

The Ex-Husband's Revenge Chapter 2496

The Ex-Husband's Revenge chapter 2496—"I see!" Upon knowing that Leon did not have many pills with him, the others were all slightly disappointed.

Still, it made sense because Leon came to purchase herbs instead of selling alchemical pills.

Even if Leon possessed some pills with him, he would only have a few hundred pills with him at most.

Since every single guest wanted the pills, they would need a total of at least ten thousand pills. Leon obviously could not supply such a large amount.

Thankfully, Leon explained that there would be a sales drive once Cynthion Group established a branch in the western region.

Once that happened, they could purchase the Energy Nurturing Pills at the sales drive, so there was no hurry.

"I wonder when the sales drive will be held," Ariella was just as disappointed as the others.

"Ariella, you don't have to rush. Hugh is here representing Cynthion Group to expand its market! I'm sure they will establish a branch here soon and hold the sales drive," Renee spotted the disappointed look on Ariella's face.

Suddenly, she recalled something and turned to Leon, pleading, "Hugh, Ariella is my best friend. If possible, can you just sell her two hundred Energy Nurturing Pills for now?"

She looked at Leon with a pleading look.

She learned from Hugo that the Energy Nurturing Pills lacked sufficient supply, especially the Premium Energy Nurturing Pills. Hence, it was not easy to purchase it.

Even if Cynthion Group held other sales drives in the western region, Ariella might need help to purchase the Energy Nurturing Pills or the premium type.

Out of concern for her best friend, Renee had no choice but to seek Leon's help.

Since Leon was the vice president of Cynthion Group, he must have at least a few hundred Energy Nurturing Pills with him. It did not seem that demanding to ask that he sell two hundred to Ariella.

"Yeah! Mister Wolf, please sell me two hundred of the pills for now," Ariella, who was initially disappointed, felt hopeful once again.

She thought that Renee was Leon's girlfriend and since Renee sought his help, it was unlikely for Leon to say no.

"But," Leon was hesitant.

As Renee thought, he did have a few hundred Premium Energy Nurturing Pills with him. Though Renee was not Renee's girlfriend, Renee was the one who helped him settle down in the hotel and brought him here to this bouquet.

He did not feel comfortable denying her request.

However, there were plenty of people who wished to purchase the Energy Nurturing Pills and it may be inappropriate if he only sold them to Ariella.

"Mister Wolf, if this troubles you, you can just sell me a few dozen for now. I've already reached the Semi-Overlord State and couldn't get to the Overlord State no matter how hard I try. I want to try and see if these Premium Energy Nurturing Pills can get me there," Ariella bargained.

The Oxfords were only a minor family and the method she trained with was not made for women. At the moment, she was only in the Semi-Overlord State and could not be compared with others like Felton and Jensen.

However, she just witnessed how Jensen reached the Emperor State with the help of the Premium Energy Nurturing Pill.

Breaking past the barrier of the Semi-Emperor State was much harder than that of the Semi-Overlord State. If the pill could help Jensen, it would also help her.

Because of that, she desperately wanted Leon to sell her the Premium Energy Nurturing Pills.

"Miss Oxford, you want to reach the Emperor State using the Premium Energy Nurturing Pills? I'm afraid that won't work!" Leon shook his head.

Though the Energy Nurturing Pills could help enhance the possibility of a breakthrough, but the chances were slim.

Jensen only managed to achieve that because he was talented and merely a step away from reaching the Initial Emperor State. Moreover, he was favored by the odds as well.

If Ariel la wanted to achieve the same thing using the Premium Energy Nurturing Pill, it would be nearly impossible.

you. This will get you to the Emperor State!" Leon said thoughtfully.

There were three types of Pure Energy Pills: the Basic Pure Energy Pills, the ensure that martial artists in the Semi-Emperor State get to the next level.

Since Leon reached the Golden Core Phase, all the Pure Energy Pills he produced were of supreme quality and it had been a while since he produced However, when he and his confidantes reached the Overlord State, he once around five pills left at the moment.

him off.

“Pure Energy Pills? I remember that! I heard from my brother that these are even more powerful than the Energy Nurturing Pills. It can guarantee that martial artists who take them get to the Emperor State,” Renee exclaimed.

When Hugo participated in Cynthion Group’s sales drive, he purchased two hundred Energy Nurturing Pills and was lucky enough to buy three Supreme Pure Energy Pills.

However, since she did not reach the Semi-Emperor State, she did not need the Supreme Pure Energy Pills and they were handed over to her grandfather.

Hearing Leon mention them, she was instantly reminded that there were far more powerful pills than the Energy Nurturing Pills in Cynthion Group.

“What?”

“Miss Morrison, did you just say that these pills guarantee that martial artists who take them get to the Emperor State?”

“Really?”

Renee’s words caused a stir in the crowd.

They all witnessed how Jensen got to the Emperor State with the Energy Nurturing Pill, but they knew that a large part of the reason was because of luck.

Otherwise, the pill would have never resulted in this outcome, no matter how powerful it was.

It would be unrealistic to expect otherwise.

Yet now, Renee claimed that there was a type of pill that worked even better and guaranteed a level-up.

This was far beyond their comprehension and they were all shaken to the core.

The Ex-Husband’s Revenge chapter 2498

“Of course, it’s real! If you don’t believe me, ask Hugh!” Renee nodded and turned to Leon.

The others instantly turned to look at Leon and waited for him to respond.

“Miss Morrison is right! The Pure Energy Pills we sell can guarantee the rise to the Emperor State! The Supreme Pure Energy Pill can ensure that martial artists in the SemiEmperor State get to the next level. Even when taken by martial artists in the Emperor State, it will enhance the chances of progress!”

Leon explained the effect of the Pure Energy Pills briefly.

“What?” When Leon confirmed what Renee said, everyone was stunned.

There were a few people who were in a similar situation as Jensen and reached the Semi-Almighty State.

However, the barrier between the Semi-Emperor State and the Emperor State was hard to get through and they could not compare with Jensen in terms of talent. Hence, none of them could get to the Emperor State.

If the Supreme Pure Energy Pills could indeed guarantee that they rise to the Emperor State, this would at least save them a few years of work.

For people their age, the sooner they reached the Emperor State, the further they could go in the future.

Instantly, everyone was desperate and excited to obtain the Supreme Pure Energy Pills.

Naturally, every other person in the room felt the same.

Though some did not reach the Semi-Emperor State and had no use for the Supreme Pure Energy Pill, there were bound to be martial artists in the Semi Emperor State in their respective families.

If they could obtain the pills and bring them back to their family, this would benefit them indefinitely.

“Nonsense! Mister Dagleth only managed to get to the Emperor State by luck!

As powerful as your pills are, there’s no way they can get martial artists past the barrier of their training with certainty. If you want to bluff, at least try to sound more convincing!” Felton sneered.

He knew that there was no shortcut in training for martial arts. Despite his talent, it took him so much time and hard work to finally get past the barrier of the Semi-Emperor State.

Now, Leon dared to claim that alchemical pills sold by Cynthion Group could get martial artists to the Emperor State with ease.

This was so surreal that he refused to believe it was true.

“Well, that’s true.”

“It does sound impossible.”

Hearing Felton’s words, the others sobered.

There was never such a thing as certainty in the world.

Though the Semi-Emperor State and the Initial Emperor State were just a level apart, there was a huge gap between them.

For martial artists who lacked talent, they might never reach the Emperor State.

If Cynthion Group’s Pure Energy Pills could merely enhance the chance of a breakthrough, it would be more believable.

However, Leon dared to claim that this could be achieved with certainty. It was far too exaggerated.

Instantly, the others started doubting Leon.

The Ex-Husband’s Revenge chapter 2499

“I’m not lying! The Supreme Pure Energy Pill can ensure that martial artists in the Semi-Emperor State get to the next level. Even when taken by martial artists in the Emperor State, it will enhance the chances of progress!” Leon shot Felton a look of displeasure.

He did not cross Felton in any way, but Felton relentlessly tried to undermine him ever since he showed up.

Leon was already annoyed.

Now, Felton was once again trying to manipulate others to doubt Leon. For a moment, he desperately wanted to teach Felton a lesson.

However, considering that this was a bouquet held by Jaxon, he should not sabotage the event before it ended as it would be rude of him.

Hence, he could only suppress his anger and give up on fighting Felton for the moment.

“What? Did you say that when taken by martial artists in the Emperor State, it will enhance the chances of progress? You have to be bluffing! If that’s the case, Cynthion Group would be ruling over the world by now!” Felton burst out laughing in contempt.

Since he reached the Intermediate Emperor State, he came to the bouquet to look for a spiritual herb that could enhance his power.

If the Supreme Pure Energy Pill could indeed enhance the chance of getting past the barriers between levels, he could purchase one to see if he could rise. However, this was impossible.

In both the western and southern regions, there were not many martial artists in the Almighty State, and martial artists in the Emperor State served as pillars to many powerful families.

If the Supreme Pure Energy Pill could do what it claimed, Cynthion Group should be able to produce many martial artists in the Emperor State. That would make the company one of the most powerful forces in the southern region, or it may even rule over the region.

However, Cynthion Group's name remained unfamiliar in other regions.

Because of that, Felton assumed that Cynthion Group was merely an insignificant pharmaceutical firm in the southern region.

Even if the Premium Energy Nurturing Pill helped Jensen past the bottleneck of his training, Felton felt like he just got lucky.

He refused to believe that Cynthion Group had even more powerful pills or that the Supreme Pure Energy Pills could get martial artists in the Semi-Emperor State to the Emperor State with certainty.

It all sounded too much like a miracle.

"Mister Fermer is right!"

"Mister Wolf, if your Supreme Pure Energy Pill can get martial artists in the Semi-Emperor State to the Emperor State, can you give one to someone here so we can witness its effect?"

The others agreed along and all wanted to see what the Supreme Pure Energy Pill could do with their own eyes.

Since the claim Leon made about the Supreme Pure Energy Pill sounded too magical, they could not quite bring themselves to believe it.

However, they were just proven wrong after doubting the effect of the premium Energy Nurturing Pill and embarrassed themselves. Hence, they dared not to mock Leon.

Feeling doubtful, they wanted Leon to offer a Supreme Pure Energy Pill for testing. Once someone took the pill, they would all know with certainty if Leon was telling the truth.

The Ex-Husband's Revenge chapter 2500

"Everyone, I don't have any Supreme Pure Energy Pill with me right now and can't have anyone test it at the moment," Leon shook his head.

The Supreme Pure Energy Pill was different from the Energy Nurturing Pill.

When he trained, he needed the Premium Energy Nurturing Pills and Spirit Nurturing Pills, so he carried these with him all the time.

However, the Supreme Pure Energy Pills were far too costly to produce and there were a limited number of them each time he produced them. On top of that, he and his confidantes did not need the Supreme Pure Energy Pills for the time being.

The few Supreme Pure Energy Pills he possessed were used up so he did not have any extra to offer for testing.

“No? I knew it! You claimed that the Supreme Pure Energy Pills you produced can help martial artists in the SemiEmperor State enter the Emperor State. Yet you can’t produce it right now. You must’ve been bragging and you’re just looking for an excuse to get away with it,” Felton sneered and looked at Leon in contempt.

Since Leon could not offer the Supreme Pure Energy Pill at the moment, he confirmed that Leon was bluffing and was certain that Leon would be embarrassed.

He assumed that Leon was just saying that he did not have the pill to get away from it.

He could not think of any other possibility.

“I see!”

Everyone else was disappointed.

Manipulated by Felton, they all started to doubt the Supreme Pure Energy Pill.

Since Leon could not produce it at the moment, they all felt that Leon was simply bragging.

Some direct descendants dreamed of rising to the Emperor State using the Supreme Pure Energy Pills. Upon learning that Leon was bragging, they were all disappointed.

“Everyone, I may not have any Supreme Pure Energy Pill with me, but I have a could get past the barrier of the SemiOverlord State.

Since no one believed the effect of the Supreme Pure Energy Pill, he could get Ariella to try it and show everyone what the pills could do.

Pure Energy Pill would deliver the same result.

“Sure!”

Everyone became hopeful once again.

martial artists in the Semi-Overlord State ascend to the Overlord State, while the Supreme Pure Energy Pill could get martial artists in the Semi-Emperor State to the Emperor State.

Since Leon did not have the Supreme Pure Energy Pill with him, a test with the So long as Ariella reached the Overlord State with the pill, what Leon claimed about the Supreme Pure Energy Pill should be true as well.
