

The Ex-Husband's Revenge

Dragonsky

Chapter 25

"I'm fine. Thankfully, Leon was there to save me..."
Iris shook her head before telling Ariel everything.

Ariel was Iris's best friend from university.

Iris did not have many friends, and Ariel was the only one she considered a good friend. 1

Of course, the flirting was omitted. There was no way she would tell anyone about that.

"You said he was a man you didn't know, but he still took a stab for you. To protect you, he even decided to die with the thugs?! Now that's a real man! I guess you must feel very safe beside him?" Ariel's eyes glinted. She loved those masculine men on TV because she always lacked a sense of safety ever since she was young.

It was a pity that all of that was only on TV. At the very least, she never met anyone like that in real life.

Yet, a prime example just appeared in front of her.

From what Iris said, she could even feel how safe it would have felt to be protected in such a dangerous situation. It was something she always lacked.

"Definitely! Society is so cold nowadays. There aren't many people as brave as him left. If he didn't put his life on the line to protect me, I would've died," Iris said emotionally.

Thinking about the dangers she faced that night, she still felt some fear. She was filled with gratitude for Leon.

"Iris, tell me what he looks like. Is he handsome? Does he look like one of those heroic and mighty men?!" Ariel pulled at Iris' hand excitedly.

"Yes, he's very handsome!" Iris nodded.

Even though she felt like there was nothing particularly exceptional about how Leon looked, there was still an attractiveness to him. The scene of Leon protecting her that night was deeply engraved in her mind as well. Leon was incredibly handsome then!

As for whether or not he was mighty and heroic, it might not be something that can describe Leon.

"Ariel, you have to introduce him to me one day. I want to see for myself what he looks like!" Ariel smiled in expectation. 2

She was in a bad mood, but she forgot all about that. Even the air felt fresher. 1

"There's no need to wait for that, you'll be able to meet him soon," Iris said with a smile.

"Not only did he save me, he even saved my grandfather. My grandfather wanted to properly repay him, but he only had one request, which was a job..." Iris elaborated simply. 1

"Wow, not only is he mighty and heroic, he's even so morally upright. He didn't ask for anything back after saving you. Isn't a man like that just too perfect?!" Ariel's heart was rapidly beating at that moment. She was suddenly filled with respect and reverence for that man she never saw before. She was even forming an image of him in her head. 1

A young man with white robes was devilishly handsome. He had a cool expression on his head and an incredibly domineering aura. He stood atop white clouds as he looked down on the world!

Perfect!

Knock knock knock!

At that moment, they heard a knock on the door. Leon walked in from outside.

"Iris, I..." Leon was about to say something when he quickly saw Ariel in front of Iris. Ariel saw Leon as

well.

"It's you!"

"It's you!"

The two of them looked at each other in shock. ①

"What? The two of you know each other?" Iris looked at Leon and Ariel in surprise.

"We don't just know each other! He's the sissy I was talking about just now!" Ariel let out a cold snort and looked at Leon with disdain.

"The sissy?" Iris was stunned. She was with Leon for a while. Leon's personality might not be incredibly manly, but he was not a sissy! ①

"Hey, could you have had a misunderstanding? Let me introduce you again. This is Leon."

"Leon, this is my assistant, Ariel Summers," Iris gave the two of them a simple introduction.

"Leon? Iris, is he the man that saved you?!" Ariel was dumbfounded. Iris mentioned Leon's name a few times just now, so she did not forget it.

"That's right. It's him!" Iris nodded.

"H-how is that possible..." Ariel looked like she was struck by lightning.

The image of that white-robed Adonis shattered in her mind.

Her hopes had been so high, so the disappointment was great!

She was incredibly disappointed.

"Iris, didn't you say he was very handsome? How is he handsome? I can't tell at all!" Ariel had a sour look on her face. Her body was hot and sexy, but her face was full of disdain.
