

The Ex Husbands Revenge

The Ex-Husband's Revenge chapter 2742-"Oh, alright, then." The two elderly men felt resigned that Bucky and Gaston refused to give up.

However, they were just distant relatives of the Grimstons. Meanwhile, Bucky and Gaston were direct descendants and future heirs of the family.

Since they were determined to punish Leon, the elderly men could not disobey.

"Uncles, destroy that little bast*rd right now and show him what it means to cross the Grimstons," Gaston commanded and glared maliciously at Leon.

He knew that Leon had to be talented to reach the Semi-Almighty State at such a young age.

Since he intended to fight Leon, he would have to destroy Leon and nib his talent in the crib, otherwise, Leon would grow to be a big threat to the Grimstons.

"Yes!" the elderly men responded.

Without hesitation, they started approaching Leon from two different directions.

"Oh no!" Renee paled and her heart sank.

Leon showed that he was likely in the Semi-Almighty State by defeating Gaston, but the Almighty State was a difficult barrier for all martial artists.

Plenty of talented martial artists in the older or second generation would struggle without reaching the Almighty State.

It was already a miracle that Leon managed to reach the Semi-Almighty State at his age, so there was no way that he could be in the Almighty state. Meanwhile, the two elderly men were both in the Almighty state and were both stronger than Gaston.

If Leon was in the Semi-Almighty State, he was no match for any of these men, let alone fighting two of them at the same time.

With that thought in mind, she panicked and worried for Leon's safety.

"Right! Hugh, you need to run now before they attack. So long as you run now, you should be able to get away," She lowered her voice and reminded Leon.

She knew that Gaston and Bucky were determined to fight Hugh to the very end.

Once the two elderly men decided to attack Hugh, Hugh would not stand a chance so his only option was to run.

Since he was in the Semi-Almighty State, he may not be able to win against the two elderly men, but he may stand a chance by running.

"Run? That won't be necessary. Don't worry, Miss Morrison. They are just in the Initial Almighty State and can't do much to me. Don't worry about me!" Leon shook his head.
