

The Ex-Husband's Revenge By Dragonsky

Chapter 248

Chapter 248

Bang bang bang!

Taking advantage of them being distracted, Leon launched a few attacks. Defeating the opponent in front with one punch before kicking another one. He broke through them in an instant.

The two remaining ones realized that they were in a bad spot, and frantically retreated, narrowly avoiding Leon's attacks.

At that moment, the injured leader already managed to force himself to stand up. Seeing that the situation was already decided, he knew that they would not be able to continue fighting against Leon.

With Leon's abilities that already exceeded the initial Innate State, his subordinates would not be able to defeat Leon.

"Brat, I'll remember you! I'll make sure you pay me back ten times over next time! Let's go!" The leader viciously glared at Leon as he decisively gave the order to retreat.

After that, the four peak Acquired State martial artists fled. Two of them helped the heavily injured leader while the other two guarded their backs. After that, they quickly fled the area.

Leon planned on pursuing them, but he was not confident that he would be able to defeat them. If the opponents were desperate, he might not be able to win.

Furthermore, Cynthia was injured by the leader. He was worried for Cynthia's injuries and safety.

After a slight moment of hesitation, he decided against pursuing them and turned around.

At that moment, Cynthia's face was full of shock, not believing her eyes.

Leon injured the leader in one blow before defeating four peak Acquired State experts. She saw everything.

She thought that Leon was unskilled and weaker than her. Initially, she had no hopes for Leon.

Yet, she never would have dreamed that Leon would use one blow to deal with the leader.

Those skills were at least above the initial Innate State!

"How strong! So Leon's not just a skilled doctor, but skilled at martial arts too! I underestimated him!" There was a sparkle in Cynthia's eyes.

The Shears were an ancient martial arts family and always admired the strong.

Due to the Blue Star of the Sea, she had some snide opinions on Leon before this. Even though Leon was a skilled doctor, she was still unhappy.

However, after she witnessed Leon's amazing skills, she was incredibly impressed. Her negative opinions of Leon suddenly disappeared.

"Cynthia, how are your injuries? Are you alright?" Leon walked over and asked with concern.

"I'm fine, I just suffered some internal injuries. It's nothing too bad..." Cynthia shook her head, blushing a little.

She thought that Leon left her alone to die so he could escape, but she misjudged him. Leon was trustworthy.

He never planned on abandoning her.

"It's good that you're fine," Leon breathed a sigh of relief.

"Leon, thank you, it's all thanks to you this time..." Cynthia smiled gratefully. An indescribable feeling rose

in her heart.

Leon should not have anything to do with this matter, but Leon put his own life at risk for her sake. She was very touched, and she started to regard Leon much more highly.

"No need to thank me. We're friends, you don't have to be so polite," Leon said with a smile.

Even though Cynthia's personality was a bit headstrong, her personality was honest and straightforward. When faced with danger, her first thought was to make sure he could escape.

Just from that point alone, he appreciated her. On top of that, both of them just sealed a deal, so he already saw Cynthia as a friend.
