

The Ex-Husband's Revenge By Dragonsky

Chapter 2418

Chapter 2418

"Mister Wolf, Uncle Arthur's right! People who can fully utilize the ability of their subordinates succeed! If you can get one of your subordinates to replace the Southern Boss, you'll be able to control the underground community!" Angus said, feeling convinced by Arhtur's idea.

"No! I have other plans for Henry and Chandler, so they can't replace the Southern Boss," Leon shook his head.

For the safety of the four women in his life, he did not accept Arhtur's suggestion.

"It's fine! Mister Wolf, don't you have other subordinates as well? If you have other plans for those two martial artists, why not arrange for someone else to replace the Southern Boss? It will work the same way," Arthur said thoughtfully.

"Well," Leon wavered as Mason's face appeared in his mind.

Mason was once a thug and knew his way around the underground community. If he were to replace the Southern Boss, this would be the perfect solution and Mason would make a much better candidate than Henry and Chandler.

However, Mason was far too weak and did not even reach the Emperor State. If Mason attempted to take control of the underground community, he would not be respected.

Even if Leon was to remove all obstacles for Mason by force, it would not help as once Leon was away, others would try to assassinate Mason behind his back.

If that happened, he might be putting Mason in danger.

"Mister Wolf, this rare opportunity doesn't come around so often! You don't have much influence here in the southern region and if you seize control over the underground community now, this will make up for your weakness," Arthur added.

He knew Leon's background and that he was incredibly talented in business and martial arts. It was hardly an overstatement to say that he surpassed even Yuri, who was once referred to as the most promising youngster in the southern region.

Leon's only weakness was his lack of supporters and his humble background, and these were the reasons why the Southern Boss picked on him as he pleased.

However, the chance to change that presented itself.

So long as Leon took charge of the underground community and created a clan of his own to recruit powerful martial artists, he would rule over the southern region within a year or two. This was the fastest way for Leon to gain power.

"I know. Let me think about this," Leon sighed.

He knew that assigning someone to rule in his name would be a great solution. However, Henry and Chandler had other responsibilities, and Mason needed to be stronger for the job.

Either way, there would be risks and Leon had to weigh his options carefully.

Still, his visit to the Thompsons was productive as Arthur's suggestion gave him some insights.

He now viewed the issue differently but still needed time to sort out the details and devise a plan.
