly at their chest.

"Damn it! Here goes nothing!" Seeing as he could not evade the attack, the Grand Apostle launched a powerful counterattack to fend off Leon.

"Die, old man!" Leon narrowed his eyes coldly.

He knew that his overall strength was in the Intermediate Almighty State, so he was not much stronger than the Grand Apostle.

If he went up against the Grand Apostle forcefully, he might be able to injure him, but would not be able to kill him. Once the Grand Apostle had a chance to catch his breath, Leon could not be able to win while the three other Apostles stalled him.

Arthur was already losing and needed Leon's help immediately, so Leon had no time to waste.

With that thought in mind, he stopped the attack and faced the Mirror of Sovereign at the Grand Apostle's attack.

"Baam!"

Following a deafening sound, the attack slammed against Leon's chest, but Leon remained unscathed.

At the same time, he focused his energy on his finger and launched the Earthly Plunder, which pierced through the Grand Apostle's chest.

"Why you-" The Grand Apostle's eyes widened as he glared at Leon.

He never expected Leon's attack to be a feint; still panicking from learning that the Four Beasts Formation failed, the Grand Apostle fell right into Leon's trap and Leon's attack left a hole in his chest.

The Grand Apostle's lifeless body collapsed onto the ground, his eyes still wide open.

"What?!"

"No way!"

Everyone else, including the Southern Boss, Devon, and the Thompsons was all stunned.

They all thought that Leon would surely be defeated after witnessing the power of the Four Beasts Formation. To their bewilderment, Leon managed to see through the formation and defeat the Grand Apostle within the blink of an eye.

It was so surreal that they all struggled to believe what they saw. '
