

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2601-“Nonsense! The Premium Energy Nurturing Pills may help martial artists with their training, but they aren’t that much better than rare herbs! Besides, they are only offering twenty percent of profit. The others aren’t fools and wouldn’t possibly work with Cynthion Group!” Jayden sneered and scoffed.

His arrogance led him to believe that the Premium Energy Nurturing Pills were just as effective as rare herbs.

Since Cynthion Group offered low profit, he did not think that others would fight for a chance to work with them.

He assumed that Renee was merely exaggerating to convince Caleb and could not think of any other explanation.

“That’s right. It’s quite strange.” “Cynthion Group is offering too little, so why would other families accept such a deal?”

Caleb and the others immediately regained their composure.

They only refused to work with Cynthion Group because the profit Leon offered was too low. If the Morrisons were not happy with it, it was hard to believe that other families would accept such terms.

“The profit Cynthion Group offers isn’t that high, but their alchemical pills worked miraculously and there is great growth potential. Considering how much they make, twenty percent of profit is already a lot. Any family would benefit greatly from working with Cynthion Group,” Renee said.

“The pills work miraculously? How so? I’ve seen how the Premium Energy Nurturing Pills work and they work similarly with rare herbs. It’s not that big a deal!” Jayden sneered and continued to look down at the alchemical pills.

“Who said that the Premium Energy Nurturing Pills work like rare herbs? Uncle Jayden, these pills can increase the chances of a breakthrough as well.

Ordinary herbs can’t compare with it. On top of that, the Premium Energy Nurturing Pills are way cheaper than herbs. You can’t compare the two!” Renee scoffed.

She knew that in terms of enhancing strength, the Premium Energy Nurturing Pills worked similarly to herbs that grew for two to three hundred years.

However, they could also increase the chances of a breakthrough.

If martial artists take the Premium Energy Nurturing Pills consistently, they will have an easier time when they reach a bottleneck. In this aspect, rare herbs could not be compared.

As for price, a Premium Energy Nurturing Pill would cost only tens of thousands, whereas herbs that grew for two to three hundred years would cost at least hundreds of thousands.

With such big differences in price and effect, the Premium Energy Nurturing Pills were far better than herbs.

It was almost certain that others would fight for a chance to work with Cynthion Group.

The Ex Husbands Revenge Chapter 2602-“Renee, did you just say that Premium Energy Nurturing Pills can enhance the chances of a breakthrough? What a joke! That’s just false marketing. Are you taking that seriously?” Jayden mocked and laughed.

Hugo purchased some Premium Energy Nurturing Pills from the southern region and he already heard the pills’ effect, but the chance for martial artists who took those to have a breakthrough was extremely low.

From a business point of view, it was practically a gamble.

Indeed, Hugo distributed the Premium Energy Nurturing Pills to some of the younger martial artists in the family, including Renee and Georgie. However, after using it for some time, no one succeeded in having a breakthrough with the help of the Premium Energy Nurturing Pills.

Hence, Jayden assumed that the proclaimed effect of the Premium Energy Nurturing Pills was merely a means of marketing.

It was a common tactic for business owners.

“Yeah! Renee, you don’t know much about running a business. This type of false marketing can’t be taken seriously.”

They all agreed along, thinking that Renee was being too naive.

“Why not? Grandfather, I saw Jensen Daglesh trying the Premium Energy Nurturing Pill last night in front of everyone. With its help, he ascended to the Emperor State from the Semi-Emperor State. I saw it with my own eyes, so how can that be fake?” Renee said coldly before proceeding to recount the events of the night before.

“What?” “The Premium Energy Nurturing Pills can get martial artists past bottlenecks?” “Are we hearing this right?”

Caleb and the others were all shocked.

At first, they agreed with Jayden and felt that the Premium Energy Nurturing Pills were merely a gimmick.

To their surprise, the pill got Jensen to the Emperor state.

Though the Semi-Emperor state and the Emperor state were merely a level apart, there was a big gap between them, and crossing it would be extremely challenging.

It seemed that the Premium Energy Nurturing Pill indeed helped Jensen past the bottleneck of his training.

This was practically a miracle and at that moment, they finally realized that the effect of the Premium Energy Nurturing Pills were true all along. They underestimated the pills’ effect and Cynthion Group.

The Ex Husbands Revenge Chapter 2603-“That’s not possible! That’s not possibly true!” Jayden was just as shocked as the others.

He thought that Renee was too naive to believe the false marketing Cynthion Group put up and even mocked her for it.

However, reality delivered a blow to him. Never in his dream did he expect that the Premium Energy Nurturing Pills could get martial artists past the bottleneck of their training.

In the end, he turned out to be a fool. He could not comprehend how Cynthion Group accomplished the impossible and could not bring himself to accept this.

“It’s possible! The Premium Energy Nurturing Pill got Jensen to the Emperor State, but that’s the least Cynthion Group can do! They even have pills that can get martial artists past multiple barriers in one go! You are just too arrogant to recognize these alchemical pills!” Renee smirked and returned Jayden’s earlier mockery.

Her words struck the others to the core.

“Renee, what did you just say?” “Cynthion Group have pills that can get martial artists past multiple barriers? How is that possible?”

The others’ jaws dropped and they exchanged looks of disbelief.

What Renee said was so shocking that it surpassed what she said about Jensen having a breakthrough using the Premium Energy Nurturing Pills.

For a moment, they could not believe that Cynthion Group could produce such powerful alchemical pills.

“Renee, your stories are getting more and more surreal. There’s no shortcut in training as a martial artist so how can there be pills that help martial artists overcome several barriers at the same time? I think you are just exaggerating things to convince your grandfather!” Jayden said.

The Emperor state was a difficult level to reach so he never believed that Jensen ascended to it with the Premium Energy Nurturing Pills to begin with.

Now Renee’s stories became more surreal as she claimed that Cynthion Group had pills that could get martial artists past several barriers.

It was so unbelievable that he could not help suspecting that Renee was just making things up to make Caleb cave.

“That’s right!” “Renee, are you mistaken?”

Doubtful expressions appeared on Caleb’s and the elders’ faces.

They knew that the alchemical pills were made from rare herbs. If Jensen got lucky and managed to get to the Emperor State. However, Renee claimed that there were pills that could get martial artists past multiple barriers.

This was just something unheard of.

When Jayden accused Renee of making things up to convince Caleb, they all felt that was possible.

For a moment, no one could tell if Renee was telling the truth or if she was lying as Jayden said.

“I’m not mistaken, nor am I bluffing to help Cynthion Group. I’m telling the truth,”

Renee said firmly.

“Truth? If that’s the case, what evidence do you have?” Jayden scoffed.

The Ex Husbands Revenge Chapter 2604-“I don’t have Cynthion Group’s alchemical pills so how can I present evidence?”

Renee frowned.

“If that’s the case, it just means you can’t prove what you said. Don’t just make things up.” Jayden sneered.

Since Renee could not present any evidence, he was certain that Renee was making things up when she said alchemical pills could get martial artists past multiple barriers, hoping to convince Caleb.

Since this was fake, what she said about Jensen getting to the Emperor State with the Premium Energy Nurturing Pill could be a lie as well.

Naturally, Caleb and the elders felt the same and became more doubtful.

“Why you!” Frustrated, Renee wanted to say something when an idea crossed her mind. “Uncle Jayden, you want evidence, right? I’ll give you evidence.”  
“Oh?”

Sure! Present your evidence and show me if Cynthion Group produces alchemical pills that can get martial artists past multiple barriers.” Jayden scoffed.

Though he did not know what proof Renee had, he knew that there was only one way for Renee to prove her words: she had to present the alchemical pills and perform a test right here and then or she could not be able to convince the others.

Still, he did not think that Cynthion Group could actually produce such powerful pills and since Renee did not work for Cynthion Group, she could not possibly possess any of the pills.

Before he could mock her, what happened next shocked them all.

“I don’t have the pills with me and I can’t test them in front of you.

However, if you don’t believe in what I said, you can see what power level I’m in and you will know if I’m telling the truth,” Renee said and released her true energy in the Emperor State.

“The Emperor State?” Everyone was stunned when they detected that her power level was in the Initial Emperor state.

State? How did you get to the Emperor State all of a sudden?” Hugo was shocked and rubbed his eyes in disbelief.

Renee was his sister and he knew her well. Hence, he knew that she was in the To his bewilderment, Renee somehow reached the Emperor State. This was so surreal that he was shaken to the core.

Naturally, the others were just as shocked as they all knew that Renee was in Emperor State.

It was practically a miracle and they would have never believed this to be true if they did not see it with their own eyes.

The Ex Husbands Revenge Chapter 2605-“Renee, what’s going on? How did you get to the Initial Emperor State all of a sudden?” Caleb snapped out of it and asked.

“Grandfather, it’s all thanks to Hugh. Last night, he gave me alchemical pills during the bouquet that got me to the Emperor State,” Renee explained and proceeded to recount the details.

“What? Does that mean that these pills can get martial artists past multiple barriers? You’ve gone past three barriers at once?” “How is that possible?”

Caleb and Jayden were all shocked.

Jayden was certain that Renee was making things up or exaggerating the effect of Cynthion Group’s alchemical pills. To his bewilderment, she was telling the truth.

Not only did Cynthion Group produce pills that could get martial artists past multiple barriers, but they also helped Renee ascend to the Emperor State, skipping the Peak Overlord, Semi-Emperor, and Initial Emperor State at once.

Cynthion Group’s alchemical pills were hardly what he originally imagined and they were even more powerful than how Renee described them.

This completely went against his knowledge of martial arts and for a moment, he could not help doubting everything he knew.

“Uncle Jayden, as you can see, here’s the evidence you want. Is there anything else you’d like to say?” Renee said smugly and looked at Jayden with a mocking expression.

“I-” Jayden’s expression darkened. He wanted to argue, but his words failed him.

After all, he was staring at the living proof of what Renee said.

With the help of the alchemical pills, Renee went past three barriers and ascended to the Emperor state.

This was enough to prove that Cynthion Group’s alchemical pills could indeed get martial artists past the bottlenecks of their training and he was not given any room to doubt this any longer.

If the effects of the alchemical pills were as Leon claimed, it would be true that the Premium Energy Nurturing Pill got Jensen to the Emperor State as well.

What Renee said was the truth and she was not bluffing as he initially imagined.

Shocked, his expression darkened further. In the end, he could only quiet down and the arrogant look on his face disappeared.

“Great!” “The alchemical pills are powerful!” “We have been underestimating Cynthion Group!”

Caleb and the elders recovered from the shock and were all moved.

Hugo told them repeatedly that the alchemical pills had great potential and market value and tried his best to convince them to finalize the deal with Cynthion Group.

However, Cynthion Group was just a faceless pharmaceutical firm and they all underestimated its value, so none of them took Hugo’s words seriously.

Upon learning what the alchemical pills could truly accomplish, they finally understood what Hugo was trying to do.

The Premium Energy Nurturing Pills could enhance martial artists’ power and increase the chances of a breakthrough effectively, making them far better than ordinary herbs.

On top of that, there were even pills that could get martial artists past multiple barriers.

Though this might not be all that helpful for martial artists in the older generation, it could aid most families in increasing the strength of the younger martial artists and thus creating martial artists in the Emperor State.

For most families, including the Morrisons, martial artists in the Emperor State were the pillars of the family’s strength.

If the alchemical pills could indeed produce martial artists in the Emperor State within a short period, their market values were unmeasurable.

Anyone who would partner with Cynthion Group would be able to seize control of the fate of all families in the western region.

At that moment, they finally realized how important the deal with Cynthion Group was.
