

# The Ex-Husband's Revenge By Dragonsky

Chapter 245

## Chapter 245

"I don't know..." Cynthia shook her head.

Cynthia asked curiously, "Leon, didn't you go home just now? Why are you here?"

"Oh, when I was leaving the hotel, I saw that those two cars looked like they followed you, so I decided to follow along," Leon briefly explained.

"No wonder," Cynthia had a look of realization. After that, she quickly realized that the situation was urgent. It was not the time to talk to Leon. So, she said in a panic, "Leon, these people are very strong. They're all at the peak Acquired State!"

"I'll hold them back, you should run!" Cynthia walked in front of Leon.

When Leon was with the Shears, she briefly exchanged blows with Leon and knew that he might be a martial artist.

However, Leon did not use any true energy at all, so she thought that Leon's level was still too low. He was probably only at the initial or intermediate stage of the Acquired State, it was a far cry from her skills.

She was no match for them, and Leon would not be useful either. It would just send Leon to a pointless death.

There was no meaning in that!

"No can do, I don't have the habit of leaving my companions to die!" Leon immediately rejected it.

Learning that the four of them were peak Acquired State martial artists from Cynthia, his expression turned serious.

Cynthia was quite moved when she heard that Leon did not want to leave her behind, but she was very angry too, "Leon, can you stop being stupid! I'm asking you to escape so you can tell my grandfather and have him send men over to save me! If you don't go, the two of us will die here today!"

"I understand what you want, but the situation is not great right now. By the time I get reinforcements, it would already be too late!" Leon shook his head, still not willing to leave.

"It would at least be better than the two of us dying here!" Cynthia said in annoyance.

"Both of us dying here? That might not be the case!" Leon smiled calmly.

After he exchanged blows with Leopard last time, he found out that Leopard was in the advanced Acquired State.

The opponents in front of him were stronger than Leopard, and they had a numbers advantage. If it was before, he would have been no match for them.

However, he broke through some bottlenecks a few days ago, and reached the advanced Meditation Phase from the intermediate Meditation Phase. His skills soared.

Even if their opponents were strong, they might not be able to beat him!

"Your skills are so bad. You're not even at my level. How are you so confident?!" Cynthia was incredibly frustrated, but she could do nothing about the fact that Leon refused to leave.

"Have the two of you wasted enough time?!"

Looking at Cynthia and Leon discussing running away, it was as if the two of them did not care about them.

The leader had a dark look on his face as he shot a look at Leon, "Brat, I don't care who you are! Since you want to die, I'll grant you your wish! Go for them!"

The leader waved, and the four immediately attacked.

He remained standing behind, not attacking.

"Leon, you should go!" Cynthia pushed Leon forcefully toward his bike,

She clenched her teeth and rushed straight at the leader.

She needed to take out the head of the snake!

Cynthia noticed that the leader was not attacked at all, so she thought that he was probably something of a strategist that was not that strong.

If she managed to take him down quickly, she might be able to turn the tides!
