

The Ex-Husband's Revenge By Dragonsky

Chapter 251

The Ex-Husband's Revenge By Dragonsky Chapter 251

Leon was shocked to feel that the spiritual energy at the peak of the mountain was already almost completely drained.

Thankfully, he did not need to train on Mistcloud Mountain, so it was fine even if the spiritual energy was drained.

Furthermore, spiritual energy was not something that would not come back. In less than three months, the spiritual energy on the peak of Mistcloud Mountain would recover.

Not using it was just a waste!

After gathering the morning dew, Leon started to leave the mountain.

Now that he dealt with the procurement of materials and the dew, the problems with production would be resolved as well.

The most important part of those products were the dew.

Leon planned on naming the morning dew spirit dew. He would be the sole person capable of producing them, just like how many food products had exclusive suppliers.

That way, as long as he controlled the spirit dew, no other cosmetic companies would be able to try and mimic their products. That would ensure that the company kept an exclusive hold of its products, which would greatly benefit the company's future development.

It probably would not take long for the company to use those exclusive cosmetics to jump into the ranks of high-end brands or even international brands!

In the company, Iris called Leon into her office.

When Leon arrived, Ashwin gave Iris a work report.

After Ashwin's report, Leon asked, "Miss Young, what did you need me here for?"

"Oh, I just wanted to ask you how the production of the cosmetics is going. The last batch that was sent to the Wick Group has been destroyed. I hope there won't be any problems with this batch!" Iris said.

Just the first batch from the company to the Wick Group caused such problems, and the Wick Group still waited for products, so Iris was a little anxious.

"I was about to report on the matter. The factory needs more materials and spirit dew. I've already handled the spirit dew. As for the procurement of herbal medication, last night I..."

Leon was about to mention his agreement with the Shear Group, but Ashwin interrupted him before he could even finish.

"Miss Young, procurement is my job! Don't worry, I have some connections with Life Pharmacy. I'll do my best to quickly handle the materials. It won't affect the factory's production at all!" Ashwin slapped his chest

and said.

"That..." Leon had a stunned look on his face, realizing that raw materials were Ashwin's job.

To guarantee that production would continue, he forgot to notify Ashwin. He accidentally overstepped!

"Alright, Mister Mercer, you'll be in charge of this then," Iris nodded. It was Ashwin's job anyway, so Ashwin would naturally be responsible for it.

"Miss Young, hold on..." Leon felt very awkward.

He already discussed the matter of procuring herbal medicines with Cynthia the day before. As long as the company gave the money, the Shear Group would issue the goods.

Both sides already signed the agreement.

Yet, Iris handed the task over to Ashwin. How was he going to tell Cynthia?!

"Leon, what is it? Do you need anything else for production?" Iris asked curiously.

"That... It's actually not about production, but the herbal medicines..." Leon's head hurt. He did not know where to start.

After all, he already had a conflict with Ashwin two days ago after interfering with production, and even took over Ashwin's responsibility in the end.
