

## The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2686-Also, I want you to talk to Mister Orpwood once you get back. If possible, I want him to send the Western a warning to prevent him from doing anything else!” Leon added.

During the bouquet last night, Felton targeted and picked on him. Now, his actions escalated and the Western Boss even sent people to attack him.

This was far out of line and Leon was infuriated by this.

However, tracking the Southern Boss down was more important and Leon had no time to deal with the Western Boss or Felton.

Hence, he wanted Mister Orpwood’s help to give the Western Boss a warning.

Once he settled the matter concerning the Southern Boss, he could always find the time to punish the Western Boss and Felton.

“Sure!” Fletcher and Howard said.

With that, they dragged Diego, Milo, and Enzo out and left.

Once they were gone, Leon realized the sorry state his room was in and that he could not stay there any longer.

Leon could only call the hotel manager over to get another room.

As for the broken furniture and items in the room, he was not short of money and compensated the hotel with double the cost.

The hotel manager was more than happy to accept this.

On top of that, the hotel manager was aware that a group of powerful figures had come to the hotel to wait for Leon’s return. He easily concluded that Leon, too, must be a powerful figure to leave so many big shots waiting for him.

Therefore, he dared not to delay any of Leon’s requests and swiftly got him another room.

With that, Leon could finally go to rest.

Meanwhile, in the Formers' mansion where the Western Boss lived.

The Western Boss and Felton were in a discussion in the living room after their dinner.

Just then, the Western Boss recalled that he sent Diego and the others to the hotel to capture Leon. He revealed a confused look as he wondered why it took them so long. 'It's strange. It's been so long, yet Diego and the others haven't returned.'

"Yeah, I was wondering about that as well! It's getting late. Have those big shots not left the hotel?" Felton was also baffled.

He learned from Diego and the others that a lot of powerful figures were waiting in the hotel for Loen's return.

With them in the way, Diego and the others had no choice but to return.

Afterward, the Western Boss ordered them to wait until everyone left before attacking Leon.

However, there was no news from Diego and the others even after the sky turned dark.

He assumed that perhaps those big shots were still lingering in the hotel and the three of them did not have the chance to act.

Apart from this, he could not think of any reasonable explanation.

"That shouldn't be! Those people all have busy lives so how could they wait in the hotel for that long? The Western Boss was not as optimistic as Felton and a thought flashed in his mind.

The Ex Husbands Revenge Chapter 2687-"Oh, no! Did something bad happen to them?" The Western Boss slammed the table and stood.

The Southern Boss reminded him repeatedly that Leon was resourceful and formidable beyond his imagination.

However, due to the misleading information Felton gave and the fact that the Southern Boss did not meet Hugh in person to confirm if he was Leon, the

Western Boss looked down on Hugh and did not take the Southern Boss's warning to heart.

However, seeing as Diego and the others were late to return, an ominous feeling overwhelmed him.

Instinctively, he realized that the Southern Boss's warning may have been genuine and Leon was likely more powerful than he imagined.

If that was the case, Diego and the others likely failed.

"That's impossible! Dad, Diego, and the others are strong. Even if they failed to capture Leon, it's not likely that they were all defeated! I'm sure that a few of those big shots are still in the hotel in the hope of working with Cynthion Group.

Diego and the others probably haven't gotten the chance to act and that's why it's taking so long," Felton said casually.

He knew that Diego, Enzo, and Milo were all formidable martial artists who were in the Semi-Almighty State or above.

Diego was in the initial Almighty state and with this trio, they could stand a chance against Leon even if he was in the Intermediate Almighty State.

At the very least, they could choose to run if they could not rival Leon.

Apart from that, Felton fought Leon before, and judging from Leon's explosive Though Leon possessed godly speed, his agility still stopped at the SemiAlmighty State and he could not possibly be in the Intermediate Almighty State.

On top of that, Leon was a few years younger than him so he could not be that strong as it would be unrealistic.

Hence, he concluded that Diego and the others simply did not find the right chance to attack Leon and needed more time.

"Well, you're right. I'm probably worried over nothing." The Western Boss considered his words and felt that they made sense.

Diego and the others were formidable and Leon was outnumbered.

The three of them could not possibly all fail without a single one of them managing to escape unless Leon already reached the Intermediate Almighty State.

However, that would be impossible considering Leon's age.

If that were true, Leon's talent would be unheard of as not a single martial artist in the younger generation achieved such greatness in the past.

Even martial artists in the first and second generations would struggle to reach the Intermediate Almighty State despite trying all their lives, not to mention a youngster like Leon.

The Western Boss simply did not think that Leon would be so talented unless there was a miracle.

The Ex Husbands Revenge Chapter 2688-Just then, hurried footsteps approached and interrupted their conversation.

"Have Diego and the others returned?" Felton perked up in excitement and assumed that Diego and the others were back.

The Western Boss thought the same and the two turned to look outside.

Disappointingly, it was just a guard who worked for the Formers.

"Western Boss, Mister Felton, bad news," the guard said hastily.

"What's wrong? What happened?" Both the Western Boss and Felton were taken aback and felt confused.

"I've just received news that Diego, Milo, and Enzo were arrested by the Dragon Corps," the guards explained.

Once Fletcher and Howard brought Diego, Milo, and Enzo back to the Dragon Corps, an official notice was issued immediately announcing their punishment.

However, it was only stated that they were confined because of assault and there were no other details as Leon wished to keep his identity hidden.

The Formers ruled over the underground community, so they were always the first to know when something happened.

There was no way that this would escape their attention.

“What?” Both the Western Boss and Felton were stunned.

Felton felt struck and stood abruptly.

His father was just worried that Diego and the others failed. He did not think much of it at the time and even consoled the Western Boss, thinking that he was worried over nothing.

To his surprise, the Western Boss was right.

Not only did Diego and the others fail, but they also somehow ended up arrested by the Dragon Corps.

This was so surreal that he froze in shock.

“Damn it! How can this happen? Didn’t the three of them go to capture Leon?”

How did they end up getting arrested by the Dragon Corps? This shouldn’t happen!”

The Western Boss was shocked as well. He slammed the table with a dark expression.

Though he anticipated that Diego and the others may have encountered some trouble, he never expected them to be captured by the Dragon Corps.

This took him by surprise and he could not understand how the Dragon Corps was involved.

“Dad, could it be that Diego and the others lost to Leon and Leon handed them over to the Dragon Corps? But, that’s impossible!” Felton said.

Dueling was normal amongst martial artists. So long as no one’s life was harmed, the Dragon Corps rarely intervened.

Besides, Diego and the others went to the hotel to capture Leon. They should not have any encounter with the Dragon Corps, making the Dragon Corps’ involvement even more strange.

The only logical explanation would be that Leon defeated the three of them and handed them over to the Dragon Corps.

However, Diego and the others were supposed to be far stronger than Leon.

Hence, he could not fathom how Leon may be able to defeat them and could not bring himself to accept it.

The Ex Husbands Revenge Chapter 2689-“Nothing is impossible! Seems like the Southern Boss was right. We’ve underestimated Leon.” The Western Boss’s heart sank.

He also guessed that Diego and the others lost to Leon and were handed over to the Dragon Corps afterward.

This seemed to be the only possible explanation.

Moreover, with Diego being in the Initial Almighty State and the other two being in the Semi-Almighty State, Leon had to be in the Intermediate Almighty State or above for him to defeat them and capture them for the Dragon Corps’ disposal.

At this moment, the Western Boss finally realized that he underestimated Leon.

“Damn it! If that is the case, that means Leon is in the Intermediate Almighty State or above. How did he do it?” Felton’s expression darkened.

He did not know how Leon managed this, but he knew that Leon had to be extremely talented for him to reach the Intermediate Almighty State at such a young age.

This was unheard of and even he, who was one of the Thirteen Greats, could not rival Leon, nor could the martial artists who ranked at the top of the Thirteen Greats.

The Almighty State was a challenging gateway to cross for all martial artists.

No one in the youngest generation reached the Almighty State in the past centuries throughout Sky County, not to mention reaching the Intermediate Almighty State.

Yet, Leon managed to do so and might even be at a higher level.

Felton, who was always proud of his strength felt overwhelmed.

“Yeah! Shockingly, someone in the youngest generation would reach the Intermediate Almighty State! It’s no wonder that the Southern Boss is scared of him!” the Western Boss said.

He was quite baffled as to why the Southern Boss feared Leon so and even mocked him for it.

It was not until this moment that he realized Leon was far stronger than he anticipated.

His talent would be unrivaled if he managed to reach the Intermediate Almighty State or above at such a young age.

Even he and the Southern Boss could not rival Leon when they were younger.

It was no exaggeration that the sky was the limit for Leon as he grew.

In just a few years, he would grow into an even more powerful martial artist than the likes of the Southern Boss.

With that thought in mind, the Western Boss grew weary of Leon as well.

Naturally, he did not know that he was still underestimating Leon.

With all of the resources available to Leon at the moment, he could already rival and defeat the Western Boss and the Southern Boss.

If he knew about this, he would understand why the Southern Boss wanted to team up against Leon.
