

# The Ex-Husband's Revenge Chapter 2491

The Ex-Husband's Revenge chapter 2491

"I-" Jensen opened his mouth to answer, but the energy from the Energy Nurturing Pill rushed toward his energy core at this very moment.

Knowing better than to get distracted, he immediately sat on the ground and began meditating to absorb the energy, seizing the opportunity to enhance his power.

"Mister Daglesh, what's going on?"

"Hey, say something!"

Everyone was shocked and exchanged confused looks as they wondered why Jensen started meditating all of a sudden.

This was strange, to say the least.

"Don't rush him! Mister Daglesh is absorbing the energy from the Energy Nurturing Pill. We just need to give him some time!" Leon explained calmly.

"Is that so?"

"Does that mean that the Energy Nurturing Pills work?"

The others remained doubtful. Then, they recalled how rare herbs could help enhance martial artists' power. Since the alchemical pills were made from rare herbs, it seemed normal for there to be certain effects.

Still, it remained questionable if the alchemical pills could rival the effect of spiritual herbs. Hence, they all waited for Jensen to complete his meditation.

With that in mind, everyone gathered around Jensen and waited, including Felton.

Like the others, Felton was also curious to know if Cynthion Group's alchemical pills worked.

Hence, he waited patiently instead of picking on Leon.

Some time later, Jensen showed no other movement and the others grew impatient.

Felton's patience ran thin as well.

"Kid, what's going on? It's been so long, so why hasn't Jensen stopped meditating? His energy is kind of all over the place right now, as though he's losing control of it. Is there something wrong with your pills? Is that why his energy is spiraling out of control?" Felton questioned.

"Yeah, Mister Fermer is right!"

"Mister Daglesh doesn't look that great. His energy's getting out of control!"

"Is the pill he took earlier actually harming him?"

Everyone realized after hearing what Felton had to say.

They all paid attention to Jensen's energy and became more convinced when they noticed how unstable Jensen's energy was.

Though they knew that the pills were made from rare herbs and should not cause Jensen to lose control of his energy, there were countless types of herbs and some could be poisonous.

If the person responsible for producing the pills lacked expertise, the pills could turn out poisonous. Once ingested, the consequences could be unimaginable.

"How dare you?"

"Cynthion Group's pills are causing Mister Daglesh to lose control!"

"Explain yourself!"

Furious, the others immediately stared at Leon angrily.

Since Jensen did not stop meditating, they all assumed that something was wrong with the Energy Nurturing Pill.

However, before they could further confront Leon, the situation took a drastic turn

The Ex-Husband's Revenge chapter 2492

Baam!

Jensen jolted and his power increased as he ascended to the Initial Emperor State.

“Huh, what’s going on?”

“Mister Daglesh’s supposed to be in the Semi-Emperor State. Why is he getting to the Emperor State all of a sudden?”

Everyone around him was shaken.

When they sensed Jensen’s energy spiraling out of control, they assumed that something was wrong with Leon’s alchemical pills which caused Jensen to lose control of his energy.

However, once they saw that Jensen had a breakthrough, they realized that his energy acted out because he was about to get to the next power level.

This meant that they wrongfully blamed Leon and they instantly quieted down, ceasing their confrontation with Leon.

“Great! I’ve finally gotten to the next level! The odds are on my side!” Jensen was thrilled and burst out laughing.

He came to this bouquet specifically to obtain a spiritual herb to help with his training. Though he did not obtain any spiritual herb, he managed to reach the Emperor’s State.

One could only imagine how excited he was.

“Mister Daglesh, what on earth happened?”

“How’d you get to the next power level out of the blue?”

The others were all confused by Jensen’s laughter.

As the eldest son of the Daglehs, Jensen was rather famous in the elite community. Everyone knew that he was stuck in the Semi-Emperor State for a long time.

However, he somehow managed to get to the Emperor State in such a noisy environment.

This was strange and no one knew what happened.

“Oh, well. This is all thanks to the pill Mister Wolf gave me. That Energy Nurturing Pill got me to the Emperor State,” Jensen contained his excitement and explained.

He reached the Semi-Emperor State four years ago, and after years of hard work, he was merely a step away from reaching the Initial Emperor State.

However, he lacked the boost that could break past the barrier.

The Energy Nurturing Pill was made from Leon’s spiritual energy and countless rare herbs. The energy it contained was pure and could help guide martial artists in their training. This gave Jensen just the boost he needed.

As soon as he took the Energy Nurturing Pill, the pure energy within it guided him.

He could not spare any time to answer others’ questions and immediately started to meditate. He circulated the energy within him and absorbed it, seizing this opportunity to ascend to the next power level.

It seemed he made the right choice. Since he reacted in time, he broke past the bottleneck of his training and reached the Initial Emperor State with the help of the Energy Nurturing Pill and some luck.

“What?”

“Mister Dagleth, are you saying that the Energy Nurturing Pill helped get you to the next power level?”

“How is that possible?”

They all thought that the Energy Nurturing Pill could not work as well as the herbs themselves. To their bewilderment, it worked perfectly and got Jensen to the Emperor State.

The Ex-Husband’s Revenge chapter 2493

“This did happen! According to my experience earlier, the Energy Nurturing Pill can help enhance martial artists’ power. It’s just as effective as any spiritual herb! It also helps increase the chances of ascending to the next power level. I can assure you all that Miss Morrison didn’t exaggerate,” Jensen said.

He knew that he stopped at the Semi-Emperor State for a long time. Without the help of the Energy Nurturing Pill, he would not have reached the Emperor State so easily.

Though the Semi-Emperor State was merely a level away from the Initial Emperor State, there was a huge gap between the two. It was far more difficult than ascending to the Semi-Emperor State from the Peak Overlord State.

However, the Energy Nurturing Pill helped break past the barrier, which meant it worked perfectly in increasing the chance of a breakthrough.

“What?” Everyone was stunned by his words. Since Renee was Leon’s supposed girlfriend, they all assumed that she was merely exaggerating the effect of the pills to protect Leon.

However, reality proved that the Energy Nurturing Pill could aid training and help Jensen past the bottleneck of his training.

They were all witness to this and had no other excuse to doubt the pills.

“That’s great! Hugh, the Cythion Group’s alchemical pills are great!”

Like the others, Renee, Ariella, and Joshua were all shocked.

Renee heard from Hugo about how effective the Energy Nurturing Pill was in the past, but she did not witness it and could not tell if it was true. However, upon witnessing how Jensen ascended to the Initial Emperor State with the help of the Energy Nurturing Pill, this confirmed what she knew about the Energy Nurturing Pill.

Ariella and Joshua both underestimated Cynthion Group and Leon, especially upon learning that he was merely the vice president.

Joshua even tried to pick on Leon and humiliate him publicly out of jealousy.

However, Leon spent a whopping 287 million on herbs and showcased the effect of the Energy Nurturing Pill. The two finally realized that they underestimated Cynthion Group and Leon.

Naturally, they were not the only ones who were shocked.

Jensen was shaken as well. He never expected the pill to work so effectively and bring him to the Emperor State.

This was a miracle and he would have never believed it if he did not experience it himself.

“Mister Wolf, thank you! I only managed to get to the Emperor State with the Energy Nurturing Pill! Words can’t even begin to describe how grateful I am,” He snapped out of it and strode toward Leon. Then, he bowed and thanked Leon sincerely.

The Ex-Husband’s Revenge chapter 2494

“Mister Daglesh, you’re too kind! It’s just an Energy Nurturing Pill. Don’t mind it!”

Leon shook his head with a smile.

“I can’t just ignore it. Mister Wolf, the pill worked just as well as any spiritual herb, so it must’ve been really expensive. May I know how much you sell it for?”

I'll pay you," Jensen asked.

He did not know how much the Energy Nurturing Pills cost, but he knew that they worked just as well as rare herbs.

Spiritual herbs and herbs that grew for over five hundred years could cost up to 43 million. Since the Premium Energy Nurturing Pills worked just as effectively, Jensen assumed that each pill cost as much.

Leon offered a precious pill that helped him reach the Emperor State, so he had to pay to prevent Leon or the Cynthion Group from suffering any financial loss.

"It's fine! Mister Daglesh, the Premium Energy Nurturing Pills are usually sold at around 40 thousand each. I can afford just a minor loss! Consider it a gift. You don't have to pay," Leon said.

The Energy Nurturing Pills were affordable and even the premium type was only sold at 45 thousand in the southern region sales drive.

He only offered one Premium Energy Nurturing Pill for Jensen to test its effect.

He had a good impression of Jensen, so he could not possibly charge him for it.

With Leon's worth surpassing billions, he did not consider 45 thousand a loss.

"What? Mister Wolf, did you just say that this Energy Nurturing Pill only cost around 40 thousand? Am I hearing you right?" Jensen was shocked.

Naturally, so were the others. They all stared at Leon in disbelief, all stunned by the Premium Energy Nurturing Pills' affordable price.

They all shared Jensen's thoughts and thought that the pills would cost a fortune because their effect rivaled that of any type of spiritual herb.

Even if the price did not go up to billions, it would at least cost tens of millions.

To their bewilderment, it only cost around 40 thousand each, which was significantly cheaper than rare herbs.

This was so surreal that they were all shaken to the core.

“Mister Wolf, how many Premium Pure Energy Pills do you have now? Can you sell me two hundred for now?” Ariel la was the first to recover from the shock and pleaded with Leon.

Though she was the eldest daughter of the Oxfords, her family was merely moderately powerful and did not have many resources available.

She was a woman and the method her family used to train was not appropriate for her.

Under normal circumstances, any important resources such as rare herbs would go to her father and brother first, so she would never obtain any aid.

However, considering how well the Energy Nurturing Pills worked and how affordable they were in comparison to rare herbs, she would be able to save some for herself once she purchased two hundred Premium Energy Nurturing Pills and took them home to her father and brother.

This seemed like a perfect plan.

The Ex-Husband's Revenge chapter 2495

“Yeah! Mister Wolf, I'd like to purchase two hundred Premium Energy Nurturing Pills as well! No, I want five hundred,” Jensen was reminded by Ariella's words and snapped out of it.

He was the one who tested the effect of the Premium Energy Nurturing Pills and he knew better than anyone how well they worked.

The pills' effect rivaled that of rare herbs, yet only cost a fraction of these herbs' price.

This was a great bargain and he could not possibly let it slip. Considering the capability of the Dagleshs, he would need to purchase at least five hundred pills.

With a sufficient supply of Premium Energy Nurturing Pills, his family would gain more power.

“Us, too. We want the Premium Energy Nurturing Pills as well!”

“I want two hundred.”

“I want five hundred!”

Realization dawned on the others and they all fought one another to purchase the Premium Energy Nurturing Pills.

Most of these guests were from powerful families in the western region and could afford to spend tens of millions. If the Premium Energy Nurturing Pills cost hundreds of millions each, they might consider it more carefully.

However, the pill only cost tens of thousands each, and even purchasing a hundred would only add upto tens of millions.

Considering the fact that the pills worked just as well as any spiritual herbs, this was money well spent.

Hence, they did not hold back and all wanted to make a purchase immediately.

“Damn it! How can this happen?!” Felton’s expression darkened.

Upon learning the Premium Energy Nurturing Pills’ effect and affordable price, he, too, wanted to purchase a few hundred pills.

However, he relentlessly undermined Leon and he could not bear to let go of his pride to beg Leon for the pills.

Since Leon was Renee’s boyfriend and he repeatedly mocked Felton, Felton resented him. He already decided to teach Leon a lesson once his pills were proven to be less than effective.

Unfortunately, what he wished to see did not happen.

As Jensen ascended to the next power level, the Energy Nurturing Pill’s effect was proven and Felton lost all reasons to pick on Leon.

To make matters worse, the Premium Energy Nurturing Pills' effect and affordable price caused all the others, who were once displeased with Leon, to fawn over him.

If Felton tried to cause trouble again, Renee, Jensen and all the others would side with Leon as well.

Outnumbered, he would simply make a fool of himself.

He gritted his teeth in frustration but was left with no option other than swallowing his pride.

Leon ignored the dark look on Felton's face. He rejected the others' requests and took the opportunity to promote Cynthion Group's future branch in the western region." Everyone, thank you for your appreciation. I don't have that many Energy Nurturing Pills with me, so I can't sell any to you! If you wish to make a purchase, Cynthion Group will be expanding to the western region soon and holding a sales drive. You are all welcome to attend to make your purchase!"
