

The Ex Husbands Revenge Chapter 2740

The Ex-Husband's Revenge chapter 2740-"Old man, it's my time to strike now! Take this!" Leon scoffed.

He wielded powerful energy in his hand and charged at Gaston.

Though the Earthly Plunder from earlier had already injured Gaston, the fact that Gaston tried to bully him like Aurelia and Bucky did and even demanded he break his arm enraged Leon.

He was not a pushover and intended to use this opportunity to teach Gaston a lesson to prevent him from bullying others in the future.

"Oh no!" Gaston paled when he sensed Leon's powerful attack.

Though he did not know how Leon managed to defeat him, he knew that he was no match for Leon when they faced each other head-on.

Now that he was already injured on the shoulder, he could not move his arm and there was no way that he could fight Leon.

Not daring to face Leon head-on, he darted aside and attempted to dodge Leon's attack with his speed advantage.

However, Leon seemed to have seen through his intention and launched the Phantom Steps instead.

Leon's speed increased by folds and no matter how he backed away, Leon's attack continued to approach.

Whatever he did, he could not seem to dodge Leon's attack.

"Kid, don't you dare!" The two elderly men finally leaped into action just as Leon's attack was about to land on Gaston.

Not daring to delay, they leaped into the air and each launched a powerful attack against Leon from each side to force Leon into giving up.

“The Initial Almighty State!” Leon’s expression darkened when he sensed the two elderly men were in the Initial Almighty State from their true energy.

This caught him by surprise.

Though the Mirror of Sovereign could fend off attacks from martial artists in the Initial Almighty State or below and these men may not succeed in breaking past his defense, they were attacking from both sides.

As powerful as the Mirror of Sovereign could be, it could not possibly fend off attacks from two different directions.

Not daring to take the attacks head-on, he could only give up on his pursuit of Gaston.

With the Phantom Steps, he intended to shake the elderly men off.

however, they were too close to one another. On top of that, the two elderly men were both in the Almighty State.

Though Leon dodged in time, he could not completely get away from their range and the attack from the right brushed past Leon’s chest Leon backed away a few steps before steadying himself. Thankfully, he was protected by the Mirror of Sovereign and merely pushed backward by the impact.
