

The Ex-Husband's Revenge By Dragonsky

Chapter 2429

Chapter 2429

In the mountain, Leon led his subordinates to an empty spot and stopped.

"Mister Wolf, what do you need us to do?"

Henry, Mason, and the others glanced around the thick woods and exchanged confused looks.

"Well, I intend to get your power levels up," Leon explained.

These men, especially Mason, Spencer, and the others, followed him for a long time and he could tell that they were loyal and trustworthy.

Except for Henry and Chandler, the others were too weak and to make up for that, he intended to train Mason, Spencer, and the others to strengthen his force.

"Get our power levels up?" The others perked up.

They all witnessed what Leon was capable of. Not only was he formidable, but he was also resourceful beyond comprehension.

It was great news for them all that Leon wanted to help with their training.

Still, they thought back to what Leon did in the past and how he seemed to have exhausted quite a few methods.

Instantly, they found themselves wondering what other tricks Leon was capable of.

"Chandler, Leo, Austin, come over here! Neither of you has taken the Sun Pill before. I've made a new batch, so each of you gets one," Leon said and took out a white flask to retrieve three Sun Pills.

"Sun Pills? Really?" Leo and Austin were overjoyed.

Due to the insufficient stock of the Sun Pills, Leo and Austin were given two Cleansing Pills in the past.

At the time, Spencer, Mason, and the others were all given the Sun Pills and powered up because of that, as the Cleansing Pills were not suitable for their conditions.

Leo and Austin knew just how rare and powerful the Sun Pills were and were both excited that Leon did not forget about them.

"Mister Wolf, thank you," Leo and Austin fell on their knees before Leon after accepting the pills.

Men fought for people who saw value in them.

Leon never looked down on them and did his best to help with their training. Neither of them knew how to repay Leon's generosity and could only swear to serve Leon at all costs.

"Alright, get up, the two of you! I hope you'll train well. Don't disappoint me!" Leon smiled.

"Yes, sir! We won't fail you!" Leo and Austin said with determination, before standing up.

"Mister Wolf, what is this Sun Pill?" Contrary to their reaction, Chandler, who never saw the Sun Pills before, was confused about why Leo and Austin were so thrilled over a pill.
