

# The Ex-Husband's Revenge By Dragonsky

Chapter 2412

Chapter 2412

"Well, yeah! If possible, I need two more plants that carry light energy." Leon nodded.

With the contribution points he had, he had more than enough to trade one Fairy Fruit and two plants that carried light energy.

Plants that carried light energy could produce Sun Pills that helped martial artists with their training and Leon's lack of supporters was always his weakness, so he wished to obtain two more plants that could help him with increasing his followers.

If he accepted Alfred's advice and became the next Southern Boss, he might be able to build a force of his own within two to three years. That was surely a fast way to obtain power.

However, the underground community was packed with vicious people and Leon was hardly anything like the Southern Boss, so it would not be wise for him to get involved.

Furthermore, he did not wish to be bound to the southern region, fearing that might affect the future development of Cynthion Group and Elegante Group.

Therefore, he decided to turn Alfred down.

"I'll try my best," Alfred said.

Though he did not know why Leon needed so many plants with Light Energy, but he was wise enough to guess that Leon was using them to increase his power.

However, such plants were rare, especially the ones that carried light energy. Anyone who trained with light methods would want to increase their power or break past the bottleneck of their training.

It would not be easy to locate such plants for Leon anytime soon, and it all came down to luck.

"Mister Glasbey, I'll leave this to you! If you don't need anything else from me, I'll take my leave now," Leon said with a smile.

He then bid his farewell and left with the Sunlit Herb.

After leaving the Dragon Corps, he drove to Scammells Corporation to obtain some precious herbs from Damian, before returning home to transform the Sunlit Herb into alchemical pills.

The Sunlit Herbs worked the same way with Nine Suns Flowers, with both carrying light energy. Hence, the alchemical pills that were made with either could help martial artists who studied light methods with their training.

Leon once used a Nine Suns Flower along with some other rare herbs to produce twelve Sun Pills. He did the same with the Sunlit Herb and produced twelve pills.

Since the effect of the pills was practically the same as the

Sun Pills, he decided to refer to them as Sun Pills as well.

Once that was done, he realized it was still early and drove to the Thompsons' mansion.

Some time ago, Angus requested a few Sun Pills through Roanne, but Leon only had one Sun Pill left at the time.

He handed the pill to Roanne and promised that he would save a few Sun Pills for the Thompsons once he made more.

Now that the new Sun Pills were produced, he intended to visit the Thompsons and fulfill his promise.

On top of that, he promised Alfred that he would look for someone suitable to take after the Southern Boss.

Though they both felt that the Thompsons would not get involved with the underground community, that was merely a guess and Leon wanted to confirm how the Thompsons feel about the matter.

If the Thompsons were willing to take charge, that would be ideal; if they refused, Leon could ask that the Thompsons recommend someone through their connections.
